COMMISSIONER'S REPORT			1-37
	ACCOMPANIMENTS.		
1. FINANCIAL	Report of the Chief Accountant with Tabular Statements		39-199
2. REVENUE	Report of the Assessor and Collector		201-232
	Report of the Revenue and Refund Audit Officer		233-256
3. PUBLIC WORKS	Report of the Executive Engineer.		257-401
		Introductory Remarks	259
		New Works, General	260-270
		Drainage Works	271-281
		Water Works	282-288
		Regulation of Streets and Buildings	289-321
		Roads, Footpaths, &c.	322-323
		Public Lighting	324-327
		Workshops	328-333
		General	334-347
	Report of the Special Drainage Engineer		349-381
	Report of the Chief Officer of the Fire Brigade		382-391
	Report of the Superintendent of Gardens		392-397
	Report of the Secretary and Curator, Victoria & Albert Museum.		398-401
4. PUBLIC HEALTH	Health Officer's Report and Vital Statistics		403-608
	License Department Report		609-613
	Market Report and Statements		614-628
	Return of Street Accidents		629-632
	Report of Medical Officer, Infectious Diseases Hospitals		633-652
5. EDUCATIONAL	Report of the Joint Schools Committee		653-680
6. AUDITORS' REPORT			681-694

00135059

Review by the Standing Committee of the Administration Report of the Municipal Commissioner for the year 1899-1900.

General.

During the year of Report the Offices of President of the Corporation and Chairman of the Standing Committee were held, respectively, by the Hon'ble Mr. Ibrahim Rahimtoola and Mr. Nanabhai Nowroji Katrak, L. M. & S., while Mr. W. L. Harvey, I.C.S., continued to hold the appointment of Municipal Commissioner.

2. The Corporation had to meet 52 times in the year and its Standing Committee also met the same number of times. Committees of the Corporation and Sub-Committees of the Standing Committee had, between them, 128 meetings in all. Addresses were presented to the new Governor of Bombay, His Excellency Lord Northcote of Exeter, and to the retiring Governor, Lord Sandhurst. The Corporation had to mourn the loss by death of two of its members, Mr. Nowrosji Nasarwanji Wadia, C.I.E., and Mr. Jamsetji Cursetji Cama.

Financial.

3. The financial operations of the year were signalized by receipt of the largest income that has up to now been obtained by this Municipality. It was more than the income of the previous year by nearly $16\frac{3}{4}$ lakhs, and it exceeded the estimate by over 5 lakhs. As explained in para. 4 of the Standing Committee's review of the Report for 1898-99, the closing balance of that year, *i.e.*, the opening balance of the year of Report, was Rs. 24,48,030, inclusive of the minimum of Rs. 1,00,000 required by law. The year's revenue was Rs. 88,29,817, and the expenditure was Rs. 73,92,479, or less than the revenue by Rs. 14,37,338. This excess of revenue over expenditure combined with the opening balance produced a closing balance of Rs. 38,85,367. Deducting from this the value of reserve

stock and the lapsed grants for previous years requiring renewal, the closing balance remained at Rs. 20,99,822 or nearly 20 lakhs more than the minimum required by law and about 13½ lakhs more than the net closing balance of the previous year. The actual financial prosperity of the Municipality is, however, not exactly what might be assumed from these figures, for there was in the year an abnormal revenue from Town Duties, a good portion of which (the estimate is 3 lakhs) was expected to go out in the current year in the shape of refunds on exports, and the large sum of Rs. 10,60,024 contributed from current revenue resource towards plague expenditure, which has been treated as a "recoverable advance," may possibly in the end not prove to be recoverable if plague expenditure continues and it is not found feasible or convenient to finance it by loans. Further the first of the annual payments to be made by the Municipality to the City Improvement Trust under section 72 of Act IV of 1898, fell due immediately on the close of the year, and Rs. 4,74,605 were accordingly paid on the 1st of April 1900.

4. The revenue for 1898-99 was Rs. 71,61,911. In the year of report, with the general tax enhanced from 9½ to 12½ per cent., a much larger revenue was expected. The estimate was for Rs. 83,15,000. The actual realization, however, was Rs. 88,29,817, there being an increase over 1898-99 in all the main heads except *Wheel Tax and Toll Fees*, and over the estimate in all the main heads except *Halalcore Tax* and *Wheel Tax and Toll Fees*. This result is all the more satisfactory as attained in the face of adverse circumstances created by famine and plague. The Chief Accountant infers from it "the vitality of our sources of revenue." This no doubt is true to a certain extent, but it must not be forgotten that the larger income was brought in, in some part, actually by the occurrence of the famine, and, in a large measure, by enhanced taxation. The decrease in the revenue from *Halalcore Tax* was due to large outstandings at the end of the year; that in the revenue from *Wheel Tax and Toll Fees* was due to the reduction from Rs. 15 to Rs. 12 per cart of the tax on labour carts. With the additional 3 per cent. impost, the *General Tax* realized nearly 7¾ lakhs more than in the previous year.

Under *Water Tax and Miscellaneous Water Works Revenue* there appears the large increase of about 2¾ lakhs, over 2¼ lakhs of which was from inter-departmental charges. Under *Town Duties* the increase was over 4¾ lakhs, due to large imports of grain in consequence of the famine and likewise to enhancement of the duty on grain from 4 to 6 annas per khandy. There was an increase of over half a lakh in *Market Receipts* and of over a lakh in *Miscellaneous Receipts*.

5. The figures of Expenditure, like those of Revenue, are favourable when compared with the estimates. Under each and every head the actual expenditure was substantially within the estimate and the total expenditure of the year was below the estimate for the year by nearly 15½ lakhs, a fact which argues as much for economical management as for liberal estimating. The total expenditure of Rs. 73,92,479 was nominally only about half a lakh more than that of 1898-99, but the figures of that year were swelled to the extent of about 3 lakhs of rupees by the difference between the sum of over 8 lakhs written off on account of the net amount advanced from Surplus Cash Balance for the purchase of frontage lands in the Agripada and other estates and a rebate of 5 lakhs of rupees on account of plague expenses incurred in 1897-98 from current revenue. Leaving out of consideration such book adjustments, the expenditure for the year of report was about 4 lakhs in excess of that of the previous year. The *Public Works Department* spent about 2 lakhs more, and the *Public Health Department* about 3½ lakhs more, but on the other hand under *Public Debt*, the expenditure was less by about a lakh and-a-half than in 1898-99. Other increases and decreases were insignificant and do not require to be noticed. The increase under Public Works is due to the adjustment of inter-departmental charges for supply of water to flushing chambers, tanks and cisterns and for flushing sewers and playing public fountains (which charges were for the first time budgetted for) and the cost of lighting an increased number of gas and kerosine oil lamps and the repair of a larger area of roads. That under Health Department was caused by the Reorganization scheme having been more fully brought into force during the year, to the Deonar Scheme of cutchra removal having come into operation, to the payment of the charges for

grazing cattle brought for slaughter at Bandora (formerly paid direct from the gross receipts on account of fair ground and feeding fees and now budgetted for for the first time), to the payment of charges incurred for the suppression of the small-pox epidemic and to the adjustment of charges incurred at the Arthur Road Hospital in excess of the Budget grant for 1898-99. The decrease of a lakh and-a-half under Municipal Debt was owing to the payment in 1898-99 of 16 months' interest at high rates to the Bank of Bombay on the temporary loans aggregating 35 lakhs taken from the Bank against 7 months' interest paid in 1899-1900 at lower rates.

6. The *Loan Expenditure* of the year of report, including that on plague measures, came to Rs. 17,84,819 against Rs. 20,22,955 in 1898-99. The following are the heads of expenditure :—

	Rs.
Water Works	9,799
Sewerage Works	5,40,730
Markets	3,664
Roads	1,62,617
Minor and other sanitary, &c., works	2,03,103
Plague	8,64,905

7. The *Plague Expenditure* since plague began and up to the end of the year of report has aggregated nearly 44 lakhs, of which 14½ lakhs have been received from Government; the Municipal share remains for the present at 29½ lakhs which has been financed as follows :—

	Rs.
From the 1st Instalment of the 20 Lakhs Plague Loan...	6,00,000
As an advance from Loan Funds...	12,87,289
As an advance from the Municipal General Fund ...	10,60,024
Total ...Rs.	29,47,313

In addition to the Municipal Expenditure of Rs. 8,64,905 on *Plague Operations*, Rs. 40,630 were spent on *Health Camps* out of an advance of Rs. 90,000 made by Government for the purpose and Rs. 48,433 on Discretional Relief out of another Government advance of Rs. 55,000. The

reduction of plague expenditure from over 15 lakhs in each of the two previous years to about 9½ lakhs in the year of report is one of the most satisfactory features of the report.

8. The *Assets* of the Municipality, composed of Cash and Invested Balances, Invested Sinking and Insurance, &c., Funds, Contractors' Deposits, Advances to Municipal Officers and Contractors, Lands, Buildings and Water Works, Roads, Bridges and other Improvement Works and Reserve Stock, aggregate Rs. 5,99,37,037. Its *Liabilities* in Loans, Contractors' Deposits and Adjustment Items (the last including the Government Provisional Plague Contribution of Rs. 14,50,000), aggregate Rs. 4,54,09,090. Thus the assets are better than the liabilities by the very substantial sum of about a crore and a half of rupees.

9. When the year's budget was prepared it was estimated that loans to the extent of 64 lakhs would be required, 20 lakhs of which would be a short term loan for plague expenses. Later on it was found that it would suffice to borrow only 6 lakhs for plague and 50 lakhs altogether. The whole 44 lakhs of the long term loan was taken up in one sum by the Bank of Bengal at 97 per cent. Of the plague loan of 6 lakhs half was taken up by the Municipality for investment of certain sinking fund and surplus moneys, and the other half was sold to the Bank of Bombay at 97 per cent. The raising of these loans enabled the Municipality to pay off the two temporary loans amounting to 35 lakhs of rupees taken from the Bank of Bombay on which heavy interest charges were running.

10. The total figure at which the Municipal Debt stood on 1st March 1900 was Rs. 4,32,95,885. The amount of Sinking Fund set apart up to 31st March 1900 was Rs. 26,33,659 which represents about 6 per cent. of the total debt.

11. Before leaving this part of the Report the Standing Committee must record their satisfaction at the able and successful management of Municipal finance by the Commissioner Mr. Harvey.

Revenue.

12. The number of properties on the Assessor's Books are divided into three classes—"Buildings," "Salt Pans" and

"Lands (including tanks, wells, &c.)." Under "Buildings" the number decreased from 34,805 in 1898-99 to 34,692 in the year of report. "Salt Pans" were 146 in both years, but "Lands" increased from 18,377 to 18,664. Reasons for these variations would have been interesting but are not given. Of the total of 53,502 properties only 42,281 were assessed for the *General Tax*. 4,724 properties are shown as "exempted or compounded for on special terms." The remaining 6,497 properties are described as small plots of unproductive lands for which no bills are issued. On the properties assessed the total gross assessments aggregated Rs. 3,05,17,091 and the rateable assessment Rs. 2,74,76,402, the increase over the previous year being Rs. 6,63,455 and Rs. 5,97,272 respectively. Exclusive of outstandings for previous years collected during the year the general tax at 9½ per cent. in 1898-99 realized Rs. 23,15,589 and at 12½ per cent. in 1899-1900 Rs. 31,20,157, the increase being over 8 lakhs. The *Water Tax* realizations rose from Rs. 14,76,817 to Rs. 17,84,769 (increase over 3 lakhs). From *Halalkhor Tax* Rs. 7,41,218 were received against Rs. 7,16,783 in the previous year (increase Rs. 24,435).

13. The total demand on account of *Property Taxes* amounted to Rs. 56,46,145, adding to which Rs. 16,346 on account of previous years and Rs. 3,750 paid by Government in lieu of general tax for past years on account of additions and alterations to Government buildings since the last award, the grand total comes to Rs. 56,66,241 against Rs. 45,34,976 in the previous year.

14. The total number of vehicles taxed at the end of 1899 was 4,543 against 4,555 in the previous year. The variation in different descriptions of vehicles is more marked. Thus while 4-wheeled vehicles diminished from 3,396 to 3,286, 2-wheeled rose from 776 to 835 and vehicles propelled otherwise than by horses, &c., from 383 to 422. Of bicycles and tricyles, which are not classed as "vehicles," 910 were brought under taxation against 661 in the previous year. 5,161 horses were taxed against 3,696 in the previous year (including horses for sale in commission stables). Ponies taxed were 188 against 191, and bullocks 879 against 754. Only one donkey was taxed in 1898 and 5 in 1899. The amount of taxation was Rs. 1,65,876 against Rs. 1,62,961 for 1898. The tax on licensed public land con-

veyances, with License Fees and Fees for Badges, realized only Rs. 1,39,899 against Rs. 1,76,666 in the previous year and the toll fees at Mahim and Sion Causeways only Rs. 11,928 against Rs. 13,765, there having been during the year a falling off in numbers of all descriptions of public conveyances in the city, evidently due to the prevalence of high prices of grain and fodder.

15. The care and judgment with which the assessment work was done is evidenced by the very small number of appeals to the Chief Judge of the Court of Small Causes under Section 217 of the Municipal Act. There were only 9 such appeals, of which only 2 were allowed and the rest settled by consent.

Town Duties.

16. The duty on Grain was increased from annas 4 to annas 6 per khandy.

17. The gross revenue from Town Duties during the year was Rs. 26,88,002, which was about 4⅓ lakhs more than in the year previous. The refunds aggregated Rs. 12,04,975-10-0, leaving a net revenue of Rs. 14,83,027 against Rs. 9,92,953 in 1898-99. Owing to an adverse decision of the Chief Judge of the Court of Small Causes about 5,000 claims for refunds, amounting to about 3 lakhs of rupees, mostly in respect of grain, which were held back during the latter half of the year of report, will have to be paid in the current year.

18. Such large quantities of grain had to be imported into Bombay for despatch up-country to famine-stricken places that the total import was registered at 3,177,858 khandis (against 2,545,068 khandis in the previous year), the town duty collected on which was nearly 12 lakhs of rupees, or about 5½ lakhs more than in the previous year. About half the quantity of grain imported was exported back, so that nearly half the amount collected had to be refunded.

19. The import of Sugar fell from 1,795,502 cwts. to 1,487,824, of which 1,033,887 cwts. were re-exported. The collection on this article was therefore less by about a lakh and-a-half than in the previous year. Other increases and decreases were small and insignificant.

Executive Engineer's Departments.

New Works.

20. The most important work completed during the year of report was the Kurla-Deonar Railway, for the conveyance of Town Sweepings. The Corporation visited and inspected the works on the 12th May 1899, and the transportation of Town Sweepings was commenced on the 7th June 1899. Out of the sanctioned grant of Rs. 8,44,000, the expenditure up to the end of March 1900 was Rs. 7,18,209. The only work remaining to be executed is a "bund" about three miles long round the boundary of the Khajan of Deonar to shut out sea-water. All the works in connection with the *Extension of the Sewry Cemetery* were completed during the year under review, except some trifling portions. No progress was made in regard to the proposed *Nasarwanji Maneckji Petit Public Hall* beyond preparing the draft lease of land to be taken from Government, as a difficulty has arisen with the executrix of the donor in regard to one of the conditions on which the Hall was to be maintained by the Corporation.

Buildings and Streets.

21. 2,022 applications were received for permission to build or rebuild houses. These were 351 more than in the previous year. 1,978 of these were passed and the rest disapproved. Rs. 60,984 were paid during the year for Street Improvement, and a large liability on that account remains over. The total area of ground added to streets in the year was 3,792 square yards, valued at Rs. 1,08,877. The Commissioner has no doubt noted the Executive Engineer's suggestion for larger grants for widening of streets and for action under Section 299 of the Municipal Act.

Roads and Tramways.

22. 1,02,97,172 square feet of road was metalled during the year under review at a cost of Rs. 2,79,949, which gives a rate of 5·22 pies per square foot. The road-watering grant of Rs. 67,900 was found insufficient. A portion of the Tram lines along Mint Road was renewed and the renewal of a portion along Parel Road was in progress. A notice was served on the Tramway Company to renew the rails where their grooves have become wider than $1\frac{1}{4}''$, to remove the humps between the Tram lines,

to water their Tram tracks, and to remove the scrapings produced on their tracks. Instead of complying with the requisition, the Tramway Company filed a suit in the High Court to restrain the Municipality from enforcing the requirements of the notice. The suit has since been withdrawn.

Public Lighting and Hydraulic lift.

23. Street lighting was satisfactory. About 3,792 gas lamps and 1,776 kerosine oil lamps were maintained at a cost of Rs. 2,26,959 and Rs. 31,681, respectively. The cost of lighting the Arthur Crawford Markets and the Municipal Office with Electricity was Rs. 12,557. The working of the Hydraulic lift in the Municipal Office cost Rs. 1,598.

Workshops.

24. The Municipal Workshops, besides doing a lot of special work for various Municipal Departments, continued to keep in repair the rolling-stock of the Health and Road Departments as well as the numerous articles of plant and machinery used by the various Departments, and made a profit on the year's work of Rs. 17,111.

Plague Operations.

25. The improvement and demolition of insanitary buildings under the Epidemic Diseases Act was proceeded with. Of 2,023 houses inspected, 1,788 were found to be in need of improvement and 226 incapable of improvement. 271 houses and sheds were demolished; 2,819 notices were issued, requiring house-owners to improve their buildings; 1,041 houses were taken in hand for improvement; 629 houses had to be declared as unfit for human habitation, out of which 39 houses were closed permanently for demolition and 303 were temporarily closed for enforcing improvements in them. 287 were declared unfit for human habitation to allow of action being taken for the improvement of their ventilation to admit of their being temporarily occupied. Over-crowding was reduced in 106 cases.

Water Works.

26. *Tansa Lake.*—The rainfall was only 40·07 inches, so that only 12,714 millions of gallons of water was received into the Lake against the annual average of about 40,000

millions of gallons. During the dry months about 39 million gallons per diem were drawn from the Lake. Of this only about 24 million gallons are stated to have been delivered in the aqueduct and the remaining 15 gallons to have been lost by evaporation, the leakage being *nil*. Again the delivery at Ghat Cooper was only 21½ million gallons, about 2½ million gallons being lost between Ghat Cooper and the aqueduct by leakage at overflows and by evaporation. About 23,000 gallons of water per diem were supplied on payment to the Thana Municipality from 1st December 1899, its own water-supply having failed owing to deficient rainfall.

27. *Vehar Lake.*—Here the rainfall was only 35·25 inches, and only 1,160 millions of gallons of water were received into the Lake against more than five times that quantity in the previous year. 14·3 million gallons per diem were drawn from the Lake, including evaporation and leakage.

28. *Tulsi Lake.*—The rainfall was 43·80 inches which replenished the Lake to the extent of 356 millions of gallons only against some 2,670 million gallons in the previous year. The average daily draw-off was 5·35 million gallons, including leakage and evaporation.

29. Not only the quantity of water but also its quality was affected by the failure of the monsoon. The number of connections are annually increasing, the year's increase being the difference between 441 new connections and 227 connections cut off. The water-works debt aggregates Rs. 2,42,17,327 ; the assets are estimated at Rs. 2,81,14,813, or more than the liabilities by Rs. 38,97,485, the excess being the result principally of the repayment of debt charges. A worn-out water mains renewal Fund has been formed from the General Revenues ; at the end of the year it stood at Rs. 3,28,792. The expenditure of the Department for the year of report was Rs. 15,69,308 and the income Rs. 17,92,036, the difference representing a profit made up chiefly of charges for supply of water for departmental or public purposes. The consumption of water sold by meter during the past three years was :—

1897-98	... 1,253,345,113.
1898-99	... 1,470,056,205.
1899-1900	... 1,533,074,634.

The last figure represents 12 *per cent.* of the water supplied in the year, the value realized from which was 55 *per cent.* of the total realizations, thus indicating a vast inequality between charge by meter measurement and charge on assessment, the remedying of which is under consideration.

Drainage (Ordinary).

30. *The Love Grove Pumping Station* worked satisfactorily and without any serious break-down in the Engines and Pumps. A very valuable improvement to the station was effected by the putting up of a shred lifter chamber. The construction of the shred lifters and guides and the fixing of the new steam winches was satisfactorily executed at the Municipal Workshops. Four new pair of gates for the Love Grove Pumping Station have been made, two pairs of which were fixed in position during the year. The street portions of 1,086 *house-connections* in various parts of the town were carried out at a total cost of Rs. 41,706. A large number of manholes was constructed on various sewers. The Installation for providing *Electrolized Sea-water* was worked from 1st March to 30th April 1899 at a cost of Rs. 1,166 and closed afterwards, the conclusion arrived at, which has since been confirmed by Mr. Santo Crimp, being that its usefulness was not in proportion to its bulk and cost.

Drainage (Special).

31. A melancholy interest attaches to the Report of this Department as being the last from the pen of Mr. J. W. Smith, M.I.C.E., who, after faithfully serving the Corporation in responsible posts for nearly a quarter of a century, died on the 21st July 1900. Mr. Smith was appointed Special Drainage Engineer in 1892, and the various important Drainage Schemes devised and carried out by him mark a great advance in the Sanitation of the City. Messrs. Bulkley & Co.'s suit and appeal in respect of the *Colaba and Umarkhadi Sewerage Works* were dismissed by the High Court; a compromise was subsequently proposed by Messrs. Bulkley & Co. for ceasing all further litigation, but the conditions were not accepted by the Standing Committee. The gravitation portion of the *Mazagon*

Sewerage Works was finished on 31st July 1899 and the works were taken over in November. *The Surface Drainage Works in the Kamatipoora District* were completed at a total cost of Rs. 64,643. The contract period for completion of the machinery and other works for the *Parel, etc., Sectional Sewerage Districts* expired on 31st March 1900, but the whole of the machinery had not been supplied, and the other work not wholly completed. A large amount of work in *Ovoiding and Constructing Masonry Side Drains* in different localities was done. Several other important drainage works were at various stages of progress. The machinery at the *Colaba Air Compressor Station* and the several ejector stations worked satisfactorily during the year.

32. The vexed question of *Surface Water Disposal and Sub-soil Drainage* which had long exercised the mind of the Corporation was set at rest during the year of report after obtaining the opinion of an eminent English expert, Mr. W. Santo Crimp, who after careful personal investigation and enquiry submitted a valuable report, on which, after obtaining the opinion of the Commissioner, the Corporation resolved :—

That the work of house-connections should be pushed on with as great rapidity as may be compatible with efficiency ;

That Section 260 of the Municipal Act should be enforced at the discretion of the Commissioner ; that the Corporation are prepared to incur such losses as may be entailed thereby ; and that poor house-owners should be given all the facilities and benefits contemplated by Section 494 ;

That the following works should be carried out without delay :—

		Rs.
(1)	Channel No. 1 with sea-ward channel and new sluices...	10,84,275
(2)	Channel No. 2 to DeLisle Road.....	1,01,795
(3)	Purchase of land alongside channels Nos. 1 and 2 ...	55,300
(4)	Bund alongside old open main drain	40,053
(5)	Drain in Arthur Road and Gilder Street	67,645
	Total .....Rs.	13,49,068

33. The opportunity of Mr. Santo Crimp's presence in the City was availed of to obtain opinion and advice on the other important Sanitary questions noted below :—

(1) Drainage of the North of the Island.
(2) Sewage outfall.
(3) Shone system: its actual working in the City.
(4) Flushing sewers, including the use of sea-water for the purpose.
(5) Electrolized water.
(6) Water-supply : its proper distribution.
(7) House-connections : whether it is possible to reduce the cost of them, and, if so, in what way.

The reports on these subjects had not been disposed of by the Corporation at the end of the year.

Fire Brigade.

34. The establishment, engines and appliances were maintained in a state of thorough efficiency throughout the year. There were 100 calls to fires, but only 82 involved the turning out of engines and men. Of the latter 9 were false alarms. 25 were extinguished before the arrival of the Brigade, and 48 were put out by the Brigade. It is estimated that in these 48 fires Rs. 57,69,926 worth of property was in imminent risk of becoming involved, but was saved with a damage of only Rs. 3,81,881.

Public Gardens.

35. Nine public gardens were maintained during the year. Nearly 11 lakhs of people visited the Victoria Gardens or about 3 lakhs more than in the previous year, the figure now nearly coming up to the average of the years preceding the advent of the Plague. Several important improvements were made in the Victoria Gardens and the other gardens were kept up in their usual condition. The total expenditure on gardens was Rs. 62,083, of which Rs. 53,716 were spent on the Victoria Gardens.

The Victoria and Albert Museum.

36. The collections in the Museum were considerably added to during the year. Here also there was an increase in the number of visitors, which was 683,277 in the year of report and 656,840 in the year before.

Public Health.

37. The Department was presided over during the year by Lieutenant-Colonel T. S. Weir, who, after a long and arduous service, extending over a period of 27 years, has now left it for good on promotion in the Military Department, and the Report is submitted by the Acting Health Officer, Mr. J. Leask. It records the history of a most unhealthy and disastrous year.

38. The rainfall of 35·90 inches was less than half the normal, and more than half of this scanty fall (20·81 inches) was in the month of June, the remainder being distributed over the three remaining monsoon months. As a consequence the water-supply became scanty and impure, and atmospheric conditions were favourable to disease. Before the population had had time to recover from the effects of the severe famine of two years ago, the "worst famine of the century" commenced, causing both local destitution and the immigration of destitutes from abroad.

39. The total number of deaths was 56,434.* It exceeded the total of 1898 by 4,473, and the average of the previous five years, three of which were years of abnormally high mortality, by the alarmingly large figure of 17,785. The most unhealthy month was March, in which plague raged furiously, and 10,183 deaths occurred. The fewest deaths (2,279) were in June, when plague had abated. Thereafter there was a steady rise month by month up to the end of the year, and in the last month of the year 5,942 deaths were registered.

40. Plague claimed the largest number of victims, 15,796, more than a fourth of the total mortality. Nearly another fourth is registered against diseases of the respiratory system (8,650) and phthisis (6,029). 5,063 deaths were from various kinds of fevers; 4,286 from diarrhœa and dysentery. Cholera and small-pox, which later on joined forces with plague to decimate the population, did not assert themselves much in the year of report (1899), claiming only 111 and 440 victims, respectively. From measles the mortality was 1,868.

* The mortality figures in the Health Officer's report are for the calendar year.

41. The year's death-rate per mille was 68·67 on a population taken at 8,21,764. 16,522 of those who died in the year were persons born in Bombay, and the place of birth of 37,797 was outside Bombay. As usual the highest mortality (131·12) was among low-caste Hindus (not taking account of the very small communities of Negro-Africans and Lingayets, numbering between them scarcely a thousand persons). The Parsee death-rate of 34·89 was the lowest among all the Indian communities and considerably lower than in the previous year. The European death-rate of 16·47 was the lowest since 1894, though the resident European population is believed to have increased within the last few years. Among females the mortality was about 12 per mille higher than among males. The table of mortality at different periods of life indicates clearly how the abnormal conditions above referred to were responsible for the bad record of the year, for among infants under 1 year of age, unable to obtain nature's nourishment from destitute and devitalized mothers, and among persons over 59 years of age, themselves devitalized by age and destitution, the mortality was appalling, the figures being 8,351 and 7,095, and the death-rate 330 and 238, respectively. It is interesting to note that the highest general mortality was in Mahim, the highest from fevers in Parel, from respiratory diseases and phthisis in 2nd Nagpada, from plague in Colaba, from small-pox and measles in Worli, and from cholera in Tardeo. The lowest death-rate, 2·02, was for Fort (South), which has a very small resident population. The next lowest was 23·86 for Walkeshwar.

42. The 15,796 deaths registered as from plague give a death-rate of 19·22 per mille. In the previous year the deaths from plague numbered 18,185, with a death-rate of 22·12. It is unsafe to infer from these figures the gradual cessation of the epidemic, since incorrect diagnosis and registration and variations in the population make it impossible to deduce any definite conclusions. The highest death-rate from plague (23·83) is among Hindus, the lowest (1·06) among Europeans, Parsees coming next with 5·64. The worst epidemic was in the month of March, with 5,723 cases and 4,758 deaths. The greatest abatement was in June, with 254 cases and 228 deaths.

43. 10,624 living and 1,955 still-born births were registered, being 160 less than in the year previous. Of these 5,661 were males and 4,963 females. The birth-rate per mille was 12·92.

44. The scheme for the removal of the garbage of the city beyond its limits by rail was completed and put into operation during the year. After preliminary difficulties, owing to inexperience of the staff and illness among them, the work has been proceeding smoothly, two trains of 25 wagons each being daily loaded at Mahaluxmi and run to and emptied at Deonar, without hitch or interruption.

45. Under the supervision of the Divisional Health Officers, assisted by their Deputies, the out-door work of the Department has proceeded satisfactorily. The registration of births and deaths was placed in charge of the Deputy Health Officers, each ward of the city having now resident within its boundary a District Registrar. The two free Municipal Dispensaries at Kumbharwada and Dongri were largely attended, and did good work. A third was opened in January 1900 at Parel, and the Acting Health Officer advocates the opening of a fourth at Byculla.

46. Prosecutions were instituted and convictions obtained under the Act for preventing the adulteration of ghee, which came into operation during the year. At the Municipal Laboratory at Parel, Dr. Polverini continued to be engaged in preparing Prof. Lustig's serum for plague. A hundred cattle were inoculated with tuberculine with results practically negative, indicating, in Dr. Weir's opinion, that phthisis is an infrequent disease among Bombay cattle. Special measures had to be adopted for the suppression of foot-and-mouth disease. The scavenging staff was largely increased and refuse much more speedily removed. The flushing of house-gullies was regularly carried out during the dry weather. To deal with the extensive scavenging work of the Department, on an average, 5,775 men and women, 1,124 scavenging and drain carts, and 205 night-soil and cess-pool carts had to be at work each day. The work done in the year was the collection, removal, and disposal of 344,268 tons of garbage, 170,506 tons of night-soil and cess-pool matter, and the opening and cleaning of 167 miles of drains.

47. The Report once again draws attention to the urgent necessity for proceeding with the drainage of Malabar Hill and other undrained districts.

License Department.

48. This Department was separated from the Health Department in 1890. In 1890-91, 3,235 licenses were issued with a revenue of Rs. 36,417. Since then there has been a steady advance with but slight fluctuations, and in the year of report 5,831 licenses were issued and Rs. 63,732 collected. The Acting License Superintendent attributes this result to the separation of the two Departments, but he has not shown why, with better management than before and with general progress all round, the same result could not have been attained even if the separation had not taken place. The cost of working the Department appears to have been Rs. 17,293, or over 27 per cent. of its earnings. The percentage is high, but it must be remembered that the cost incurred was not only for the collection of fees but also for control of offensive and dangerous trades.

Markets.

49. The total revenue from Markets and Slaughter-houses was Rs. 4,20,155 against Rs. 3,86,633 in the preceding year, the increase being chiefly under market fees and fees for butchers' licenses and slaughtering. As a result of the famine the slaughter of cattle was large: 7 buffaloes, 110 cows, bullocks and calves, and 1,729 sheep and goats having been slaughtered per diem on an average, the numbers per diem for the previous year being 5,106 and 1,522 respectively. The blood of the animals slaughtered is collected and manufactured into a valuable manure by a contractor. Over 82 tons of unwholesome food were destroyed during the year.

Arthur Road Hospital.

50. The Report deals with the calendar year 1899, and has been brought up to end of May 1900.

51. In the 17 months ending May 1900 the admissions were from Plague 2,137, from Relapsing Fever 1,829, from Cholera 62 (all but five having been admitted in April and May

1900), from Small-pox 981, from Chicken-pox 100, and from Measles 96. With 248 patients under observation the total in the 17 months comes to 5,453. The Special Assistant Health Officer in charge of the Hospital records the year 1899-1900 as the most disastrous in the modern history of Bombay with five epidemics running at the same time. The total number of plague patients treated in the hospital up to the end of May 1900 comes to 5,891, the mortality rate being 74 per cent. Each succeeding epidemic is stated to have been more virulent than its predecessor. Experiments with Professor Lustig's serum continued to be made. The methods adopted and the results attained are described at length in the Report, and the Special Assistant Health Officer, although distinctly of opinion that the results are "sufficiently satisfactory in the light of our knowledge of plague," admits that serum treatment is still in its infancy and requires further observation and research for being put on a proper basis.

52. The mortality from Relapsing Fever has shown an increase at each successive epidemic. During 1897 the rate was 15·08 per cent. on admissions; in 1898, 20·80; in 1899 25·80; and during the first five months of 1900, 32·69 per cent. The cause is perhaps to be found in increasing destitution as the period of distress became more and more prolonged.

53. The Cholera mortality rate was 83·33, which does not show an advance over previous years. It is stated that the patients die so rapidly after the onset of the initial symptoms that barely one-fifth of the total cases daily reported are brought to the Hospital, and of these 50 per cent. die within a few hours of admission.

54. The mortality rate for Small-pox for 1899 was 13·95 per cent. on admissions and for the first five months of 1900 26·89 per cent. The mortality among Hindoos, who are mostly vaccinated, was very considerably less than among Mahommedans, of whom a large number, mostly foreign Mahommedans (Arabs, Africans, &c.), are not vaccinated. It was also less than the mortality among native Christians, some of whom are unvaccinated, whilst others, supposed to have been vaccinated at Goa, have a very low standard of

immunity. Among all classes the least mortality rate was that of children, due no doubt to more recent vaccination. Mahommedan children had a mortality rate nearly double of that of Hindoo and native Christian children.

55. There were no deaths from Chicken-pox, and out of 96 admitted for Measles only 12 died.

Education.

56. The number of Municipal Schools rose from 79 to 81; the pupils from 3,618 to 5,018; and the fee receipts from Rs. 12,424 to Rs. 13,416. In spite of difficulties caused by the unhealthiness of the year the work of Municipal Schools was, on the whole, fairly satisfactory. Aided Schools increased from 86 to 89, the pupils in them from 5,860 to 6,651, and the grants-in-aid to them from Rs. 19,342 to Rs. 19,992. With one more Night School opened during the year, the total of these was 16 and the attendance increased from 167 to 217. Besides the above there were working in the town 12 unaided schools recognized by the Joint Schools Committee with 1,124 pupils on the rolls and 199 unaided and unrecognized Schools with 8,234 pupils. A census of private schools taken by the Committee about 5 years ago showed 280 schools and 18,174 pupils. A large number of these schools have since disappeared owing to plague. The total number of boys under instruction in schools managed or aided by the Joint Schools Committee increased from 6,066 to 7,888 and of girls from 3,412 to 3,781, a satisfactory advance considering the circumstances of the city in the year. For the healthy and comfortable housing of these schools every effort has been made by the Committee. The City Improvement Trust have been addressed as to the feasibility of reserving sites for schools in localities likely to be populated by the lower and middle classes. In the matter of physical exercise, the Committee are anxious to proceed on the principle that "no school should any more be without a playground than a school house should be without windows," and although everything possible is being done, the want of funds has been a great impediment. With a view to spread among their teachers a knowledge of rational methods of teaching, some female teachers are being put through a course at a normal class opened at the Bai Bhicaiji Bengallee School. The year

1899-1900 was the tenth of the Committee's administration of primary education in the city, and the progress made is described in a decennial review at the end of their report.

Municipal Audit.

57. The duties of the Municipal Auditors continued to be heavy on account of the audit of plague charges. The number of vouchers which passed through their hands was 86,473 against 79,837 in the previous year. Mr. Nanabhai R. Ranina, who had been elected Municipal Auditor for 23 years successively, died on the 10th January 1900, and was succeeded by Mr. Dinanath Harischandra.

Conclusion.

58. On the whole the record of work above reviewed, indicating advance all along the line in the face of retarding circumstances, evidences an efficiency of administration which is highly creditable to the Commissioner, Mr. Harvey.

MULJI B. BARBHAYA,

Chairman of the Standing Committee.

5*th December* 1900.

Annual Administration Report of the Municipal Commissioner for the City of Bombay for the Year 1899-1900.

Introductory.

1. Mr. W. L. Harvey continued to hold the appointment of Municipal Commissioner during the year.

2. Below are summarized some of the principal features of the year :—

The work of laying the 16 inch main from D'Lima Street to Frere Road was commenced.

Plots of land aggregating 9,521 square yards were acquired for the purpose of erecting an Engine House, &c., at Love Grove and the work commenced.

The report of Mr. Santo Crimp on the drainage of Bombay was obtained and circulated to the members of the Corporation.

The conversion of the Old Engine House of Love Grove into a shred lifting chamber was carried out.

The system for the disposal of town sweepings at Deonar was brought into working order.

The Sewree Cemetery extension works were completed.

3. The general health of the City has not been satisfactory chiefly owing to plague.

4. No circumstance has arisen in any Department of the Municipality in which it was necessary to put into operation the provisions of the Municipal Servants' Act.

I. Corporation and Standing Committee.

CORPORATION.

5. The Hon'ble Mr. Ibrahim Rahimtula was appointed President of the Corporation at the meeting of the 10th April 1899 and held that appointment up to the 31st March 1900.

6. Fifty-two meetings of the Corporation, one attendance of Councillors at Deonar for the inspection of the works carried out for the disposal of town sweepings, one for the presentation of address of welcome to Lord Northcote of Exeter, Governor Designate of Bombay, one for presentation of Farewell Address to Lord Sandhurst on retirement from the office of Governor of Bombay, and one hundred and five meetings of Committees of the Corporation were held and four others were convened but not held.

7. The changes in the *personnel* of the Corporation were as follows :—

Mr. Jafarbhai Rahimtula was elected by rate-payers, on the 3rd May 1899, in place of Mr. Dost Mahomad Alana, deceased.

Mr. Jamsetji Kharsedji Kama died on the 20th March 1900, and his seat was not filled up by the end of the year.

Mr. L. B. Ker was appointed by Government in the place of Mr. J. Willcocks, who resigned on the 12th February 1900.

Mr. G. Lund was elected by Justices on the 20th April 1899 in place of Mr. G. W. Roughton, deceased.

Major C. B. Mayne was appointed by Government in place of Mr. N. N. Wadia, C.I.E., who died, in England, on the 19th December 1899.

THE STANDING COMMITTEE.

8. Mr. Nanabhai N. Katrak was appointed Chairman of the Standing Committee at the meeting held on the 5th April 1899 and retained that appointment throughout the year.

9. There were fifty-two meetings of the Standing Committee and twenty-three meetings of Sub-Committees thereof and one meeting convened but not held.

10. There were one hundred and fifteen attendances for cheque signing and forty-six for the audit of the weekly statements of accounts. Five other attendances for audit purposes were fixed but not held.

11. The changes in the *personnel* of the Standing Committee were as follows :—

The Hon'ble Mr. Ibrahim Rahimtula resigned on the 10th April 1899, and in his place Mr. Mir Aun Ali was elected by the Corporation on the 8th May 1899.

Professor O. V. Muller was elected by the Corporation on the 13th April 1899 in place of Mr. G. W. Roughton, deceased and resigned on the 10th March 1900. The vacancy was not filled up at the close of the year.

12. The following is a list of the Municipal Councillors who held office on the 31st March 1900 :—

The list of Councillors of the Municipal Corporation of Bombay (corrected up to the 31st March 1900).

THE HON'BLE MR. IBRAHIM RAHIMTOOLA, *President*, J. P., *R* (B Ward.)

ABDUL HUSSEIN ADAMJI PIRBHAI, Esq., J. P. *R* (C Ward)
ARDASIR FRAMJI UNWALLA, Esq., B.A., J. P. *R* (G Ward)
BADRUDIN BIN ABDULA KUR, Esq., J. P. *R* (C Ward)
BHAGWANDAS NAROTAMDAS, Esq., J. P. *R* (F Ward)
SIR BHALCHANDRA K. BHATAWADEKAR, KT., L. M., J. P. *R* (D Ward)
BURKE, C. T., Esq., B.E., M.I.C.E., J. P. *G*
BYRAMJEE NUSSERWANJEE SERVAI, Esq., J. P. *G*
CAMPBELL, H. O., Esq., *G*
CHIMANLAL H. SETALVAD, Esq., B.A., LL.B. J. P. *J*
COTTON, SIR GEORGE, KT., J. P. *C C*
COWASJEE HORMUSJEE, Esq., G.G.M.C., J. P. *J*
CUFFE, T. W., Esq., J. P. *C C*
DARASHAH RATANJI CHICHGAR, KHAN BAHADUR, J. P. *J*
D'MONTE, DOMINICK A., Esq., M.D., L.R.C.P. (London), L.M. & S., J. P. *J*
DESILVA DIAGO MANUAL, Esq., L. M. & S., *R* (C Ward)
DHAKJI KASHINATHJI, RAO BAHADUR, J. P. *R* (C Ward)
DINSHA BOMANJI MASTER, Esq., L.M. & S., J. P. *J*.
DINSHA EDULJI WACHA, Esq., J. P. *R* (A Ward)
ELAPPA BALARAM, RAO BAHADUR, J. P. *R* (E Ward)
F. SORABJI TALEYARKHAN, ESQ., J. P. *J*
FAZALBHAI JUMABHAI LALJI, Esq., *R* (B Ward)
FAZALBHAI KARIMBHAI IBRAHIM, Esq., *R* (B Ward)
FAZULBHAI VISRAM, THE HON'BLE MR., C.I.E., J. P. *G*
GELL, H. G., Esq., J. P. *J*
GOVERDHUNDAS KHATAV, Esq., J. P. *G*
HARI SITARAM DIKSHIT, Esq., *R* (D Ward)
HASAMBHAI VISRAM, Esq., J. P. *J*
HORMUSJI CURSETJI COORLAWALLA, Esq., J. P. *J*
HORMUSJI SHAPURJI VAKIL, Esq., J. P. *R* (D Ward)
HURKISONDAS, NAROTUMDAS, Esq., J.P. *G*
ISMAIL JAN MAHOMED, Esq., L. & M. S., J. P. *R* (B Ward)
JAFARBHAI RAHIMTULA, Esq., *R* (B Ward)
JAMSETJI CURSETJEE, JAMSETJI, Esq., J. P. *J*
SIR JAMSETJEE JEJEEBHOY, BART. J. P. *G*
KAIKHOSRO NOWROJI KABRAJI, Esq., J. P. *J*
KALABHAI LALUBHAI, Esq., J. P. *G*
KALIANDAS KESHAVDAS, Esq., B.A., J. P. *R* (A Ward)
KARIMBHAI ADAMJI PIRBHAI, Esq., *R* (G Ward)
KARSANDAS CHABILDAS, Esq., *R* (C Ward)
KAVASJI EDALJI DADACHANJI, Esq., L.M. & S. *R* (D Ward)
KER, L. B., Esq. G.
K. M. SHROFF, Esq., J. P. *R* (A Ward)
KAZI KABIRUDIN, Esq., *R* (E Ward)
KENNEDY, H., Esq., *G*
KHARSEDJI NASARWANJI WADYA, Esq., *R* (F Ward)
LUND, G., Esq., J. P. *J*
MACDONALD, JAMES, Esq., J. P. *G*
MAYNE, C. B., MAJOR G.
MANMOHANDAS RAMJI, Esq., J. P. *R* (C Ward)
MCKENZIE, A., Esq., J. P. *G*
MIR AUN ALI, Esq., BAR.-AT-LAW, J. P. *R* (A Ward)
MIRZA HUSSEIN KHAN, Esq., J. P. *G*.
MULJI BHOVANIDASS BARBHAYA, Esq., J. P. *G*
MULLER, O. V., PROF., M.A., J. P. *U*
NANABHAI NAVROJI KATRAK, Esq., L. M. & S., J. P. *R* (A Ward) Chairman, Standing Committee.
NOWROJEE JEHANGIR GAMADIA, Esq., J. P. *R* (A Ward)
PESTONJI NASSARWANJI WADIA, Esq., J. P. *J*
PHEROZESHAH M. MEHTA, THE HON. MR., M.A., C.I.E., J. P. *J*
RAHIMTULLA KHAIRAZ, Esq., J. P. *R* (B Ward)
RAHIMTULLA MOHAMED SAYANI, Esq., M.A., LL. B., J. P. *G*.
RASTAM K. R. KAMA, Esq., B.A. LL.B. *U*
SARAFALI MAMUJI, Esq., *R* (E Ward)
SORABJI KHARSETJI DHONDI, Esq. *R* (E Ward)
SUNDERNATH D. KHOTE, Esq., *R.* (D Ward)
TRIBHOWANDAS MUNGULDAS NATHOOBHOY, Esq., J. P. *R* (C Ward)
UNDERWOOD, EDWARD, F., Esq., M. A. M.D., PH.D., F. R.M.S., F.M.S., J. P. *J*
VIEGAS, ACCACIO GABRIEL, Esq., L.M. & S. J. P. *R* (B Ward)
VITHALDAS DAMODAR, Esq., J. P. *R*, (C Ward)
VITHALRAO KRISHNAJI VANDEKAR, RAO BAHADUR, J. P. *R* (B Ward)
HAJI YOOSOF HAJI ESMAIL, Esq., *R* (E Ward)

NOTE.—The letters against the names signify—*R*, that the member was elected by the Ratepayers; *J*, by the Bench of Justices; *C C*, by the Chamber of Commerce; *U*, by the University and *G*, appointed by Government.

II. Heads of Departments.

13. Mr. W. E. Waite, Chief Accountant, was granted leave on medical certificate for a total period of twelve months from the 20th May 1899 during which period Mr. W. Pearson, Revenue and Refund Audit Officer, was appointed to act for him. Mr. Sorabji Bomonji Master, Superintendent of Licenses, was appointed to act as Revenue and Refund Audit Officer. Mr. B. D. Banaji, 1st Assistant Assessor was appointed to act for Mr. Master.

14. Mr. M. C. Murzban, Executive Engineer, obtained privilege leave from the 16th May to the 15th June 1899, during which period Mr. James W. Smith, Special Drainage Engineer, carried on the work in addition to his own duties.

15. Lt.-Col. T. S. Weir, having been appointed Principal Medical Officer, Bombay and Aden Districts, for three months Mr. James Leask, Health Officer of No. 2 Division, was appointed to act for him from 25th July 1899 to 15th October 1899. Dr. K. B. Shroff acted as Divisional Health Officer, No. 2 Division, for Mr. Leask.

16. Dr. C. H. Cayley, Health Officer of No. 1 Division, was on leave without pay from the 29th July 1899 to the 26th January 1900 during which period Captain H. A. L. Howell, R. A. M. C. acted for him.

17. Dr. W. Venis, Health Officer of No. 3 Division, was on privilege leave from 27th October to 26th November 1899, during which period Dr. Sorab C. Hormusji, Health Officer, No. 4 Division, carried on the duties of No. 3 Division in addition to his own.

18. Mr. C. D. Mahalaxmiwala, Superintendent of Public Gardens, was on privilege leave from the 1st April to the 12th June 1899, during which period Mr. Jamshed M. Doctor, Assistant Superintendent, Zoological Collection, acted for him.

III. Financial.

19. The income and expenditure and the opening and closing balances of the year were as under :—

	Rs.	a.	p.
Opening balance, (including recoverable advances, reserve stock, &c., and excluding deposits, unexpended loan balances and minor adjustment items (*vide* page 8 of the Report for 1898-99)	24,48,030	0	10
Revenue (*vide* pages 9 and 44)	88,29,817	1	2
Total available for expense	1,12,77,847	2	0
Spent during the year (*vide* pages 10 and 61)	73,92,479	7	4
Balance.....	38,85,367	10	8

20. The above opening balance included a sum of Rs. 8,75,554-7-10 advanced for Reserve Stock and Rs. 8,19,471-2-11 on account of lapsed grants for 1898-99 and previous years, which were proposed to be renewed during the year. Deducting these two sums from the above opening balance of Rs. 24,48,030-0-10, the *net* balance amounted to Rs. 7,53,004-6-1 or Rs. 2,53,004-6-1 more than the Budget Estimate of Rs. 5 lakhs.

21. Against the original Budget Estimate of Rs. 83,15,000 the actual income realized during the year amounted to Rs. 88,29,817-1-2, showing an increase of Rs. 5,14,817-1-2, about $\frac{3}{4}$ ths of which were obtained from an abnormal revenue from Town Duties and the remaining $\frac{1}{4}$th from General and Water Taxes, Tobacco Duty, Market Receipts, Interest and Profit on Investments and Profit on Municipal Workshops.

22. Of the above increase, a sum of Rs. 74,000 was anticipated at the time of preparing the Budget for 1900-1901, and was consequently appropriated in that Budget. The unappropriated surplus income thus amounted to Rs. 4,40,817-1-2.

23. As compared with the income derived in 1898-99, the actuals for 1899-1900 showed a net increase of Rs. 16,67,905-9-6, which was principally realized under the Property Taxes, Town and Tobacco Duties, Market Receipts and Interest and Profit on Investments.

24. The total grants sanctioned for expenditure during the year aggregated Rs. 89,42,023-8-9 as shown below :—

	Rs.	a.	p.
As per original Budget estimate	79,49,400	0	0
Lapsed grants for 1898-99 and previous years renewed in 1899-1900	7,49,471	2	11
Additional grants sanctioned during the year...	2,43,152	5	10
Total sanctioned (*vide* pages 10 and 61)...	89,42,023	8	9
Deduct—Spent (*vide* pages 10 and 61)...	73,92,479	7	4
Balance (expenditure less than sanctioned, *vide* pages 10 and 61)	15,49,544	1	5

25. A sum of Rs. 9,51,910-13-6 out of the above unexpended balance of Rs. 15,49,544-1-5 is proposed to be renewed in 1900-1901, leaving a net saving of Rs. 5,97,633-3-11, of which a sum of Rs. 4,41,694 was anticipated at the time of preparing the Budget Estimate for 1900-1901, and consequently appropriated in that Budget. The net unappropriated saving thus amounted to Rs. 1,55,939-3-11. As pointed out by the Chief Accountant, the sum of Rs. 9,51,910-13-6 proposed to be renewed in 1900-1901 is the largest renewal proposed for years past.

26. Out of the closing balance of Rs. 38,85,367-10-8 shown in para. 19 *ante*, the amount actually available at the end of the year for further requirements was Rs. 19,99,822-15-10 as shown below :—

		Rs.	a.	p.
Closing balance as shown in para. 19		38,85,367	10	8
Less—Lapsed grants for 1899-1900 and previous years proposed to be renewed in 1900-1901	Rs. 9,51,910 13 6			
Value of Reserve stock	„ 8,33,633 13 4	17,85,544	10	10
		20,99,822	15	10
Less—Minimum cash balance required by law ...		1,00,000	0	0
Net cash balance as shown at page 74 of the Chief Accountant's Report	Rs.	19,99,822	15	10

27. Attention is drawn to the remarks made at page 79 of the Chief Accountant's Report in which he points out that "the Surplus Cash Balance is inordinately "swelled by two factors, *viz.*, (1) the large receipts from "Town Duties during the year under review; and (2) the "treatment as a recoverable advance of the sum of "Rs. 10,60,024 contributed from current revenue resources "towards Plague Expenditure" and that "for purposes of "careful financing a *certain* reduction has to be allowed "of three lakhs of rupees, and the possibility has to be "borne in mind of a further reduction extending up to "Rs. 10,60,024."

28. The expenditure for 1899-1900 was higher than that of the preceding year by Rs. 53,453-11-1 only. The increase would have amounted to over Rs. 3½ lakhs principally under Public Works Ordinary and Public Health Department, had not the following two non-recurring items appeared in the accounts for 1898-99 :—

Write-off of the net advance up to 1897-98 on account of the purchase of frontage lands in Agripada, &c., Estate	Rs. 8,12,546-4-8
Credit of the rebate on account of Plague expenses incurred in 1897-98 from current revenue and for work done for private parties	„ 5,00,000-0-0

29. The main heads of Revenue and Expenditure for 1899-1900 as compared with the Budget Estimates and also with the Actuals for the preceding year are given in the following tables A & B :—

30. The causes of the variations between the original budget and revised estimates and the actuals of the income and expenditure for the year have already been explained in the Chief Accountant's Report. Brief explanations of the causes of the variations between the actuals of the year under report and those of the preceding year are given below :—

INCOME STATEMENT A.

General Tax.—The increase of Rs. 7,70,302-8-6 was due to the enhancement of the tax from 9½ per cent. to 12½ per cent. and to increased contributions received from Government and the Port Trust.

Water Tax and Other Miscellaneous Water Works Revenue.—Of the total increase of Rs. 2,71,996-4-8, an increase of Rs. 2,27,139-11-11 was nominal as it was derived from inter-departmental charges. The balance of Rs. 44,856-8-9 was almost wholly obtained from water supplied by meter measurements.

Halalkhore Tax including receipts for special service.—There was an increase of Rs. 12,141-10-1 obtained partly from Halalchore Tax and partly from special service.

Wheel Tax and Toll Fees.—There were decreases of Rs. 34,981-12-0 under Public Land Conveyances, and of Rs. 1,837 under Toll Fees, or a total decrease of Rs. 36,818-12-0. But allowing for a small increase of Rs. 370-8-5 under Private Conveyances, the net decrease amounted to Rs. 36,448-3-7. The large decrease of Rs. 34,981-12-0 under Public Conveyances is partly attributable to the tax on labour carts having been specially reduced by the Standing Committee from Rs. 15 to Rs. 12 per cart owing to famine, and partly to the number of labour carts, recklas, and victorias licensed during the official year having been less than in the preceding year by 1,315, 23, and 99, respectively.

Town Duties.—Large imports of grain for the famine districts and of ghee and firewood, together with the increase in the duty on grain from annas 4 to annas 6 per candy, account for the large increase of Rs. 4,77,559-11-11. Of this increase, however, a sum of from Rs. 2 to 3 lakhs will, it is estimated, have to be refunded in the current year.

Tobacco Duty.—The increase of Rs. 12,793-10-5 can only be attributable to a larger consumption of tobacco.

Market Receipts.—The large increase of Rs. 57,690-8-8 was due partly to larger receipts from stall rents, fair ground and feeding fees from Contractors and slaughter fees, and partly to the change introduced in the Budget for 1899-1900 whereby the *gross* fair ground and feeding fees were provided in the Budget Estimate of Income and the charges for grazing the cattle brought for slaughter were *separately* budgetted for *under Expenditure,* instead of the latter charges being deducted from the Gross Receipts and the *net* amount only being included in the Estimate of Income, as was done in previous years up to 1898-99.

Miscellaneous.—The increase of Rs. 1,01,869-6-10 was principally obtained on Miscellaneous Receipts, Interest on Surplus Loan and other Balances, and Interest on the Sinking, &c., Funds Investments. The increase under Miscellaneous Receipts was obtained entirely from sale of land at different places, *viz.*, at Esplanade, Sopari Baug, and Hornby Roads, and from rent of chawls and reclamation grounds, Public Health Department. That under interest on Investments of Surplus Loan and other Balances was due to the Municipality having on hand larger balances to invest or lodge in Current Account and Fixed Deposits in consequence of the new Loans raised during the year.

Expenditure Statement B.

General Superintendence.—The payment in 1898-99 of the late Commissioner's salary from 6th May 1898 to 20th November 1898 at the increased rate of Rs. 3,000 per mensem, and of the acting Commissioner's salary from 21st August 1898 to 20th November 1898 at Rs. 2,500 per month, and the amount of law charges paid in 1899-1900 being much less than those paid in the preceding year account for the decrease of Rs. 12,737-5-6.

Assessment and Collection Department.—The increase of Rs. 15,668-2-0 was due to the bills for commission charges payable to the Port Trust and the two Railway Companies for collecting Town Duties in January and February 1899, and to the Land Conveyance Establishment and Contingent

charges from September 1898 to February 1899 having been paid in 1899-1900 in addition to the charges for the year under report.

Fire Brigade.—The purchase of a larger quantity of canvas hose in 1899-1900 and the payment of clothing charges for 1898-99 in 1899-1900 together with increased contingent, stores, &c., charges incurred in the latter year account for the increase of Rs. 8,021-5-10.

Public Works, Ordinary.—The adjustment of inter-departmental charges for supply of water to flushing chambers, tanks, and cisterns and for flushing sewers and playing fountains on the public roads, for which charges provision was made in the Budget Estimate of 1899-1900 for the *first* time, the cost of lighting an increased number of gas and kerosine lamps and the cost of repairing a larger area of roads in the City account for the increase of Rs. 1,90,696-5-0.

Public Works, New.—The decrease of Rs. 8,413-15-7 was principally due to the expenditure incurred during the year on sundry drainage works being less than that in the preceding year.

Public Health Department.—The large increase of Rs. 3,41,269-6-9 was due (1) to the Health Department Re-organization Scheme having been more fully brought into force during the year, (2) to the kutchra removal scheme to Deonar having come into operation from 9th June 1899, (3) to the payment of the charges for grazing cattle brought for slaughter at Bandora (which were budgetted for the *first* time in 1899-1900 instead of their being paid direct from the gross receipts on account of fair ground and feeding fees as was done in previous years), (4) to the payment of charges incurred for the suppression of the Small-Pox Epidemic, and (5) to the adjustment of charges incurred at the Arthur Road Hospital in excess of the Budget Grant in 1898-99.

Municipal Debt.—The decrease of Rs. 1,40,868-12-11 was entirely due to the payment in 1898-99 of 16 months' interest at high rates to the Bank of Bombay on the temporary Loans aggregating 35 lakhs taken from the Bank against seven months' interest paid in 1899-1900 at lower rates.

Police.—The cost of certain extra works carried out in 1898-99 at the Byculla and Girgaum Police Stations, accounts for the decrease of Rs. 1,012-12-5.

Education.—The decrease of Rs. 2,785-10-6 was due to certain structural alterations, &c., having been executed at the Victoria and Albert Museum in 1898-99.

Pensions, Gratuities, and Compassionate allowances.—The increase of Rs. 9,168-1-3 was attributable to an increase in the number of pensioners and to payment of larger amounts of gratuities and compassionate allowances to the widows and children of deceased employés during the year.

Miscellaneous.—The payment of grain compensation to Municipal employés accounts for the increase of Rs. 10,602-7-11.

Rebate on account of Plague Expenses incurred in 1897-98 *from current revenue and work done for private parties.*—Against the rebate of Rs. 5 lakhs received in 1898-99, a rebate of Rs. 43,694-5-7 was obtained in 1899-1900 on account of proportionate amount debitable to the Plague Grant on account of Arthur Road Hospital expenses for 1896-97, 1897-98, and 1898-99.

The non-recurring item of the write-off in 1898-99 of the "net amount advanced up to 1897-98 on account of the purchase of frontage lands in the Agripada, &c., Estate" brings out a decrease of Rs. 8,12,546-4-8 in 1899-1900.

31. As required in the Standing Committee's Resolution No. 12212, dated 2nd February 1892, the net Revenue and net Expenditure for 1899-1900 and the preceding year are given in the following statement :—

33. It will be seen from the foregoing statement that the expenditure on Plague Operations up to 1899-1900 amounted to Rs. 43,97,313-3-8, against which the Municipality has received a provisional contribution of Rs. 14½ lakhs from Government. The Chief Accountant has shown in his Report how the above expenditure was financed.

34. It will be seen from the following statement that the Assets at the end of the year under report exceeded the Liabilities by Rs. 1,45,27,946-11-4 :—

Remarks.

(a) The amount of bonds stipulated to be paid off on 1st January 1900 was Rs. 59,500, which together with 22 unpaid bonds for 500 each, for the preceding years, aggregated Rs. 70,500, out of which Rs. 45,000 were paid off during 1899-1900, leaving an unpaid balance of Rs. 25,500, which will be repaid when the holders apply for payment.

(b) As, under the terms of these Loans, the bonds could not be repaid to the holders before the dates stipulated in the debentures, the Sinking Fund has been invested as under :—

L.—5 PER CENT. LOANS.	Amount of Sinking Fund invested up to 1898-99.	Balance of Debt Instalments for 1899-1900.	Interest accumulations for 1899-1900.	Total.

		3,71,243 13 8		

(c) These loans were paid off on 30th September 1899 from the permanent loans raised during the year.

(d) Adding Rs. 3,71,243-13-8 set apart as Sinking Fund during 1899-1900, the total disbursement for that year amounted to Rs. 38,29,815 12-11.

(e) If the sums of Rs. 3,71,243-12-8 set apart on account of Sinking Fund and Rs. 14,580-5-3 on account of Bank's commission, &c., charges on different loans were added, the total payments on account of debt would aggregate Rs. 68,65,849-5-0, of which Rs. 38,329 are chargable to Fire Brigade.

(f) This includes Municipal Debentures for Rs. 12,000 purchased in 1898-99 at 114 per cent., the premium on which amounting to Rs. 1,680 was met from the Net Premia, &c., Fund.

(g) Includes Municipal Debentures for Rs. 1,05,000 and Port Trust Bonds for 16,500 purchased in 1896-97 and 1897-98 at rates varying from 107¾ per cent. to 114¾ per cent., the total Premia amounting to Rs. 16,920 being met from the Net Premia, &c., Fund.

(h) Includes 3½ per cent. Government Paper for Rs. 18,400 purchased at 101¼ per cent. on 6th July 1897, the premium on which amounting to Rs. 292-2-0 was met from the Premia, &c., Fund.

(c) The 1st Sinking Fund Instalment of this loan will be due on 1st November 1900.
(c) Do. do. 1st May 1901.
(c) Do. do. 1st June 1901.

35. The following Statement shows the Financial position at the beginning and end of the year, respectively, with regard to the various Loans raised from the public and Government :—

36. The revenue, expenditure and balances of the last five years have been contrasted in the following table :—

	1895-96.	1896-97.	1897-98.	1898-99.	1899-1900.

a & *b* Excluding Rs. 8,76,660 on account of the value of Reserve Stock on hand on 31st March 1896, the net closing balances amounted to Rs. 28,95,658 and Rs. 24,65,610.

c Including Rs. 4,37,055-0-1 on account of Plague expenses debited to revenue 1896-97.

d & *e* Excluding Rs. 9,01,841 on account of the value of Reserve Stock on hand on 31st March 1897, the net closing balances amounted to Rs. 20,74,712 and Rs. 16,78,550.

f Excluding Rs. 4,37,055-0-1 on account of rebate to current Revenue in respect of Plague expenses incurred in 1896-97, which has been shewn by a deduction from the expenditure. The sum of Rs. 67,98,506 includes over Rs. 2½ lakhs on account of recoveries of outstandings.

g Includes Rs. 5 lakhs on account of Plague expenses debited to Revenue.

h & *i* Excluding Rs. 9,03,587 on account of the value of Reserve Stock on hand on 31st March 1898, and Rs. 8,12,546 on account of net advance made for the purchase of frontage lands in the Agripada, &c., Estate, the net closing balances amounted to Rs. 9,09,011 and Rs. 4,71,941.

j In this year the General Tax was increased from 2½ to 2¾ per cent. and the Town Duties on Grain, Firewood and Ghee were increased from annas two per candy, anna one per candy, and annas eight per maund to annas four per candy, annas two per candy and annas ten per maund, respectively.

k Includes a debit of Rs. 8,12,546-4-8 on account of the write-off of the net amount advanced for the purchase of frontage lands in the Agripada, &c., Estate and a credit of Rs. 5 lakhs on account of rebate of Plague expenses debited to revenue in 1897-98.

l & *m* Excluding Rs. 9,75,554 on account of the value of Reserve Stock on hand on 31st March 1899, the net closing balance amounted to Rs. 15,72,476 and Rs. 9,23,005.

n Excluding Rs. 70,000, being a portion of the unexpended balance of the grant on account of compensation for insanitary buildings demolished which was subsequently treated as a saving.

o In this year the General Tax was raised from 2¾ to 12½ per cent. and the duty on grain was increased from 4 annas to 6 annas per candy.

p & *q* Excluding Rs. 8,33,634, on account of the value of Reserve Stock on hand on 31st March 1900, the net closing balance amounted to Rs. 30,51,734 and Rs. 22,67,823.

IV. Assesment and Collection of Revenue.

37. "The total amount collected under all heads exclusive of miscellaneous receipts was Rs. 57,92,906-8-9, against the estimate of Rs. 57,99,000.

38. The number of properties on the assessment book at the close of the year was Rs. 53,502 and on the previous year Rs. 53,328, showing an increase of Rs. 174.

39. There have been Rs. 6,63,455 increase in the assessment of private properties. The recorded gross value of these properties at the close of the year was Rs. 3,05,17,091 as against Rs. 2,98,53,636 in the previous year.

40. The amount of general tax on properties exempted under Section 134 (*a*) and (*b*) of the Municipal Act was Rs. 3,14,406-12-2 as against Rs. 2,37,921-5-3 for the preceding year.

41. There has been a decrease of Rs. 3,906-7-0 in the revenue from the water tax under the head of compounded charge, but on the whole there has been a net increase from water tax of Rs. 3,07,951-5-2.

42. The total demand on account of property taxes amounted to Rs. 56,66,241-14-1, of which Rs. 98,946-12-8 were allowed as one-fifth drawback.

43. The outstanding balance on account of property taxes at the end of 1898-99 was Rs. 1,06,854-14-4 and the total amount for collection in 1899-1900 was Rs. 53,01,495-15-9 exclusive of Rs. 3,72,654, which is the amount payable by Government and the Port Trust, and is paid by them direct into the Municipal Treasury without the issue of bills. At the end of the year the total amount outstanding was Rs. 1,70,211-5-9.

44. The opening outstanding balance on account of the tax on vehicles and animals was Rs. 6,622-6-1. The demand for the year ending 31st December 1899 was Rs. 1,65,876-3-4 as against Rs. 1,62,961-12-11 for the preceding year, to which is to be added Rs. 6,622-6-1 outstandings on the 31st March 1899 and Rs. 941-2-6, the amount of bills for former years issued in 1899-1900, bringing the total up to Rs. 1,73,439-11-11. The total actually collected during the year was Rs. 1,62,291-12-0.

45. Wheel tax bills numbering 14,590 were issued. Out of the sum of Rs. 8,852-3-4 outstanding on 31st March 1900 Rs. 5,812-12-1 have been accounted for up to the 15th July 1900.

46. The amount recovered on account of licensed public conveyances including license fees, fees for badges, and the amounts realized from toll at Sion and Mahim Causeways contrasted with the previous year is as follows :—

Years.	Tax on Public Licensed Conveyances.			License fees.			Fees for badges.			Toll fees at Mahim and Sion Causeways.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
1898-1899	1,63,522	8	0	5,757	10	0	7,386	6	0	13,765	14	0
1899-1900	1,28,540	12	0	4,959	6	0	6,399	13	0	11,928	14	0

47. The receipts from miscellaneous revenue amounted to Rs. 21,119-6-2 as against Rs. 19,250-1-6 for the preceding year.

48. The total amount of refunds on all taxes for which certificates were granted on account of vacancies and over-collections under all heads amounted to Rs. 29,278-7-0.

49. There were nine appeals to the Chief Judge of the Small Causes Court, six being against valuation; these were disposed of by consent; and three against Halalkhor tax, of which two were allowed and one settled by consent.

REVENUE AUDIT.

50. The books and balances of the Ward Clerks in all the seven ward offices of the City were duly examined at the end of each quarter and the bills checked in detail after comparison with the Head Office accounts. The assessment books in the Head Office were also examined with a view to ascertain that no taxation of the property had been evaded. The revenue from public land conveyances was also audited and the certificates of issue of licenses duly checked with the register. There were 15,399 claims for one-fifth drawbacks as against 15,044 for the previous year.—6,699 entries relating to variations in valuations were checked and traced through all the assessment and collection accounts. The number of complaints against valuation disposed of amounted to 915 as against 702 for the previous

year, and decisions on 240 complaints against amendments were scrutinized. The preliminary list of voters was also duly scrutinized.

51. The revenue receipts or vouchers of the following Departments were also checked :—

	No. of receipts.	Amounts. Rs. a. p.
Engineer's Department	7,706	24,413 13 2
Health Department	28,261	66,328 1 5
Licensing Department	5,844	63,115 8 0
Markets & Slaughter Houses	15,101	4,16,892 3 9
Victoria Gardens	4,147	6,911 1 4
Rent Accounts of Health Camps ...	1,244	2,283 0 0

52. The number of claims for refund sanctioned after examination on account of vacancy or over-collection was 1,194 amounting to Rs. 29,472-4-9.

TOWN DUTIES.

53. The total collections for the year amounted to Rs. 26,88,002-13-1 against Rs. 22,55,540-4-10 in the previous year. The net revenue shows an aggregate increase of Rs. 4,32,462 under all heads except sugar, in which there was a falling-off of Rs. 1,53,840, bringing the net increase to Rs. 2,78,622. This is partly due to increased imports over exports and partly to a rise in duty.

54. In the month of October it was observed that, in several claims relating to exports by country craft, certain marks purporting to be those of different Tindals concerned were so much alike as to give rise to the suspicion that they were made by the same hand. Numerous claims for refund were, therefore, rejected and the Municipal Solicitors consulted, and it was decided to refer the subject to Court. The issues were pending at the close of the year.

55. The number of claims disposed of was 49,362.

V. Public Works.

SPECIAL DRAINAGE.

56. Several works under this head remained unfinished at the close of the year, and some other works were commenced during the year, details of which will be found in the report submitted by the Special Drainage Engineer.

57. The suit filed against the Municipality by Messrs. Bulkley & Co. came to an end and judgment was delivered on the 29th March 1900 in favour of the Municipality.

58. Some difficulty was experienced in connection with the laying of the 16-inch main from DeLima Street to Frere Road, as it had to pass under a number of sidings in the Wari Bunder Goods Yard, but these were overcome and the following Resolution, No. 6718, was passed by the Corporation :—"That the Commissioner be informed, with reference to "his letter No. 14608, dated the 7th September 1899, regarding certain sewage mains which have to pass under the "Wari Bunder Goods Yard and sidings and the Masjid and "Carnac Bridge sidings of the G. I. P. Railway, that the Corporation approve of his giving an undertaking to the Railway "to the effect that should the pipe in or near the Railway crossing burst, causing damage to the line and works or serious "detention to traffic, the responsibility of such mishap would "be accepted by the Municipality, except in the case of any "damage to which the Railway Company may have contributed." The work was started, the Municipal Contractors, Messrs. Richardson and Cruddas, being employed by the Railway Company as their own.

59. For the purpose of erecting an Engine House, Boiler House, Chimney, &c., at Love Grove, three plots of land were acquired : one by private negotiation and two through the Collector of Bombay under the Land Acquisition Act. The first was taken possession of on the 11th March 1899 and the others on the 22nd June 1899, the whole consisting of 9,521 square yards and costing Rs. 9,452-2-0. The contract for the work with Messrs. Richardson & Cruddas was executed on the 11th December 1899 and progress has been fairly satisfactory.

60. The services of Mr. Santo Crimp, the Drainage Expert, were obtained for the purpose of reporting on the Drainage of Bombay and advising the Corporation thereon. His report was printed and circulated to the Members of the Corporation about the middle of November. The results will be found in detail in the report of the Special Drainage Engineer. The total expenditure incurred on account of Mr. Santo Crimp's services amounted to Rs. 31,128-4-7.

61. The arrangements for the supply of cement were the same as in previous years.

62. The machinery at the Air Compressor Station and several Ejector Stations has worked satisfactorily during the year. There was a considerable decrease in the quantity of sewage, due to the deficient rainfall.

DRAINAGE.

63. *Pumping Station at Love Grove, Worli.*—The Worthington engines at this station worked satisfactorily throughout the year. Fortnightly observations showed the efficiency of the pumps to average 91·76 per cent. The conversion of the old engine house into a shred lifting chamber, office and godown was efficiently carried out at a total cost of Rs. 16,824-3-2. The average daily consumption of coal was 8 tons 4 cwts. 3 qrs. 8 lbs. as against 9 tons 7 cwts. 1 qr. 15·9 lbs. in the previous year.

64. A rental of Rs. 80 per mensem was realized throughout the year for the bungalow owned by Messrs. Tribhuwandas Varjiwandas and Jagmohandas Varjiwandas.

HOUSE CONNECTIONS.

65. The streets portions of the House Drainage Connections were partly carried out by contract and partly departmentally. The number of connections made was 1,086 costing Rs. 41,705-12-5.

WATER GULLIES, MANHOLES, VENT SHAFTS, &c.

66. Works under these heads have been carried out in different parts of Bombay, details of which appear in the report submitted by the Executive Engineer.

67. *Installation for Providing Electrolized Sea-water.*—At the close of the previous year a balance of Rs. 479-9-5 was available from the renewed grant of Rs. 3,353 for the working expenses of the plant during the year 1898-99. The production of the electrolized sea-water was therefore continued from the 1st March. The greater portion of the fluid was utilized by the Health Department. As

additional data were necessary a further grant of Rs. 900 from Plague Funds was sanctioned to keep the plant at work until the end of April. It was shut down on the 1st May. Further details are furnished by the Executive Engineer in his report.

68. Two hoppers were constructed at the night-soil depôt at Valpakhadi at a cost of Rs., 3,149-2-11 and the paving in front of the depôt was extended. The latter work was done departmentally at a cost of Rs. 852-6-2.

69. Latrines and urinals have been added to those already existing, the sites chosen being such as to best meet local requirements.

70. The sluices and penstocks in charge of the Drainage Branch were worked satisfactorily during the year and the budgetted provision was not exceeded. Two out of the four pairs of new gates for the Love Grove Sluices have been fixed in position.

71. Under various sections of the Municipal Act, 2,829 notices were served on house-owners in connection with drainage matters. Out of these 1,477 were complied with ; the rest were pending at the close of the year. Summonses numbering 1,622 were issued for non-compliance with notices, of which 1,021 were subsequently complied with and the rest withdrawn.

72. The value of drainage stores in hand on the 1st March 1899 was Rs. 3,87,313-6-8. Receipts and issues amounted to Rs. 47,408-4-11 and Rs. 79,982-1-7 respectively. The value of stock in hand at the close of the year was Rs. 3,54,739-10-0.

WATER WORKS.

73. *Tansa Lake.*—The rainfall for 1899 was 40·07 inches, that for the two preceding years being 98·68 and 104·82 inches, respectively. The total quantity of water received into the lake was estimated at 12,714 millions of gallons or about 45 per cent. of the total rainfall. One burst on the 48 inch main necessitated the water being shut off for thirty-one hours. Considerable progress has been made with the repairs to the embankments.

74. *Vehar Lake.*—The rainfall for 1899 was 35·26 inches, that for the two preceding years being 94·51 and 97·36 inches respectively. The total quantity of rain which fell in the drainage area was about 3,060 millions of gallons; of this about 1,160 millions of gallons or 38 per cent. reached the lake as compared with an available total of nearly 6,000 millions of gallons. Notwithstanding the failure of the monsoon it was not found necessary to restrict the quantity of water drawn from this lake. One burst occurred on the 32 inch main and one on the 24 inch main during the year.

75. *Tulsi Lake.*—The rainfall for the year 1899 has been 43·80, representing a total fall of about 1,647 millions of gallons; of this about 356 millions of gallons or 22 per cent. were received into the lake as compared with 111·6 inches in the previous year, yielding an available supply of 2,670 millions of gallons or 62 per cent. There was one burst on the 24 inch main causing the water to be shut off for about 12 hours.

76. *Amphibia.*—Nine crocodiles and 190 eggs were destroyed during the year.

77. *Bhandarwada Reservoir and Filters.*—Leakage from the filter beds is considerable, but the measures taken in one instance seem to indicate that a satisfactory remedy has been found.

78. *Malabar Hill Reservoir and Filters.*—The re-charging of No. 4 filter is in hand. The other filters have worked satisfactorily throughout the year.

79. *Miscellaneous works.*—A 4-inch metered branch for supplying water to the Kutchra Siding has been made, but no other extensions have been made during the year. A revised scheme for the extension of mains has been sanctioned by the Corporation.

80. *Distribution and Maintenance.*—The number of bursts on various parts of the system during the year were 131. The net increase in the number of connections exclusive of those made to Health Camps has been 217. The annual growth in the number of connections for the past three years has been 0·5, 1·8 and 1·0 per cent. respectively. The work of examination of mains by Deacon's meters shows them to be in a satisfactory condition.

FINANCIAL.

81. The value of reserve stock on the 1st March 1899 was Rs. 4,13,520-6-4. The purchase during the year aggregated Rs. 52,288-4-1. The issues amounted to Rs. 60,654-12-5 and the value of the balance on the 1st March 1900 was Rs. 4,05,153-14-0. The profit on stock was Rs. 11,776-3-10 and loss Rs. 1,438-11-3, leaving a credit balance of Rs. 10,337-8-7. The sale of rights for gathering fruit, &c., from the margins of the lakes and mains realized Rs. 1,762-10-8 as against Rs. 1,183-0-0 during the previous year.

The value of works executed during the year were as follows :—

Departmental	...	...	...	Rs. 32,014-7-6 .
Private ...	...	...	...	„ 4,666-11-1

BUILDINGS.

82. The Fergusson Road Market was completed in October 1898 at a total cost of Rs. 9,821-1-5, but the account was not adjusted until the year under report. The principal works under this head completed during the year were :—Quarters for the Head Animal Keeper at the Victoria Gardens at a cost of Rs. 8,068-14-6 ; additions and alterations to the Municipal Chawl at Dadar at a cost of Rs. 8,834-13-6; and an extension of the Beef Slaughter House at Bandora at a cost of Rs. 4,025-9-7. Several new works were sanctioned but not proceeded with for sundry reasons, chiefly want of funds.

83. The draft lease of land to be taken up from Government for the construction of the Nasarwanji Manekji Petit Public Hall has been prepared by the Solicitor to Government and approved by the Municipal Solicitors, but the execution of the deed and the taking over charge of the land has been deferred pending the settlement of certain conditions which the executrix of the donor wishes to be inserted in the Trust deed.

84. Applications to build or rebuild during the year numbered 2,022. Of these 1,978 were passed wholly or partially and 44 disapproved for sundry reasons. During the year 5,436 notices and 933 summonses were issued under various sections of the Municipal Act. The amount of fines inflicted aggregated Rs. 1,756-9-0.

85. During the year 20 buildings or parts thereof fell down, resulting in injuries to six persons and the death of two.

86. For the removal of ruinous houses, objectionable structures, &c., action was taken in 4,518 instances : of these 1,102 were taken departmentally, the number executed or withdrawn being 2,833, leaving 583 pending at the close of the year.

ROADS, &c.

87. The area of roads metalled during the year was 10,297,172 square feet at a cost of Rs. 2,79,949-2-7. An additional portion of the Reay Road has been completed and also the widening of the Gunpowder Road. The Victoria Road extension was also finished and opened to traffic on the 10th August 1899. The action brought against the Municipality by the Contractors for the construction of Vincent Road had not come on for hearing at the close of the year. The total area of roads, &c., repaired during the year was 12,905,054 square feet at a cost of Rs. 3,68,705-12-4. The total grant for street improvements amounted to Rs. 1,92,290-9-2, out of which Rs. 60,984-4-9 was actually expended. The total area in square yards of ground acquired for street improvements was 3,792·51 and the expenditure thereon Rs. 1,08,877-3-2. The grant for road watering was Rs. 67,900, but is found to be insufficient. The new system of watering is found to be satisfactory. No grant was made during the year for paving footpaths.

88. *Miscellaneous.*—The only work remaining to be completed at Deonar for the disposal of town sweepings is a bund about 3 miles long to shut out sea-water. The preparation of a new burial ground for Mahomedans at Narielwady is in progress. All the works in connection with the extension of the Sewree cemetery have been completed. The Tramway lines have been renewed where necessary on several parts of the system and proposals for further renewals have been received from the Tramway Company. The total number of gas lamps in the City at the end of the year was 3,792. The minimum contract pressure and illuminating power was maintained throughout the year as in preceding years. The kerosine oil lighting was carried out departmentally. The total number of lamps in the City at the close of the year was 1,776. The net cost of kerosine oil lighting during the year has been Rs. 31,681-2-9.

89. Some repairs were necessary to the dynamos of the electric lighting system at the Arthur Crawford Markets and Municipal Offices which were effected at a cost of Rs. 1,081, and new main driving belt was obtained at a cost of Rs. 357-8-0. These extra charges necessitated a transfer of Rs. 1,800 from savings from lighting and other grants. The total expenditure for electrically lighting the Arthur Crawford Market and Municipal Offices has been Rs. 12,556-13-8.

90. The Municipal Workshops have continued to keep in repair the numerous articles of plant and machinery used by the various departments. No ground rent was paid to Government during the year, nor has the settlement of the ground rent question advanced in any way. The balance in favour of the workshops at the close of the year amounted to Rs. 10,861-6-4.

91. The hydraulic lift at the Municipal Offices worked satisfactorily during the year at an expenditure of Rs. 1,598-6-1 exclusive of a charge of Rs. 75 for renewal of one of the parts.

FIRE BRIGADE.

92. The efficiency of the Fire Brigade continued to be maintained. No case of loss of life by fire has occurred amongst the members of the Brigade, although several received injuries in the execution of their duties at fires, none of which, however, were of a serious nature. The water supply at fires was satisfactory.

93. Two horses were purchased during the year in place of one that died, and one sold by public auction being unfit for work.

94. The strength and equipment of the Brigade is as follows :—

Strength.

1 Chief Officer.	12 First Class Tindals.
2 Clerks.	6 Second do.
1 Head Foreman.	108 Firemen of Grades.
5 Foremen.	8 Drivers.
7 Engineers.	8 Grooms.

Total 158 including all ranks.

Equipment.

8 Steam Fire Engines.	6 Telescopic Ladders.
8 Manuals.	1 Brake.
16 Hose Reels.	16 Horses.
7 Tender Carts.	

95. 356 lengths of delivery hose comprising about 21,360 feet and other necessary appliances.

96. The number of calls to fires during the year was 100, out of which 9 were false alarms and the estimated damage to property amounted to Rs. 4,11,699, showing a decrease of Rs. 19,50,216 as compared with the preceding year. The most destructive fire of the year was that which occurred at Frere Bunder on the 16th April when a large number of stacks of dry grass were destroyed, the estimated loss, which was not covered by insurance, being Rs. 2,00,000.

97. The following statement gives the number of fires and the estimated value of property destroyed during the past five years:—

Year.	Number of Fires.	Estimated Value of Property destroyed.
1895-96	130	Rs. 20,41,571
1896-97	122	„ 18,75,662
1897-98	136	„ 19,98,464
1898-99	115	„ 23,61,915
1899-1900	91	„ 4,11,699

PUBLIC GARDENS.

98. The following public gardens were maintained during the year:—

(*a*) Victoria Gardens.
(*b*) Elphinstone Circle Garden.
(*c*) Northbrook Garden.
(*d*) Malabar Hill Garden.
(*e*) Bazaar Gate Garden.
(*f*) Falkland Road Garden.
(*g*) Dicks Tank Garden.
(*h*) Municipal Office Garden.
(*i*) Sir Cowasji Jehangir Garden.

99. As the Tardeo Flats have been transferred to the City Improvement Trust, the Garden on the Flats was broken up, and the plants, &c., were transferred to the Victoria Gardens.

100. The total number of visitors to the Victoria Gardens during the year under report was 1,093,868 as against 788,890 in the previous year, being an increase of 304,978.

101. The quarters for the Assistant Superintendent of the Zoological Collection were completed during the year under report and were occupied by him from the 1st January 1900.

102. A new aviary of six compartments was constructed to admit of the separation of certain kinds of birds which were formerly located in one place and consequently frequently injured each other.

103. The donation of Rs. 4,000 made by the Maharajah of Bhownagar has been utilized during the year, and a four-chambered house for the smaller carnivora has been taken in hand and is approaching completion.

104. A wooden fence along the northern boundary of the Victoria Gardens, which was unprotected, and through which stray dogs, &c., entered the Gardens and caused damage to the animals there, has been constructed. A deer enclosure was also under construction at the expiry of the year.

VICTORIA AND ALBERT MUSEUM.

105. Some additions were made to various sections of the Museum, and the usual care was bestowed upon the preservation of the specimens in the various sections.

106. The Museum was open to the public for 313 days during the year, and the total number of visitors was 683,277 as against 656,840 during the preceding year. The daily average of visitors was 2,182. The number of visitors for the past five years is given below :—

Year.	No. of Visitors.	Daily Average.
1895-96	749,299	2,378
1896-97	584,865	1,874
1897-98	641,500	2,042
1898-99	656,840	2,098
1899-1900	683,277	2,182

VI.—Public Health.

107. The state of the public health during the year has not been satisfactory. The total mortality for the year under report, exclusive of still-born, was 56,434, being the highest mortality ever recorded for the City of Bombay, the average mortality of the previous five years having been exceeded by 17,785.

108. On an average 5,775 men and women, 1,124 scavenging and drain carts and 205 night-soil and cesspool carts were at work each day. 3,44,268·5 tons of garbage equal, to 943·2 tons a day, were collected, removed and disposed of against 3,88,816·75 tons of garbage in 1898. 1,70,506·11 tons of night-soil and cesspool matter, equal to 467·14 tons a day, were collected and removed, as against 1,69,586·9 in 1898. 167·1 miles of covered drains were opened and cleaned, against 172·1 miles in 1898. There were 12 horses and 2,514 bullocks in the charge of the Department, and of these 206 bullocks died and 228 sent to Pinjrapol. 3,924 notices and 2,066 summonses were issued against, respectively, 4,229 and 2,401 in 1898.

109. The most noteworthy feature in the work of the Department has been the completion of the scheme for the removal of the city refuse by rail to Deonar and Chembur. The removal is effected twice daily by a train of 25 waggons. The loading of the trains is effected at a loading siding upon Municipal Land at Mahalaxmi, the refuse being tipped directly from the Health Department carts into the waggons. The system has worked smoothly.

110. The ground reclaimed by the Municipality at the Tardeo Flats has been handed over to the City Improvement Trust. The working of the Garlic Incinerator at the Municipal workshops was stopped on the 20th November 1899, partly on account of complaints against the smoke caused by it and partly because it stands upon ground claimed by Government.

111. On the 1st January 1900 the first step was taken towards improving the system of registration of births and deaths. A District Registrar now resides in each ward and the Deputy Health Officers now perform the duties of the old registrars.

112. There were 15,796 deaths from Plague, being 2,389 less than in the last year. Plague measures have been carried out by a separate branch of the administration working directly under the Deputy Commissioner for Plague Operations.

113. In addition to the Municipal Dispensary, which was opened in 1898 at Kumbharwada, another was opened on the 22nd January 1899 at Dongri. They are both free and the attendance has been large.

114. An Act dealing with the adulteration of ghee came into operation during the year. Several prosecutions were instituted by the Health Officers, resulting in convictions in most instances.

115. The flushing of house gullies was carried out during the dry weather by means of seven steam flushing engines.

LICENSES.

116. The total revenue collected on account of license fees during the year under report amounted to Rs. 63,732-8-0 as against Rs. 60,646-8-0 during the previous year, thus showing an increase of Rs. 3,086-0-0.

117. The following statement shows the amounts collected and the number of licenses granted during the past five years :—

Year.	No. of Licenses issued.	Amounts collected.		
		Rs.	a.	p.
1895-96	5,880	65,048	8	0
1896-97	5,130	56,462	8	0
1897-98	5,750	63,741	8	0
1898-99	5,588	60,646	8	0
1899-1900	5,831	63,732	8	0

118. The Department worked satisfactorily during the year.

MARKETS.

119. The total revenue from Markets and Slaughter-houses was Rs. 4,20,155-13-2, against Rs. 3,86,633-12-11 in the preceding year, showing a net increase of Rs. 33,522-0-3.

120. This rise is due to increases from several sources, chiefly from market fees and fees for butchers' licenses and slaughtering.

121. Over eighty-two tons of unwholesome food were destroyed during the year, the greater portion of which consisted as usual, of animal food.

122. The prosecutions under the several Sections of the Municipal Act and the Market Bye-laws, before local Magistrates, resulted in the infliction of fines to the aggregated amount of Rs. 708.

STREET ACCIDENTS.

123. The number of persons injured and killed in the public streets was as follows :—

Injured	524
Killed	38

124. The greatest number of these accidents occurred in the streets and roads mentioned below :—

Hornby Road	... 29	Grant Road	... 26
Carnac Road	... 18	Falkland Road	... 18
Abdool Rehman Street	... 21	Parel Road	... 21
Kalbadevi Road	... 24	Prince's & Victoria Docks	17

125. The number of street accidents during the preceding year was as follows :—

Injured	562
Killed	19
Total ...	581

VII.—Education.

126. The actual Receipts and Expenditure on Municipal Primary Schools for the year 1899-1900 were as follows :—

No.	Receipts.	Amount. Rs. a. p.	No.	Expenditure.	Amount. Rs. a. p.
				A.—SCHOOLS.	
1	Balance on the 1st of April 1899	62,533 2 6	1	Head Masters and Teachers	*64,113 1 8
2	Government Grant to Primary Education and Inspection	42,666 0 0	2	Servants	1,954 2 8
3	Fees from Municipal Schools	13,416 15 0	3	Rent	31,323 6 6
4	Contribution from the General Municipal Fund	80,000 0 0	4	Cost of Class Books...	384 7 6

			8	Scholarships in Schools	211 12 2
6	Interest on Endowments or Investments..	523 11 0	9	Stipends of Students under training as Vernacular Teachers	1,271 7 6
7	Miscellaneous	68 3 11	10	Inspectors' Establishment... ...	7,798 15 9
			11	Grants-in-aid to Primary Schools ...	19,992 14 3
				B.—BUILDINGS.	
			1	Municipal Original Works... ...	.....
			2	Repairs to Municipal School Houses ...	380 13 10
				Balance on 31st March 1900 ...	64,639 2 0
	Total Rupees ...	1,99,203 0 5		Total Rupees ...	1,99,203 0 5

* Includes Rs. 1,214-4-8 spent on account of grain compensation allowance.

† This item includes the following charges :—

	Rs.	a.	p.
Charges incurred on account of Physical Training ...	852	13	7
Do, do. Plague, &c.	233	4	0

127. The Government grant remained the same as in previous years, *viz.*, Rs. 42,666, the Municipal grant being Rs. 80,000. There was an increase in the income from fees, the amount being, for the year under report, Rs. 13,416-15-0, as against Rs. 12,424 in the preceding year. The working balance at the commencement of the year was Rs. 62,538-2-6. The total receipts for the year amounted to Rs. 1,36,664-13-11, as against Rs. 1,35,774-13-3 for the previous year. The closing balance, on the 31st March 1900 to the credit of the school fund, was Rs. 64,639-2-0. The actual expenditure was below the estimate, owing to the diminution of school and other charges on account of the plague.

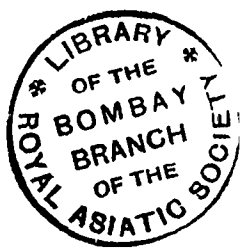
128. The number of Municipal Schools has risen from 79 to 81; by the opening of a Gujarati Day School at Valkeshwar and an Urdu Night School at Madanpura. The number of pupils has also risen from 3,618 to 5,018 in the Day Schools and from 167 to 270 in the Night Schools.

129. The difficulty of providing suitable accommodation for schools continues to be felt. Nine teachers died during the year, two cases being attributed to plague. One Head Master retired on pension.

W. L. HARVEY,

Municipal Commissioner

for the City of Bombay.



CHIEF ACCOUNTANT'S REPORT.

FOR 1899-1900.

FINANCIAL.

REPORT OF MR. W. E. WAITE, Chief Accountant, for the financial year 1899-1900, as forwarded with his No. 5924, dated 19th September 1900.

1. I have the honour to submit my annual report on the accounts of the Municipality for the financial year ending 31st March 1900.

2. The year opened with a surplus cash balance of Rs 6,53,004-6-1 (excluding the one lakh required by law) and closed with a surplus cash balance of Rs. 19,99,822-15-10.

3. The general results of the year are given in the subjoined table, which contrasts the actual opening balance, the income and the expenditure with the Budget Estimates under these heads :—

Particulars.	Estimate.	Actuals.	More than Estimate.	Less than Estimate.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Opening Balance	5,00,000 0 0	15,72,475 9 0	10,72,475 9 0	.....
Income—				
Original Estimate ...	83,15,000 0 0	88,29,817 1 2	5,14,817 1 2	.....
Revised Estimate ...	84,67,000 0 0		3,62,817 1 2	.....
Expenditure—				
Original Estimate ...	79,49,400 0 0	73,92,479 7 4	.....	5,56,920 8 8
Amended estimate (as per Statements B. and C.)	89,42,023 8 9		.....	15,49,544 1 5

The opening balance of Rs. 15,72,475-9-0 does not include a sum aggregating Rs. 8,75,554-7-10 advanced for the Reserve Stock of Stores, but includes a sum of Rs. 8,19,471-2-11 on account of lapsed grants for 1898-99 and previous years, which were intended to be renewed in 1899-1900. Allowing for these lapsed grants, the net opening balance amounted to Rs. 7,53,004-6-1 or Rs. 2,53,004-6-1 more than the estimate. Out of the sum of Rs. 8,19,471-2-11 reserved for renewal

of lapsed grants in 1899-1900, a sum of Rs. 70,000 was subsequently found to be not required in that year and was consequently appropriated in the Budget for 1900-1901.

The gross income of the year is the largest which this Municipality has ever realized. It amounted to Rs. 88,29,817-1-2 showing an advance on the original estimate of Rs. 5,14,817-1-2, and on the revised estimate of Rs. 3,62,817-1-2. Only a small proportion of this augmented revenue was anticipated. Rs. 74,000 was estimated as the increase at the time of preparing the Budget for 1900-1901, a figure subsequently increased to Rs. 1,52,000 in the Revised Estimate passed by the Corporation.

Out of the total lapsed grants aggregating Rs. 15,49,544-1-5, grants to the extent of Rs. 9,51,910-13-6 are proposed to be renewed in 1900-1901, leaving a net saving of Rs. 5,97,633-3-11, of which Rs. 4,41,694 were anticipated while preparing the Budget for 1900-1901 and were, therefore, appropriated in that Budget. The variations between the Revised and Budget Estimates of Income and Expenditure are explained in detail below :—

INCOME.

A, Comparison between the Original Budget Estimate and Actuals.

4. Against the original estimate of Rs. 83,15,000 the actual revenue realized during the year under report amounted to Rs. 88,29,817-1-2, showing an increase of Rs. 5,14,817-1-2. Though a large proportion of this increase is merely nominal, the result of the year's working brings into prominence once again the vitality of our sources of Revenue even during a period of general depression. General and Water Taxes, Receipts from Town and Tobacco Duties, Market Receipts, and Interest and Profit on Investments of Surplus Loan and other Balances, principally contribute to the large and unexpected increase, details of which will be found in columns 6 and 7 of the annexed Statement A.

A.

INCOME.

* Includes Rs. 3,519-2-11 received on the Water Works portion of the Net Premia, &c., Fund Investment.

5. Subjoined are explanations of the causes of the principal variations :—

A. General Tax.—Increase of Rs. 27,516-4-7. Of this increase Rs. 20,183 were received from the Port Trust pending the settlement of the question of the quinquennial contribution payable by them from 1st April 1899 ; Rs. 3,750 from Government on account of increased contribution payable by them for 1897-98 and 1898-99 in respect of additions and alterations made to Government buildings since the last award ; and the balance of Rs. 3,583-4-7 from the Public owing to increased assessments, &c. The increase on account of realizations of the Tax from the Public would have been much greater, had not the outstandings at the close of 1899-1900 been greater than those at the close of the preceding year by Rs. 36,458-11-10.

B. Wheel Tax and Tolls.—An appreciable decrease of Rs. 37,251-10-0 occurs under this head, to which Public Conveyances contributed Rs. 33,459-4-0 and Toll Fees Rs. 3,071-2-0. The reduction from Rs. 15 to Rs. 12 per cart of the tax on labour carts for 1900 with the approval of the Standing Committee, in consequence of famine and the slackness of trade, and a diminution of nearly 1,000 in the number of licensed labour carts, due doubtless to the general depressed state of the country, account for the large falling off under this head. The decrease under Toll Fees was due to the estimate of the Traffic Manager, Port Trust, which was based on the realizations during 1898-99 not having been fully realized. From the marginal figures it will be seen that the realizations from this source were the lowest of any obtained during the preceding ten years, and that the Income has been gradually diminishing since 1896-97. I am making enquiries in the matter from the Traffic Manager, Port Trust Bunders.

1890-1891	...	...	...	Rs. 12,399 10 0
1891-1892	...	...	...	„ 13,079 10 0
1892-1893	...	...	...	„ 12,331 6 0
1893-1894	...	...	...	„ 12,665 14 0
1894-1895	...	...	...	„ 15,371 10 0
1895-1896	...	...	...	„ 19,528 14 0
1896-1897	...	...	...	„ 15,863 4 0
1897-1898	...	...	...	„ 14,489 14 0
1898-1899	...	...	...	„ 13,765 14 0
1899-1900	...	...	...	„ 11,928 14 0

C. The Receipts from Town Duties during the year have been phenomenal and show an increase of Rs. 3,59,720-14-3. This large addition to our revenues was obtained from larger imports of grain, chiefly of Rangoon Rice, intended for the famine districts, and of Wines and Spirits and Ghee. Of the above increase it is anticipated that from Rs. 2 to Rs. 3 lakhs will have to be refunded during the current year owing to the re-export of food stuffs.

D. Licenses—A. Dangerous and Offensive Trades.—The increase of Rs. 3,707-8-0 is due partly to the recovery of outstandings for 1898-99, and partly to a larger number of licenses having been issued during the year under report.

E. Receipts from Government for Tobacco Duty.—The increase is due partly to an under estimate in the Budget Estimate and partly apparently to increased consumption of Tobacco.

F. Halalkhore Tax.—There would have been an increase under this head instead of a decrease of Rs. 5,736-3-3, had not the outstandings at the close of the year been more than those at the end of the preceding year by about Rs. 11,000.

G. Water Tax and other Miscellaneous Water Works Revenue.—The increase of Rs. 8,966-11-10 was obtained from a larger consumption of water by meter measurement. It would have been more pronounced, were it not for an increase of about Rs. 16,000 in the outstandings at the end of 1899-1900 as compared with 1898-99 and to the non-adjustment of the net profit amounting to about Rs. 10,000 resulting from the sale of stores, fittings, &c., owing to the late receipt of the Reserve Stock Return from the Water Works Branch.

H. Market Receipts show a satisfactory and marked increase of Rs. 35,076-13-2, bringing the revenue from this source for the first time in the history of the Municipality to over Rs. 4,00,000. Fair Ground and Feeding Fees from contractors realized Rs. 14,000 more than in the preceding year, showing an advance of over 30 per cent. in the price realized, and the slaughter fees and stall rents advanced nearly Rs. 20,000 over our original estimate.

I. Miscellaneous Fees.—The increase of Rs. 3,326-14-3 was entirely derived from Fees for Digging Graves.

J. Miscellaneous Savings.—There was a decrease of Rs. 2,000-14-8 owing to a smaller amount of unclaimed wages having become time-barred during the year.

K. Interest and Profit on Investments of Surplus Loan and other balances.—The budgetted sum of Rs. 75,000 under this head was estimated to be realized on the 5 per cent. Municipal Debentures for Rs. 15 lakhs then held by the Municipality on account of different loan funds and surplus cash investments. Owing, however, to the Municipality having raised new loans aggregating Rs. 50 lakhs during the year under report, there were large surplus balances in hand, which were lodged as fixed deposits or in current interest bearing deposit accounts from time to time as was deemed most advantageous to the Municipality. The total interest thus realized amounted to Rs. 1,57,650-1-11, as under, showing an increase of Rs. 82,650-1-11 over the Budget Estimate :—

	Rs.	a.	p.
On Investments in 5 per cent. Municipal Debentures and 4 per cent. Municipal and Port Trust Debentures	71,667	8	2
On current account deposits	7,311	6	6
On fixed deposits, varying from Rs. 2 lakhs to Rs. 10 lakhs, for periods ranging from 16 days to 3 months, and at rates from 2 to 7½ per cent.	78,671	3	3
Rs.	1,57,650	1	11

The average rate of interest realized on fixed deposits was 4·19 per cent. per annum.

L. Profit on Municipal Workshops.—The cause of the increased realization of Rs. 5,861-6-4 under this head is explained in detail at page 97.

M. Interest on the Investment of the Net Premia, etc., Fund.—The decrease of Rs. 2,756-13-6 is attributable to the depletion of the Fund by withdrawals to meet the discount on the new loans raised in 1899-1900, and the stamp, printing, etc., charges for the debentures issued in respect of the said Loans.

B. Comparison between the Revised Estimate of Income and the Actuals.

6. From columns 4 and 5 of Statement A it will be seen that, compared with the Revised Estimate of income of Rs. 84,67,000, the actual realizations amounted to Rs. 88,29,817-1-2, being an increase of Rs. 3,62,817-1-2. Were it not for what I have termed the phenomenal receipts from Town Duties, swelling the Revenue temporarily by nearly Rs. 3,60,000, the actual realization would have approached the estimate to a gratifying degree.

Town Duties.—As explained in para. 5 *C*, a very great proportion of this revenue cannot be considered as permanently accruing to the Municipality, and in all calculations of available assets for expenditure, allowance is made for a refund of at least 2 lakhs of rupees for refunds due to re-exports.

Other increases have occurred as follows :—

Tobacco Duties	Rs.	18,337	15 3
Market Receipts	„	13,076	13 2
Profit on Municipal Workshops	„	5,861	6 4

The reasons for these increases are identical with those given for the increases over the original estimates.

Miscellaneous Receipts.—Increase of Rs. 9,471-12-5 is due to larger realizations from sale of Vaccine lymph, sale of plots of surplus land at Hornby Road and other places, and rent of chawls and reclamation grounds of the Public Health Department.

Interest and Profit on Investments of Surplus Loan and other Balances.—Increase of Rs. 17,650-1-11 is due to larger surplus balances having remained on hand to be invested than was expected when the Revised Estimate was framed, owing to a large falling off in the execution of capital works consequent on the projects not being finally settled and sanctioned.

Decreases—

The principal decreases were in—

General Tax	Rs.	5,483	11	5
Halalkhore Tax	„	7,036	3	3
Water Tax and other Miscellaneous Water Works Revenue	„	20,333	4	2
	Rs.	32,853	2	10

These decreases are attributable to larger outstandings at the close of the past year and to the profit on sale of water fittings, &c., having remained unadjusted for the reason stated in para. 5 *G*.

Wheel Tax and Tolls.—Rs. 37,251-10-0, for the reasons given in para. 5 *B*.

B.

EXPENDITURE.

7. From the foregoing statement *B it will be seen that the Budget Estimate of Expenditure as originally sanctioned by the Corporation under section 129 of the Municipal Act amounted to Rs. 79,49,400.

This figure was augmented during the year by Rs. 9,92,623-8-9, as follows :—

		Rs.	a.	p.
(1)	Additional grants sanctioned by the Corporation under Section 131 (1) of the Municipal Act ...	2,43,152	5	10
(2)	Additional grants sanctioned under Section 131 (1) in respect of the unexpended balances of the grants for 1897-98 and previous years required for expenditure in 1899-1900 and of transfers sanctioned in 1899-1900 but not utilized in that year	1,62,058	1	4
(3)	Lapsed Grants for 1898-99 renewed in 1899-1900 under Section 132 of the Municipal Act ...	5,87,413	1	7
	Total Rs.	9,92,623	8	9

Thus the total amount voted for expenditure during 1899-1900 aggregated Rs. 89,42,023-8-9.

Transfers aggregating Rs. 39,742-1-5 from one Budget head to another were sanctioned by the Standing Committee, under Section 133 of the Municipal Act, to meet excesses under different Budget heads, without affecting the amount of the total Budget provision for the year. It is gratifying to note that notwithstanding the large savings taken credit for in the different heads of the Budget estimates with a view to provide for expenditure *on the basis of the actuals of the preceding three years*, and thus limit the Budget grants to the extent of the probable requirements as far as practicable, the transfers obtained during the year were neither so frequent as was apprehended when the Budget for 1899-1900 was framed (*vide* page VI of the Introductory Remarks to that Budget), nor was the amount of such transfers larger than that in any of the preceding three years.

8. The principal items making up the additional grants aggregating Rs. 2,43,152-5-10, sanctioned as per para. 7 (1) above, are as follows :—

		Rs.	a.	p.
(1)	Grain Compensation payable to Municipal employés drawing less than Rs. 16 per month each ...	55,017	0	0
(2)	Extra amount required to make up the Proportion debitable to current revenue, of the expenditure incurred at the Arthur Road Hospital in 1898-99	36,182	2	8
(3)	Cost of measures for the suppression of Small-Pox epidemic in the City	35,000	0	0
(4)	Purchase of 400 meters to be used for bungalows with gardens	11,070	0	0
	Carried over...Rs.	1,38,769	2	8

* *Vide* pages 49 to 53 of this Report.

		Rs.	a.	p.
	Brought forward ... Rs.	1,38,769	2	8
(5)	Initial cost of measures to be adopted in the case of fallen houses and for the extrication of living persons or bodies overwhelmed in the debris ...	9,106	0	0
(6)	Charges incurred by different departments in excess of the Budget Grants for 1898-99 ...	8,075	13	7
(7)	Cost of coating with asphalt Filter No. 2 of the Bhandarwada Reservoir	7,016	0	0
(8)	Excess in the grant for payment of commission to the Port Trust and G. I. P., and the B. B. and C. I. Railway Companies for collection of Town Duties	6,425	4	3
(9)	Erecting a wooden fence on the north and west sides of the Victoria Gardens	5,225	0	0
(10)	Construction of a road and the removal and re-construction of the shed at Haines Road ...	4,685	0	0
(11)	Excess in the grant for 1898-99 for materials for general works and repairs outside Bombay Water Works Maintenance...	3,483	14	1
(12)	Cost of extra establishment for the verification of stock	3,000	0	0
(13)	Extra Grant for advertisement charges to be incurred by the Municipal Secretary in excess of the Budget Grant for 1899-1900	3,000	0	0
(14)	Minor items below Rs. 3,000 each	54,366	3	3
	Total ... Rs.	2,43,152	5	10

This sum of Rs. 2,43,152-5-10 was met from the amount of Rs. 3,04,298 reserved at page ii of the Introductory Remarks to the Budget for 1900-1901 for additional grants sanctioned and to be sanctioned during 1899-1900. It will be seen that the above sum could not be fully appropriated during the year under report. This was owing to the question of arrears of Police charges claimed by Government up to 1898-99, for which provision was made in the said reserve having remained unsettled up to the close of the past year.

C.

EXPENDITURE.

STATEMENT *showing the Actuals for* 1899-1900 *as compared with the Original Budget Estimate (including additional Grants, renewed Grants and Transfers) and the Revised Estimates.*

* Of the Rs. 3,519-2-11 are chargeable to Water Works Account.

9. From the foregoing Statement C, it will be seen that against the total sum allotted for expenditure in 1899-1900, aggregating Rs. 89,42,023-8-9, as shown in para. 7, the actual expenditure paid during the year, amounted to only Rs. 73,92,479-7-4 showing an unusually large unexpended balance of Rs. 15,49,544-1-5 at the close of the year. From the latter amount a sum of Rs. 9,51,910-13-6 is proposed to be renewed in 1900-1901, for the payment of liabilities incurred during the past year and for the completion of works, &c., not completed or undertaken in that year. Thus the net saving amounted to Rs. 5,97,633-3-11 ; but it will be seen from the Introductory Remarks to the Budget for 1900-1901 that, owing to a saving of Rs. 4,41,694 having been anticipated at the time of preparing the Budget Estimate and appropriated in that Budget, the actual unappropriated saving during the year amounted to only Rs. 1,55,939-3-11. If the figures of expenditure entered in the revised estimate as passed by the Corporation, and shown in the succeeding para., be taken into consideration, the actual saving in outlay as compared with the revised estimate is reduced to Rs. 1,39,373-10-0, a most distinct advance in the closer approximation of estimates to actuals, advocated in my report for 1897-98. The sum of Rs. 9,51,910-13-6 proposed to be renewed during 1900-1901 is the largest renewal proposed for years past.

10. The following table denotes the Departments and heads of accounts in which the savings of Rs. 5,97,633-3-11 have occurred, the amounts anticipated while framing the Revised Estimate for 1899-1900, and the net unanticipated savings :—

	Actual Savings.	Amount of savings anticipated while framing the Revised Estimates for 1899-1900.	Net Savings.

11. From the following statement it will be seen that the amount proposed to be renewed this year is higher than that renewed last year by Rs. 2,02,439-10-7, the principal increases being under "Public Health Department," "Miscellaneous" and "Municipal Debt":—

	Amount renewed in 1899-1900.	Amount proposed to be renewed in 1900-1901.	More.	Less.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

			6,536 14 10	
		Rs.	2,02,439 10 7	

The increase in the renewed grant in the Public Health Department is represented chiefly by lapsed expenditure under "Live Stock" and "New Rolling Stock." Owing to the famine, difficulties arose in obtaining the number of bullocks budgetted for, and the new scavengering and drain carts required in connection with the reorganization scheme and under construction in the Municipal Workshops could not be completed and the accounts adjusted by the close of the year. Disputes with the G. I. P. and B. B. & C. I. Railway Companies and the non-submission of bills before the close of the year under report have also necessitated the renewal of grants for the removal of Town sweepings to Deonar; while, owing to the dispute with Government, the non-payment of the ground-rent charges in respect of the Government land at Paltan Road occupied by stables, &c., of the Health Department, and the payment of charges during 1900-1901 for outlay incurred on the Small-pox epidemic of 1900, have also contributed towards swelling the lapsed grants for the year under report.

The increase under "Miscellaneous" is attributable principally to the grain compensation to the Health Department employés having remained unpaid owing to the late submission of pay-sheets.

The variation under "Municipal Debt" is due to an unusually large number of Municipal debenture-holders not having presented

their debentures at the Bank of Bombay for payment of interest and to some of them not having surrendered, up to the close of the year, debentures which were re-payable on or before 1st January 1900.

Renewal of Grants and Savings in Expenditure as per Statement C.

12. I now proceed to give below the purposes for which the more important portions of the unexpended balances, amounting to Rs. 9,51,910-13-6, under the various major heads, are required to be renewed in 1900-1901, and the causes contributing to the aggregate saving of Rs. 5,53,938-14-4.

General Superintendence.—The unexpended balance amounted to Rs. 42,230-15-4. Of this Rs. 33,494-7-3 are required to be renewed in 1900-1901, chiefly for the payment of printing, stationery, advertisement, contingent, telephone, ground rent, and repairs charges in connection with the Corporation and Standing Committee's Establishment, the Municipal Commissioner's Personal and General Offices, and the Accounts and Expenditure Audit Establishment; the necessary sum has also been reserved for the payment of legal expenses incurred during the past and previous years. The net saving, it will be seen, amounted to Rs. 8,736-8-1, principally secured partly by a saving of Rs. 984-14-2 in the Accounts and Expenditure Audit Establishment and Contingent grants owing to the Chief Accountant having proceeded on sick leave and to some of the members drawing less than the budgetted salaries; and partly by a recovery of Rs. 5,810-7-0 from the G. I. P. Railway Company for the costs incurred by the Municipality in 1898-99 in the suit filed against that Railway Company for refusing to allow the Water Works men to enter upon the Railway line to connect the Vehar pipe at Chinchpokli Level Crossing.

Assessment and Collection Department.—Out of the unexpended balance of Rs. 20,232-5-11, a sum of Rs. 15,034-3-4 is required to be renewed in 1900-1901 to meet unpaid Establishment and Contingent charges of the Assessment and Collection, the Licensing, and the Revenue and Refund Audit Offices Establishments; to defray the remuneration payable to Mr. Stevens for fixing the valuation of buildings and land in the City of Bombay vesting in Her Majesty; to meet Port Trust and B. B. & C. I. Railway Company's bills on account of Commission for collecting Town Duties; and the Establishment and Contingent charges in connection with the Land Conveyance Licence Establishment. The net savings amounted to Rs. 5,198-2-7, of which Rs. 1,635-11-1 were effected on the Establishment and Contingent grants of the Property and Wheel Tax Establishment, Rs. 1,124-9-4 on the grants for payment to the G. I. P. and the B. B. & C. I. Railway Companies for collection of Town Duties, and Rs. 2,422-0-9 on the Land Conveyance, Music, &c., Licensing Establishments and Contingent grants.

Fire Brigade.—From the total unexpended balance of Rs. 8,966-2-11 a sum of Rs. 6,519-7-11 is required to be renewed for payment of rent, repairs, stores, clothing, medicines and contingent grant charges and of

outstanding interest on debentures of the 4½ lakhs Fire Brigade Loan; thus the real saving amounted to Rs. 2,446-11-0, which was effected on the Establishment, rent, repairs, lighting, feed, clothing and medicines grants.

Maintenance of Public Gardens.—The unexpended balance under all the gardens (excepting that under New Works) amounted to Rs. 7,947-11-10, of which a sum of Rs. 6,337-9-9 will have to be renewed for carrying out certain improvements in the Zoological portion of the Victoria Gardens and for payment of stores, repairs and contingent charges in connection with the Victoria, Northbrook, Mahim and Malabar Hill Gardens. The net saving amounted to Rs. 1,610-2-1, of which Rs. 945-4-4 was effected on the Victoria Gardens Establishment, repairs and feed grants, and the balance of Rs. 664-13-9 on the other gardens.

Out of the unexpended balance of Rs. 11,140-4-8 under "Victoria Gardens, New Works," Rs. 8,909-3-10 are required to be renewed for the completion of different works undertaken in the Gardens, leaving a saving of Rs. 2,231-0-10, which was effected on the grants for the construction of quarters for the head animal-keeper and chawls for 20 Malis.

Public Works (Engineer's) Department.—The total grant allotted to the four branches of this Department aggregated Rs. 18,99,638-3-1, against which the actual expenditure amounted to Rs. 15,45,790-10-1, leaving an unexpended balance of Rs. 3,53,847-9-0, of which Rs. 2,85,895-4-7 are required to be renewed in 1900-1901, and Rs. 67,952-4-5 is an actual saving.

The major and minor heads are dealt with below :—

I.—General Superintendence and Miscellaneous Duties.—The variations call for no special remarks.

II.—Drainage.—There was an aggregate unexpended balance of Rs. 42,680-12-6 under this head, of which Rs. 13,226-12-1 will have to be renewed, and the balance of Rs. 29,454-0-5 has lapsed as an actual saving. The sub-heads under which the above amounts have lapsed are as under :—

A.—Miscellaneous Drainage.—The unexpended balance was Rs. 34,835-10-2, from which Rs. 8,962-3-7 are proposed to be renewed for payment of Establishment, stores, repairs, &c., charges, leaving a real saving of Rs. 25,873-6-7. Of this large saving, the major portion, *viz.*, Rs. 21,626-12-7, was nominal, being effected on the grant for supply of water for flushing chambers, flushing tanks and cisterns and for flushing sewers; the balance of Rs. 4,246-10-0 was saved principally on the grant for extra labour for cleaning pipe drains and for repairs and alterations to miscellaneous drains, gutters, &c.

B.—Maintenance of Love Grove Pumping Station.—From the unexpended balance of Rs. 4,612-0-0, a sum of Rs. 3,237-3-6 is required for renewal to meet Repairs, Rent, Water-supply, and Telephone Connection charges, leaving a net saving of Rs. 1,374-12-6, effected principally on the Contingent grant.

C.—Maintenance of Sluices.—There was a saving of Rs. 668-0-10 under "Materials, Repairs, Contingencies, &c., Grants."

D.—Maintenance of Colaba Pumping Station (Shone System).—The unexpended balance was Rs. 2,565-1-6, of which Rs. 1,027-5-0 will have to be renewed to meet charges on account of Stores, Telephone Connection and Carting Coal. The real saving—Rs. 1,537-12-6—accrued principally on the Establishment and Labour, Coal and Contingencies and Stores grants.

III.—Water Works Maintenance.—There was an unexpended balance of Rs. 98,895-4-11, of which Rs. 86,466-3-11 are required to be renewed for the following purposes :—

		Rs.	a.	p.
(1)	For payment of establishment, clothing, repairs, and sundry contingent charges	5,955	9	3
(2)	For adjustment of Meters issued from stock on hire, &c., and other Tools and Plant charges	23,693	9	4
(3)	For repairs to the Kasheli Embankment, Tansa Duct.	26,953	4	1
(4)	For sundry works, such as re-washing sand and other materials in filters at the Bhandarwada Reservoir, putting in filtering materials in the Malabar Hill Reservoir Filters, widening and repairing embankment on Vehar and Tulsi Lines, repairs of Meters and spare parts thereof, and alterations and other works in connection with tanks, wells and fountains...	29,863	13	3
	Total Rs. ...	86,466	3	11

The net saving amounted to Rs. 12,429-1-0, of which Rs. 10,002-8-0 were effected on the grants for materials for general work and repairs in and outside Bombay, and the balance of Rs. 2,426-9-0 under the different minor heads of the Contingent grant and the Pawai Establishment grant.

Adding to the above unexpended balance of Rs. 98,895-4-11, Rs. 21,604-14-9 and Rs. 97,950 on account of balances of the Water Works, New Works, and Debt grants, respectively, the total unexpended balance of the Water Works items aggregated Rs. 2,18,450-3-8, of which Rs. 86,466-3-11, Rs. 21,376-6-0 and Rs. 97,950, or a total sum of Rs. 2,05,792-9-11, will have to be renewed in 1900-1901, as shown at pages 68 and 73. Allowing for these renewals, the net saving on all the Water Works grants amounted to Rs. 12,657-9-9.

IV.—Streets and Buildings.—The total unexpended balance under this major head amounted to Rs. 2,10,955-11-0. Of this sum the actual savings total, Rs. 24,908-15-10, and the balance of Rs. 1,86,046-11-2, represents lapsed grants which are proposed to be renewed in 1900-1901. Details of the above unexpended balance and of the savings are shown below :—

A.—Inspection and Supervision.—From the unexpended balance of Rs. 5,206-15-7, only Rs. 294-7-6 are required to be renewed in 1900-1901 for payment of Establishment and Printing, &c., charges, leaving a net saving of Rs. 4,912-8-1, which accrued chiefly on the Establishment grant owing to the appointment of a Lighting Inspector having remained vacant throughout the year, to some of the employés not having been allowed the full budgetted salaries owing to their having been newly appointed to progressive appointments, and to other causes, such as absentees amongst the staff, &c.

B.—Public Lighting.—The unexpended balance amounted to Rs. 9,066-9-3, of which Rs. 2,029-8-1 are required to be renewed in 1900-1901 to meet the Gas Company's charges for shifting gas lamps at different places, grain compensation payable to lamp-lighters, &c. The net saving amounted to Rs. 7,037-1-2, of which Rs. 1,632-14-4 accrued on the Gas Lighting grant and Rs. 5,404-2-10 on the Kerosine Lighting grant. The latter saving is due to our having been able to obtain Kerosine oil at a favourable rate, *viz.*, Rs. 4-12-2 per case.

C.—Road Watering.—The whole of the unexpended balance of Rs. 19,498-3-5 is required to be renewed in 1900-1901. Of this, a sum of Rs. 2,712-13-6 is required for payment of certain charges for labour and hire of bullocks incurred in 1899-1900 and for the renewal of water tanks, frames, &c., in D Ward in place of those condemned and removed, and the balance of Rs. 16,785-5-11 for the purchase and fixing of new-pattern hydrants in the City.

D.—Roads, Footpaths, &c.—Rs. 19,904-15-6 out of the unexpended balance of Rs. 20,818-9-0 is required to be renewed in 1900-1901 for payment of charges for hire of cart and bullock pairs, ground rent, &c., incurred during the past year, leaving a small saving of Rs. 913-9-6.

E.—Street Improvements.—The whole of the grant for 1899-1900, *viz.*, Rs. 1,00,000, remained unexpended, the payments, amounting to Rs. 60,984-4-9, made during the year having been met from the unexpended balance of Rs. 92,290-9-2 out of the previous year's grants renewed in 1899-1900. It is proposed by the Executive Engineer to renew in 1900-1901 the above sum of Rs. 1,00,000, plus the balance of Rs. 31,306-4-5 of the previous year's grant, or Rs. 1,31,306-4-5 in all. The latter sum, together with the grant of rupees one lakh provided in the current year's Budget, will bring the total grant for expenditure on Street Improvements during 1900-1901 to

Rs. 2,31,306-4-5. As there is nothing before me to show that the whole sum of Rs. 2,31,306-4-5 is likely to be spent up to the end of 1900-1901, I am in communication with the Executive Engineer as to what sum should actually be renewed in this year. Pending the settlement of this question the sum proposed by the Executive Engineer to be renewed has for the present been included in this report in the figure of lapsed grants to be renewed in 1900-1901. The small saving of Rs. 300 under this head accrued on the renewed grant for house-number plates.

F.—Compensation for Insanitary Buildings demolished.—Out of the unexpended balance of Rs. 24,759-1-4, a sum of Rs. 13,013-4-3 only is proposed by the Executive Engineer to be renewed in 1900-1901; the balance of Rs. 11,745-13-1 has been treated as a saving.

New Works.—In the following table I have shown the unexpended balance of the grant for New Works, the amount required to be renewed therefrom in 1900-1901 and the actual savings:—

	Rs. a. p.	Rs. a. p.
Amount required for payment of charges for completed works and for the completion of works in progress—		
Water Works	*17,789 2 0	
Other Municipal Works	79,694 7 4	
		97,483 9 4
Amount required for works not taken in hand in 1899-1900—		
Water Works	*3,587 4 0	
Other Municipal Works	197 0 0	
		3,784 4 0
("Other Municipal" Works Rs. 79,891-7-4 + Water Works Rs. *21,376-6-0)=		1,01,267 13 4
Savings on Completed Works—		
Water Works	*228 8 9	
Other Municipal Works	10,048 9 4	
("Other Municipal" Works Rs. 10,048-9-4 + Water Works Rs. *228-8-9)=		10,277 2 1
(„ „ „ 89,940-0-8+ „ Rs. *21,604-14-9)=		Rs. 1,11,544 15 5

Public Health Department.—The total unexpended balances of the different branches of the Health Department aggregated Rs. 4,19,743-11-4, of which Rs. 1,63,092-8-0 are required to be renewed in 1900-1901, leaving a net saving of Rs. 2,56,651-3-4. Details of the principal heads under which the above unexpended balance accrued and of the amounts to be renewed under those heads are subjoined.

I.—General Superintendence.—There was an unexpended balance of Rs. 6,951-1-3, of which Rs. 1,978-1-5 are required to be renewed for payment of unpaid Establishment, Advertisement, Stationery, Contingent and Rent, &c., charges for fixing Wallace's Pail Depôts at the Girgaum and Kamatipura Night-soil Depôts, and for the purchase of furniture for the District New Offices. The net saving of

Rs. 4,972-15-10 was effected under the Establishment and Contingent grants, owing principally to the Health Officer having been temporarily re-transferred to Government from 26th July 1899 to 16th October 1899, and the Acting Health Officer drawing the minimum salary, and to the provision for rent for No. 1 Division Office, and the renewed provision for contingencies, &c., under the Reorganization Scheme not being required.

II.—Conservancy Branch.—The unexpended balance amounted to Rs. 4,72,496-10-0, of which Rs. 1,35,508-12-9 are required to be renewed in 1900-1901 for payment of Establishment, Haulage and Deonar Works Maintenance, Stores, Rent, Repairs, Water-supply, Lighting, &c., charges, for the purchase of new bullocks and the construction of new scavengering and drain carts, and for the purchase of new hose for reels. The net saving amounted to Rs. 3,36,987-13-3 as under:—

Particulars.	Unexpended Balance.	To be renewed in 1900-1901.	Actual Savings.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
I. Superintendence and Inspection	34,082 6 11	219 6 0	33,863 0 11
II. Veterinary Establishment	758 8 5	.....	758 8 5

(*i*) Water-supply	11,630 5 4	2,835 13 0	8,794 8 4
XII. Removing and re-erecting four sheds of Sankli Tauk Hospital	0 0 3	.....	0 0 3
Total...Rs.	4,72,496 10 0	1,35,508 12 9	3,36,987 13 3

The above large saving of Rs. 3,36,987-13-3 was due principally to the full labour and inspection staff provided under the

Reorganization Scheme not having been employed during the year, to a large portion of the feed grants having remained unexpended, partly in consequence of our not being able to obtain the requisite number of bullocks and partly to the cost of feed having amounted to about Rs. 17-4-0 per pair per month against the Budget Estimate of Rs. 20 per pair, and to the full budgetted provision for haulage charges not being required, partly owing to an over-estimate and partly owing to the running of the kutchra trains having commenced only from the 9th June 1899.

III.—Markets and Slaughter-houses.—From the unexpended balance of Rs. 7,800-8-10, a sum of Rs. 1,524-0-11 is required to be renewed in 1900-1901 to meet unpaid Rent, Repairs, &c., charges, leaving an actual saving of Rs. 6,276-7-11, which was effected chiefly on the grants for Lighting, Repairs and Grazing Cattle brought for slaughter.

IV.—Registration of Births and Deaths.—The unexpended balance amounted to Rs. 39,270-14-1, from which Rs. 2,542-2-3 are required to be renewed in 1900-1901 to meet Printing, Clothing, &c., charges, leaving a net saving of Rs. 36,728-11-10, which was due almost entirely to the Sub-Registrars, &c., provided for in the new scheme of registration not having been employed in consequence of a delay in introducing the new policy, and Rs. 3,064-12-10 were saved on the Office Establishment and Rent grants.

V.—Cemeteries.—The unexpended balance amounted to Rs. 3,163-13-9, out of which Rs. 873-10-7 are required to be renewed in 1900-1901, for payment of Advertisement, Rent and Repairs charges, and for the purchase of a horse; the balance of Rs. 2,290-3-2 was saved on the Feed, Water-supply, Stores and Establishment grants.

VII.—Mahaluxmi Dhobiwada.—Out of the unexpended balance of Rs. 3,100-1-5, Rs. 859-5-7 are required to be renewed in 1900-1901 to meet Rent and Repairs charges, leaving an actual saving of Rs. 2,240-11-10 effected on the Water-supply and Repairs grants.

VIII.—Infectious Diseases.—The unexpended balance amounted to Rs. 21,373-2-7, of which Rs. 18,853-14-7 are required to be renewed in 1900-1901 to meet water charges and expenses incurred in connection with measures for the suppression of the Small-pox Epidemic of 1900. The balance of Rs. 2,519-4-0 was saved on the Establishment, Feed, Repairs and Rent charges.

VI Laboratory, IX Milch Cattle Stables, X Tank Conservancy, XI Falkland Road Dharamshalla, and XII Vaccination.—The unexpended balances aggregated Rs. 3,546-9-11, of which Rs. 719-3-1 are

required to be renewed in 1900-1901 to meet unpaid Contingent charges in connection with the Laboratory, Milch Cattle Stables Ground Rent and Repairs charges and unpaid Establishment and Contingent charges of the Vaccination Department. The balance of Rs. 2,827-6-10 was saved principally on the Milch Cattle Stables Rent, Repairs and Water-supply grants and Stores and Establishment grants in connection with Tank Conservancy.

Dispensaries at Dongri, Kumbharwada, and Curry Road.—From the total unexpended balance of Rs. 1,713-14-11, a sum of Rs. 233-4-10 is required to be renewed to meet Medicines, Rent and Furniture charges in connection with the Dongri and Curry Road Dispensaries, leaving an actual saving of Rs. 1,480-10-1.

Police.—The whole of the grants, aggregating Rs. 3,601 for the construction of a two-seated latrine at the Bazar Gate Police Station and for additions and alterations in Byculla Police Quarters premises, is required to be renewed in 1900-1901 to carry out the said works.

Education.—The saving of Rs. 1,359-3-7 was effected on the grants for Victoria and Albert Museum and Joint Schools Committees' Establishment.

Miscellaneous.—The unexpended balances under the different heads amounted to Rs. 59,973-14-10, of which a sum of Rs. 54,357-5-11 is required to be renewed in 1900-1901 as under :—

(1) Rs. 3,134-3-4 under Pensions, Gratuities, &c., for payment of pension not drawn by different pensioners up to the close of 1899-1900 and for payment of compassionate allowances to the widows of certain employés who died last year.

(2) „ 2,311-14-9 under Discretional Contingencies for payment of certain charges sanctioned from this grant in 1899-1900.

(3) „ 40,608-11-10 under Grain Compensation to peons, &c., for payment to employés of the Health, Drainage and Water Works Departments.

(4) „ 5,837-8-0 for cost of printing and binding 550 copies of a Calendar of Municipal Records.

(5) „ 2,000-0-0 for honorarium payable to Mr. Barrow for his literary labours in preparing a Calendar of Municipal Records, &c.

(6) „ 465-0-0 for cost of printing the farewell address to Lord Sandhurst and the address of welcome to Lord Northcote.

Rs. 54,357-5-11

As items Nos. 4 and 5 have long remained unexpended, the Municipal Secretary addressed a letter to Mr. Barrow on 1st August 1900, enquiring as to what that gentleman's intentions are.

The balance of Rs. 5,616-8-11 under "Miscellaneous" was a saving on the grants for (1) Pensions, &c. (Rs. 2,712-4-11), (2) Discretional Contingencies (Rs. 2,203-12-6) and (3) other minor items (Rs. 700-7-6).

Municipal Debt.—Rs. 4,62,502-3-8 remained unexpended under Interest on Loans, Bank's Commission, &c., Charges and Sinking Fund and Repayment of Debt. Of this sum Rs. 2,47,901-13-7 being the outstanding interest as shown in detail in Appendices 1B, D, E, F, G, H, J, M and N, and Rs. 25,500 being the amount of 51 debentures of the Drainage Loan of 1878, which became repayable on or before 1st January 1900, but which were not surrendered by the holders for repayment up to 31st March 1900, are required to be renewed in 1900-1901. Thus the net saving amounted to Rs. 1,89,100-6-1 as shown below :—

	Rs.	a.	p.	Rs.	a.	p.
Savings on the grants for Commission payable to the Bank of Bombay and for Miscellaneous Loan charges				239	10	11
Savings in interest on Loans :—						
23¼ Lakhs Loan for Drainage & Water Works, Roads & other Works—short paid by the Bank to Bond-holders	0	0	7			
19½ Lakhs Loan for Sewerage, Roads and Sanitary Works due to the extra grant obtained during the year, not being fully required.	7	6	4			
Temporary Loans aggregating Rs. 35 lakhs taken from the Bank of Bombay—Saving due partly to the interest due on the Loans for the half-year ending 27th February 1899, having been paid in 1898-99 although provision for the same was made in the Budget for 1899-1900 and partly to the average rate paid to the Bank being 4·67 per cent. against an average rate of 7 per cent. per annum provided for in the Budget	1,70,530	13	0			
Permanent Plague Loan of Rs. 20 lakhs—Saving due to the interest on the 1st instalment of the Loan amounting Rs. 6 lakhs being required to be paid for a shorter period than that originally provided for	16,316	4	11			
				1,86,854	8	10
Investment of Interest realized on the Sinking Fund Investment due to the interest actually realized being less than that estimated				2,006	2	4
				Rs 1,89,100	6	1

		Rs.	a.	p.	Rs.	a.	p.
	Brought forward...				1,89,100	0	

Unpaid Interest to be renewed.—

5 per cent. Rs. 26,94,000 Drainage Loan of 1878 (as per Appendix 1-B)	21,550	0	0		
5 „ 44 Lakhs Sanitary Works Loan (do. 1-D)	22,850	0	0		
5 „ 12 Lakhs Drainage and Water Works Loan (do. 1-E)	28,712	8	0		
5 „ 7 Lakhs Sanitary Works Loan (do. 1-F.)	7,900	0	0		
5 „ Rs. 10,06,500 Miscellaneous Works Loan (do. 1-H)	725	0	0

4 „ 23½ Lakhs Loan for Drainage, Water Works, Roads and other Works (as per Appendix 1-N) ...	18,609	5	7		
Rs.	1,49,951	13	7		
5 „ Tansa Water Works Loan (do. 1-G)	97,950	0	0		
(Municipal Rs. 1,49,951-13-7+ Water Works Rs. 97,950.)=Rs.	2,47,901	13	7		
Unpaid Capital (to be renewed)—					
Drainage Loan of 1878.—One Debenture repayable on 1st January 1898, seven debentures repayable on 1st January 1899, and forty-three debentures repayable on 1st January 1900 (as per Appendix 1-A)	25,500	0	0		
				2,73,401	13 7
(Municipal Rs. 3,64,562-3-8 + Water Works Rs. 97,950)= Rs.				4,62,502	3 8

Investments.—The saving of Rs. 2,756-13-6 under Investment of the interest realized on the Net Premia, &c., Fund, is the result of the interest realized on the Fund during the year, which was to be reinvested, being less than the amount originally estimated, for the reason stated at page 47 of this Report.

D

SURPLUS CASH BALANCE.

13. The subjoined statement shows the state of the Surplus Cash Balance at the close of the year 1899-1900 :—

14. From the foregoing Statement D, it will be seen that, excluding the one lakh required by law, the year closed with a Surplus Cash Balance of Rs. 19,99,822-15-10. This is an advance on the original Budget Estimate of Rs. 12,34,222-15-10 and on the figure estimated at the time of preparing the Budget Estimate for 1900-1901 of Rs. 6,99,822-15-10. The latter increase is made up thus :—

	Rs.	a.	p.
Income realized in 1899-1900 in excess of the amount estimated while preparing the Budget for 1900-1901 (*Vide* page 42)	4,40,817	1	2
Savings in expenditure in 1899-1900 in addition to those estimated while preparing the Budget for 1900-1901 (*Vide* page 62)	1,55,939	3	11
Savings in the amount of Rs. 3,04,298 reserved in the Budget for 1900-1901 for additional grants to be sanctioned up to 31-3-1900 (*Vide* page 55) .	61,145	10	2
Less—Reduction in the Balance of Reserve Stock on 31-3-1900 (*Vide* page 93)	41,920	10	6
	6,99,822	9	9
Add—Difference between the amount of the actual surplus for 1898-99 and the amount appropriated in the Budget for 1900-1901 (*Vide* Introductory Remarks page 1.)	0	6	1
Total ...Rs.	6,99,822	15	10

15. To avoid any misconception in regard to the large surplus cash balance shown in the foregoing statement, it is necessary to point out that this balance is inordinately swelled by two factors, *viz.*, (1) the large receipts from town duties during the year under review (*vide* para. 5-*c*) and (2) the treatment as a recoverable advance of the sum of Rs. 10,60,024 contributed from current revenue resources towards Plague expenditure (*vide* para. 20).

It is estimated that, at a maximum, 3 lakhs of rupees will have to be refunded on account of duties levied on goods re-exported, thus reducing the Surplus Cash Balance to about 17 lakhs of rupees in round figures ; and if by the continuance of plague, this Municipality is placed in a position of inability to meet Plague expenditure entirely from Loan funds, aided by contributions from Government, it is possible that the alternatives of meeting part of the expenditure from revenue or further raising taxation may have to be faced. The adoption of the first alternative would mean a reduction in the Surplus Cash Balance to the extent to which revenue might have to contribute towards Plague expenditure.

The contingency may be a remote one, but I think it necessary to consider its possibility and to point out that our large Surplus Cash Balance at the close of the year is represented at its present figure owing to the exigencies of accounting, but that for purpose of careful financing, a *certain* reduction has to be allowed of 3 lakhs of rupees, and the possibility has to be borne in mind of a further reduction extending up to Rs. 10,60,024.

APPENDICES.

16. *Nos. 1-A and B.*—From the first statement it will be seen that owing to fifty-one debentures, one redeemable on 1st January 1893, seven redeemable on 1st January 1899 and forty-three redeemable on 1st January 1900, not having been surrendered by the holders thereof for payment up to the close of 1899-1900, a sum of Rs. 25,500 remained unpaid on account of the Drainage Loan of 1878, and has been renewed to meet the liability, when claimed. Statement B shows that the outstanding interest on this loan has been reduced from Rs. 22,762-8-0 on 1st April 1899 to Rs. 21,550 on 31st March 1900.

Nos. 1-C and D.—As usual, the amount of the interest paid since the raising of the 44 Lakhs Sanitary Works Loan to the end of 1899-1900, the amount of the principal already paid off, and the sum invested on account of Sinking Fund in respect of the loan are shown in Statement C. It will be seen from Statement *1-D* that the outstanding interest on the 31st March 1900, was less than that at the close of the preceding year by Rs. 1,512-8-0.

Nos. 1-E to R exhibit the outstanding interest on the different loans in the beginning of 1899-1900, the amounts due in that year, the amounts paid in that year, and the outstanding balances at the close of the year. The amounts of invested Sinking Fund on account of the different loans up to 31st March 1900, have also been shown in the respective statements. It will be seen from Statements *1-E and G* that there was a considerable increase in the amount of the outstanding interest on the 12 lakhs Drainage and Water Works Loan and the Tansa Loan at the close of the year, as compared with the close of the preceding year.

17. *No. 2.—Town Duty Statement.*—As usual this statement shows the various articles on which duty was levied at the time of import under the provisions of Section 192 (1) of the Municipal Act, and the refunds allowed thereon under Section 192 (2) on their export.

In the following table, I have contrasted the balances, Revenue and Refunds during the year with those of the preceding year :—

	1898-99.		1899-1900.	
	Rs.	Rs.	Rs.	Rs.
Opening balance	23,500		19,037	
Revenue	22,55,540		26,88,003	
		22,79,040		27,07,040
Deduct—				
Refunds	11,42,842		10,94,347	
Closing Balance	19,037		17,972	
		11,61,879		11,12,319
Net Revenue		11,17,161		15,94,721
Less—Cost of Collection, &c.		65,408		78,712
Net Revenue after payment of commission charges		Rs. 10,51,753		Rs. 15,16,009

The gross collections for the year were estimated at Rs. 22,02,000 and the refunds at Rs. 9,67,000 ; thus the net income from this source was estimated in the Budget at Rs. 12,35,000. The total realizations, however, were Rs. 4,86,003 more than the estimate principally under Grain, Wines and Spirits and Ghee. The refunds

were also in excess of the estimate by Rs. 1,27,347, chiefly under Grain. The net increase thus amounted to Rs. 3,58,656, which together with the reduction of Rs. 1,065 in the closing balance at the end of the year as compared with that in the beginning of the year, brought the total increase to Rs. 3,59,721. This increase is to a large extent only nominal as refunds to the extent of from Rs. 2 to 3 lakhs will have to be made in 1900-1901 for the reasons stated at page 46 of this Report.

Articles.	Actuals for 1898-99.	Actuals for 1899-1900.	More.	Less.
	Rs.	Rs.	Rs.	Rs.
Grain	6,35,223	11,91,437	5,56,214	...
Flour	101	82	...	19
Wines & Spirits	2,59,326	2,51,590	...	7,736
Beer	33,650	38,571	4,921	...
Sugar	8,97,752	7,43,912	...	1,53,840
Ghee	2,22,877	2,58,922	36,045	...
Timber ...	1,38,778	1,22,554	...	16,224
Firewood	67,833	80,934	13,101	...
Total...Rs	22,55,540	26,88,002	6,10,281	1,77,819
			1,77,819	
			4,32,462	

From the marginal figures contrasting the *gross* income from the duties levied during the year with those of the preceding year, it will be noticed that there was a considerable increase in the duty from grain due partly to the unusually high imports chiefly of Rangoon rice for the famine districts, and partly to the rate having been enhanced from annas 4 to annas 6 per candy from 1st April 1899. There were also increases under Beer, Ghee and Firewood. Under the other items, *viz.*, Wines and Spirits, Sugar, and Timber there were large decreases. The falling-off under Sugar is specially noticeable and might be attributable either to the countervailing duty imposed on foreign bounty-fed sugar or to the falling-off in the demands in the famine districts.

18. *No. 3* is the usual cash account statement exhibiting all cash transactions of the year, both Receipts and Disbursements, including adjustments, together with advances, deposits, investments, &c.

LOAN WORKS.

Drainage.

19. The sum of Rs. 67,831-13-4 spent in 1899-1900 on house connections in Colaba, Mandvi, Carnac, Mugbhat, Khamballa Hill, Parel and other districts brought the total expenditure upto 31st March 1900, on Drainage Works, sanctioned out of the 15 lakhs Loan (one of the 3 Sanitary Works Loans aggregating Rs. 44 lakhs), to Rs. 9,53,375-9-9, against the total sanctioned allotment of Rs. 10,27,052-14-9.

On the sewerage of Umarkhadi a sum of Rs. 4,213-15-10 was expended in 1899-1900, on account of law charges in connection with the suit filed against Messrs. Bulkley & Co. Thus the total expenditure, up to the close of March 1900, on Drainage Works, executed out of the 23½ lakhs Loan, aggregated Rs. 18,04,361-9-5, against the sanctioned allotment of Rs. 19,18,781-6-2.

With the expenditure of Rs. 3,195-15-3 incurred during the year under report on account of supervision charges in connection with the sewerage of the Mazagon District on the Gravitation system, and the erection of a vent-shaft at Babula Tank, the total outlay, up to 31st March 1900, on Drainage Works, carried out from the 15¾ lakhs Loan amounted to Rs. 5,36,834-6-9, against the allotment of Rs. 8,15,726 provided in the above Loan.

On the purchase of machinery for the sewerage of the Parel, &c., Districts sectional system, the sewerage of the Mazagon District sectional and the construction of a storm-water drain from the Wellington Fountain *via* the Bandstand to the sea, a further expenditure of Rs. 3,63,443-5-6 was incurred in 1899-1900. This raised the total expenditure, up to 31st March 1900, on Drainage Works, sanctioned out of the 25 lakhs Loan, to Rs. 7,46,457-5-5, against the sanctioned allotments of Rs. 12,45,052.

A further expenditure of Rs. 40,596-0-8 was incurred in the year under report on improvements in the existing side drains along Bhoiwada Cross Road and new side drains along portions of Dadar Road, the surface drainage of Kamathipura and the construction of a storm-water drain in Tardeo Road. Thus the total expenditure, up to 31st March 1900, on Drainage Works, sanctioned out of the 19¼ lakhs Loan, amounted to Rs. 1,05,547-3-9, against the loan allotments of Rs. 2,99,887.

The total expenditure up to 31st March 1900 on Drainage Works sanctioned out of savings on different Loans, at an aggregate estimated cost of Rs. 4,36,714, amounted to Rs. 3,24, 313-12-7, including Rs. 30,321-5-2 spent in the year under report on the conversion of the old engine house at Love Grove into an office and godown, and the construction of a shred lifter chamber, constructing masonry side drains in different places, constructing tidal flaps on ovoid sewers and other works.

As sanctioned in Corporation's Resolution No. 11306, dated 25th January 1900, a sum of Rs. 31,128-4-7 was advanced from surplus balances for the cost of obtaining advice from Mr. Santo Crimp on subsoil and surface drainage and other matters. This raised the total advances on account of drainage works from Rs. 37,466-13-9, at the close of 1898-99, to Rs. 68,595-2-4 on 31st March 1900.

WATER WORKS.

With the sum of Rs. 1,686-8-0 spent in 1899-1900 on account of cost of certain castings obtained from the Municipal Workshops for the Vehar Outlet Tower, the total expenditure up to 31st March 1900 on Improvements to the outlet towers at Vehar and Tulsi amounted to Rs. 1,970-6-4 against the allotment of Rs. 30,000 provided in the 15¾ lakhs Loan.

ROADS.

The payment of the Municipal Solicitors' charges, amounting to Rs. 151-8-0 in connection with the purchase of land for the road through Nowroji Hill, raised the expenditure incurred on

Roads executed out of the Rs. 10,08,500 Miscellaneous Works Loan, from Rs. 89,531-14-8 to Rs. 89,683-6-8 at the close of 1899-1900 against the allotment of Rs. 2,86,500.

The adjustment in 1899-1900 of the sale proceeds of certain land at Agripada reduced the expenditure on Roads and Streets in Agripada and elsewhere, executed out of the 35 lakhs Loan, from Rs. 15 lakhs to Rs. 14,99,564-1-6.

A further expenditure of Rs. 6,164-14-10 was incurred on the Wari Bunder Road and Victoria Road extension in 1899-1900. In addition to this expenditure, a sum of Rs. 1,56,500, which was received from the Port Trust as their contribution towards the construction of the Wari Bunder Road and was credited to that Road in 1895-96, was adjusted in the year under report by debit to the Wari Bunder Road and credit to Income and Expenditure account. Owing to the original credit the total actual cost of the road was not correctly represented in the Municipal accounts. Thus the total expenditure, up to 31st March 1900, on Roads executed out of the 15¾ lakhs Loan, amounted to Rs. 3,10,020-5-9 against the sanctioned amount of Rs. 6,33,548.

On the purchase and fixing of new pattern hydrants in the City for Road watering and Fire Brigade purposes, for which a sum of Rs. 50,000 was sanctioned from savings on different Loans, the total expenditure incurred up to 31st March 1900, amounted to Rs. 48,589-10-9 including Rs. 236-13-7 spent in 1899-1900.

SANITARY AND OTHER MISCELLANEOUS WORKS.

On the construction of latrines at Colaba, for which a sum of Rs. 24,598 was sanctioned out of savings on different Loans, the total expenditure incurred up to the close of the year amounted to Rs. 8,258-5-3, including Rs. 6,218-9-4 spent in 1899-1900.

A sum of Rs. 5,285-11-4 was expended in 1899-1900 on the construction of boundary walls around the Jewish and Mahomedan Burial Grounds at Mount Road. This raised the total expenditure on Burial Ground for Mahomedans and Beni Israels, for which a sum of Rs. 2,41,952 has been provided in the 15¾ lakhs Loan, to Rs. 2,11,652-4-5.

Including the small expenditure of Rs. 31-9-3 in 1899-1900 on account of the Municipal Solicitors' charges in connection with the purchase of land from Mr. Panthaki, the total expenditure on the purchase of land for Burning and Burial Grounds at Mahim (including cost of enclosure walls, &c.,) up to 31st March 1900 amounted to Rs. 11,189-9-3, against the allotment of Rs. 60,147 provided in the 19¼ lakhs Loan.

On the scheme for the disposal of Town Sweepings at Deonar, purchase of land at Narielwadi for extension of Burial Ground for Mahomedans, and extension of the Burial Ground at Sewri Cemetery, a further expenditure of Rs. 1,91,320-7-10 was incurred during the year. Thus the total expenditure up to 31st March 1900 on Sanitary Works executed out of the 25 lakhs Loan amounted to Rs. 9,97,408-4-7, against the sanctioned allotments of Rs. 12,28,111.

The total outlay up to 31st March 1900 on Markets constructed out of the 35 lakhs Loan, amounted to Rs. 3,72,835-15-1, including Rs. 609-11-11 spent in 1899-1900 on certain works carried out in the Bhuleshwar Market and School.

On the Curry Road Market and the Market at Chowpatti, a sum of Rs. 3,054-4-8 was expended on 1899-1900. This brought the total expenditure up to 31st March 1900 on Markets, sanctioned out of savings on different Loans, to Rs. 37,944-1-5 against the sanctioned grants of Rs. 35,599.

Including the expenditure of Rs. 246-15-0 incurred on certain works carried out at the Sankli Tank Fire Brigade Station the total expenditure up to 31st March 1900 on Fire Brigade Quarters and Stations constructed out of the 4½ lakhs Loan amounted to Rs. 4,08,320-6-1.

PLAGUE EXPENDITURE.

20. The total expenditure on plague operations up to 31st March 1900 amounted to Rs. 43,97,313-3-8 as shown below :—

		Rs.	a.	p.
Incurred by the Municipality up to the appointment of the Plague Committee (*vide* Appendix No. 8-A)...		5,19,867	5	5
Incurred by the Plague Committee	Rs. 14,93,450 8 11			
Incurred by the Municipality during the existence of the Plague Committee	„ 9,62,534 6 10			
(*Vide* Appendix No. 8-B)		24,55,984	15	9
Incurred by the Municipality after the dissolution of the Plague Committee in June 1898 (*vide* Appendix No. 8-C)—				
Up to 31st March 1900 ...	Rs. 5,55,035 6 4			
In 1899-1900	„ 8,66,425 8 2			
		14,21,460	14	6
Total Expenditure finally booked up to 31st March 1900	Rs.	43,97,313	3	8

The above expenditure was financed as under :—

From the 1st instalment of the Plague Loan of 20 lakhs already raised	Rs.	6,00,000	0	0
From the Government Provisional Contribution ...	„	14,50,000	0	0
Advanced from Loan Funds	„	12,87,289	7	3
Do. the Municipal General Fund ...	„	10,60,023	12	5
	Rs.	43,97,313	3	8

The expenditure on Plague Operations during the year, it will be seen, amounted to Rs. 9,53,969-3-6, thus :—

Incurred by the Municipality per Appendix No. 8-C.	Rs.	8,66,425	8	2
Do. do. do. No. 8-B.	„	74	13	11
	Rs.	8,66,500	6	1
Less.—				
Credit as per Appendix 8-B	„	1,595	6	11
	Rs.	8,64,904	15	2
Incurred on Health Camps, *vide* para. 21 ...	„	40,630	13	10
Incurred on Discretional Relief, *vide* para. 21. ...	„	48,433	6	6
	Total Rs	9,53,969	3	6

As compared with the year 1898-99 when the outlay amounted to Rs. 15,00,940-11-6, there was a reduction of Rs. 5,46,971-8-0, principally under Establishment, construction of Segregation Camps, Disinfectants, purchase of furniture, food-supply to Hospitals and Segregation Camps, clothing, &c.

The final adjustment of accounts in regard to expenditure incurred by the Municipality on behalf of Government and by Government on behalf of the Municipality is in progress.

21. *Government Contributions.*—The policy inaugurated by Government during 1898-99 of contributing towards the construction of Health Camps in the City and relieving distress was continued during the year under report. Advances, aggregating Rs. 90,000, were made by Government to the Municipality during the year. This, together with the balance in hand on 1st April 1899, brought the total sum available for expenditure during the year to Rs. 98,958-15-6. The payments made by the Municipality during the year amounted to Rs. 40,630-13-10, leaving a balance of Rs. 58,328-1-8 with the Municipality at the close of the year. The total advance by Government from the commencement of operations to the close of the year, amounted to Rs. 1,50,000 and the total expenditure incurred by the Municipality to Rs. 91,671-14-4.

The advances during the year for Discretional Relief amounted to Rs. 55,000 and this, with the balance on hand on 1st April 1899, brought the sum available for distribution during the year to Rs. 56,880-4-6. The payments made by the Municipality during the year aggregated Rs. 48,433-6-6, leaving an unexpended balance of Rs. 8,446-14-0 with the Municipality at the close of the year. The total sums placed at the disposal of the Municipality from the beginning of the policy of relief to the 31st March 1900, aggregated Rs. 95,000 and the total sums disbursed, Rs. 86,553-2-0.

RAISING OF LOANS.

22. In the Budget for 1899-1900, provision was made, as indicated in the margin,* for raising from the public during the year Loans aggregating Rs. 64 lakhs. Owing, however, to the receipt from Government of Rs. 4½ lakhs, in addition to Rs. 10 lakhs previously contributed by them towards Plague expenses, owing also to savings in revenue expenditure in 1898-99, and to anticipated savings on Loan Works in 1899-1900, it was decided, in Corporation's Resolution No. 937, dated 8th May 1899 to limit our further borrowing to *Rs. 50 lakhs only*, the reduction of Rs. 14 lakhs being made in the amount of the Plague Loan to be raised in that year. It was intended to advertise in the first instance for tenders for the 25 lakhs Loan only; but an offer having been received to under-write at once the *whole* of the long term Loans aggregating 44 lakhs, debentures to this extent were sold at 97 per cent. net with the approval of the Standing Committee conveyed in their Resolution No. 3374, dated 19th July 1899. Of the balance

*2nd Instalment of the 15¼ Lakhs Loan	Rs.	5,75,000
25 Lakhs Loan	,,	25,00,000
1st Instalment of the 19¼ Lakhs Loan.	,,	13,25,000
	Rs.	44,00,000
Loan for Plague expenses	,,	20,00,000
	Rs.	64,00,000

of 6 lakhs thus remaining, and appertaining to the short term Debenture Loan of 20 lakhs for Plague purposes, 3 lakhs were taken up by the Municipality on 15th July and 20th December 1899 for the investment of the 4 per cent. Municipal Loans Sinking Fund and of surplus moneys, and the balance of Rs. 3 lakhs was sold on 24th November 1899 with the Standing Committee's approval to the Bank of Bombay also at 97 per cent. net.

Rs. 1,06,500 from 15th July 1899.
„ 1,93,500 „ 20th December 1899.
Rs. 3,00,000

The discount at 3 per cent. amounting to Rs. 1,41,000, in respect of the above Loans, aggregating Rs. 47 lakhs (excluding the 3 lakhs taken up by the Municipality), was met from the Net Premia &c., Fund.

Though these Loans were realized at a discount, the results cannot, I think, be considered as otherwise than satisfactory, when viewed from the standpoint of Municipal credit throughout the country as also from the standpoint of the subsequent general depression of all securities caused by the famine and the political situation.

The raising of these Loans was a further distinct gain inasmuch as it enabled us to repay on the 30th September 1899 the two temporary Loans amounting to Rs. 35 lakhs taken from the Bank of Bombay (the interest charges on which were a heavy drain on our resources,) and to finance Plague and Loan Works expenditure during the year as also during 1900-1901, without resort to temporary expedients.

During the financial year and up to the date of repayment of the 35 lakhs temporary Loans to the Bank of Bombay the following were the rates of interest paid to the Bank by the Municipality:—

From 28th February 1899 to 12th April 1899 (44 days) 6 per cent.
„ 13th April 1899 to 31st May 1899 (49 „) 5 „
„ 1st June 1899 to 29th September 1899 (121 „) 4 „

The following are the particulars of the debentures issued in respect of the aforesaid Loans of Rs. 50 lakhs:—

2nd instalment of the 15¾ lakhs Loan.

18	Debentures of	Rs.	10,000	each	=	Rs.	1,80,000
30	„	„	5,000	„	=	„	1,50,000

LIABILITIES.

23. *Statement No. 4.*—The total Municipal Debt on 31st March 1900 amounted to Rs. 4,32,95,885-2-9 showing a *net* increase of Rs. 14,41,428-0-9 on the balance of the debt at the close of 1898-99.

The payment of Rs. 13,571-15-3 made to Government during the year reduced the balance of the Vehar Debt from Rs. 25,15,957-2-0 at the close of 1898-99 to Rs. 25,02,385-2-9 on 31st March 1900.

Debentures of the value of Rs. 45,000 were paid off during the year on account of the Drainage Loan of Rs. 26,94,000 of 1878; 51 debentures of Rs. 500 each or Rs. 25,500 in all were not surrendered by the holders for repayment up to 31st March 1900. The outstanding balance of this loan at the close of the year thus amounted to Rs. 19,23,000 against Rs. 18,97,500 per the terms of the loan. The difference of Rs. 25,500 has been renewed for the re-payment of the debentures, when presented by the holders, as already stated in para. 16.

The balance of Contractor's, &c., cash deposits was increased from Rs. 2,88,833-6-5 at the close of 1898-99 to Rs. 4,11,854-14-2 at the close of the year under report, owing to the receipt from Government of advances for discretional relief and construction of Health Camps, to receipt from the Port Trust of their share of the cost of certain drainage works at Mazagon, and to large deposits received for the Mazagon pipe sewer works and for disinfectants, road metal &c., contracts.

"Contractors', Government, &c. Paper Deposit," also shows an increase of Rs. 36,300, owing to the receipt of large deposits from the hay and grain contractors and the contractors for the supply of machinery for the sewerage of the Mazagon, Parel, &c., Districts on the Shone system.

The balance of Rs. 80-6-4 due to Government on account of Income Tax recovered by the Municipality was paid into Her Majesty's Treasury at the Bank of Bombay on 19th April 1900 and 15th May 1900.

The provisional contribution of Rs. 14½ lakhs received from Government for plague expenditure is still continued to be shown as a liability, pending the receipt of final orders from Government.

The total liabilities of the Municipality on 31st March 1900, including Rs. 2,42,17,327-7-2 on account of Water Works as per Appendix No. 7, amounted to Rs. 4,54,09,090-6-11 or Rs. 16,00,761-15-9 in excess of the liabilities on 31st March 1899.

ASSETS.

Statement No. 5, Suspense Accounts.

24. (*a*) *Recoverable Advances.*—Owing to the adjustment of the charges incurred at the Arthur Road Hospital in 1898-99 in excess of the Budget Provision (which, pending the necessary sanction to an extra grant, were debited to the Health Officer's Personal Account), of the advances made to the Executive Engineer in connection with the construction of Health Camps, &c., and of the advance made to the contractors for providing and erecting machinery for the sewerage of the Mazagon, Parel, &c., Districts on the Shone system, the balance of recoverable advances was reduced from Rs. 2,18,660-15-8 at the close of 1898-99 to Rs. 1,28,666-1-0 on 31st March 1900.

(*b*) *Private and Departmental Works Accounts.*—The private and departmental outstandings on 31st March 1900, (including those on account of the Workshops) amounted to Rs. 1,06,663-0-2 against Rs. 1,03,978-1-3 on 31st March 1899, showing an increase of Rs. 2,684-14-11.

The details of the Workshops outstandings amounting to Rs. 19,568-8-11 will be found at page 98 of this report.

Out of the total Private Works outstandings amounting to Rs. 49,779-8-9, the outstandings in respect of private works executed in connection with the treatment of down-take pipes of plague infected houses, &c., amounted to Rs. 42,186-12-10 against Rs. 51,440-11-5, on 31st March 1899, showing a decrease of Rs. 9,253-14-7. The recovery of these outstandings is being made slowly as house-owners are disputing the expenditure and the law-courts have often to be resorted to. The outstandings on account of ordinary private works and house drainage connection works amounted to Rs. 7,592-11-11.

The Departmental Works outstandings amounted to Rs. 37,314-14-6 against Rs. 29,302-1-2 in 1898-99. The comparatively large outstanding is attributable to the Departments concerned (especially the Health and Drainage Departments) not having submitted bills to this office for adjustment in time.

(c).—Invested Balances.

The following table shows that the invested balances on 31st March 1900 amounted to Rs. 73,37,066-12-1 against Rs. 49,54,928-6-7 at the close of 1898-99, thus giving an increase of Rs. 23,82,138-5-6, as under :—

Total...Rs.	49,54,928 6 7	73,37,066 12 1	25,35,897 7 0	1,53,759 1 6
			1,53,759 1 6	
		Rs.	23,82,138 5 6	

The large increase under "Surplus Cash Investments" is due partly to the replacement from Loan Funds of advances made from the Municipal General Fund for expenditure on Plague and Loan Works; partly to the large balances remaining to the credit of the Municipal Fund in consequence of a considerable portion of the budget grants having remained unexpended, and partly to the reserve of Rs. 4,75,000 maintained for the payment of the first contribution payable to the City Improvement Trust on 1st April 1900.

The increase under Loan Fund balances is attributable to such of the Loan Funds raised during the year as were not immediately required for expenditure having been kept invested.

The investments of the Sinking Fund instalments, aggregating Rs. 2,63,250, due during the year on the different 5 per cent., 4 per cent. and 3½ per cent. Municipal Loans, and of the interest, aggregating Rs. 1,07,993-13-8, accrued during the year on the Sinking Fund Investments, account for the increase of Rs. 3,71,243-13-8 under Investments of Sinking Fund.

The increase of Rs. 4,701-12-6 on the Municipal Buildings Fire Insurance Fund Investments is due to the investment of the Instalment of Rs. 3,000 for 1899-1900, and of the interest, amounting to Rs. 1,701-12-6, realized on the Fund during the year.

The investment of the interest amounting to Rs. 15,550-3-9, and Rs. 1,810-9-4 realized on the Worn-Out Water Mains Renewal Fund and the School Building Fund respectively during the year increased the investments of the respective Funds from Rs. 3,13,242-0-5 and Rs. 52,721-1-0 at the close of 1898-99 to Rs. 3,28,792-4-2 and Rs. 54,531-10-4 at the close of the year under report.

The investment of the interest realized on the Net Premia, &c., Fund during the year would have raised the balance of that Fund from Rs. 3,18,349-13-11 at the close of 1898-99 to Rs. 3,31,603-0-5. But owing to withdrawals from the Fund aggregating Rs. 1,67,012-4-0 to meet the discount of 3 per cent. and the stamp, printing, advertisement, &c., charges in connection with the New Loans, aggregating 50 lakhs, raised during the year, there was a net reduction of Rs. 1,53,759-1-6 on the balance of the fund at the close of 1899-1900.

The increase of Rs. 35,900 in the investment at the Bank of Bombay of Government and other Securities lodged by Contractors, &c., is due to the receipt of large deposits from contractors for the supply and erection of machinery for the sewerage of the Mazagon, &c., Districts on the Shone System and the Hay, and Grain Contractors, &c.

The details of the 5 per cent., 4 per cent. and 3½ per cent. Municipal Loans Sinking Fund, aggregating Rs. 26,33,659-2-4, will be found at page 19 of the Municipal Commissioner's Report.

COMPARISON OF ASSETS AND LIABILITIES.

25. A comparison of the Assets and Liabilities of the Municipality as brought out in Statements Nos. 4 and 5 shows that the Assets exceed the Liabilities by Rs. 1,45,27,946-11-4, as detailed below :—

Assets as per Statement No. 5.

				Rs.	a.	p.
(1) Cash Balance—Advances and investments ...				79,80,288	10	8
(2) Reserve Stock				8,33,633	13	4
(3) Buildings and other properties				63,32,241	4	0
(4) Overbridges, Roads, Drainage, and other works, executed out of Loan, &c., Funds...				4,71,38,186	9	11
	Total Assets Rs. ...			6,22,84,350	5	11
Liabilities *per Statement No. 4*	Rs...	4,54,09,090	6 11			
Balance of Plague expenditure up to 31st March 1900 which is shown as a recoverable advance, but which will subsequently have to be almost entirely written off by debit to Income and Expenditure account as not representing any actual Asset ...	,,	23,47,313	3 8	4,77,56,403	10	7
	Excess of Assets over Liabilities Rs.			1,45,27,946	11	4

The Reserve Stock balance of Rs. 8,33,633-13-4 does not *correctly* represent the *actual* value of the articles in stock, as explained in detail in my report dealing with stores.

The values assigned to buildings and other properties as per items Nos. 3 and 4 are also subject to revision when the valuation of Municipal properties now under revision by the Executive Engineer is completed, and when detailed lists of the valuation of the properties in charge of the different Departments are duly certified by the heads of the departments concerned.

WATER WORKS ACCOUNT.

26. *Appendices Nos. 6 and 7.*—The above Appendices exhibit the Income and Expenditure, and the Assets and Liabilities, respectively, of the Water Works Department, as required by Resolution No. 10625, dated 22nd December 1891, of the Standing Committee.

From *Appendix No. 6* it will be seen that the Income was *more* than the expenditure by Rs. 2,22,728-2-5, a result which has been brought out for the first time since the year 1881. The increase is,

however, nominal and has been entirely obtained from departmental water-supply and from charges, amounting to Rs. 2,11,414-2-10, made for the first time for water supplied to public latrines and urinals, flushing chambers and flushing tanks and cisterns and for water consumed for flushing sewers and gullies and playing fountains on the public roads.

Eliminating the inter-departmental charges aggregating Rs. 3,78,584-6-7, the deficit for the year works out to Rs. 1,55,856-4-2.

Appendix No. 7 shows that the Assets exceed the Liabilities by Rs. 38,97,485-13-4 as under :—

	Rs.	a.	p.
Assets	2,81,14,813	4	6
Liabilities...	2,42,17,327	7	2
Excess of Assets over Liabilities...	Rs. 38,97,485	13	4

This excess of Assets over Liabilities is the result principally of the repayment of debt charges aggregating Rs. 37,40,723-0-7 and the creation from the General Municipal Revenues of a Worn-Out Water Mains Renewal Fund, &c.

STORES.

27. The reserve stock on 28th February 1900 stood at Rs. 8,33,633-13-4 as compared with Rs. 8,75,554-7-10 on 28th February 1899, thus showing a decrease of Rs. 41,920-10-6.

The stocks were distributed between the various departments of the Municipality at the close of 1898-99 and 1899-1900 as under :—

Departments.	1898-99.	1899-1900.	More.	Less.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
General Stores ...	48,124 7 3	46,341 2 2	...	1,783 5 1
Water Works ...	4,14,541 10 11	4,05,647 12 0	...	8,893 14 11
Drainage	3,95,467 9 9	3,64,424 2 3	...	31,043 7 6
Executive Engineer ...	17,420 11 11	17,220 12 11	...	199 15 0
Rs. ...	8,75,554 7 10	8,33,633 13 4	...	41,920 10 6

Though the decrease in our reserve stocks during the year may be considered satisfactory, much remains yet to be done before the manipulation and valuation of our stores can be said to be efficient.

The subject has, however, received considerable attention during the last two years and much progress has been made in disposing of useless and obsolete stores and in affixing market values to stores which have been lying unutilized for years.

The effect of this action will not, however, appear till the adjustments are made in the accounts for the year 1900-1901.

I might mention, however, that at the General Stores certain stoneware pipes and other material, which had been burdening our balances for years, as they were entirely useless for Municipal purposes, were sold by public auction during the year, and a fictitious asset of nearly Rs. 29,000 will thus in future disappear from our accounts.

The balance of stock at the Water Works Stores at Chinchpokli, as per Return submitted to this Office, was Rs. 4,15,491-6-7. But as the return was submitted by the Water Works Department very late in the current year, *i. e.*, only 9th August 1900, it was not possible to examine the same and adjust the Profit and Loss in the accounts for the year under report. The difference between the balance shown in the return of the Water Works Department and that shown above will, therefore, be adjusted in the accounts for 1900-1901.

The large reduction of Rs. 21,043-7-6 in the balance of stock in charge of the Drainage Department was due to the issue of stoneware pipes, &c., for the different Sewerage Works.

The verification and revaluation of our stock, suggested in my No. 8089, dated the 26th January 1899, was commenced during the year under review. The Drainage Department first received attention. The revaluation brought out a loss of over one and-a-quarter lakhs, and though a revision of the figures in conjunction with the Deputy Executive Engineer, Drainage, may result in the loss being reduced, there is no doubt that a very considerable reduction in the book value of these stores must ensue.

It was unfortunately possible to verify and revalue none but the Drainage Department Stock during the period estimated for the process, and the question of having the stock at the Paltan Road and Chinchpokli Stores similarly verified and revalued is now under consideration.

In subjoining the usual statement of the principal articles held in stock at the Paltan Road Stores, I might mention here that the total purchases received at this Depôt aggregated Rs. 1,68,914-7-1 and the total issue Rs. 1,73,082-7-1.

List of Principal Articles in the Municipal Stores at Paltan Road on 1st March 1900.

Total...Rs.		1,43,355 15 10		1,71,476 6 2

There was an increase of Rs. 17,797-0-9 in the total expenditure on labour and stores during the past year as compared with the preceding year, owing principally to the works of providing and fixing fencing alongside the Municipal Railway between Curla and Deonar and making 137 dust-bin carts for the Health Department, both of which were estimated to cost over Rs. 27,000, having been carried out in the Workshops.

By charging as usual 35 per cent. on the actual cost of establishment and stores on all the jobs executed in the shops, and by charging an additional 15 per cent. on private works, the Workshops realized a sum of Rs. 38,149-0-7 during the year including the hire of the pumping engine and other extra charges as detailed in the margin.* Over $\frac{1}{4}$th of the above sum of Rs. 38,149-0-7 was obtained on repairs to Health Department carts and $\frac{1}{2}$ on repairs to watering carts, Engineering Department, as will be seen from the following details :—

	Rs.	a.	p.
* 35 per cent. Charges...	37,712	2	11
15 " "	161	6	2
Hire of Pumping Engine	240	7	6
Allowance to Workshops on account of Stationery, &c., for working the Garlick Incinerator	35	0	0
Total Rs.	38,149	0	7

Nature of work done.	Actuals.	Amount charged, including 35 per cent. & 15 per cent.	Amount of percentage charged over the actuals.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Private works	796 15 11	1 352 5 3	555 5 4
Departmental works	1,00,222 6 5	1,37,816 1 8	37,593 11 3
Total..Rs.	1,01.019 6 4	1,39,168 6 11	38,149 0 7
Repairs to scavengering, drain and hand carts	20,295 0 10	27,398 4 10	7,103 4 0
Do. night-soil carts	6,995 11 9	9,444 4 2	2,448 8 5
Total repairs to Health Department carts..	27,290 12 7	36,842 9 0	9,551 12 5
Repairs to watering carts	5,171 1 1	6,980 14 10	1,809 13 9
Total..Rs.	32,461 13 8	43,823 7 10	11,361 10 2

Adding to the above surplus of Rs. 38,149-0-7 derived by the percentage charged for covering shops, supervision, repairs, &c., charges, the sum of Rs. 1,482-11-4 obtained by the sale of unserviceable stores, &c., the gross earnings of the shops during the year amounted to Rs. 39,631-11-11, from which the following establishment, shop, supervision, repairs, &c., charges, amounting to Rs. 28,770-5-7, were defrayed, thus leaving a net profit of Rs. 10,861-6-4 :—

	Rs.	a.	p.
Supervising Establishment	7,616	3	1
Stores Establishment	780	0	0
Shop Charges	13,920	1	10
Purchase of a Tyre-setting Machine	6,250	0	0
Repairs Charges	204	0	8
Rs.	28,770	5	7

The above profit of Rs. 10,861-6-4 is less than that realized in the preceding year by Rs. 3,222-4-2 and the decrease is accounted for by the purchase out of the profits of a Hydraulic Wheel Tyring Machine at a cost of Rs. 6,250. It may be noted here that, as was the case in the preceding year, the rent, amounting to Rs. 7,062, for 1898-99, claimed by Government in respect of the ground occupied by the

Workshops remained unpaid, pending the settlement of the dispute with Government. Had the rent been paid, the net profit would have been reduced to Rs. 3,799-6-4 only.

The Workshop outstandings on account of completed works for the year amounted to Rs. 9,256-7-10 against Rs. 5,188-12-7 in the preceding year, the increase being due to three bills, aggregating Rs. 8,376-6-3, against the Drainage Department having remained unadjusted, as they were not submitted to this office duly certified before the accounts were closed. The outstandings on account of incomplete works amounted to Rs. 10,312-1-1 against Rs. 15,324-6-3 at the close of 1898-99. The total outstandings thus amounted to Rs. 19,568-8-11, or Rs. 944-9-11, less than in the preceding year.

The incomplete jobs comprised the following:—

	Rs.	a.	p.
(1) Repairing 50 iron tree guards of Road Department ...	112	4	11
(2) Making 7 flexible standpipes for A Ward	313	5	0
(3) Making 43 drain carts for the Health Department ...	2,565	1	4
(4) Renewing hearse No. 6 for the Health Department ...	201	4	3
(5) Repairing 15 pairs of leather sleeves of B Ward, Health Department	4	0	9
(6) Repairing 1 standpipe and 1 iron hand-barrow for Victoria Gardens	4	11	7
(7) Repairing 12 sluices for Water Works Department ...	203	4	10
(8) Making 8 sluice gates for Worli, Drainage Branch ...	6,216	1	4
(9) Renewing the cemetery door at Sewri, Executive Engineer's Department	6	10	9
(10) Making 4 hand carts and 24 ladders, &c., in connection with the rescue of persons from fallen buildings, Executive Engineer's Department	647	10	10
(11) Making 2 ferrotype frames with 2 zinc trays for Special Drainage Department	13	12	1
(12) Making one table & repairing 2 stationery cases for the Municipal Secretary's Office	23	10	5
Total... Rs.	10,312	1	1

GENERAL.

29. The sums that passed annually through the hands of the Paymaster for payment to Municipal employés, the unpaid wages credited to deposit account, and the net unpaid time-barred wages credited to the Municipal Fund as Miscellaneous Savings since 1893-94, are shown below :—

Years.	Sums handed over for payment to employés. Rs.		Net unpaid wages credited to Savings. Rs.	Deposit Account. Rs.
1893-94	16,27,172	Forfeited under the statute of limitation.	4,362	8,950
1894-95	16,60,124		3,317	1,805
1895-96	18,41,892		3,392	974
1896-97	18,34,083		5,196	21,874
1897-98	19,31,711		12,420	14,575
1898-99	22,98,456		5,314	11,874
1899-900	25,18,276		3,024	17,788

From the above figures it will be seen that the work devolving on the Paymaster is still on the increase and is still further likely to be augmented if the re-organization scheme of the Health Department is introduced in its entirety.

Cash received	Rs.	2,77,71,678	7 0
„ paid	„	2,82,57,970	0 11
	Rs.	5,60,29,648	7 11
Adjustments	„	1,34,97,047	10 1
Total..	Rs.	6,95,26,696	2 0

The gross transactions of the Municipality during the year including adjustments, transfers, &c., aggregated over Rs. 695¼ lakhs, as shown in the margin against:—

Rs.	356	lakhs in	1898-99
„	447½	„	1897-98
„	285½	„	1896-97
„	236	„	1895-96
„	196½	„	1894-95

The above large increase in the gross transactions for the year was due principally to the manipulations of the Loan Funds received during the year.

I subjoin the usual comparison with previous years of the number of receipt and disbursement vouchers scrutinized by this office and passed through the accounts during the year:—

Year.	No. of Receipt Vouchers.		No. of Debit Vouchers.		Total including Journal Vouchers.
1886-87	7,040	+	36,966	=	44,006
1891-92	20,093	+	43,918	=	64,011
1895-96	24,407	+	46,243	=	70,650
1896-97	21,336	+	50,327	=	71,663
1897-98	22,217	+	53,907	=	76,124
1898-99	22,039	+	57,798	=	79,837
1899-1900	25,044	+	61,429	=	86,473

It will be observed from the above figures that the number of vouchers scrutinized during the year under report was nearly double the number examined in 1886-1887. It is moreover the highest ever received in this Department. As compared with 1895-96 the year preceding the commencement of the Plague, the increase in the number of vouchers was over 22 per cent.

With the increase in the Audit work, the correspondence work has also considerably increased, as will be seen from the following figures:—

	1896-97.	1897-98.	1898-99.	1899-1900.
Inward letters (exclusive of Vouchers & remittance reports.)... ...	20,579	20,362	22,545	23,676
Outward letters (exclusive of intimations sent to & indents for stores on Contractors, &c.)...	5,665	6,117	10,433	10,636

With an appreciable increase in the number of inward letters the number of outward letters shows an advance of nearly 74 per cent. over 1897-98 and of over 87 per cent. on the number for 1896-97.

It has further to be considered that the work of arranging for the supply and control of all stores required for plague purposes devolves upon this department and with the supervising staff practically stationary, during a period of extraordinary pressure, it has required very great efforts on the part of all concerned to keep pace with the increased volume of work.

I regret to observe that this year owing to the unusually long delay caused by some of the departments in submitting the vouchers and returns required in connection with the closing of the accounts for 1899-1900, I was not able to finally close my books until about the middle of August and the preparation of this report was consequently delayed. The last list of lapsed grants was received by me on 30th July 1900 and the Water Works Stock Return only on the 9th August 1900.

PERSONAL.

30. I was on sick leave from 20th May 1899 to 19th May 1900, and Mr. W. Pearson acted for me.

Mr. Maneckshah C. Talleyarkhan continued to discharge the duties of Deputy Accountant with satisfaction.

It seems almost superfluous for me once more to bring to notice the invaluable aid of Mr. Rattonji Furdoonji Khambatta. While his services have been recognized by a temporary increase of pay, I trust it may be possible in the near future to permanently improve his status.

APPENDICES

TO THE

CHIEF ACCOUNTANT'S REPORT

FOR 1899-1900

135058

No. 1 A.

BOMBAY 5% MUNICIPAL LOAN OF 1878 (Rs. 26,94,000).

Raised in two instalments on 1st November and 1st December 1878 as per Corporation's Resolution No. 1296, dated 10th September 1878, and Government Resolution No. 2951, dated 28th September 1878.
Wholly repayable on 1st January 1919.

† 83 Debentures of the value of Rs. 41,500 were paid off; only one debenture, No. 810, for Rs. 500 remained unpaid, as it was not presented for repayment between 1st January 1893, the date on which it became repayable and the close of the past year.

‡ 91 Debentures of the value of Rs. 45,500 were paid off; seven Debentures, bearing Nos. 1388, and 1437/42 remained unpaid, as they were not presented for repayment between 1st January 1899, the date on which they became repayable and the close of the past year.

* 76 Debentures of the value of Rs. 38,000 were paid off; forty-three Debentures bearing Nos. 1475/85, 1522/6, 1537, 1550/1, 1555/8, 1571/86, 1590/8 remained unpaid.

NOTE.—Rs. 25,500 have been renewed to meet claims during 1900-1901 of the above fifty-one unpaid Debentures, if presented by the holders.

License and badge fees.	11,000 0 0	11,359 3 0	359 3 0	.....	.....
Tolls	15,000 0 0	11,928 14 0	.....	3,071 2 0	.....
Total ...	57,99,000 0 0	57,92,906 8 9	32,126 1 1	38,219 8 4	6,093 7 3

2. As compared with the total collections for 1898-99, which amounted to Rs. 47,85,033-5-10, the increase for 1899-1900 is Rs. 10,07,873-2-11.

3. The outstandings on the 31st March 1900, including Wheel Tax, were Rs. 1,79,063-9-1, as against Rs. 1,13,477-4-5 on 31st March 1899. Out of the balance of Rs. 1,79,063-9-1, Rs. 97,965-8-5 have been accounted for up to 15th July 1900, leaving an outstanding for all previous years of Rs. 81,098-0-8, of which the larger items are Disputed Bills Rs. 50,098-15-2 and Departmental Bills for Adjustment Rs. 9,401-15-10, the rest being recoverable, except Rs. 87-14-3 which are irrecoverable.

4. The total collections for the past five years, exclusive of Miscellaneous Receipts, were :—

	Rs.	A.	P.
1895-96	43,51,271	11	4
1896-97	41,76,528	0	6
1897-98	44,71,371	12	10
1898-99	47,85,033	5	10
1899-1900	57,92,906	8	9

Registration of Properties.

5. The following table gives the details of the number of properties in the Assessment Book during the past five years :—

Years.	Classification of properties according to description.				Classification of properties according to liability to General Tax.			
	Buildings.	Salt-pans.	Lands (including tanks, wells, &c.).	Total.	Number assessed for the General Tax.	Number exempted or compounded for on special terms.	Small plots of unproductive lands for which no bills are issued.	Total.
1	2	3	4	5	6	7	8	9
1895-96 ...	35,083	175	17,241	52,499	40,318	4,493	7,688	52,499
1896-97 ...	35,495	146	17,318	52,959	40,653	4,561	7,745	52,959
1897-98 ...	35,091	146	17,928	53,165	40,685	4,578	7,902	53,165
1898-99 ...	34,805	146	18,377	53,328	40,822	4,585	7,921	53,328
1899-1900	34,692	146	18,664	53,502	42,231	4,724	6,497	53,502

6. The recorded assessments of properties contrasted with those of the previous four years are as under :—

Years.	Opening assessment (gross).	Amount after disposal of complaints.		Amount of subsequent reductions during the year by demolitions and complaints.	Gross amount after deductions of subsequent reductions.	Subsequent enhancement (New buildings, enlargements and under-assessments) gross.	Total gross assessments.	Increase. Final difference over preceding years gross assessment.	Rateable assessment.	Classification of rateable assessments.			
		No. of complaints against opening assessment.	Gross assessment.							Rateable assessments chargeable with General Tax.	Rateable assessments exempt from General Tax.	Assessments for which no General Tax bills issued.	Total rateable assessments.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

12. The total demand on account of Property Taxes amounted to Rs. 56,46,145-3-10, to which is to be added Rs. 16,346-10-3, on account of previous years, and Rs. 3,750 paid by Government in lieu of General Tax for past years on account of additions and alterations to Government buildings since the last award, making a total of Rs. 56,66,241-14-1.

13. Of the above demand, Rs. 98,946-12-8 were allowed as $\frac{1}{5}$th drawback on the General Tax, Section 158 (2) of the Act.

14. The following bills for Property Taxes were issued during 1899-1900 :—

For which year.	Bills issued		Remarks.
	No.	Amount.	
		Rs. a. p.	
1893-94	1	2 5 5	
1894-95	2	9 5 8

Total... ...	9	...	2	...	7	9

28. The attached Tables I to XVIII show the details of the working of the Department during 1899-1900.

29. The increase in the General Tax from 9½ to 12½ per cent. and the continued depressed state of the City both in its health and trade has made the collection of Taxes more difficult. The staff with some few exceptions has worked satisfactorily.

30. A few more permanent hands are wanted both in the in-door and out-door branches.

31. There has been no change as regards the Head of the Department during the year under report.

I have the honor, to be,
Sir,
Your most obedient servant,
R. P. BRUNTON.
Assessor and Collector.

Table I.

1—REVENUE AUDIT.

1.—Assessor and Collector's Department.

(a) *Ward Offices.*

2. The balances and books of the 61 Ward Clerks in the seven wards of the City were duly examined at the end of each quarter. The amount of audit work done on each of these occasions is shown in detail in Appendix **A**, the totals being transcribed below for ready reference :—

Ward Balances Examined.

On 5th April 1899.		On 1st July 1899.		On 2nd Oct. 1899.		On 3rd Jan. 1900.		Total.	
No. of Bills.	Amount.	No. of Bills.	Amount.	No. of Bills.	Amount.	No. of Bills.	Amount.	No. of Bills.	Amount.
	Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.
3,753	1,13,059 0 0	18,028	10,97,298 5 10	4,259	1,44,396 14 5	19,575	10,87,221 12 1	45,615	24,41,976 0 4

3. The 45,615 bills for Rs. 24,41,976-0-4 were duly checked in detail with the Ward Office Bill Book, Form 16 (every entry in which was subjected to scrutiny), and in totals, which were themselves tested with the book, kept under para. 9, at page 155 of the Manual, which is practically the Ward Clerk's Ledger. They were also checked with the Head Office Accounts (Forms 8 and 9) both in detail and in totals respectively.

(b) *Head Office.*

4. The Assessment Book in both its parts, one for the General Tax and the other for the Water and Halalkhor Taxes, was duly examined, and the exemptions from the payment of the General Tax, the Water Tax, and the Halalkhor Tax were duly checked with a view to ascertain that no property liable to pay any or all of these taxes had escaped

assessment. Appendix **B** shows the work done in detail, the following being an abstract of its totals :—

Total No. of Properties on the Assessment Book.	Of which number exempted from payment of						Remainder, which pay		
	The General Tax.				The Water Tax.	The Halalkhor Tax.	The General Tax.	The Water Tax.	The Halalkhor Tax.
	Religious and Charitable Institutions.	Properties vesting in, or occupied by the Corporation.	Properties of small value, for which no Bills are issued.	Total.					
53,797	1,887	1,188	7,316	10,391	18,013	18,755	43,406	35,784	35,042

5. The Vehicle and Animal Tax Book, kept under Section 186 of the Act, was also examined, and all the entries therein checked with the Quarterly Returns of the Ward Superintendents, and, where necessary, also with the owners' returns, under Section 187, and with the charges made for the preceding quarters. The following table shows the total number of entries so checked for each quarter, Appendix **C** giving the details for each ward :—

1st Quarter.	2nd Quarter.	3rd Quarter.	4th Quarter.	Total.
3,922	4,558	5,033	5,151	18,664

6. As the year recognised by the Bombay Act VI of 1863 is the calendar year, the revenue from the tax on Public Land Conveyances, licensed by the Commissioner of Police under that Act, was also audited for the twelve months, from 1st January to 31st December 1899, the certificates of issue of licenses supplied by that Officer under arrangements made with him having been duly checked with the register now kept by the Chief Accountant, instead of by the Superintendent of the Byculla Ward as in former years. The following table shows the work done :—

Description of Public Land Conveyances.	No. of Certificates or Vouchers.	Amount of Revenue, including Fees for Badges, &c.
		Rs. a. p.
Victorias	1,440	56,754 4 0
Labour Carts	7,236	1,07,466 14 0
Riding Hackeries	405	4,477 12 0
Total	9,081	1,68,698 14 0

7. Appendix D shows the number of claims to one-fifth drawback under Section 158 (2) of the Act, which were scrutinized by this office during 1899-1900, the totals being abstracted below :—

1st Half of 1899-1900.			2nd Half of 1899-1900.			Totals for the Year.		
Number of claims received	Number of claims admitted.	Amount of drawback sanctioned.	Number of claims received	Number of claims admitted.	Amount of drawback sanctioned.	Number of claims received	Number of claims admitted.	Amount of drawback sanctioned.
		Rs. a. p.			Rs. a. p.			Rs. a. p.
7,302	5,506	49,033 7 5	8,097	5,871	50,129 5 3	15,399	11,377	99,162 12 8

8. The alteration in value and in demand made through the Increase and Decrease Forms 11, 11A and 11B, were duly checked with the authority for such alterations, as contained in your orders in the Tabulated Ward Report (Form 13), and in separate sanctions recorded in the Audit Note Books kept in this office. Appendix E exhibits the details of the alterations, of which the following are the totals :—

Total number of Increase and Decrease entries in Forms 11, 11A and 11B.	Original Valuation.	Amended or Revised Valuation.	Difference, being net Increase.
1	2	3	4
	Rs.	Rs.	Rs.
6,699	48,70,692	58,52,569	9,81,877

9. The number of complaints against valuations under Section 163 heard by the Revenue and Refund Audit Officer were 915 ; in C or Bhuleshwar Ward 335, in E or Byculla Ward 430, in G or Mahim Ward 150, giving a total of 915. The total number of decisions on complaints against amendments under Section 167 of the Municipal Act, which were scrutinized by this office, amounted to 240 from all the seven wards of the City.

10. Irrecoverable bills for Rs. 922-2-6, as per details given in the subjoined table, were scrutinized and submitted to you in the prescribed form for action under Section 216 of the Act :—

Wards.	No. of Bills.	Amount.					
		Tax on Vehicles and Animals.	Property Taxes.	Charges for Water by meter measurement.	Special Halalkhor Tax.	Notice Fee.	Total.
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total.	101	538 1 5	366 11 8	...	17 5 5	...	922 2 6

The Standing Committee sanctioned their being written off in their Resolutions Nos. 118, 3788 and 12544, dated 5th April 1899, 2nd August 1899 and 14th February 1900, respectively.

11. The preliminary list of voters under Section 19 for the final Election Roll under Section 21 was duly scrutinized.

12. The demands, collections, and balances of the Department at the close of the year, as duly audited in the manner contemplated by the Manual, are shown in Appendix **F** in detail, and summarized in the following table :—

———	The General Tax.	The Water Tax.	The Halalkhor Tax.	The Vehicle and Animal Tax.	The Tax on Public Land Conveyances, including Badges, &c.	Meter Hire.	Total.

(*b*) Irrecoverable bills written off	241 11 2	71 15 11	77 13 7	538 1 5	.....	.....	929 10 1
Total of IV. ...	29,86,307 7 5	17,62,773 1 9	7,30,096 15 3	1,62,829 13 5	1,68,698 14 0	15,345 15 9	58,25,952 3 7
V.—Balance at the close of the year...	76,243 12 0	62,833 10 3	31,133 15 6	8,852 3 4	.....	2,393 10 8	1,81,557 3 9

The collections were checked with receipts passed by the Chief Accountant, as also with his totals under each head, and the balances by an examination of the bills actually on hand in the several Ward Offices on 2nd April 1900. They were found to be correct.

2—Engineer's Department.

13. The Revenue Books kept in the Streets and Buildings, Water Works, Drainage, and Special Drainage Branches of the Engineer's Department were duly checked each month with the permits, receipts, vouchers, and other papers supporting the several entries therein, the object of the audit being to see that the charges were correctly calculated at rates duly sanctioned, and that the collections as shown by the books were all paid into the Municipal Treasury. The following table shows the work carried out in detail :—

No.	Items.	Number of Vouchers examined.	Amount.		
			Rs.	a.	p.
1	Projections :—Verandahs, Balconies, Rewas, Weather Frames, &c.	25	3,381	14	4
2	The erection of Scaffolding, &c., on public land.	436	3,551	15	5
3	Opening Roads	1,767	2,452	0	0
4	Temporary occupation of public streets on marriages and other occasions	649	3,710	0	0
5	Licenses issued to Plumbers	105	1,050	0	0
6	Licenses issued to Surveyors	34	1,800	0	0
7	Supplying copies of office records and giving evidence, &c.		130	14	0
8	Inspecting sanitary fittings		50	0	0
9	Sale of Tender forms		424	1	0
10	Sale of rights of catching fish, cutting grass, collecting fruits and drawing toddy, &c. ...		24	0	0
11	Hire of Steam-rollers, Carts, &c.	2,969	1,962	5	9
12	Ground rents		1,300	13	4
13	Rent of Municipal Bungalows at Vehar, Tulsi and Povai Lakes		151	0	0
14	Sale of building forms under Section 337 ...		376	8	0
15	Sale of repair forms under Section 342 ...		491	0	0
16	Sale of Coal Ashes		70	0	0

21	Fees for testing water pipes, meter fittings, &c.	1,721	800	1	0
22	Fees for disconnecting water pipes		195	0	0
23	Ground rent		140	0	0
24	Meter hire...		1,125	13	8
	Total ...	7,706	24,413	13	2

14. A comparison of the Engineer's accounts, with the Audit Note Book in this office which records your sanction in each case as it passes through this office, showed that in 19 cases the fees, the levy of which had been sanctioned by you in the course of the year under report, had not been collected and paid into the Municipal Treasury up to the close of the year, and those 19 cases were duly brought to the notice of the Executive Engineer in this office No. 998, dated 14th June 1899, which was forwarded to him through you.

3—Health Department.

15. The Revenue books kept in the Health Office, as well as those kept in the four Divisional Health Offices Nos. 1 to 4 Divisions, were duly checked each month with the receipts, vouchers, and other papers supporting the entries therein, the object of the audit being to ascertain that the amounts collected as shown by the books were at the rates fixed under due authority, and that they were all paid into the Municipal Treasury. The following table exhibits in detail the number of receipts or vouchers examined under each head of revenue and the amount of such revenue :—

	Head of Revenue.	Ex. Health Office.		Divisional Health Offices.								Total.	
				No. 1 Division.		No. 2 Division.		No. 3 Division.		No. 4 Division.

4—Licensing Department.

16. Appendix G shows the number of licenses for 1899-1900, the issue of which was sanctioned by you under Sections 394 and 393 of the Act for the several purposes mentioned in Schedule M, with the amount of fees leviable therefor. Each of the 5,844 cases for Rs. 63,115-8-0 therein referred to, passed through this office, and was duly scrutinized by it, particularly with reference to the amount of fee leviable. The register of the Superintendent and the counterfoils of the several license books were also checked each month with the Audit Note Book kept in this office, in accordance with your No. 3176 of the 20th May 1890, and with the counterfoils of the receipts given by the Chief Accountant's Cashier, for the purpose of seeing that the full amount of fee leviable in each case was collected and paid into the Municipal Treasury. As in a large majority of cases you sanction the issue of a license after payment of the fee, the registers show no outstanding at the close of the year.

5—Markets and Slaughter-Houses.

17. The registers and accounts kept were duly checked with the counterfoils of receipts issued to stall-holders, &c., and with the other vouchers available. The following tables show the work done :—

Market Revenue.

	Markets.	Number of Receipts or Vouchers examined.	Amount.	Total No. of Receipts or Vouchers examined.	Total Amount.
			Rs. a. p.		Rs. a. p.
1	Fort General Market ...	530	6,946 8 0	530	6,946 8 0

12	Garden Produce		31	4	0
13	Charges for using a gaslight in the Erskine Road Fish Market		15	0	0
14	Charges for carriage of meat for Commissariat Contractor	787	43	0	0
15	Sale-proceeds of meat or animals seized under Section 412 (2)		73	8	0
16	Sale-proceeds of Manure		135	12	0
17	Fees for producing Office records, and giving Inspection, &c.		25	0	0
18	Revenue from Toddy Trees...		.....		
19	Miscellaneous		4	8	0
	Total...	6,381	2,68,664	12	6

The total number of vouchers was 15,101 for Rs. 4,16,892-3-9. The total revenue collected appears duly credited in the Chief Accountant's books.

6—Victoria Gardens.

18. The Revenue books kept in the Superintendent's office were duly checked with the counterfoils of receipts issued for the sale of Garden Produce. The following table shows the work done in detail :—

Sale-proceeds of Garden Produce.

	Items.	No. of Receipts or Vouchers examined.	Amount. Rs.	a.	p.
1	Flowers	2,773	2,534	15	6
2	Plants	752	3,229	10	0
3	Leaves	427	126	7	7
4	Seeds	93	148	9	0
5	Fruits	23	6	10	0
6	Miscellaneous	79	864	13	3
	Total ...	4,147	6,911	1	4

The total revenue collected appears duly credited in the Chief Accountant's books.

7—Rent Accounts of Health Camps.

19. The rent accounts of the several Health Camps in charge of the respective district officers were duly checked each month with the counterfoils of receipts issued to the occupiers of the various huts or rooms (as the case may be) in each camp, and with the other vouchers available in compliance with the directions contained in your No. 8972 of 11th July 1898. The object of the Audit being to see that the rents charged as shown by the books were at the rates fixed under due authority, and that they were all paid into the Municipal Treasury. The following table shows the work done in detail:—

	Names of Camps.	Wards.	Place where examined.	No. of Receipts Examined.	Amount.			Remarks.
					Rs.	a.	p	
1	Elphinstone Bridge Camp.	B ...	District Office No. 3 at Dongri, Oomerkhadi.	10	30	0	0	The only rent paying shop-keeper having vacated, the whole camp has entirely been occupied only by contacts, free of rent from February 1900.
2	Gouldas Tejpal Camp.	C ...	Central Office No. 5 at Dhobitalao.	145	281	0	0	Rent discontinued from May 1899, *vide* Deputy Commissioner's No. $\frac{P}{265}$ of 5th June 1899.
3	Narlei Wadi Camp.	E (east).	Central District No. 9 at Wari Bundar.	890	1,773	0	0	
4	Sankli Street Camp	Do. ...	District Office No. 8 at Madanpura Ripon Road.	199	199	0	0	
	Total ...			1,244	2,283	0	0	

In addition to the above camps the rent accounts of the Victoria Bunder and the Crawford Market camps in charge of the Executive Engineer were also checked every month along with the receipts of

the Streets and Buildings Department of his offices the latter Department having not kept the books of account of these two camps in the manner prescribed by the Deputy Commissioner in his No. $\frac{P}{3335}$ of 20th June 1899.

7—General.

20. As the monthly or quarterly audit of the several departments proceeded, the errors, irregularities, or omissions, which were discovered in the course of it, were brought to the notice of the heads of departments concerned by means of official communications addressed to them through you.

II—REFUND AUDIT.

1—Assessment Department.

21. The subjoined table shows the number and amount of claims to refund for vacancy under Sections 174 to 179 of the Act, and on account of over-collections which were scrutinized and sanctioned by this office in the year under report :—

Wards.	Number of Claims.	Amount of Refund sanctioned.
		Rs. a. p.
A—Fort and Colaba	258	13,126 8 11
B—Mandvi	177	2,105 7 5
C—Bhuleshwar	322	5,504 15 9
D—Girgaum	162	3,293 12 2
E—Byculla	215	3,866 9 4
F—Parel	28	374 2 0
G—Mahim	32	1,200 13 2
Total ...	1,194	29,472 4 9

The sum of Rs. 29,472-5-4 shown in the above table was sanctioned under the following heads of Revenue :—

Items.	Amount.
	Rs. a. p.
General Tax	13,653 11 11
Water Tax	10,221 7 2
Halalkhor Tax	5,550 0 8
Vehicle and Animal Tax	30 0 0
Toll Fees...	.....
Meter Hire	14 13 0
Process Fees	2 4 0
Total ... Rs.	29,472 4 9

2—Town Duty Refunds.

22. As the Port Trustees and the two Railway Companies send in no Administration reports of the Town Dues collected by them on behalf of the Municipality, it is usual for this office to submit the two statements (compiled in respect of collections from figures supplied by the Chief Accountant) marked as Appendices H and I to this report. The following table compares the total results for the year under report with those for the previous year :—

Year.	Gross Revenue.	Total Refunds.	Net Revenue.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
1898-99	22,55,540 4 10	12,62,586 15 0	9,92,953 5 10
1899-00	26,88,002 13 1	12,04,975 10 0	14,83,027 3 1

From the detailed statements H and I, it will be seen that the heavy increase of Rs. 4,32,462 in the gross collections is the balance of increases under the heads of grain, beer, ghee and firewood over decreases under those of flour, sugar, wines and spirits, and timber. The principal variations are (1) an increase of Rs. 5,56,214 under grain, due, first, to heavier imports of that article in consequence of the famine and secondly, to the rate of duty having been raised from annas 4 as in 1898-99 to annas 6 per candy; (2), an increase of Rs. 36,045 under ghee, due to larger imports only; and (3), a decrease of Rs. 1,53,840 under sugar, due to smaller imports.

The total refunds show a decrease of Rs. 57,611, being the net result of increases under the heads of grain, flour and beer, and decreases under those of sugar, wines and spirits, ghee and timber. The principal items that have contributed to this result are increases of Rs. 1,95,179 and Rs. 12,036 under the heads of grain and flour, respectively, and a decrease of Rs. 2,58,411 under sugar. The former are due to enhanced rates; the latter to smaller exports.

The important variations in net revenue are an increase of Rs. 3,48,979-3-0 under the heads of grain and flour together, of Rs. 1,04,570-14-0 under sugar and of Rs. 40,260-12-0 under ghee. The other increases and decreases are of minor significance. The net result of these variations is an increase of Rs. 4,90,073-13-3 over the previous year.

In connection with the above increase it is necessary to observe that about 3 lacs of that sum is liable to be paid away as refunds during the current year under the circumstances explained below.

It was noted in October last that in several claims relating to exports by country craft, the marks purporting to be those of the *different* Tindals concerned and affixed to their certificates in token of their having received the goods on board their vessels were exactly *alike* and manifestly in the *same* handwriting. Careful inquiries were made which only served to strengthen the suspicion that it was so. Accordingly 359 claims were rejected. Soon after the rejection some of the claimants saw the Acting Revenue and Refund Audit Officer through their Solicitors who expressed their intention of suing the Municipality in the matter. It was then thought advisable to defer the disposal of other claims relating to exports by country craft, pending the decision of the Court, in order to avoid needless multiplicity of law suits and the vast amount of trouble and expense consequent thereupon. About 5,000 claims amounting to about 3 lacs of rupees, mostly in respect of grain, were thus held back during the latter half of the year under report. In the meantime the Municipal Solicitors were consulted and they pronounced the marks to be "writers' flourishes" and not "Tindals' marks" and entirely approved of the rejection that had been made. Eventually the first of the suits came on for hearing before the Chief Judge of the Small Cause Court on the 18th instant when the case was decided against the Municipality. All the claims that have been held back as stated above will now have to be disposed of, and their detention till now accounts, in a great measure, for the unusually large increase in net revenue for the year under report.

The number of claims disposed of during the year was 49,362, which is a considerable advance over the numbers received in any previous year, as will be seen from the following comparative statement of claims received during the past five years :—

Year.	Number of claims received.	Average number of claims for every working day in the year.
1895-96	29,814	105
1896-97	27,701	99
1897-98	28,072	102
1898-99	34,856	125
1899-1900	49,362	174

Conclusion.

23. In addition to the above, the office had to deal with correspondence of all departments affecting revenue which passes through this office and with questions of principles relating to revenue, the importance of which can scarcely be judged by the number of inward and outward references which were respectively 5,258 and 5,660 in the year under report.

Appendix A.

STATEMENT of Balances examined quarterly during 1899-1900.

Executive Engineer's Office,

Bombay, 30*th July* 1900.

To

The MUNICIPAL COMMISSIONER

for the City of Bombay.

Sir,

I have the honour to forward herewith the Administration Report of the Department under my control for the year 1899-1900, as requested in your No. 1111, dated 19th April 1900.

2. The report is divided under the following heads :—

	Paras.
A.—Introductory Remarks	3 to 13
B.—New Works, &c., General.....	14 to 57
C.—Drainage Works	58 to 127
D.—Water Works	128 to 176
E.—Regulation of Streets and Buildings	177 to 200
F.—Roads, Footpaths, &c.	201 to 211
G.—Public Lighting.....	212 to 227
H.—Workshops	228 to 241
I.—General—Bills, Notices and Correspondence, Summary of Clerical Works, Plague Operations, and Municipal Servants' Act	242 to 266

A.

INTRODUCTORY REMARKS.

ESTABLISHMENT.

3. I held the appointment of Executive Engineer, Municipality, throughout the year except during the period from 16th May to 15th June 1899, when I was on privilege leave. Mr. James W. Smith, M. INST. C.E., conducted my duties, in addition to his own, during that period.

4. I was assisted by the following Officers in conducting the duties of the different branches of the Department :—

5. MR. C. C. JAMES, M.I.C.E., Deputy Executive Engineer, Water Works, now acting as Deputy Executive Engineer, Drainage, was in charge of the Drainage Branch.

6. MR. A. FAIRLIE BRUCE, M.I.C.E., Acting Deputy Executive Engineer, was in charge of the Water Branch.

7. MR. NASSARWANJI DORABJI BHADA, L.C.E., A.M.I.C.E., Assistant Engineer, Water Branch, has been allowed two years' furlough from 19th September 1899.

8. MR. MANEKJI SHERIARJI BHARUCHA, L.C.E., Assistant Engineer, General Department, was in charge of the Road Branch. He also assisted me in preparing projects for new works, framing reports and supervising the new works in the General Department.

9. MR. B. H. HEWETT, A.M.I.C.E., Assistant Engineer, was in charge of the Mechanical Branch and supervised the working, repairs and maintenance of the Love Grove Pumping Station, the Colaba Air Compressor Station, the Municipal Workshops and the Electric Light Installation, &c., &c.

10. MR. JAMSHEDJI DADABHAI NADARSHAH, L.C.E., Special Assistant Engineer, was in charge of the House Inspection Branch, assisted by Mr. NAVROJI DADABHAI KATRAK, L.C.E., another Special Assistant Engineer.

11. MR. NADIRSHAH was allowed three months' privilege leave from 29th May to 28th August 1899, and his duties during that time were conducted by Mr. NAVROJI D. KATRAK.

12. MESSRS. KAIKHASRU PESTANJI BHEDWAR, L.C.E., NAVROJI HORMASJI KATRAK, L.C.E., A.M.I.C.E., and HARI BHIKAJI BHANDARE, L.C.E., Divisional Superintendents, assisted me in matters connected with the Regulations of Streets and Buildings.

13. MR. GOVINDRAM DULLABHRAM, Architectural Surveyor, was in charge of the Architectural and Drawing Branches. He helped me in preparing plans and estimates and supervising the construction of new buildings and the maintenance of existing ones. He also supervised the construction of the several temporary Hospitals, Segregation and Health Camps, &c., in connection with the measures taken for the suppression of the Plague.

B.

NEW WORKS, &c.—GENERAL.

MARKETS.

Market at Fergusson Road.

15. This work, as stated in the Administration Report of 1898-99, was completed on the 31st October 1898.

16. The total expenditure has been Rs. 9,821-1-5.

Extension of the Beef Slaughter House at Bandora.

17. The contract for this work was originally let to one Mr. Ramji Harji. This contractor having failed to pay the necessary deposit for the due performance of the contract, the work was entrusted to Messrs. Isufalli Abdoolali & Co. It was commenced on the 20th September 1899, and completed on the 20th February 1900.

18. The total expenditure passed upto 31st March 1900 has been Rs. 4,025-9-7.

CHAWLS, QUARTERS, AND OFFICES FOR MUNICIPAL EMPLOYES.

Quarters for the Head Animal-keeper in the Victoria Gardens.

19. As stated in the last Administration Report, this work was in progress at the end of the year 1898-99. It was completed on 15th April 1899 at a cost of Rs. 8,068-14-6.

Additions and Alterations to the Chawl at Dadar.

20. This work which has been noticed in the last Administration Report was in progress at the end of the year 1898-99.

21. It was completed on the 20th June 1899.

22. The total expenditure on completion of the work has been Rs. 8,834-13-6.

Quarters for Watchmen and Sluicemen at Malabar Hill Reservoir and Bhandarwada Reservoir.

23. These works were sanctioned by the Corporation under their Resolution No. 11121, dated the 21st January 1897, at an estimated cost of Rs. 4,700, and Rs. 4,006, respectively, but the works were postponed owing to financial difficulties.

24. Tenders for the works were subsequently invited and that of Messrs. Devram Keshavji & Co. was accepted by the Standing Committee under their Resolutions Nos. 12897, dated the 21st February 1900, and 629, dated the 18th April 1900.

25. The works will be taken in hand during the next year (1900-1901).

26. The total expenditure passed upto 31st March 1900 has been Rs. 212-12-0 and Rs. 164-8-0, respectively.

MISCELLANEOUS WORKS.

Constructing a wooden fence on the North and East sides of the Victoria Gardens.

27. This work was sanctioned by the Corporation under their Resolution No. 6963, dated the 12th October 1899, at an estimated cost of Rs. 5,225.

28. Tenders for the work were invited and that of Messrs. Devram Keshavji & Co., being the lowest of 7 tenders received, was accepted by the Standing Committee under their Resolution No. 3938 of the 9th August 1899.

29. The order to commence the work was given on the 30th August 1899.

30. According to the terms of the contract the work should have been completed on the 30th October 1899, but its progress having been stopped by the Commissioner owing to a question having been raised in the Corporation, as to whether it would be advisable to reserve for public recreation, a portion of the ground which was being enclosed, the completion of the work was delayed for some time. The Corporation having, however, decided not to appropriate the portion of the Victoria Gardens for the abovementioned purpose, the work of erecting the fence was shortly afterwards re-commenced and completed on the 30th November 1899 at a total cost of Rs. 3,859.

Construction of an Iron Cage for Animals in the Victoria Gardens.

31. This work was sanctioned by the Commissioner under his No. 6114, dated the 16th June 1899, at an estimated cost of Rs. 5,000.

32. Tenders for the work were invited and that of Mr. Devram Keshavji was accepted by the Standing Committee under their Resolution No. 7220, dated the 25th October 1899, being the lowest of the three received.

33. The order to commence the work was given on the 8th December 1899.

34. According to the terms of the contract the work should have been completed on 22nd February 1900, but owing to the scarcity of skilled labour and other difficulties it was not completed until the end of March 1900.

35. The total expenditure passed up to 31st March 1900 has been Rs. 169-2-1.

THE NASARVANJI MANEKJI PETIT PUBLIC HALL.

36. Since the submission of the last report the draft lease of land, to be taken up from Government for the construction of the Hall, has been prepared by the Solicitor to Government and approved of by the Municipal Solicitors and the Municipal Commissioner. The execution of this deed and the taking over charge of the ground have, however, been deferred pending the settlement of certain conditions which the Executrix Bai Avabai Framji Petit, of the Donor Bai Dinbai, wishes to be inserted in the Trust Deed. The conditions referred to are:—

(*a*) That if the cost of the building and of the furnishing of the Hall shall exceed the sum of Rs. 5 lakhs, the excess shall be borne by the Corporation; and,

(*b*) That the said Public Hall shall, at the discretion of the Committee hereinafter mentioned, be available for all public and other meetings and gatherings convened for any lawful purpose on the payment of such charges as may be fixed by the Committee hereinafter mentioned, from time to time.

37. The Corporation have agreed to the 1st condition but not to the 2nd. They are of opinion that the object of the donation was specially to provide a Public Hall which would be available for all lawful public and other meetings and gatherings on payment of such charges as may be fixed with the sanction of the Corporation.

38. Bai Avabai, however, urges that it is necessary in her opinion that there ought to be some discretionary power given to the Committee to enable them to prevent the use of the Hall for any objectionable or unworthy purpose, and as the Corporation will be adequately represented on the Committee, the Corporation should trust to the good sense of their nominees in deciding whether the Hall should or should not be allowed to be used for any particular purpose. Bai Avabai further thinks that the total absence of control over the purposes for which the Hall is to be used might give rise to disagreeable incidents such as have occurred elsewhere in relation to a Hall being used for a purpose which, though lawful, was offensive to other sections of the Community.

39. The Corporation think that the condition proposed by Bai Avabai should not be allowed. They have pointed out to that lady that in a letter, dated 3rd August 1896, written to the President of the Corporation by the late Bai Dinbai, that lady approved of the terms on which her offer was to be accepted, and these terms which were subsequently confirmed and sanctioned by the Corporation contained a stipulation that the said Public Hall shall be available on payment of fees for "all public and other meetings and gatherings convened for any lawful purpose." This being so, the proposal now made to give discretionary power to the Committee to direct the purposes for which the Hall is to be used, is not in accord with the original agreement with the late Bai Dinbai.

40. They have further informed Bai Avabai that the clause referred to was accepted by Bai Dinbai after careful discussion and deliberation including the particular point now raised by Bai Avabai, and have further informed her that on the faith of the acceptance of the terms settled with the Corporation, the latter have purchased from Government the land required for the Hall. The matter was at the time of the submission of this report still in an unsettled state.

NEW ROADS.

Reay Road.

41. As stated in the last Annual Report, the portion of Reay Road between Dockyard Road and Gun-powder Road was completed and opened for traffic on 10th August 1898.

42. The widening of Gun-powder Road to the north of the above-mentioned portion was completed during the year under review.

43. The portion of Reay Road to the south of that referred to in para 1. and situated between Dockyard Road and Lawrence De Lima Street was also almost completed during the year under review.

44. Thus the whole of Reay Road, from Kalachauki up to Lawrence De Lima Street, is now open to traffic.

45. To complete the whole of Reay Road, there remains (*a*) the portion between Lawrence De Lima Street and Wari Bandar Road, (*b*) the northern approach to the proposed overbridge over the existing railway sidings at Wari Bandar, (*c*) the overbridge itself, and (*d*) the southern approach to the overbridge.

46. It has been arranged that the works (*a*) and (*b*) be carried out by the Municipality, (*c*) by the G. I. P. Railway Co., and (*d*) by the Port Trustees. The completion of this work has been delayed pending the question of the construction of the proposed Port Trust Railway. If it be finally decided that the Railway should be constructed, the overbridge will not be required.

Extension of Victoria Road.

47. This work has now been completed at a cost of Rs. 6,653 and opened for traffic from the 10th August 1899.

The proposed road from Dongri Street across Nowroji Hill to Elphinstone Road.

48. Nothing further has been done in the matter of this road by the Municipality as it is one of the new streets which the City Improvement Trust contemplates carrying out.

ROADS AND STREETS IN AGRIPADA AND ELSEWHERE.

49. No further work of any description has been carried out in the Agripada District as the whole of this District has been handed over to the City Improvement Trust.

50. The compromise offered to the Contractors of the Souter Road work has not yet been accepted by them, and this matter remains the same as before.

51. The suit brought by the Contractors for the construction of Vincent Road against the Municipality has not yet come on for hearing. The result of this case will be reported when the matter is finally disposed of.

DISPOSAL OF TOWN SWEEPINGS OF THE CITY.

52. As stated in the last Annual Report, the Kurla-Deonar Railway was formally opened for use on 12th May 1899 and the transportation of the town sweepings to Deonar commenced on 7th June 1899.

53. The work of pitching, where necessary, the bank of the Coorla-Deonar Railway was completed during the year under review.

54. The only work remaining to be executed is that of constructing a bund about 3 miles in length round the boundary of the Khajan of Deonar to shut out sea water. Tenders for this work have been received and the work will shortly be taken in hand.

55. The Railway sidings at Tardeo, both inside and outside the limits of the B. B. & C. I. Railway, and the Municipal waggons and brakes are maintained by that Company at Municipal expense. The siding at Kurla within the limits of the G. I. P. Railway Company is maintained by that Company at Municipal expense. The approach roads and tipping platforms at Tardeo, the Kurla-Deonar Railway and the storm-water canal at Deonar are maintained by this Department.

BURIAL GROUNDS.

56. The work of preparing a new Burial ground for Mahomedans at Narielwadi is in progress.

57. All the works in connection with the extension of the Sivri Cemetery have been completed during the year under review excepting a few trifling works which are in progress.

C.

DRAINAGE WORKS.

LOVE GROVE PUMPING STATION.

58. The Engines and Pumps worked satisfactorily during the year, and there were no serious break down.

59. The efficiency of the pumps as tested by fortnightly observations, taken by the Drainage staff, showed an average of 91·76 per cent.

60. The following table gives the combined total number of revolutions of all the engines for each month of the year:—

Month.	No. of Engines working.	Total number of Revolutions during the month.
March 1899	1, 2, 3, & 4	1,757,185
April „	1, 2, & 3	1,609,108
May „	1, 2, & 3	1,697,591
June „	1, 2, 3, & 4	2,157,340
July „	1, 3, & 4	1,861,273
August „	1, 3, & 4	1,911,094
September „	1, 3, & 4	1,845,338
October „	1, 3, & 4	1,893,438
November „	1, 3, & 4	1,736,726
December „	1, 3, & 4	1,757,907
January 1900	1, 3, & 4	1,731,115
February „	1, 3, & 4	1,487,931
Total ...	.....	21,446,046

61. The above total is one and a half million revolutions less than the average of the preceding three years, and the reduction is due to the deficient rainfall during the S. W. monsoon months.

62. The following table shows the total quantity of coal of different descriptions consumed during the year with their average rate per ton:—

Description of Coal.	Tons.	Average rate.
		Rs. a. p.
Borrea Anthracite ...	1,280	16 9 7·3
Cardiff ...	1,300	20 9 4·7
Wallace Merthyr ...	250	24 6 0
Lump Japan ...	148	16 14 0
Kakema Lump Japan ...	30	15 14 0

63. The average rate per ton for all of these descriptions of coal was Rs. 18-14-11·5 against Rs. 17-15-7·4 in the previous year, and Rs. 14-2-7·5 in 1897-98. The average daily consumption was 8 tons, 4 cwts. 3 qrs. 8 lbs., against 9 tons, 7 cwts., 1 qr. 15·9 lbs. in the previous year.

64. The rates for all descriptions of English and Welsh coal continued very high during the year and towards its close were higher than has been known for several years. The purchase of Welsh coal was consequently kept as low as possible.

65. 1012 lbs. of Dermatine valve faces at Rs. 3 per lb. and 4 Dermatine rings for the Plug valves, weighing 72 lbs. at Rs. 3-6-0 per lb. were purchased from Messrs. Bradbury, Brady and Company. The total cost (Rs. 3,279) was met from the grant for stores and contingencies.

66. The piston rings for the Engine Cylindors mentioned in last year's report, as having been ordered from Messrs. James, Simpson and Company, were received during the year, and the sum of Rs. 1,270 paid for them was met from the renewed grant of the previous year.

67. Eight solid drawn brass tubes for renewing the sheathing of the pump rods were purchased from Messrs. John Fleming and Company at a cost of Rs. 881-5-0.

68. The work of converting the old Engine house into a shred Lifter Chamber, an office and a godown was completed during the year. The shred Lifter Chamber being an enlargement of the Existing Main Sewer had to be all built without interrupting in any wise the flow of the Sewage to the pumps, and it was a most difficult task. It was however satisfactorily executed under the supervision of the Chief Inspector of Drains without any mishap and the Chamber, together with the office and godown, forms a very valuable improvement to the station.

69. The construction of the shred lifters and guides and the fixing of the new steam winches was satisfactorily executed by the Municipal Workshops at a cost of Rs. 4,738-0-3.

70. The total estimated cost of the work, as sanctioned by the Corporation under their Resolution No. 12033 of 4th February 1897, was Rs. 25,625, while the actual cost was Rs. 16,824-3-2.

71. Owing to the scanty rainfall which necessitated the use of a larger quantity of pipe water to keep up the level in the condensing tanks, the grant for water supply was exceeded by a sum of Rs. 848-8-10. This excess was met by a grant of Rs. 950 from surplus cash balance (*vide* the Corporation's Resolution No. 735 of 19th April 1900).

72. There were no changes in the Engineering staff at the station during the year.

73. Veterinary Lieut.-Colonel, J. Anderson, continued to occupy the bungalow on the property owned by Messrs. Tribhuwandas and Jagmohandas Varjivandas during the year at a monthly rental of Rs. 80.

HOUSE DRAINAGE CONNECTIONS.

74. The street portions of House Drainage Connections carried out partly by the Contractors, Messrs. Dewram Keshavji and Company and partly departmentally were as follows :—

Name of the District.	Work done by Contractors, Messrs. Devram Keshavji & Co.		Work done Departmentally.		Total.	
	No. of connections.	Amount.	No. of connections.	Amount.	No. of connections.	Amount.
		Rs. a. p.		Rs. a. p.		Rs. a. p.
General (new houses and old houses in various parts of the city)	404	13,168 2 11	105	11,597 10 1	509	24,765 13 0
Mandvi	371	8,746 7 0	13	1,868 4 6	384	10,614 11 6
Mugbhat	124	1,626 12 4	3	476 0 4	127	2,102 12 8
Colaba	22	1,507 15 6	4	219 8 11	26	1,727 8 5
Parel	23	842 5 7	5	435 12 9	28	1,278 2 4
Khambala Hill ...	3	544 12 3	6	507 1 6	9	1,051 13 9
Carnac Road ...	3	164 14 9	...	.....	3	164 14 9
Total ...	950	26,601 6 4	136	15,104 6 1	1,086	41,705 12 5

Regrading and paving the water-course between Narayen Dabholkar Road and the Foreshore.

75. A grant of Rs. 2,770 was provided in the Budget for 1899-1900 for the execution of the above work.

76. The Municipal Corporation, under their Resolution No. 7716, dated 6th November 1899, authorized the Commissioner under section 220 of the Municipal Act to convert the water-course into a pakka drain.

77. The work was taken in hand departmentally, and though its execution was delayed in consequence of objections raised by the owners of the adjoining properties, it was progressing satisfactorily at the close of the year.

78. The certified expenditure up to 31st March 1900, amounted to Rs. 1,447-4-0.

Drainage of the waste water from the trough fountain and stand pipe at Lady Jamshedji Road, Mahim.

79. A grant of Rs. 1,283 was sanctioned for the work in the Budget for 1898-99 and renewed in the year under report.

80. The work was entrusted to Messrs. Devram Keshavji & Company, Petty Work Contractors, and was in progress at the end of the year.

Constructing an Ovoid drain on the north side of Walkeshwar Road from an Existing drain near Dhobi Ghat upto a water entrance in the locality.

81. The Municipal Commissioner, under his No. 30377, of 23rd February 1898, sanctioned a grant of Rs. 1113, for the work from his discretional contingency allowance for 1898-99.

82. The work was carried out departmentally during the year under report at a total cost of Rs. 963-8-6.

Water gullies.

83. Water gullies at the entrance to St. George's Hospital and at the new Police offices, were constructed by the Contractors Messrs. Devram Keshavji and Company at a cost of Rs. 686-12-0.

84. The expenditure was met from the grant sanctioned in the Budget for 1897-98 and renewed in 1899-1900.

Man-holes.

85. The construction of man-holes and shafts on the sewer between the European General Hospital and Arthur Crawford Markets was completed during the year at a total cost of Rs. 3,656-3-6 and Rs. 469-14-3 respectively.

86. The construction of the undermentioned man-holes was also carried out Departmentally at the cost noted against them :—

	Total cost. Rs.	as.	p.
15 square man-holes (6 on Hornby Road Sewer, 3 on Bhuleshwar Road Sewer, 2 on Carnac Road Sewer, 2 on Shaik Memon Street Sewer and 2 on Mint Road Sewer)	3,656	12	6
50 manholes under the Patent stone footpath on Clare Road.	1,530	10	8
15 man-holes on the Parel Road storm-water drain between Paidhoni and the Bellasis Road Junction	1,328	15	6

87. The construction of 7 man-holes on the Ripon Road Sewer was taken in hand Departmentally and was in progress at the close of the year.

Vent-Shafts.

88. The fixing of a cast-iron vent-shaft with diaphragm from the Hornby Road Sewer to the Salvation Army Hall on Hornby Road was taken in hand Departmentally and was in progress at the close of the year.

89. A grant of Rs. 1,333 was provided for the work in the Budget for 1897-98 and was renewed in the year under report.

INSTALLATION FOR PROVIDING ELECTROLIZED SEA-WATER.

90. At the close of the previous year a balance of Rs. 479-9-5 was available from the renewed grant of Rs. 3,353 sanctioned by the Corporation under their Resolution No. 1196, of 5th May 1898 for the working expenses of the plant during the year 1898-99.

91. The production of electrolized sea-water was therefore continued from the 1st March, and the greater portion of the fluid was utilized by the Health Department as in the previous year, in flushing the down take or soil pipes of privies, &c.

92. To allow of the collection of further data in connection with the use of the fluid, which the Municipal Commissioner considered necessary and on account of its general usefulness in Plague measures, the Municipal Commissioner, under his No. 31372 of 23rd March 1899, sanctioned a grant of Rs. 900 from Plague Funds to keep the plant at work until the end of April. It was shut down on the 1st May and has not been worked since.

93. The Standing Committee, under their Resolution No. 4950 of 25th August 1897, approved of experiments with the plant being conducted on the following lines:—

1*st*—To see whether with a liberal use of the fluid through the night-soil tanks and its use for washing out the carts after they have been emptied, any appreciable reduction is made in the nuisance arising from the Depôt.

2*nd*—Whether by carting the fluid away in flushing carts, drums, &c., it could be profitably used by the Health Department in place of phenyle and carbolic powder, &c., and for flushing gullies.

3*rd*—Whether Public Institutions such as Hospitals would make regular purchases of the fluid for washing floors, clothing, &c.

94. The conclusions arrived at in reference to the above are :—

1*st*—That the use of the fluid through the night-soil tanks does undoubtedly reduce the nuisance arising from the Depôt, but that as the

greatest nuisance occurs at the moment of emptying the carts before the fluid has come into contact with the offensive matter, its use in the manner intended does not justify the expense of keeping the plant at work.

2*nd*—In consultation with the Executive Engineer and the Deputy Executive Engineer, Drainage, the Health Officer has come to the conclusion that the electrolized fluid cannot be used to any appreciable extent in place of phenyle, carbolic powder, &c., for the reason that those disinfectants are used under conditions in which electrolized sea-water cannot be recommended.

At present carbolic acid powder is used for disinfecting the sides of roads and other places where nuisances exist, and in such places the electrolized fluid cannot be used as it would make the sides of the roads wet.

The fluid can be used for flushing gullies by hand with advantage, but no saving in other disinfectants would be effected thereby as phenyle for this purpose is used in very small quantities.

3*rd*—It has been ascertained by inquiries from local Hospitals and other public Institutions, such as the Common Jail, the Work House and the Lunatic Asylum, that no purchases of the fluid can be made by any of these institutions.

95. The whole question was referred to Mr. Santo Crimp for opinion during his stay in Bombay, and he has submitted his report to the Corporation. No decision in the matter was arrived at before the close of the year.

96. The total cost of working the plant from 1st March to 30th April amounted to Rs. 1,165-14-8.

Night Soil Depots.

97. A grant of Rs. 3,494 was sanctioned under the Corporation's Resolution No. 10969, dated 14th February 1898, for the construction of a two hopper Night Soil Depôt at the side of the latrines at Valpakhadi.

98. The work was entrusted to Messrs. Dewram Keshavji and Company, Petty Work Contractors, and carried out by them at a total cost of Rs. 3,149-2-11.

99. A further grant of Rs. 947 was sanctioned under the Corporation's Resolution No. 13980, dated 19th March 1900, for extending the paving in front of the Night Soil Depôt in order to admit of the heavy carts being turned around the hoppers and for connecting the two blocks of latrines with the 9″ pipe sewer. This work was carried out Departmentally at a total cost Rs. 852-6-2.

Shed with two Excreta Disposers on the South side of the West approach to Musjid Bridge and steps to lead from the Bridge approach to the Disposers.

100. A sum of Rs. 2,617 was provided in the Budget for 1899-1900 for the above work. It was taken in hand and completed Departmentally during the year at a total cost of Rs. 2,529-10-2.

Colaba latrines.

101. The construction of two sets of latrines at Colaba village was let by contract to Messrs. Ali Mahomed Kasum and Company, and the work was completed by them at a total cost of Rs. 9,249-11-6 including establishment and contingent charges.

102. The sites for the other two sets of latrines had not been selected at the close of the year.

Walkeshwar Latrines.

103. The ground for the latrines had not been acquired at the close of the year.

Henry Road Latrines.

104. The construction of the latrines was completed Departmentally. The accounts for the same had not been adjusted at the close of the year. The certified expenditure for the work amounted to Rs. 6,026-1-11 on the 31st March 1900.

Latrines for workmen near the Chal at the Bandora Slaughter-house.

105. The latrines were constructed by the Petty Work Contractors at a cost of Rs. 723-14-10.

Latrines at Paltan Road.

106. The paving of the space around and inside the latrines was carried out by the Petty Work Contractors at a cost of Rs. 125-8-6.

107. The following works were also carried out by the Petty Works Contractors :—

Providing wrought-iron plate over the supply tank of the latrines for males and females at Erskine Road.

Converting the inspection chamber of the latrines at Erskine Road into catch-pit and connecting the latrines with the street sewer.

Connecting the Dick's Tank latrines with the 9″ pipe sewer.

108. The accounts for these works were not adjusted at the close of the year.

Urinals.

109. No decision was arrived at with regard to the proposed construction of an underground urinal at the Apollo Bandar up to the close of the year.

110. The erection of the undermentioned urinals was completed by the Petty Work Contractors, but the accounts for the same were not adjusted up to the close of the year.

Four chamber urinal at the junction of Chinch Bandar Road and Jail Road.

Six chamber urinal at Bhoiwada near the Bhuleshwar Fire Brigade Station.

Single chamber urinal at the junction of Suthar Chal and Shaik Memon Street.

Four chamber urinal in Dharamsi Street.

Four chamber urinal in Agiari 2nd Lane.

Two chamber urinal at the junction of Kika Street and Pinjrapol Street.

Single chamber urinal at the junction of Kavasji Patel Tank Road and Pinjrapol 2nd Road.

Two chamber urinal for persons of European habits at Erskine Road.

Erection of a screen of corrugated iron sheet for the six chamber urinal at Cathedral Street.

The erection of the undermentioned urinals, &c., was entrusted to the Petty Work Contractor and was in progress at the end of the year.

Two chamber urinal at the junction of De Lisle Road and Arthur Road.

Six chamber circular urinal at the junction of Trimbak Parshram Street and Falkland Road.

Four chamber urinal on the pavement on the north side of the Framji Kavasji Tank, Girgam Road.

Shifting four chamber urinal to Chinch Bandar Road.

Four chamber urinal on the water-carriage system at the junction of Argyle Road and Kalyan Street.

Two chamber urinal on the water-carriage system at Clare Road near the Education Society's Press.

Two chamber urinal on the water-carriage system at Parel Road near the G. I. P. Ry. Station at Byculla.

Single chamber urinal at Abdool Rahiman Street.

Single chamber urinal on the water-carriage system at the junction of Samuel Street and Mirchi Lane.

Providing extra drainage arrangements to the urinal in the new position at Chinch Bandar Road.

Putting up a water tap and paving inside the urinal at Chinch Bandar Road.

DRAINAGE SLUICES.

111. The sluices and penstocks which are in charge of the Drainage Branch at the following places were worked satisfactorily during the year with the usual staff :—

(*a*) Dharavi.
(*b*) Worli.
(*c*) Love Grove.
(*d*) Flats.
(*e*) Bellasis Bridge.
(*f*) Queen's Road.
(*g*) Carnac Road.
(*h*) Mint Road.

112. The expenditure incurred for the maintenance of the sluice did not exceed the Budget provision.

113. The four new pairs of gates for the Love Grove Sluices have been made and two pairs have been fixed in position. The remaining two pairs will be fixed during the year 1900-1901.

MISCELLANEOUS DRAINAGE.

114. The works under this head, comprising repairs and alterations to, and constructing and cleaning sewers and drains generally, together with the cleaning and flushing of the main sewers, were carried out under the supervision of the Chief Inspector of Drains.

115. Daily reports in the prescribed form showing the number of sewer scrapers and the work done were submitted by the Chief Inspector.

116. 2,829 notices under various sections of the Municipal Act were served on house-owners to provide sufficient means of effectual drainage and remedy defects in existing drainage arrangements. Out of these 1,477 notices were complied with and action in respect of 1,352 notices was pending at the close of the year.

117. 1,622 summonses were issued against house-owners for non-compliance with notices. Out of these 1,021 summonses were complied, with and 601 summonses were withdrawn under various circumstances.

Sanitary arrangements of Health Camps, Plague Hospitals, &c.

118. 94 works in connection with the sanitary arrangements of the various Health Camps, Observation Camps and Plague Hospitals were carried out by the Drainage Branch under the supervision of the Chief Inspector of Drains.

Works Executed Departmentally.

119. The following is a summary of Miscellaneous Drainage Works executed during 1899-1900 for Municipal Departments and private parties by the Drainage Branch :—

Number of Works.	Name of Department.	Amount. Rs. a. p.	Aggregate Cost. Rs. a. p.
5	Executive Engineer's Department— Street and Building Branch ...	2,826 1 0	
262	Drainage Branch 138 Street connections ...Rs. 14,145 1 9 117 Other Works ,, 29,574 8 3	43,899 10 0	
32	Water Branch	449 14 2	
49	Road Branch	489 15 6	47,665 8 8
216	Health Department	... ...	15,828 14 5
21	Market do.	... ...	512 11 1
9	Fire Brigade do.	... ...	227 3 9
7	Garden do.	... ...	1,237 6 3
1	Special Drainage Department ...	... ...	5 4 0
2	Joint School Committee ...	... ...	6 10 8
94	Plague Department	... ...	18,794 15 4
23	Private Parties	... ...	3,498 1 1
	Total ...	Rs.	87,775 11 3

STORES AT BELLASIS BRIDGE DEPOT.

Stoneware Pipes.

120. Stoneware pipes for the Special Drainage Department were supplied by Messrs. Richardson & Cruddas.

121. The value of the pipes and special, (traps, junctions, bends, &c.), received during the year from 1st March 1899 to 28th February 1900, amounted to Rs. 6,831-9-5, and of those issued to the Contractors and sold to Plumbers, &c., during the same period amounted to Rs. 45,435-7-0.

Cast-iron and Galvanized Sheet-iron Fittings, &c.

122. Cast-iron manhole frames and covers and other castings for ordinary drainage and miscellaneous works were supplied by Messrs. Sorabji Shapurji & Co., the casting Contractors for the year.

123. The total number of cast-iron articles received and issued from 1st March 1899 to 28th February 1900 amounted, respectively, to Rs. 5,014-0-10 and Rs. 12,776-10-7.

Cement.

124. Under a contract dated the 20th October 1899 Messrs. John Fleming and Company supplied during the year 2,900 Casks of Portland Cement manufactured by Messrs. Knight Bewan and Sturge and 100 Casks of Portland Cement manufactured by Mr. J. C. Johnson.

125. The rate paid was Rs. 8-5-7 per barrel of 380 lbs. net-weight.

126. The value of Cement received and issued from 1st March 1899 to 28th February 1900, respectively, amounted to Rs. 35,562-10-8 and Rs. 21,770-0-0.

Value of Stores on Hand and of Receipts and Issues.

127. The following statement shows that the value of Stores on hand on the 1st March 1899 was Rs. 3,87,313-6-8; that the receipts and issues amounted, respectively, to Rs. 47,408-4-11 and Rs. 79,982-1-7; and that the value of Stock in hand at the close of the year was Rs. 3,54,739-10-0 :—

No.	Particulars of Stores.	Value of Stock in hand on 1st March 1899.	Value of Stock received during the year 1899-1900.	Total of Columns 3 and 4.	Value of issues during 1899-1900.	Value of Stock in hand on 1st March 1900

D

WATER WORKS.

TANSA LAKE AND DEPENDANT WORKS.

Rainfall and Collection.

128. The Rainfall for 1899 was 40·07 inches, that for the two preceding years being 98·68 and 104·82, respectively. The accompanying diagram shows the rainfall for the past 7 years.

129. The number of days on which 3″ or more rain fell was 4, and those on which 1″ to 3″ fell were 5.

130. The total quantity of water received into the Lake was estimated at 12,714 millions of gallons, or about 45% of the total rainfall, the mean for the preceding 7 years having been about 40,000 million gallons, or upwards 50·7% of the total fall as registered by the rain gauges, which probably rather under-registered, it not being possible, owing to their inaccessibility, to place them on the higher parts of the Gathering Ground.

131. The lowest level reached by the Lake was 394·30, or 10·70 feet below T. W. L.

132. The average quantity drawn from the Lake during the dry months was 39 million gallons per day; of this about 23·8 million gallons were delivered into the Aqueduct, the balance being lost by evaporation, the leakage being practically *nil*. The consumption for the same period of the previous year was at the same rate.

133. The daily quantity of water supplied to the Aqueduct is disposed of as follows:—

	Gallons.
Delivered at Ghat-Koper	21,500,000
Leakage measured, Miles 0 to 15 ...	716,445
Do. do. do. 36 to 44 ...	90,315
Overflow at Syphon heads and leakage which cannot be gauged	1,433,240
Evaporation	60,000
Total ...	23·8 million gallons.

134. It has not been possible owing to the short supply from other sources to shut off the water for repairs this year, but one large leak has been stopped near mile 38 by enclosing it by means of a wall of cement masonry, the space between it and the Aqueduct being afterwards filled with puddle. Several smaller leaks have also been plugged, so that the total leakage has been kept down.

135. There are a considerable number of tree roots in the Aqueduct, which no doubt reduce the supply to some extent. There has been no opportunity for their removal during the past year, but as soon as possible after the breaking of the monsoon, water will be shut off wholly or in part to enable this to be taken in hand.

Bursts on 48" Mains.

136. During the year only one burst occurred, *viz.*, at Soparibag Road on 17th April 1899, due to the pipe having been originally laid on rock without a proper bedding of soft material below it. The water was shut off for 31 hours in consequence. Two leaky joints were at the same time found and caulked in the Vincent Road. On 28th May 1899, a joint at the Arthur Road Level Crossing blew out, and had to be re-made, water being shut off for about 30 hours.

137. There has been an absolute freedom from accident as regards the syphons, partly due to great pains having been taken to search for and fill up crab holes below the pipes and partly to the light monsoon.

138. Considerable progress has been made with the repairs to the embankments carrying syphon No. 6, by the Contractors, Messrs. Littlewood and Pallonji, between Bridge No. 182 over the Bassin Creek and Balcomb. All the upstream side has been practically completed and considerable progress made with the opposite slope.

139. When this contract is completed, it is proposed to complete what remains to be done departmentally.

140. Owing to the failure of the monsoon a 3" metered connection was given to the Thana Municipality, and an average of 23,000 gallons a day has been supplied since 1st December 1899.

VEHAR LAKE AND DEPENDANT WORKS.

Rainfall and Collection.

141. The rainfall for 1899 was 35·26 inches, that for the two preceding years being 94·51 and 97·36 inches, respectively. This is the lowest fall on record since the construction of the works.

142. The number of days on which 1" or more rain fell was 6, and on which 3" or upwards fell was 2.

143. The total quantity of rain which fell in the Drainage Area was about 3,060 million gallons; of this about 1,160 millions, or 38%, reached the Lake as compared with an available total of nearly 6,000 million gallons, or more than 5 times as much, the previous year. Sixty-one million gallons were received through the clearing sluice on the Tansa Aqueduct, but none from the Tulsi Overflow.

144. Notwithstanding the failure of the monsoon, it has not been found necessary to restrict the quantity of water drawn from this Lake, though the quality has not been all that could be desired. The quantity drawn per day has averaged 14·3 million gallons, including evaporation and leakage.

Evaporation.

145. The evaporation for the months of October to March was $15\frac{3}{4}$ inches, or about $\frac{3}{32}$ of an inch per diem.

Vehar Filters.

146. The Vehar Filter beds have only worked 241 days, it having been found necessary to draw the full discharge of the 24″ pipe from the month of December onward in order to supply the Mills whose tanks were exhausted at an earlier date than usual this year. The average amount filtered while the filters were working was 781 gallons per day per square yard.

Bursts on 32″ and 24″ Vehar Mains.

147. There was only one burst on the 32″ main and one on the 24″ main during the year 1899-1900.

148. Plans, &c., have been prepared for $1\frac{1}{2}$ miles of 48″ main to replace the worst portion of the 32″ main from Kurla Station northwards. It is hoped that it may soon be possible to extend the new main as far as the Lake, which would render it possible to dispense with the Tansa supply for a sufficient period to enable repairs to be effected either to the Aqueduct or piping north of Kurla without seriously affecting the supply to the City.

Removal of weed in the Lake.

149. Advantage has been taken of the low level of the water, to remove and burn weeds growing in the bottom of the Lake.

Road from Vehar to Tulsi.

150. This has not been undertaken for reasons explained in last report.

TULSI LAKE AND DEPENDANT WORKS.

151. The rainfall for the year 1899 has been 43·80, representing a total fall of about 1,647 million gallons; of this about 356 millions, or 22% were received into the Lake, as compared with 111·6″ in the previous year, equal to about 4,298 million gallons, yielding an available supply of 2,670 millions, or 62%. It may be noted that the smaller the rainfall, the less is the percentage which flows off the Gathering Ground.

152. The total number of days on which 1" or more rain fell was 11, and on which upwards of 3" fell 2.

153. The quantity of water passed out of the Lake averaged 5·35 million gallons per day; of this about 1·1 was lost by leakage and evaporation, but the draw off was restricted to about 3 million c. ft per week after the 25th August when all hopes of a normal rainfall had been given up, in order to spin out the supply till the next monsoon, the object aimed at has been successfully accomplished.

154. The evaporation for the months of October to March was 29½ inches or about $\frac{5}{32}$ inch per diem.

155. There was a burst on the 24" Tulsi main at the Mahim Creek on 9th August 1899. Water was shut off for about 12 hours.

BHANDARWADA (JOHN HAY GRANT) RESERVOIR AND FILTERS.

156. Filters Nos. 7 and 8 have been charged and put in use; in common with No. 9, there is a considerable and increasing leakage through the vaulting into the Reservoir below. In the case of the last named this has reached 5' per day, or 2½ inches per hour, and the others are not much better.

157. The filtering materials were removed from Filter No. 2 when several cracks were found in the floor and the bottom coated with asphalte 1" thick with a view of stopping leakage. The work was done departmentally at a cost of Rs. 3,157. The result has been very satisfactory. The filtering materials are being washed and replaced. Filters Nos. 3, 4, & 6 may be advantageously treated in like manner.

MALABAR HILL RESERVOIR.

Filters.

158. Filters Nos. 1, 2, and 3 have been working satisfactorily throughout the year.

159. The re-charging of No. 4 is still in hand, Messrs. Esufalli Abdulali and Company, who were given the contract for supplying Katch sand for this purpose, having carried out their work in such a dilatory and unsatisfactory manner that it has been decided to take the work out of their hands.

QUALITY OF WATER.

160. Nine crocodiles have been killed during the year, and 190 eggs destroyed.

161. Owing to the failure of the monsoon the quantity of water available has been diminished by about 10 per cent., and the quality has also been affected by excessive vegetable growth.

A. Smith Bruce
M.I.C.E.,
Asst. EXECUTIVE ENGINEER,
BOMBAY MUNICIPALITY W. W.

162. Save a 4″ metered branch for the supply of the Kutchra siding, no extensions have been made in the past year.

163. A revised scheme of mains extension has been sanctioned by the Corporation, the plans for which are now completed. Unfortunately the great rise which has taken place in the price of steel and iron, will make their cost about 40 per cent. greater than it would have been had they been carried out when first proposed.

164. List of Bursts Repaired during the year 1899-1900 :—

Particulars.	Size.	No.	Remarks.
Bursts	2½″	1	
Do.	3″	87	
Do.	4″	24	
Do.	5″	2	
Do.	6″	3	
Do.	7″	5	
Do.	8″	4	
Do.	12″	1	
Do.	18″ (branch)	1	
Do.	24″×24″	1	
Do.	32″	1	
Do.	48″	1	

165. The following are the localities in which bursts occurred in mains of 12″ diameter and upwards in the year 1899-1900 :—

12″ Mori Road, Dharavi.
18″ Chinch Bunder Road.
24″×24″ (Branch Tulsi and Tansa) Clerk Road, Mahaluxmi, near Level Crossing.
32″ Grant Road Junction, Tank Street.
48″ Soparibag Road, opposite G. I. P. Railway Workshops.

166. During the year 441 new connections ware made, *vide* Table No. 10.

167. Two hundred and twenty-seven connections were cut off for various reasons.

168. The net increase in the number of connections, exclusive of those made to Health Camps, has been 217, or 1·0 per cent.

169. The annual growth in the number of connections in the past 3 years has been as follows :—

Year.	Number.	Per cent of increase.
1897-98	103	0·5
1898-99	175	1·8
1899-1900	214	1·0

170. The consumption of the water sold by meter during the past 3 years has been as follows :—

1897-98	1,253,345,113
1898-99	1,470,056,205
1899-1900	1,533,074,634

171. During the past year 1,350, or 54 per cent. of the whole number (2,501) of meters in use were tested, with the following result:—

Defects.	No.	Per cent. of total No. tested.	Per cent. of total found defective.	Per cent. of total No. of meters in use.
Meters stopped owing to wear and tear ...	275	20·38	49·4	10·9
Slow do. do. ...	211	15·64	37·8	8·4
Stopped by dirt in moving parts..	8	0·59	1·5	0·3
Slow...	37	2·74	6·6	1·5
Fast...	1	·01	.....	.....
Wilfully damaged...	26	1·92	4·7	1·0
Working correctly...	792	58·72	.....	.....
	1,350 / 54%	100·00	100·0	22·1

172. It will be observed that the total percentage of meters found out of order from all causes has fallen from 24 to 22 and the percentage stopped working owing to dirt or worn parts from 18 to 11 per cent. This may be considered satisfactory, and is, it is believed, due to greater care being taken to clean the dirt boxes at frequent intervals and to the meters not being left so long on connections without being removed and overhauled.

Waste Prevention.

173. The work of examination of mains by means of Deacon's meters proceeds steadily, and shows them to be in a satisfactory condition.

FINANCIAL.

174. The value of the Reserve Stock on the 1st March 1899 was Rs. 4,13,520-6-4. The purchase during the year aggregated to Rs. 52,288-4-1. The issues during the year aggregated to

Rs. 60,654-12-5, and the value of the balance on the 1st March 1900 was Rs. 4,05,153-14-0. The profit on Stock was Rs. 11,776-3-10 and loss Rs. 1,438-11-3. This leaves an amount of Rs. 10,337-8-7 on the credit side.

Sale of Rights of Cultivation.

175. The rights for gathering fruits from trees, cutting grass, &c., from Municipal land on the margins of the Lakes and along the lines of mains, &c., realized Rs. 1,762-10-8, as against Rs. 1,183-0-0 received during the preceding year.

Works Executed for Municipal Departments and Private Parties.

176. The amounts of Works executed by the Water Branch during the year 1899-1900 for Municipal Departments and Private Parties were as follows :—

	Rs.	a.	p.
Departmental Works	32,001	13	1
Private Works	4,623	9	2
Total Rs.	36,625	6	3

E.

REGULATION OF STREETS AND BUILDINGS.

BUILDING APPLICATIONS.

177. The number of applications for permission to either build or re-build houses, &c., during the year under report, amounted to 2,022, or 351 more than those received during the preceding year. Of these 1,978 were passed either wholly or partially, and only 44 were unconditionally disapproved on sanitary and other grounds.

NOTICES AND SUMMONS ISSUED.

178. During the year under review 5,436 notices were issued on house-owners under various sections of the Municipal Act, or 1,845 more than those issued during the previous year.

179. Nine hundred and thirty-three summonses were issued under different sections of the Municipal Act against the house-owners who failed to comply with the notices served upon them.

180. In 333 of these cases the parties complied with the terms of the notices served upon them ; in 397 cases the parties were warned and discharged ; in 135 cases they were convicted and fined ; 17 cases were postponed to the year 1900-1 ; in 48 cases second summonses, and in 3 cases third summonses, were issued.

181. The amount of fines realized was Rs. 1,756-9-0.

182. The following statement shows the different sections of the Act under which offenders were prosecuted and the other details of prosecutions during the year 1899-1900 :—

Wards.	Number of sections of the Act.	Number of summonses issued.	Cases withdrawn as requirements were complied with, &c.	Persons warned and discharged.	Persons convicted and fined.	Cases postponed to next year 1900-1901.	Number of second summonses.	Number of third summonses.	Number of fourth summonses.	Amount of fines. Rs. a. p.

BUILDINGS OR PARTS OF BUILDINGS WHICH FELL DOWN.

183. During the year under report 20 buildings or parts thereof fell down. In 15 of these there was no injury to life, but in 5 cases 6 persons were injured and 2 killed.

REMOVAL OF RUINOUS HOUSES, HUTS, OBJECTIONABLE CONSTRUCTIONS, DOORS, PROJECTIONS AND ENCROACHMENTS ON STREETS.

184. Action was taken under various sections of the Municipal Act, for the summary removal of ruinous houses, and huts of objectionable constructions and of doors opening outwards, projections and encroachments on streets, &c., with the following results:—

No. of cases in which action has been taken departmentally ...	1,102
No. of cases executed by house-owners or withdrawn ...	2,833
No. of cases in which action is pending	583

STREET IMPROVEMENTS OR SET-BACKS.

185. The amount allowed for Street Improvement for the year 1899-1900 was Rs. 1,00,000, which, together with the grant for 1898-99, renewed during the year under review, amounted to Rs. 1,92,290-9-2. Out of this amount Rs. 60,984-4-9 were actually paid during the year and a large amount of liability is still to be met.

186. The widening of streets is a work of great importance to the City, and I am of opinion that a much larger sum than that annually granted should be given, if the streets are to be widened to the required extent. The value of land has steadily risen within the last few years and is still on the ascendant. It is therefore advisable that all open spaces, lying within the "regular lines" of the streets, should be taken up without loss of time, under Section 299 of the Municipal Act. This, however, cannot be done even to a small extent, as the annual grant is barely sufficient to meet immediate requirements.

187. The insanitary houses in the City are being improved under the Epidemic Diseases Act. This affords an excellent opportunity for setting back the houses, especially in the narrow streets and lanes; but it also cannot be done unless a much larger grant is made.

During the past year several houses could have been easily and economically set back in the process of improvement, but it has not been possible to effect this much-desired improvement for want of funds.

188. The following statement shows the areas and values of ground added to streets in each ward during the year under report :—

643·77	square yards	in Ward	A	Rs.	35,167	6	11
809·09	„	„	B	„	34,106	5	10
563·23	„	„	C	„	24,847	6	3
798·70	„	„	D	„	10,281	11	4
82·76	„	„	E	„	1,076	12	2
833·50	„	„	F	„	2,949	11	4
61·46	„	„	G	„	447	13	4
Total sq. yds. 3,792·51			Total	... Rs.	1,08,877	3	2

189. The details of the ground added are given in the following statements :—

GROUND ADDED TO STREETS IN WARD A.

	1,29,05,054 s. ft.	3,68,705 12 4
Unexpended Balance ...		16,752 4 5
Total sanctioned grant ...		3,85,458 0 9

202. The area of roads metalled during the year under review being 1,02,97,172 sq. feet, and the expenditure incurred upon the same being Rs. 2,79,949-2-7, the rate for metalling works out to 5·22 pies per square foot.

203. It is needless for me to reiterate what I have previously stated that if the roads of the city are to be kept in a satisfactory condition, a larger grant than that usually allowed is absolutely necessary.

204. A separate reference will be made on this subject at the time of the preparation of the Budget for the next year.

Road Metal.

205. The total quantity of metal purchased during the year under review was 10,54,391·23, cubic feet at a cost of Rs. 69,853-6-3.

206. As usual considerable difficulty was experienced in obtaining metal of the contract size and shape. With a view to get over this difficulty, tenders were invited during the year under review for the supply of metal broken by machinery, but none were received.

Road Watering.

207. The road watering grant for the current year, excluding that of providing new hydrants, was Rs. 67,900. This grant, like that for Road Repairs, is insufficient.

208. The new system of watering has proved far more satisfactory than that of watering by means of bullock carts. It promises to be more so when the constant supply of water at high pressure is introduced into the City.

Footpaths.

209. No grant was made during the year under review for paving footpaths, but it is hoped that sufficient grants will be given for carrying out this important work in future.

Tramways.

210. The work of renewing the tram lines along Mint Road, from Ballard Road to Fort Street, was completed, and that of renewing the tram lines along Parel Road from Imamwada Road to Banian Street was in progress during the year under review, and a proposal for renewing the tram track along Frere Road from Fort Market to Carnac Bridge has been received from the Tramway Company.

211. A notice was served on the Tramway Company (*a*) to renew the rails where their grooves have become wider than 1¼ inch, (*b*) to remove the humps between the tram lines, (*c*) to water their tram tracks, and (*d*) to remove the scrapings produced on their tracks. Instead of complying with the requisition, the Tramway Company filed a suit in the High Court to restrain the Municipality from enforcing the requirements of the notice. The suit has not yet been heard, and it is believed that the Company intend to withdraw it.

G.

PUBLIC LIGHTING.

GAS LIGHTING.

212. The total number of gas lamps in the City at the end of the year under report was 3,792 as detailed in the following statement, and the total cost has been Rs. 2,26,959-6-10.

Ward.	Single light.		Double lights.				Triple lights.		Quadruple lights.		Quintuple lights.					Total number of lamps.
	Part month.	Whole month.	Apollo Pier.	Free Fountain.	Wellington Fountain.	Khareedji M. Shreff Statue.	Part month.	Whole month.	Apollo Pier.	Victoria Docks.	Hornby Road.	Queen's Statue.	Church Gate Street.	Mint Road.	Prince's Dock.

E.....	463	88	...	...	...	4	2	...	...	...	...	...	...	...	...	557
F.....	113	10	...	...	...	...	1	...	...	...	...	...	...	...	...	124
G.....	126	16	...	...	...	...	...	...	...	...	...	...	...	...	...	142
Total ...	3,000	729	8	8	8	4	13	2	8	4	1	4	1	1	1	3,792
Number of burners.	3,000	729	16	16	16	8	39	6	32	16	5	20	5	5	5	3,918

213. The minimum contract pressure and illuminating power were generally maintained throughout the year. The mantles gave some trouble owing to their fragility, but on the whole the lighting was satisfactory.

214. During the year under review 45 gas new lamps were put up along the roads detailed below :—

Names of Roads.	No. of gas lamps.	Remarks.
Ormiston Road	2	This road was not lighted before.
Merewether Road	10	Do. do.
Navroji Fardunji Road	4	Do. do.
Mandlic Road	2	Do. do.
Tullock Road	1	Do. do.
Road north to the Tramway Stable Godown	3	Do. do.
Doongersey Road	7	This road was lighted with kerosine oil lamps.
Chikalwadi Road	7	Do. do.
University Road	2	This road was not lighted before,
Fuller Road	2	Do. do.
Hope Street	2	Do. do.
Elden Road	3	Do. do.
Total No. ...	45	

KEROSINE OIL LIGHTING.

215. As in the preceding years, the kerosine oil lighting was carried out departmentally and Snow Flake kerosine oil of 150° proof test was used.

216. The total number of kerosine oil lamps in the City at the end of the year under review was 1,776 as shown below :—

WARD.	Double Wick.		Single Wick.		Total.
	Part month.	Whole month.	Part month.	Whole month.	
A	...	...	89	16	105
B	...	...	121	57	178
C	...	1	33	98	132
D	26	...	93	40	159
E	2	...	345	129	476
F	...	...	400	2	402
G	...	...	250	74	324
Total ...	28	1	1,331	416	1,776

217. The total cost of kerosine oil lighting during the year under review was Rs. 36,845-9-6. Deducting from this Rs. 1,927-10-2 recovered by the sale of empty kerosine oil cases with tins, Rs. 2,675-15-3 for Departmental bills for lighting plague camps, &c., and Rs. 560-13-4 as miscellaneous recoveries from private parties for breakage of lanterns, posts, &c., the net cost of kerosine oil lighting of the City during the year has been Rs. 31,681-2-9, which gives for the lamps a rate of Rs. 17-13-5 per lamp per annum.

THE ELECTRIC LIGHT INSTALLATION FOR THE CRAWFORD MARKETS AND THE MUNICIPAL OFFICE.

218. The year commenced badly with the breakage of the armature shaft of the Crawford Markets arc lighting dynamo on the 4th March. The armature was at once removed and sent home to the makers for fixing a new and stronger shaft. As this necessitated the re-winding of the armature, the makers were ordered to make certain alterations in the winding which the Assistant Engineer, Mechanical Branch, considered would prevent the trouble formerly experienced with broken wires.

219. The spare armature was put in the place of the broken one, but it was far from satisfactory as the wires broke very frequently, and each breakage caused an entire stoppage of the lights until the repairs could be effected.

220. On the 29th April, six coils of this armature burnt out, necessitating a stoppage of the machine for three days for re-winding.

221. The first-mentioned armature was received back from the makers through their local Agents, Messrs. John Fleming & Co., on the 31st August, and it was put in place on the same day. The alterations and improvements effected appear to be satisfactory as no failure of any kind has occurred up to now.

222. The cost of the alterations in the armature and renewal of the shaft was Rs. 1,081.

223. There was only one failure of the Markets Clock Tower lights during the year on account of a breakage in the main cable under Palton Road.

224. The Municipal Office lights were worked without any stoppage

225. A new main driving belt to place the one which had been at work since the plant was originally started and which was worn out was purchased from Messrs. Crawder & Co. in August at a cost of Rs. 357-8-0.

226. In consequence of the above-mentioned heavy maintenance and renewal charges and to extra lighting in the Municipal Office, the expenditure could not be kept within the apportionment of Rs. 10,947 for the work, and the Standing Committee under their Resolution No. 12908 of 21st February 1900 approved of the transfer of Rs. 1,800 from savings in the grant for the Public Health Department, Markets and Slaughter Houses, Sec. V, Lighting Municipal Markets with Gas, to the grant for (*a*) Lighting the Crawford Markets with Electricity (Rs. 1,500) and (*b*) General Office Establishment, Electric Lighting of the Municipal Offices (Rs. 300).

227. The total expenditure for lighting with electricity the Arthur Crawford Markets and the Municipal Office has been Rs. 12,556-13-8.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

MUNICIPAL WORKSHOPS.

MONTHLY EXPENDITURE, &c.

228. The following statement gives the monthly expenditure, amounts charged, &c., on account of work done and establishment entertained, at the Municipal Workshops, during the year :—

Monthly Expenditure, Amounts charged, &c., on account of Work done and Establishment entertained at the Municipal Workshops during the year 1899-1900.

| Month and Year. | Departmental Works, &c. | | |

229. From this statement it will be observed that the expenditure incurred under the different heads of the Workshops Accounts was as follows :—

	Rs. a. p.	Rs. a. p.
For Departmental Works, &c.—		
Labour	43,150 2 1	
Stores	63,737 8 10	
Piece-work, cart-hire, &c.	2,686 9 0	
Total ...		1,09,573 14 11
For Workshop Stores—		
Labour	414 13 0	
Stores	1,342 11 6	
Total ...		1,757 8 6
For Shop Charges—		
Labour	1,302 5 6	
Stores	11,170 3 11	
Piece-work, contingencies, water tax, &c.	1,447 9 5	
Total ...	13,920 1 10	
For Tools, Repairs to Machinery, Buildings, &c.—		
Labour	35 10 0	
Stores	45 8 2	
Piece-work	123 3 6	
Total ...	204 0 8	
For Supervision Charges, Establishment, &c.—		
Establishment	7,969 12 8	
Stores	.....	
Contingencies	426 6 5	
Total ...	8,396 8 1	
Total Working Expenditure ...		22,520 5 7
Total Expenditure during 1899-1900 was Rs. ...		1,33,851 13 0

	Rs. a. p.	Rs. a. p.
The total expenditure during 1899-1900 on account of Departmental works, &c., (Rs. 1,09,573-14-11) and for store jobs (Rs. 1,757-8-6) aggregated, with the amount charged for supervision, tools, shop and repair charges, &c., (Rs. 38,149-10-7) aggregated to	.....	1,49,480 8 0
Add—Amount of incomplete jobs at the beginning of the year 1899-1900	.....	15,324 6 3
		1,64,804 14 3
Deduct—Amount of incomplete jobs at the end of the year 1899-1900	.....	10,312 1 1
Thus the total amount of bills preferred by the Workshops in 1899-1900 was...	.....	1,54,492 13 2

PERCENTAGE FOR SUPERVISION, SHOP, REPAIR CHARGES, &c., GROUND RENT AND WATER SUPPLY.

	Rs. a. p.	Rs. a. p.
The actual charges for working the Shops, &c., for supervision (exclusive of the pay of the Assistant Engineer, Mechanical Branch,) Shop and repair charges, repairs to and purchase and renewal of tools and machinery, &c., amounted to	.....	22,520 5 7
The amount recovered on account of the abovementioned expenses by charging the fixed percentage of 35 per cent. on the cost of labour employed and materials used for works executed at the Shops and 25 per cent. for fixing the fence on the sides of the Municipal Railway Line between Coorla and Deonar was	37,712 2 11	.....
The difference between the actual cost of working the Municipal pumping engine and the fixed charges at which it was let on hire to private parties and for Departmental works was	240 7 6	.....
The percentage on private works executed was ...	161 6 2	.....
The amount realized by the sale of unserviceable and surplus articles was	1,482 11 4	.....
Allowance for stationery, &c., for the Garlick's Incinerator	35 0 0	.....
The balance in favor of Workshops was therefore ...	.....	17,111 6 4
Total Rs. ...	39,631 11 11	39,631 11 11

230. From the abovementioned balance of Rs. 17,111-6-4 in favour of the Workshops a West's Patent Hydraulic Tyre setting machine was purchased from Messrs. Turner Hoare & Co., at a cost of Rs. 6,250. It is expected that its use will, in addition to the more efficient work turned out, effect a considerable saving over the usual method of shrinking tyres by heat.

231. No ground rent was paid to Government during the year and the settlement of the long standing dispute as to the right of Government to charge a higher rental for the ground occupied by the Workshop and Store premises has not advanced in any way.

232. The absence of the settlement of this question is acting very prejudicially against the efficiency of the Workshops as it prevents improvements being effected in the Workshops which are most urgently required, to cope with the increased work which has now to be executed.

233. Charges for water consumed at the Workshops from 1st October 1898 to 30th September 1899 amounting to Rs. 1,360-0-1 were credited to the Municipal Fund and were met out of the grant for stores and water-supply.

234. The budget grant under this head as well as that for extra and overtime labour were found insufficient for the several works which the Workshops had to execute for the different Municipal Departments and those in connection with the measures taken for the suppression of plague. The abovementioned grants had to be twice supplemented by additional ones from Surplus Cash Balance, the former by Rs. 21,000 and the latter by Rs. 11,000 as sanctioned under Corporation Resolutions Nos. 2037 and 5920 of 15th June and 21st September 1899, respectively and No. 2180 of 17th May 1900.

235. Under the heading of New Works in the Budget for 1899-1900 a sum of Rs. 12,250 was sanctioned for the purchase of a new Log Saw Frame (machine), a "Wheelwright" machine and a second-hand portable engine for the Workshops. Under their Resolution No. 1023 of 10th May 1899, the Standing Committee sanctioned the acceptance of the tender of Messrs. Isufalli Abdulalli & Co. for the supply of a Saw Frame and "Wheelwright" with accessories by Messrs. A. Ransome & Co. at a total cost of Rs. 9,930. The machines were received at the close of the year and they are now being erected.

236. The portable engine mentioned above was not purchased as it was decided to utilize instead the engine previously used for driving the Electrolising Plant.

NEW WORKS EXECUTED AT THE WORKSHOPS.

237. The following are the principal items of new works completed during the year :—

Description of Work.	Cost of Work. Rs. a. p.
Providing and fixing 24,808 R. ft. of fencing alongside the Municipal Railway between Coorla and Deonar at annas 9 per R. ft.	13,954 3 6
Making and fixing 2 pairs of iron gates across the Tansa pipe line	106 11 6
Renewing one gully flushing reel for Health Department, C Ward	667 10 7
Making 137 dust-bin carts for the Health Department ...	13,658 4 0
Making 4 show cases for the Victoria and Albert Museum.	368 6 5
Making and fixing new shred lifters at the Love Grove Pumping Station	4,738 0 3
Constructing an Office Store Room and Trip Marker's Office at Tardeo Flat and Gatemen and Pointsmen's Chaukies at Tardeo Flats and at Deonar	7,397 10 4
Making sluices and gear for Vehar Outlet Tower	1,686 8 0
Making 6 material trollies for Coorla and Deonar Works...	882 11 3
Making 6 new drain carts for the Drainage Department ...	904 9 6
Making 2 light riding trollies for Coorla and Deonar Works.	456 1 8
Making 4 teakwood record presses for the Water Works Department	334 3 4
Converting 20 old water carts into night soil carts... ...	998 1 0
Constructing 5 Cemetery Chaukies for the Health Department	1,167 10 1
Erecting a disinfector with shed at the Northbrook Garden	2,999 0 2
Erecting a corrugated iron roof over the latrines and urinals on the Apollo Reclamation	3,024 10 1
Repairing 28 butchers' tables in A. C. Beef Market ...	1,131 2 0
Making 2 mule carts for the Health Department	291 5 11
Making 6 wooden hand carts for District Officers	505 0 7
Making 50 mutton benches for the A. C. Mutton Market...	1,964 13 10

238. The following are the principal items of new works in progress but not completed during the year :—

Description of Work.	Estimated Cost.	Expenditure up to 28th February 1900.
	Rs. a. p.	Rs. a. p.
Making 7 flexible stand pipes for the Road Department	350 0 0	313 5 0
Making 43 drain carts for the Health Department	6,450 0 0	2,565 4 4
Renewing hearse No. 6	351 4 0	201 4 3
Making and fixing 8 sluice gates at the Love Grove Sluices	7,345 0 0	6,216 1 4
Making 4 hand carts, 24 ladders, &c., 4 Carpenter tool boxes complete for use in connection with the rescue of persons from fallen buildings	1,763 0 0	647 10 10

239. Besides the above works, the Workshops have continued to keep in repair the rolling-stock of the Health and Road Departments, as well as the numerous articles of plant and machinery used by the various Departments.

HYDRAULIC LIFT IN THE MUNICIPAL OFFICE.

240. The Hydraulic Lift worked satisfactorily during the year. The cup leather of the lift had to be renewed and as there was no provision for this in the Budget, the cost of a new leather at Rs. 75 was met from the Commissioner's Discretional Contingencies.

241. The total expenditure incurred on working the Lift, exclusive of the above item, amounted to Rs. 1,598-6-1.

I.

GENERAL.

BILLS, VOUCHERS, &c., RECEIVED AND PASSED.

242. Comparative statement of the number of bills, vouchers, &c., received, examined and passed during the five years from 1895-96 to 1899-1900 :—

Description.	1895-96.	1896-97.	1897-98.	1898-99.	1899-1900.
Bills for supplies, works, &c.	6,693	7,481	10,189	11,465	11,032
Departmental Works Bills	2,108	2,067	3,855	3,847	4,009
Private Works Bills	3,258	2,268	2,341	1,945	2,274
Total ...	12,059	11,816	16,385	17,257	17,315

NOTICES, &c., ISSUED.

243. Comparative statement of the number of notices, &c., issued during the five years from 1895-96 to 1899-1900 :—

PLAGUE OPERATIONS.

Improvement and demolition of insanitary buildings.

246. During the year the systematic inspection of houses in the following districts, which was in hand at the commencement of the year, was continued :—

1. Colaba.
2. Fort.
3. Mandvi.
4. Chakla.
5. Umarkhadi.
6. Dongri.
7. Market.
8. Dhobitalao.
9. Bhuleshwar.
10. Kharatalao.
11. Kumbharwada.
12. Khetwadi.
13. Mazagon.
14. 2nd Nagpada.
15. Tardeo.
16. Byculla.

247. The following additional District was also taken up during the year :—

1. Walkeshwar.

248. Urgent cases of insanitary houses in other parts of the City were also inspected.

249. The accompanying statement marked **A** gives detailed information as regards the number of houses inspected in each district, those found in need of improvement, and also those condemned for demolition as being incapable of improvement.

250. Altogether 2,023 houses were inspected during the year under review, of which 1,788 houses were found more or less in need of improvement, 226 were found incapable of improvement and fit for demolition, the remaining being such as not to require any improvement.

251. In all 271 houses and sheds were demolished during the year.

252. The accompanying statement marked **B** shows the number of notices served under different sections of the Government Notification and of the Municipal Act.

253. It will be seen from this that during the year 2,819 notices were issued, requiring house owners to improve their buildings, 1,041 houses were taken in hand for improvement, 629 houses had to be declared as unfit for human habitation, out of which 39 houses were closed permanently for demolition, 303 temporarily for enforcing improvements in them and 287 were declared unfit for human habitation to allow of action being taken for the improvement of their ventilation to admit of their being temporarily occupied.

254. Statement **C** gives particulars regarding compensation awarded during the year by the Government Assessor for buildings condemned for demolition under Sections I and IX of the Government Notification No. 228-P, dated 10th February 1897 and that awarded by the Commissioner under Section 426 of the Municipal Act.

255. Statement **D** shows details of compensation paid during the year for buildings demolished, under Sections I and IX of the above Notification and for huts and sheds demolished, under Section 426 of the Municipal Act.

256. The work of abating overcrowding in the congested parts of the City was carried out as during the last year and overcrowding was abated in 106 houses.

257. During the year 98 certificates of fitness have been issued.

258. The following is a summary of clerical work done by the House Inspection Branch during the year :—

Letters, &c., received including replies to references to the Inspectors	16,891
Letters, &c., despatched including references to the Inspectors for report	23,327

259. I beg to observe that during the year 1,404 letters were received from the Health Officer and the Divisional Health Officers regarding insanitary buildings. Departmental action was taken under the powers vested in the Municipal Commissioner under Government Notification No. 2675P-3027 of 10th May 1898 to improve the ventilation of 68 buildings, as their owners failed to take the work in hand, but immediately Municipal men were employed, the owners themselves took the work in hand and, at their request, the Municipal men were withdrawn.

A

LIST OF MUNICIPAL PROPERTIES.

264. The list of Municipal properties which appeared in the last Administration Report is being thoroughly revised and is almost complete.

265. It will be printed in the next Administration Report and thereafter at intervals of every five years as approved by the Municipal Corporation under their Resolution No. 2609 of 28th May 1900.

THE MUNICIPAL SERVANTS' ACT.

266. No circumstances have arisen in this Department during the year to necessitate the putting of the Municipal Servants' Act into operation.

I have the honour to be,

Sir,

Your most obedient Servant,

M. C. MURZBAN, F. R. I. B. A., M. Inst. C. E.,

Executive Engineer, Municipality.

J.—SPECIAL DRAINAGE WORKS.

Report of Mr. James W. Smith, Special Drainage Engineer, forwarded under his No. S. D. 486 of 14th June 1900.

SIR,—I have the honour to submit the Administration Report of my Department for the year 1899-1900.

2. I acted for the Executive Engineer for one month from 16th May to 15th June 1899 in addition to carrying on my own duties.

3. The unfinished works commenced in previous years, and the new works commenced during the year were as follows :—

UNFINISHED WORKS.

1. Colaba sewerage works.
2. Umarkhadi sewerage works.
3. Mazagon sewerage works (gravitation portion).
4. Improvement of roadside drains in the Khetwadi District.
5. Masonry drain from Girgaon Road passing through Night-soil Depôt Lane and Mathew Road and crossing the B. B. & C. I. Railway to Back Bay.
6. Opening out the water-course to the west of Messrs. Kama's property, Parel Road, and constructing a covered drain thereat.
7. Storm-water drain in Lower Colaba Road and Thomas Street.
8. Improvement of roadside drains and water-courses in and about Dadar Road.
9. Surface drainage works in Kamatipura District.
10. Machinery for the Parel, &c., Sectional Sewerage Districts.

11. Mazagon Sewerage Works (Sectional).

12. Works in 9" pipe sewers (*a*) in the Extension of Ormiston Road and the new 80 foot road next the sea, (*b*) in Henry Road from Merewether Road to Colaba Causeway, and (*c*) in the Cross Road (Barrow Road) immediately south of Ormiston Road.

WORKS COMMENCED DURING THE YEAR.

13. Ovoiding and constructing masonry side drains in—

(*a*) Gowalia Tank Road (south side),

(*b*) Pathan 2nd Street (both sides),

(*c*) Dadar Road from Mr. Adam Mistri's premises to the drain near the junction of Dadar Road and Elphinstone Road,

(*d*) Dadar Road (north side) in front of Mr. V. J. Kirtikar's premises Nos. 45 to 48,

(*e*) Dadar Road (east side),

(*f*) Matharpakhadi Road (both sides) in front of chawl Nos. 74 to 80,

(*g*) Walkeshwar Road between Ridge Road and Queen's Road,

(*h*) Mugbhat Lane,

(*i*) Dungarsi Road, near Mr. O'Connell's Bungalow,

(*j*) Mount Pleasant Road (south-west side) at its junction with Nepean Sea Road, and

(*k*) Narayan Dabhulkar Road (both sides) at the Dhobi Ghat near Mr. Branson's premises.

14. Side drains in Carroll Road.

15. Storm-water drain in Tardeo Road.

16. Automatic flush tanks on pipe sewers in various parts of the City.

I.—COLABA SEWERAGE WORKS.

The suit filed by Messrs. Bulkley & Co. came to an end and the Chief Justice (Sir Lawrence Jenkins) and Mr. Justice Candy delivered their judgments on the 29th March 1900. By these judgments the suit and appeal were dismissed and in so far as regards any claim which can be made by Messrs. Bulkley & Co. against the

Municipality, the matter is at an end, unless they should appeal to the Privy Council. The costs have been dealt with in a special way; the costs of the accounts before the Commissioner of the Court are payable by the Municipality except those incidental to the 2nd Appeal Report, which as well as all the other costs of the suit and appeal throughout are payable by Messrs. Bulkley & Co.

Since this decision the Solicitors of Messrs. Bulkley & Co. submitted a proposal on his behalf to our Solicitors to the effect that Mr. Bulkley would pay the costs awarded against him by the decree and would abandon all idea of appealing to the Privy Council if he were assured that the Municipality would make no further claims against him under the contract. This offer was subsequently varied, the proposal as to payment of costs being withdrawn, and the Standing Committee declined to accept the compromise proposed.

An advance of Rs. 62,112-5-6 has been made over and above the grant towards meeting the expenditure under this head.

II.—UMARKHADI SEWERAGE WORKS.

The remarks made under the head of "Colaba Sewerage Works," in respect of the suit of Messrs. Bulkley & Co., apply equally to the case of the Umarkhadi Sewerage Works.

The expenditure incurred under this head during the year amounts to Rs. 5,000, being payment to the Municipal Solicitors on account of law charges in the suit above alluded to. This together with the expenditure in the previous years amount to Rs. 3,52,218-10-5 against the grant of Rs. 3,86,993.

III.—MAZAGON SEWERAGE WORKS (GRAVITATION PORTION).

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & CO.

The contract period of 2 years for the completion of these works expired on the 23rd November 1897, while they were finished on 31st July 1899 and were finally taken over from the Contractors on the 9th November 1899 after full inspection and the remedying of defects. The final bill was not passed at the close of the financial year.

A metal vent shaft at a cost of Rs. 626-12-2 was erected in Babula Tank Road opposite the manhole near the Revd. Mr. Lord's bungalow. The shaft was erected by Messrs. Richardson and Cruddas.

The expenditure certified and passed during the year amounted to Rs. 3,254-10-1. This together with the previous expenditure amounts to Rs. 2,76,775-13-10 as shewn below :—

	Rs.	a.	p.
Establishment	28,363	3	5
Contingencies	4,530	15	1
Road repairs	21,942	5	9
Work	2,22,793	14	2
Rs.	2,77,630	6	5
Less—Credit by sale of contract forms and 6 C. I. pipes 24" sold to the Water Deptt. and one C. I. pipe 30" to Mr. Sayaji Naguji for Fergusson Road and Chinchpogli Sewerage Works	854	8	7
Total Rs.	2,76,775	13	10

IV.—IMPROVEMENT OF ROADSIDE DRAINS AND PROVISION OF WATER GULLIES IN THE KHETWADI DISTRICT.

CONTRACTORS—MESSRS. VITHAL SAYANA & Co.

This work was completed in February 1898 and the final bill was passed in the same year, but a small expenditure of Rs. 15 incurred and certified in 1898-99 was not paid until the commencement of 1899-1900.

The total gross expenditure including this sum of Rs. 15 amounts to Rs. 53,259-2-8 or Rs. 52,672-2-8 nett, after deducting credits of Rs. 587 by sale of contract forms and old stone ladis, against the grant of Rs. 54,486.

V.—MASONRY DRAIN FROM GIRGAON ROAD PASSING THROUGH THE NIGHT-SOIL DEPOT LANE AND MATHEW ROAD AND ACROSS THE B. B. & C. I. RAILWAY TO BACK BAY.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

The extra works which were incomplete at the end of the preceding year were completed by the end of April 1899 and the final bill was passed and paid during this year. It amounted to Rs. 18,962-4-8.

The total expenditure on this work amounts to Rs. 21,317-6-7 as detailed below against the grant of Rs. 23,678 :—

	Rs.	a.	p.
Establishment...	1,071	9	2
Contingencies...	384	10	5
Road repairs	918	14	4
Work	18,962	4	8
Rs.	21,337	6	7
Less—Credit by sale of contract forms „	20	0	0
Total ... Rs.	21,317	6	7

VI.—OPENING OUT THE WATER COURSE TO THE WEST OF MESSRS. KAMA'S PROPERTY, PAREL ROAD, AND CONSTRUCTING A COVERED DRAIN THEREAT.

CONTRACTOR—MR. SAYAJI NAGUJI.

This work consisted of (*a*) opening out the water course and (*b*) constructing a covered drain.

The second part of the work was completed in 1897-98, but the first part which was deferred under the advice of the Municipal Solicitors as Messrs. Kama objected to the execution of the work still remains untouched.

It is not worth while to attempt to do the work as the same objection would be raised again. The balance in the grant, *viz.*, Rs. 4,266-9-5, might be more usefully utilized for some other work of a similar nature.

VII.—STORM-WATER DRAIN IN LOWER COLABA ROAD AND THOMAS STREET.

This work was completed by the contractor, Mr. Sayaji Naguji, and the final bill was also passed during the preceding year. As the drain did not entirely stop the flooding in Lower Colaba Road, a branch storm-water drain from the junction of Lower Colaba Road with Thomas Street to 315 feet northwards was proposed and was sanctioned by the Corporation under their Resolution No. 257 of 13th April 1899.

This was completed by the end of May 1899, as stated in the preceding year's report.

There was a saving of Rs. 3,120-15-11 in the grant for the original works from which the cost of the branch drain estimated at Rs. 2,980 was sanctioned to be paid.

The bill certified and passed for this work amounted to Rs. 2,050-0-5. This together with the previous expenditure amounts to Rs. 12,743-8-9 as detailed below :—

	Rs.	a.	p.
Contingencies	163	13	4
Road repairs	954	0	2
Work	11,631	11	3
	Rs. 12,749	8	9
Less—Credit by sale of surplus earth.	„ 6	0	0
Total ...	Rs. 12,743	8	9

VIII.—IMPROVEMENT OF ROADSIDE DRAINS AND WATER-COURSES IN AND ABOUT DADAR ROAD.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

The final bill for this work was passed during the year under report. It amounted to Rs. 20,124-7-4.

The portion of the work which was to be carried out within the ground belonging to the B. B. & C. I. Railway was not done during the year as correspondence on the subject between the Agent and the Municipal Commissioner is still going on. The Railway authorities seem to be satisfied as to our right to the water-course, but they object to the construction of it within the Railway limits and have proposed to place at the disposal of the Municipality free of charge a strip of land outside the Railway limits between the Elphinstone Road and the Dadar Stations in which to build a stone-lined water-course. As private negotiations for the purchase of the land have proved abortive, steps have been taken by the Company to acquire the land under the Land Acquisition Act. As soon as the land has been purchased and transferred to the Municipality, arrangements will be made to construct the water-course.

The total grant sanctioned for the works amounts to Rs. 30,475, and the total expenditure certified and passed to the end of the year was Rs. 22,242-3-0 as per details below :—

	Rs.	a.	p.
Establishment	1,331	9	6
Contingencies	394	8	7
Road repairs	491	9	7
Work	20,124	7	4
Total	Rs. 22,242	3	0

IX.—SURFACE DRAINAGE WORKS IN KAMATIPURA DISTRICT.

CONTRACTORS—MESSRS. ALI MUHAMAD ABDULALI & Co.

The works were completed during the year within the contract period which was 9 calendar months from 21st September 1898 to 21st June 1899.

The final bill amounted to Rs. 64,643-8-11 as against the sanction of Rs. 64,980, which is made up as follows :—

	Rs.
Amount of contract work	51,898
Amount of excess on the item of removing and relaying water tables sanctioned under Commissioner's No. 4147 of 26th May 1899	2,800
Amount sanctioned for various items of minor extra works under Commissioner's No. 4055 of 25th May 1899	10,282
	Rs. 64,980

The Divisional Health Officer, No. III Division, complained of a very great nuisance for want of proper surface drainage arrangements in Stable Street and in the portion of Bapty Road between Grant Road and Sukhlaji Street.

This was altogether a new work and was not included in the original proposals for the surface drainage of Kamatipura, which provided generally for the relaying of old channels alone, new channels in two cross streets (*viz.*, Kamatipura 15th Street and Varsova Street) being the only exceptions.

The Health Officer urgently pressed for this work, and in my opinion it was a desirable adjunct to the work already carried in the District. It was estimated to cost Rs. 4,277 and the Standing Committee under their Resolution No. 11526 of 31st January 1900 accorded sanction to this expenditure being defrayed from the savings in the original grant of Rs. 91,805, and to the work being entrusted to the Contractors for the Kamatipura Surface Drainage Works.

The order for the work was given to the contractors on the 8th February 1900, and two months' period from the date of the order was allowed to them for the completion of the work.

This was pushed on with as rapidly as possible and was completed within the period of two months.

A bill on account amounting to Rs. 3,117-3-4 was certified and passed during the year, but the final bill was not ready at the end of the year.

The total grant for the works was Rs. 91,805 and the total expenditure certified and passed at the end of the year was Rs. 82,381-1-3, as detailed below :—

	Rs.	a.	p.
Establishment	4,668	1	3
Contingencies	2,344	14	2
Road repairs	6,000	0	0
Work	69,428	1	10
Rs.	82,441	1	3
Less—Credit by sale of contract forms ... „	60	0	0
Total Rs.	82,381	1	3

X.—MACHINERY FOR THE PAREL, &c., SECTIONAL SEWERAGE DISTRICTS.

CONTRACTORS—MESSRS. HUGHES AND LANCASTER BY THEIR AGENTS AND ATTORNEYS MESSRS. RICHARDSON AND CRUDDAS.

The contract period for completion of the machinery and other work expired on 31st March 1900, but the whole of the machinery has not yet been supplied and the other work has not yet been wholly completed.

Messrs. Richardson and Cruddas on 26th April 1899 wrote to me that their contract period was estimated principally on the time required for the supply, delivery and erection of the air compressing engines and they had assumed that there would be no delay on the part of the Municipality in providing the Engine House and the Engine Foundations. They stated that if the foundations were not ready in time to allow them 6 months for the erection of the machinery before the end of the contract time they should not be held responsible for delay. The matter having been placed before the Commissioner I replied to Messrs. Richardson and Cruddas by direction that on the conclusion of the work any delay beyond the contract time would be as favourably considered as might be justified by the circumstances tending to such delay.

The total expenditure certified and passed under this head to the end of the financial year amounts to Rs. 5,63,815-13-2 as detailed below :—

	Rs.	a.	p.
Establishment	73,712	15	6
Contingencies	3,003	9	10
Road repairs	13,931	15	6
Air compressing machinery	2,07,808	6	4
2 second-hand boilers for air receivers ...	2,640	2	9
Ejector stations with C. I. tubing	25,000	0	0
Air mains and sealed sewage mains ...	2,25,420	10	7
Land for engine-house, &c.	5,001	0	0
Engine-house, boiler-house, &c.	7,297	0	8
Total ... Rs.	5,63,815	13	2

The work under this head may be divided as follows :—

(A)—Supplying and erecting air compressing machinery with boilers, &c., at the Air Compressor Station, Love Grove.

(B)—(1) Supplying and fixing Shone's sewage ejectors and cast-iron tubbing together with all accessories and excavation for the same; (2) supplying and erecting outlet ventshafts together with all accessories and excavation and masonry for the same ; (3) supplying and fixing Shone's automatic ejector flush siphons ; and (4) supplying inlet ventshafts all in the Mazgaon Sectional Sewerage District.

(C)—Excavating for, and supplying, laying and jointing compressed air mains and sealed sewage mains with all fittings.

(D)—Construction of engine-house, boiler-house, chimney, &c., at Love Grove.

(A.)—Supplying and erecting air-compressing machinery with Boilers, &c., at the Air Compressor Station, Love Grove.

In addition to three shipments of machinery already reported as received, two more shipments were received during the year. These consisted of steam engines for air-compression. These portions of machinery were conveyed to and stacked at Love Grove by Messrs. Richardson and Cruddas. The last shipment to complete the whole of the machinery has not yet arrived.

The total sterling amount to be paid under the contract for the machinery is £21,280 and has been stipulated to be paid in the following manner, that is to say :—

(*a*) After receipt in Bombay of the Agent's certificate that one-third in value of the machinery and other work to be prepared in England has been executed and completed, a first sum of five thousand and three hundred pounds (£5,300), being one-fourth part of the total sterling payments or thereabouts subject to a retention of 10 per cent. as extra security.

(*b*) After receipt in Bombay of the Agent's certificate that two-thirds in value of the machinery and other work to be prepared in England has been completed, a further sum of five thousand and three hundred pounds (£5,300), being one-fourth part of the total sterling payments or thereabouts subject to a retention of 10 per cent. as extra security.

(*c*) After receipt in Bombay of the Agent's certificate that the said machinery and other work have been duly

shipped from England in good order and condition and that he has received the complete bills of lading and insurance documents duly endorsed, a sum of three thousand and two hundred pounds (£3,200), being three-twentieth parts of the total sterling payments or thereabouts.

(*d*) On issue of the certificate of the Engineer that the said machinery and other work have been received in Bombay, the sum of five thousand and three hundred pounds (£5,300), being one-fourth part of the total sterling payments or thereabouts.

(*e*) On issue of the certificate of the Engineer on the completion of the machinery and other work that the same have been satisfactorily erected and completed according to the terms of the contract, the sum of two thousand one hundred and eighty pounds (£2,180), being one-tenth part of the total sterling payments or thereabouts.

Mr. Rebsch, the Commissioner's Agent in England, issued only two certificates and these related to the first two instalments; the amounts thereof were duly remitted.

As regards the third instalment no certificate was issued by the Agent before his departure from England as the machinery was not then wholly completed. He, however, saw that the portions of machinery which remained to be shipped to complete the whole were in hand and in a forward state. He arrived in Bombay in December 1899.

No new Agent has been appointed, for the certificate required in respect of the third instalment can be safely dispensed with as the Bills of Lading and the insurance documents will afford sufficient evidence of the despatch of the machinery.

Messrs. Hughes and Lancaster are behind time in completing the machinery, but there is some reason for the delay on their part inasmuch as on the suggestion of Mr. Hewett I objected in several points to the original designs which they submitted, and in the case of condensers and air-pumps a new design was prepared here and sent to them.

The expenditure under this head amounts to Rs. 2,07,808-6-4 :—

1st Instalment £5,300 at 1*s.* 3$\frac{1}{16}$*d.*				Rs.	80,442 11 0
2nd Instalment £4,240 at 1*s.* 4$\frac{1}{12}$*d.*				„	63,229 8 3
10% retention as extra security on					
1st Instalment of £530 at 1*s.* 3$\frac{1}{16}$*d.* ...	Rs.	8,044 4 4			
2nd Instalment of £530 at 1*s.* 4$\frac{3}{12}$*d.* ...	„	7,903 11 0			
				„	15,947 15 4
3rd Instalment £3,200 at 1*s.* 3$\frac{1}{16}$*d.*				„	48,188 3 9
			Total	Rs.	2,07,808 6 4

The amount of the 3rd instalment was remitted to Messrs. Coutts & Co., the bankers in England on behalf of the Municipality, on 2nd June 1899, and has been invested by them under instructions as a deposit at interest. It will be paid by them to Messrs. Hughes and Lancaster under further instructions from the Chief Accountant, which will be given when the last shipment arrives in Bombay.

In addition to 2 second-hand boilers already purchased one more boiler offered for sale has been sanctioned to be purchased, but delivery has not been taken.

The sum paid for two boilers plus conveyance charges to Love Grove amounted to Rs. 2,640-2-9.

(*B*)—(1) *Supplying and fixing Shone's sewage ejectors and cast-iron tubbing together with all accessories and excavations for the same*; (2) *supplying and erecting outlet vent-shafts together with all accessories and excavation and masonry for the same;* (3) *supplying and fixing Shone's automatic ejector flush siphons; and* (4) *supplying inlet ventshafts all in the Mazgaon Sectional Sewerage District.*

The two ejector stations have been constructed and the ejectors and cast-iron tubbing with all accessories have been supplied and fixed, the only item of work remaining being the connections between the ejectors and the air and sewage mains.

This work is represented by items Nos. 1, 2, 3, 4 and 8, section B of the contract with Messrs. Hughes and Lancaster, dated 1st April 1898, and the total value is Rs. 56,900. This amount is payable after 6 months from the completion of the whole of the work under the contract; but Messrs. Richardson and Cruddas having applied for an advance the Standing Committee under their Resolution No. 3643, dated 26th July 1899, sanctioned the payment of Rs. 25,000, which was made during the year. A similar application for a further advance of Rs. 20,000 was again made and the Standing Committee under their Resolution No. 2419, dated 23rd May 1900, have sanctioned payment of that sum.

The two outlet ventshafts 50 feet in length and 9″ in diameter, which are to be erected at each of the two ejector stations, have been supplied but have not been erected.

The two Shone's automatic ejector flush siphons have been supplied and will shortly be fixed.

The twenty inlet ventshafts 12 feet high by 5″ diameter with regulating caps have been supplied.

(C)—Excavating for, and supplying, laying and jointing compressed air mains and sealed sewage mains with all fittings.

The contract for this work amounts to Rs. 2,77,480 and the value of the work done to the end of the financial year was Rs. 2,35,658-7-1, the value certified and passed up to the end of the year amounting to Rs. 2,25,420-10-7.

An advance of Rs. 84,639 to cover 50 per cent. of the value of pipes actually delivered on the site was made to Messrs. Richardson and Cruddas. Of this the sum of Rs. 38,061-10-5 was recovered from their bills for the work during 1898-1899 and the balance of Rs. 46,577-5-7 was recovered during the year under report.

Some difficulty was experienced in connection with the laying of the 16" sewage main from DeLima Street to Frere Road as it had to pass under a number of sidings in the Wari Bundar goods yard. The permission of the Agent of the G. I. P. Railway was required, and that being the case he was addressed by the Commissioner asking if he had any objection to offer or suggestions to make in regard to the position of the proposed sewage main and whether his company would be willing to do the work not only within the railway goods yard but also under the sidings in Frere Road, the Municipality being of course responsible for the expense.

The Agent in replying remarked that though the work would very considerably interfere with railway working that unfortunately could not be avoided and he agreed it must be done.

He stated at the same time that the sanction of Government was necessary and as before applying for the same he required the Municipality to agree to certain conditions he forwarded for approval a draft agreement.

The Commissioner having replied to the Agent that in the case of accommodation works, to which section 12 of the Indian Railway Act, 1890, applies, an agreement such as that suggested appeared to him to be out of place and opened to many objections, a meeting was arranged by appointment in the office of the Agent on the 10th July 1899.

Present.

On behalf of the Municipality.	On behalf of the G. I. P. Railway.
Mr. W. L. Harvey, I. C. S., Municipal Commissioner. Mr. J. W. Smith, M. I. C. E., Special Drainage Engineer.	Mr. G. A. Barnett, C. I E., Agent. Mr. H. Wenden, Chief Engineer. Mr. A Muirhead, General Traffic Manager. Mr. T. W. Pearson, District Engineer. Mr. G. D. Marston, Acting Personal Assistant to the Chief Engineer.

Mr. J. Willcocks, Officiating Consulting Engineer for Railways.

The following minutes were passed by the meeting which settled the matters amicably:—

"The replies of the Municipal Commissioner to the various conditions raised by the Agent, G. I. P. Railway Company, as set forth in the preamble were noted. It was agreed that a formal agreement embodying all these clauses was not necessary.

"As regards condition 3, *viz.*, damage to the Railway in cases of a burst of the pipe, the Railway Company and the Consulting Engineer for Railways were of opinion that it seemed necessary and advisable to come to an agreement, and the Municipal Commissioner undertook to place the matter before the Corporation in the sense of his remarks as recorded in the preamble.

"With regard to section 223 (1) of the Municipal Act, which gives the Municipal Commissioner power to estop all new Railway works, sidings, alterations, additions or improvements over any Municipal drain which may be laid under a Railway the special conditions that affect Wari Bundar were considered, *viz.*, that the new main would cross the Railway sidings at right angles. There was no other position possible for the main so that no future diversion thereof could be effected, and in view of the growing requirements at Wari Bundar it was agreed that new sidings must be laid over the main, or otherwise in the absence of a *modus vivendi* between the Railway Company and the Municipality a dead-lock would of necessity ensue.

"The Municipal Commissioner undertook therefore to offer no objection during his tenure of office to the construction of new sidings over the main, but he withheld his judgment regarding the construction of new platforms or any new permanent building over the main inside the limits of Wari Bundar Station.

"It was agreed that work on the new Municipal main within the limits of Wari Bundar Goods Station might be commenced as soon as the Engineers of the Railway Company and the Municipality could come to an arrangement in the matter."

(A)—As regards para. 2 of the above minutes the Corporation at their meeting, held on 9th October 1899, passed the following Resolution:—

No. 6718. "That the Commissioner be informed with reference to his letter No. 14608, dated the 7th September 1899, regarding certain sewage mains which have to pass under the Wari Bundar goods yard and sidings and the Masjid and Carnac Bridge sidings of the G. I. P. Railway, that the Corporation approve of his giving an undertaking to the railway to the effect that should the pipe in or near the railway crossing burst causing damage to the line and works or serious detention to traffic the responsibility of

such a mishap would be accepted by the Municipality, except in the case of any damage to which the Railway Company may have contributed."

A sum of Rs. 1,300 was deposited by Messrs. Richardson and Cruddas on behalf of the Municipality on the 25th September 1899 with the Railway Company, to cover all charges and the work was started. The Railway Company employed the Municipal Contractors Messrs. Richardson and Cruddas as their own Contractors for the work.

The Railway Company incurred an expenditure of Rs. 470-2-2 including supervision charges at 15 per cent. and returned the balance of Rs. 829-13-10 to Messrs. Richardson and Cruddas.

As regards the laying of the 21" sewage main under the Musjid sidings and the Carnac sidings the Engineer, Port Trust, was consulted and he replied that he had no objection to excavations under those sidings provided that the rails were properly shored up and the Railway Traffic not delayed in any way. The work under the sidings was completed without inconvenience or delay.

The traffic near the Junction of Wari Bundar Road and DeLima Street was very seriously, though unavoidably, impeded during the progress of the work there, as it could not advance but slowly owing to an aggregation of mains and drains at the spot. At the request of the Municipal Commissioner an additional Police sepoy was stationed at the place by the Commissioner of Police to regulate the traffic and avoid accidents.

(*D*)—*Construction of Engine-house, Boiler-house, Chimney, &c., at Love Grove.*

CONTRACTORS—MESSRS. RICHARDSON AND CRUDDAS.

The land required for the above was purchased partly by private negotiation and partly through the Collector of Bombay under the Land Acquisition Act.

It consisted of three plots and admeasured 9,521 square yards as follows :—

Owners.	Plot No.	Sq. yds.	Value paid. Rs. a. p.
Mr. Harkisondas Narottamdas	3362	1,223	1,528 12 0
„ Bhagwant Bhaskar	3361	5,301	5,301 0 0
„ Janardan Purushotam and Bai Radhabai...	3360	2,997	2,622 6 0
Total ...		9,521	9,452 2 0

The provision for the purchase of land being Rs. 5,001, the excess cost of Rs. 4,451-2-0 was sanctioned by the Corporation under their Resolution No. 1514, dated 3rd May 1900, to be met from the contingency provision in the grant of Rs. 8,77,625 for the Machinery, &c., for the Sectional Districts.

The first plot was acquired by private negotiation with the owner, and possession was taken on the 11th March 1899.

The other two plots were acquired under the Land Acquisition Act through the Collector of Bombay, Land Revenue Department, and possession was taken on the 22nd June 1899.

The amount provided for the work in engine-house, boiler-house, &c., in the original estimate was Rs. 53,754, but when that estimate was framed it was intended that there should be three engines of equal power, while subsequently it was considered advisable to provide four engines, *i.e.*, two of the power first intended and two of half the power, an arrangement tending to economy in working. The two smaller engines, although of half power, are of the same area and occupy the same space as the full power engines.

The engine-house therefore had to be one-third larger than originally estimated for.

This alteration also necessitated one additional engine foundation of a massive and expensive character.

It was formerly assumed too that "Dry Back" boilers requiring no foundations or setting would be adopted, whereas after further consideration it was decided that, "Babcock and Wilcox" boilers would be preferable and these require foundations and setting.

The original estimate was in this way increased by Rs. 10,402, and this sum was sanctioned to be met from the savings effected in the grant for sealed sewage mains and air mains.

It had been recognized from the first that it would be desirable (if reasonable terms could be arranged) for the contract for the building work to be placed in the hands of Messrs. Richardson and Cruddas, who are to erect the machinery as Agents to Messrs. Hughes and Lancaster; because otherwise as previous experience has shown there would most certainly be contentions, complaints and bickerings between two sets of contractors unavoidably in such work dependent and waiting upon one another, and conditions of that kind invariably result in a deterioration in the quality of the work.

With this view it was proposed to entrust the work to Messrs. Richardson and Cruddas at the estimated rates and the proposal was sanctioned under the Standing Committee's Resolution No. 7432,

dated 1st November 1899. The contract was executed on the 11th December 1899 and an order to commence the work was given on the same date. The contract period for completion extends to the end of June. The progress of the work is fairly satisfactory, but I fear it will not be entirely completed within the contract time.

The site of the new station being side long ground I proposed to fill it up with the surplus material from the excavation for the storm-water drain in *Tardeo Road*, and this extra work was entrusted to Messrs. Richardson and Cruddas at Rs. 2-13-0 per brass as an extension of their contract for the engine-house, &c. They have nearly completed this work, but have not been paid, as no bill has been received from them.

The total expenditure under this head passed to the end of the financial year amounted to Rs. 12,298-0-8.

XI.—MAZAGAON SECTIONAL SEWERAGE WORKS.

CONTRACTOR—MR. SAYAJI NAGUJI.

The contract period of 18 months for the completion of these works expired on the 5th June 1900.

The progress of the work has been fairly satisfactory, but it has not been completed within the contract period.

The amount of the contract is Rs. 1,67,970, and is made up as follows :—

		Rs.
(*a*)	Pipe sewers in Municipal Roads, Mazagaon ...	1,28,601
(*b*)	18" pipe sewer in Frere Road	4,078
(*c*)	Pipe sewers in Port Trust Roads	35,291
	Total Rs. ...	1,67,970

The value of the work done and passed to the end of the year was Rs. 1,23,835-2-7.

The total expenditure including that of the previous year amounts to Rs. 1,49,710-12-3 as detailed below :—

	Rs.	a.	p.
Establishment	18,977	12	9
Contingencies	1,267	12	2
Road repairs	12,091	12	0
Work	1,17,423	7	4
Rs. ...	1,49,760	12	3
Less—Credit by sale of contract forms	50	0	0
Total Rs. ...	1,49,710	12	3

The air mains and sewage mains, the ejectors and the ejector chambers together with the outlet ventshafts, the automatic ejector flush siphons, and the inlet ventshafts in connection with this sectional District, having been included in the contract for the machinery and other work for the Sectional Districts, have been referred to under the head of Machinery and Work for Parel, &c., Sectional Sewerage Districts.

XII.—WORK IN 9″ PIPE SEWERS (*a*) IN THE EXTENSION OF ORMISTON ROAD AND THE NEW 80-FOOT ROAD NEXT THE SEA, (*b*) IN HENRY ROAD FROM MEREWETHER ROAD TO COLABA CAUSEWAY, AND (*c*) IN THE CROSS ROAD (BARROW ROAD) IMMEDIATELY SOUTH OF ORMISTON ROAD.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

The estimated amount of Rs. 3,493 for (*a*) 9″ pipe sewer in the extension of Ormiston Road and the new 80-foot road next the sea was deposited by the Trustees on 13th February 1899, and the order to commence the work was given on the 6th March 1899.

The cost of the work as per the contractors' bill amounted to Rs. 2,088-4-8. Adding to this 7½ per cent. for supervision the amount chargeable to the Port Trust amounted to Rs. 2,244-14-0 leaving a balance of Rs. 1,248-2-0 to the credit of the Trustees.

The estimated amounts of Rs. 1,888 for (*b*) 9″ pipe sewer in the Henry Road from Merewether Road to Colaba Causeway and of Rs. 1,856 for (*c*) 9″ pipe sewer in the Cross Road (Barrow Road) immediately south of Ormiston Road, were paid by the Port Trustees on the 9th June 1899 and the 1st July 1899, respectively. The order to commence the work (*b*) was given on the 8th July and work (*c*) on the 19th July 1899. The works were completed about the 18th of August 1899.

The cost of the works as per the contractors' bill amounted to Rs. 2,236-4-5, and this together with the cost of road repairs (Rs. 201-5-7) and 7½ per cent. for supervision (Rs. 182-13-2) aggregated to Rs. 2,620-7-2 against the total deposit of Rs. 3,744, thus leaving a balance of Rs. 1,123-8-10 to the credit of the Port Trustees.

An application for the refund of the unexpended balances having been received from the Secretary, Port Trust, the Chief Accountant requested me to report what balances were due and I have furnished him with the information.

XIII—WORK IN OVOIDING AND CONSTRUCTING MASONRY SIDE DRAINS IN DIFFERENT PLACES.

CONTRACTORS—MESSRS. ALI MUHAMAD ABDULALI & Co.

DITTO —MESSRS. ESUFALI ABDULALI & Co.

The total grant sanctioned for this work is Rs. 28,881 as follows :—

	Rs.
Ovoiding and constructing masonry side drains—	
(*a*) in Gowalia Tank Road (south side)	2,762
(*b*) in Pathan 2nd Street (both sides)	3,733
(*c*) in Dadar Road from Mr. Adam Mistri's premises to the drain near the junction of Dadar Road and Elphinstone Road	2,188
(*d*) in Dadar Road (north side) in front of Mr. V. J. Kirtikar's premises Nos. 45—48	834
(*e*) in Dadar Road (east side)	1,540
(*f*) in Matharpakhadi Road (both sides) in front of chawl Nos. 74 and 90	1,057
(*g*) in Walkeshwar Road between Ridge Road and Queen's Road	10,808
(*h*) in Mugbhat Lane	2,544
(*i*) in Dungarsi Road near Mr. O'Connell's bungalow..	1,432
(*j*) in Mount Pleasant Road (south-west side) at its junction with Nepean Sea Road	1,277
and (*k*) in Narayan Dabhulkar Road (both sides) at the Dhobi Ghat near Mr. Branson's premises ...	706
Total Rs. ...	28,881

The works (*j*), (*b*), (*d*), (*e*) and (*a*) were entrusted to Messrs. Ali Muhamad Abdulali & Co., Contractors for the Kamatipura Surface Drainage Works, as an extension of their contract, dated 16th September 1898.

(*j*). *Ovoiding and constructing masonry side drains on Mount Pleasant Road (south-west side) at its junction with Nepean Sea Road.*

The order to commence this work was given on the 24th June 1899. It was commenced on the following day and was completed on 15th August 1899.

The sanctioned grant was Rs. 1,277 and the total expenditure certified and passed amounted to Rs. 895-1-1 as shown below :—

	Rs.	a.	p.
Work	845	14	10
Road Repairs	49	2	3
Total Rs. ...	895	1	1

(*b*) *Ovoiding and constructing masonry side drains in Pathan 2nd Street (both sides).*

The order to commence this work was given on 27th July 1899. It was started soon after and was completed before the end of September 1899.

The sanctioned budget grant for this work was Rs. 3,733 which included a provision of Rs. 616 for flush tanks as the drains in Pathan 2nd Street formerly carried all the sullage, besides the stormwater, but a pipe sewer having subsequently been laid in the street and the houses connected thereto the side drains are now intended to carry only stormwater and this obviated the necessity for flushing tanks.

The amount for the work in ovoiding and constructing the side drains apart from the flush tanks is Rs. 3,117 and the total expenditure incurred amounted to Rs. 2,598-11-11 as shown below :—

	Rs.	a.	p.
Work	2,465	4	5
Road Repairs	126	14	0
Contingencies	6	9	6
Total Rs. ...	2,598	11	11

(*d*) *Ovoiding and constructing masonry side drains in Dadar Road (north side) in front of Mr. V. J. Kirtikar's premises Nos. 45—48.*

The order to commence this work was given on 29th July 1899. It was commenced on the 17th August and was completed by the end of September 1899.

The sanctioned grant for the work was Rs. 834, and the total expenditure passed and paid amounted to Rs. 661-3-8 as follows :—

	Rs.	a.	p.
Work	624	7	2
Road Repairs	33	1	11
Contingencies	3	10	7
Total Rs. ...	661	3	8

(*e*) *Ovoiding and constructing masonry side drains in Dadar Road (east side).*

The order to commence this work was given on 24th August 1899. It was commenced soon after, and was completed by the middle of October 1899.

The sanctioned grant for the work is Rs. 1,540, and the total expenditure certified and passed amounted to Rs. 1,003-5-2 as follows:—

	Rs.	a.	p.
Work	959	14	4
Road Repairs	43	6	10
Total Rs. ...	1,003	5	2

(*a*) *Ovoiding and constructing masonry side drains in Gowalia Tank Road (south side).*

The order to commence the work was given on the 24th August 1899. It was commenced on the 25th August and was completed on 1st November 1899.

The sanctioned grant for the work was Rs. 2,762 and the total expenditure certified and passed amounted to Rs. 1,803-15-6 as follows:—

	Rs.	a.	p.
Work	1,685	7	4
Road Repairs	103	1	0
Contingencies	15	7	2
Total Rs. ...	1,803	15	6

(*g*) *Ovoiding and constructing masonry side drains in Walkeshwar Road between Ridge Road and Queen's Road.*

CONTRACTORS—MESSRS. ESUFALI ABDULALI & Co.

The sanctioned budget grant for this work is Rs. 10,808, and being over Rs. 3,000 tenders returnable on 22nd August 1899 were advertised for on the 12th August 1899.

Three tenders were received in response as follows:—

Messrs.	Deoram Keshaoji & Co.	Rs.	7,317
,,	Ali Muhamad Kasam & Co.	,,	7,199
,,	Esufali Abdulali & Co.	,,	5,945

The lowest tender, that of Messrs. Esufali Abdulali and Co., amounting to Rs. 5,945, was accepted under the Standing Committee's Resolution No. 5141 of 6th September 1899. The contract having been

executed on the 26th September 1899, an order to commence the work was given on the same day. The contract period for completion was 3 months which expired on the 26th December 1899, and the work was practically completed within that time though there were some slight defects which were not rectified until the 3rd of March 1900.

The expenditure certified and passed amounted to Rs. 6,991-15-8 as detailed below :—

	Rs.	a.	p.
Establishment	418	2	8
Contingencies	102	9	4
Road Repairs	449	0	4
Work	6,022	3	4
Total Rs. ...	6,991	15	8

The total grant being Rs. 10,808 there has been a saving of Rs. 3,816-0-4.

Sanction has been given to the utilization of a portion of this saving (*viz.*, Rs. 104) by the Drainage Department in putting 6" C. I. pipes across the road to take the sullage from the east to the west side opposite Dr. Fakirji's house as he complained of a nuisance from the foul water being discharged into his compound from the road side drain.

(*f*) *Ovoiding and constructing masonry side drains in Matharpakhadi Road (both sides) in front of Chawl Nos. 74 to 90.*

(*h*) *Ovoiding and constructing masonry side drains in Mugbhat Lane.*

(*i*) *Ovoiding and constructing masonry side drains in Dungarsi Road near Mr. O' Connell's bungalow.*

(*k*). *Ovoiding and constructing masonry side drains in Narayan Dabhulkar Road (both sides) at the Dhobi Ghat near Mr. Branson's premises.*

These four works have been entrusted to Messrs. Esufali Abdulali & Co., as an extension of their contract for side drains in Walkeshwar Road, dated 26th September 1899.

The Contractors have been somewhat backward in taking up these works and it is only the first that has been nearly completed, while the second has been only recently commenced.

(c) *Work in ovoiding and constructing masonry side drains in Dadar Road from Mr. Adamji Mistri's premises to the drain near the junction of Dadar Road and Elphinstone Road.*

This work was done in 1898 as part of the works in the improvement of the road side drains in and about Dadar Road and paid for from the grant of Rs. 30,475. A portion of the latter work has yet to be done and the grant of Rs. 2,188 under this head will be utilized if the balance in the grant of Rs. 30,475 does not suffice to complete that portion.

The following table shows all the above works from A to K with their respective budget grants, the total expenditure incurred, and the balance in each grant :—

Serial No.	Description.	Budget Grant.	Expenditure.	Balance unexpended.
	Ovoiding and constructing masonry side drains.			
		Rs. a. p.	Rs. a. p.	Rs. a. p.
A	On Gowalia Tank Road (south side)	2,762 0 0	1,803 15 6	958 0 6
B	Pathan-2nd Street (both sides)	3,733 0 0	2,598 11 11	1,134 4 1
C	Dadar Road, from Mr. Adam Mistri's premises to the drain near the Junction of Dadar Road and Elphinstone Road.	2,188 0 0	.....	2,188 0 0
D	Dadar Road (north side) in front of Mr. Vasudeo J. Kirtikar's premises Nos. 45-48	834 0 0	661 3 8	172 12 4
E	Dadar Road (east side)... ...	1,540 0 0	1,003 5 2	536 10 10

XIV.—WORK IN OVOIDING AND CONSTRUCTING MASONRY SIDE DRAINS IN CARROLL ROAD (NORTH SIDE).

CONTRACTORS—MESSRS. DEORAM KESHAOJI & Co.

The Corporation under their Resolution No. 10981, dated the 18th January 1900, accorded sanction to this work, provided for in the Loan Works Budget for the year 1900-1901, being put in hand as an urgent matter this year out of savings in the Loan Works allotments, the necessary corrections being made in the Budget.

As the matter was urgent a copy of the bill of quantities was sent to each of the following four firms of contractors with a covering letter requesting them to quote rates for the different items of work.

1. Messrs. Esufali Abdulali & Co.
2. Messrs. Ali Muhamad Kasam & Co.
3. Mr. Sayaji Naguji.
4. Messrs. Deoram Keshaoji & Co.

Out of these four firms the following three submitted offers and the result is given below against their names :—

Messrs. Ali Muhamad Kasam & Co.	...	Rs. 3,428·700
Mr. Sayaji Naguji		„ 3,321·545
Messrs. Deoram Keshaoji & Co. ...	...	„ 3,115·620

As the offer of Messrs. Deoram Keshaoji & Co. amounting to Rs. 3,115·620 was the lowest it was accepted.

The contract was executed on the 6th of March 1900, and an order to commence and complete the work within the contract period, *viz.*, 2 months, was given on the same day. The contract period expired on the 6th of May 1900, but the work was not completed though well advanced.

The total grant sanctioned for the work amounts to Rs. 4,603 as follows ;—

	Rs.	a.	p.
Work	3,741	0	0
Road repairs	444	0	0
Contingencies	418	0	0
Total ... Rs.	4,603	0	0

No expenditure was certified and passed during the year.

XV.—WORKS IN THE CONSTRUCTION OF A STORM-WATER DRAIN IN TARDEO ROAD.

CONTRACTORS—MESSRS. ESUFALLI ABDULALLI & Co.

The Corporation under their Resolution No. 11938, dated 20th March 1899, sanctioned among other works the construction of this drain at an estimated cost of Rs. 1,77,607.

There was delay in inviting tenders for the work as it was intended to include it in one and the same contract with the other works comprised in the above resolution, *viz.*—(*a*) deepening the outlet channel at Love Grove and (*b*) removal of silt in the storm-water Reservoir. Estimates for (*a*) and (*b*) amounting respectively to Rs. 46,403 and Rs. 62,825 were submitted, but the Commissioner decided under his No. 18554, dated 19th October 1899, that these works should stand over till Mr. Crimp had furnished his report and that the contract for the storm-water drain should be given apart from those works.

Tenders for the drain were accordingly invited on the 1st of November 1899, and made returnable on the 13th idem.

Five tenders were received in response as follows :—

Mr. Bhaskar Shivram	Rs.	1,51,007
„ Sayaji Naguji	„	1,35,627
Messrs. Teju Kaya & Co.	„	1,33,597
„ Ali Muhamad Kasum & Co. ...	„	1,21,462
„ Esufalli Abdulalli & Co.	„	1,15,064

The lowest tender, that of Messrs. Esufalli Abdulalli and Co., amounting to Rs. 1,15,064, which was lower than the office estimate by Rs. 39,377, was accepted by the Standing Committee under their Resolution No. 8302, dated 22nd November 1899, as recommended by the Commissioner.

The contract was executed on 21st December 1899, and an order to commence the work was given on the same day.

The contract period for completion is 16 months which will expire on 21st April 1901.

The work done to the end of the year being incomplete as defined by the contract, was not measured up for payment.

The expenditure certified and passed under this head amounts to Rs. 823-15-6 as per details below :—

		Rs.	a.	p.
Establishment		599	7	11
Contingencies		364	7	7
Road repairs		.....		
Work		.....		
	Rs.	963	15	6
Less—Credit by sale of contract forms	„	40	0	0
Total...	Rs.	823	15	6

XVI.—WORK IN AUTOMATIC FLUSH TANKS ON PIPE SEWERS IN VARIOUS PARTS OF BOMBAY.

CONTRACTORS—MESSRS. ALI MUHAMAD KASAM & Co.

The execution of this work was sanctioned under the Commissioner's No. 5656, dated 10th June 1899, but it was not at once taken in hand as the question of flushing the sewers was referred to Mr. Santo Crimp by the Corporation.

Mr. Crimp made his report in December 1899, consisting for the most part of a commendation of the means of flushing employed in Bombay and an encouragement to proceed on the same lines.

The Commissioner having under his No. 28067, dated 26th January 1900, approved of my proposal to proceed with the work, tenders returnable on 12th of February were advertised for on 1st February. Two tenders were received in response as follows :—

Messrs. Ali Muhamad Kasam & Co.	Rs.	34,396
Mr. Sayaji Naguji	„	34,841

The first tender which was the lower was accepted under the Standing Committee's Resolution No. 12909, dated 21st February 1900.

The contract having been executed an order to commence the work was given on the 28th February. The contract period for completion was 3 months which expired on 31st May.

The progress of the work was very satisfactory and it was completed within the contract period except as regards some fittings which had not arrived from England.

The total number of tanks to be constructed was 88 as shown below :—

	No. of tanks.
First drainage section	40
Queen's Road and Girgaon Sewerage District	34
Agripada Sewerage District	7
Kamathipura District	7
	88

No payment was made under this head during the year under report.

The total grant sanctioned for the work amounts to Rs. 40,489 as follows :—

	Rs.
Work	35,144
Road Repairs	1,656
Contingencies	3,680
Total Rs ...	40,489

XVII.—SCHEME FOR SUBSOIL AND SURFACE DRAINAGE.

The services of Mr. W. Santo Crimp having been engaged with a view to obtaining a further opinion on the question of subsoil drainage as per the Corporation's Resolution No. 1203, dated 11th May 1899, various documents bearing on the subject were sent by the Commissioner to Mr. Santo Crimp before his departure from England, and in acknowledging the receipt of them his firm informed the Commissioner that Mr. Crimp on his arrival at Bombay would require a large number of holes to be dug in various parts of the City in order to examine the character of the subsoil.

Accordingly 60 different places were selected for the excavation of pits and an expenditure of Rs. 1,182 was sanctioned for the purpose by the Corporation under their Resolution No. 5914, dated 21st September 1899.

As it was considered undesirable to excavate all the pits before Mr. Crimp's arrival, offers were invited for excavating only 30 pits from three firms of contractors working under this Department, two of which expressed their unwillingness to undertake the work, and the only offer received was one from Messrs. Esufali Abdulali & Co., which was accepted by the Commissioner under his No. 15044, dated 12th September 1899.

An order to commence the work was given on the 18th September. In all 47 trial pits were dug as Mr. Crimp considered that number sufficient for his purpose. The cost was Rs. *501-13-4*.

Mr. Crimp desired to have analyses made of the subsoil water found in the various pits and also of the water from a few of the local tanks. The Executive Health Officer was accordingly requested to undertake the analyses and Mr. Crimp was furnished with the results.

Mr. Crimp handed over to the Commissioner his report on surface water disposal and subsoil drainage about the beginning of November, and it was printed and circulated to the Corporation about the middle of that month. It was considered by the Corporation at their meeting held on the 23rd of November 1899 and the following resolution was passed :—

> "No. 8394.—That with reference to his letter No. 21021, dated the 16th November 1899, the Commissioner be requested to favour the Corporation with his remarks and suggestions on Mr. W. Santo Crimp's report on surface water disposal and subsoil drainage together with estimates of the cost of such proposals as he would recommend to be taken in hand at once."

The Commissioner furnished his report with estimates to the Corporation under his No. 30864, dated 24th February 1900, in which he recommended that all Mr. Crimp's proposals should be sanctioned as early as possible with the exception (suggested by Mr. Crimp himself) that channel No. 2 should for the present be constructed only as far as DeLisle Road.

The estimates amounted to Rs. 13,49,068 and included the following works :—

(1)	Channel No. 1 with seaward channel and new sluices	Rs.	10,84,275
(2)	Channel No. 2 to DeLisle Road	„	1,01,795
(3)	Purchase of land alongside channels Nos. 1 and 2	„	55,300
(4)	Bund alongside old open main drain	„	40,053
(5)	Drain in Arthur Road and Gilder Street ...	„	67,645
	Total Rs....		13,49,068

As the course of channel No. 1 north of the existing Warli sluices could not be definitely laid down an allowance of Rs. 70,000 was made in the estimate for an alternative line. If, however, it be found necessary to abandon the use of nearly the whole of the channel north of the sluices there will be an excess of Rs. 44,000 approximately over and above the Rs. 70,000 allowed.

The Corporation considered this report at their meeting held on 23rd April 1900 and passed the following resolution :—

No. 918.—"That the Commissioner's letter No. 30864, dated 24th February 1900, be recorded.

"(2) That the Corporation are of opinion that the work of house connections should be pushed on with as great a rapidity as may be compatible with efficiency.

"(3) That they are also of opinion that Section 260 of the Municipal Act should be enforced at the discretion of the Commissioner ; that (*a*) the Corporation are prepared to incur such losses as may be entailed thereby, and (*b*) that poor house-owners should be given all the facilities and benefits contemplated by Section 494.

"(4) That they are also of opinion that the works mentioned in para. 8 of the Commissioner's letter costing Rs. 13,49,068 should be carried out without delay."

At the meeting of the Corporation held on the 13th November, the following resolution was passed :—

No. 7973.—"That the Commissioner be requested to arrange to take advantage of Mr. Santo Crimp's presence in Bombay to obtain his opinion and advice on the following important matters in connection with the sanitation of the City :—

"(1) Drainage of the north of the Island.

"(2) Sewage outfall.

"(3) Shone system, its actual working in the city.

"(4) Flushing sewers, including the use of sea water for the purpose.

"(5) Electrolized water.

"(6) Water-supply, its proper distribution.

"(7) House-connection, whether it is possible to reduce the cost of them, and if so in what way.

"2. That the Corporation will be prepared on the recommendation of the Standing Committee to sanction an expenditure for the purpose not exceeding guineas 750."

As regards the question of the sewage outfall Mr. Crimp required float observations to be taken—

(*a*) at the present outfall at Love Grove, and

(*b*) at Warli Point on the ebb tides for 14 days.

The Engineer, Port Trust, kindly supplied boats and the services of two Surveyors for taking these observations and they were continued for a month instead of 14 days at the desire of Mr. Crimp. The total expenditure on this account amounted to Rs. *625-4-8*.

Referring to the above Resolution of the Corporation the Commissioner under his No. 23452, dated 9th December 1899, forwarded to the Corporation the following reports of Mr. Santo Crimp :—

(1) Shone system, its actual working in the city.

(2) Flushing sewers, including the use of sea-water for the purpose.

(3) Electrolized water.

(4) House-connections, whether it is possible to reduce the cost of them, and if so in what way.

The Corporation considered the reports at their meeting held on the 18th January 1900, and passed the following resolution :—

No. 10985.—"That with reference to his letter No. 23452, dated 9th December 1899, the Commissioner be requested to favour the Corporation with his remarks and suggestions on Mr. W. Santo Crimp's reports on (1) the Shone system, (2) the flushing of sewers, (3) electrolized water, and (4) house-connection, together with estimates of the cost of such proposals as he would recommend, to be taken in hand at once."

The other reports of Mr. Santo Crimp, *viz.*—(*a*) on the sewage outfall and (*b*) on the drainage of the North of the Island were forwarded to the Corporation by the Commissioner under his No. 27222, dated 17th January 1900, and they were considered by the Corporation at their meeting held on the 19th February 1900, when the following Resolution No. 12825, dated 19th February 1900, was passed :—

"That with reference to his letter No. 27222, dated 17th January 1900, the Commissioner be requested to favour the Corporation with his remarks and suggestions on Mr. Santo Crimp's reports on the subject of sewage outfall and drainage of the North of the Island."

The total expenditure incurred on account of Mr. Santo Crimp's services amounted to Rs. 31,128-4-7 as per details below :—

				Rs.	a.	p.
Subsoil water pits				508	14	8
Removal of model from Ex. Engineer's office room to Mr. Crimp's office room ...				3	2	6
Making 8 deal wood floats for tidal observations				7	13	9
Making a buoy and taking float observations at the outfall at Love Grove and at Warli Point from 23rd November to 22nd December 1899 paid to Port Trust				617	6	11
Charges for printing report				370	0	0
Hire of carriage engaged by Mr. Crimp ...				401	0	0
Amount paid to Mr. Santo Crimp—	£	s.	d.			
Fees for professional services	1,787	10	0

£1,776-19 at 1s. 4½d. ... ... „	26,344	2	11			
				29,220	14	9
Total Rs....				31,128	4	7

XVIII.—SUPPLY OF STONEWARE PIPES AND FITTINGS, IRON ARTICLES AND CEMENT.

No stoneware pipes and fittings were received during the year as no new works requiring them were commenced.

52 Cast-iron frames and covers for manholes and 64 cast-iron gratings for water-gullies were obtained from the casting contractors, Messrs. Sorabji Shapurji & Co., of the value of Rs. 1,627-4-9 and Rs. 406-1-2 respectively.

Cement.

The arrangements for the supply of cement were the same as in previous years. The Deputy Executive Engineer, Drainage, kept in stock at the Bellasis Bridge Pipe Depôt a sufficient quantity of cement to meet the requirements of my Department of which intimation was given him from time to time.

XIX.—COLABA AIR COMPRESSOR STATION.

The machinery at the compressor station and the several ejector stations has worked satisfactorily during the year.

There was a considerable decrease in the quantity of sewage lifted in comparsion with the previous year, the difference being due to the abnormally deficient rainfall during the S.-W. monsoon months. The approximate gross quantity from 1st March 1899 to 28th February 1900 was 239 million gallons against 220 million gallons in 1897 to 1898 and 325 million gallons in 1898-99.

415 tons of Borrea Anthracite coal and 300 tons of Cardiff coal were purchased during the year. The average rate paid for the Borrea coal was Rs. 16-0-7 and for the Cardiff coal Rs. 19-15-0 per ton.

The coal grant having been reduced from Rs. 18,260 in the Budget for 1898-99 to Rs. 12,000 in the Budget for the year under review, was not sufficient to meet the above purchases, and the Corporation under their Resolution No. 11315 of 25th January 1900 sanctioned an extra grant of Rs. 742-10-0 from surplus cash balance to meet the deficiency.

The following parts of machinery to replace similar parts worn out were purchased from Messrs. Richardson & Cruddas in February 1900 :—

	Rs.	a.	p.
2 complete sets (17 pieces in all) special fire brick roof slabs for the boilers	195	0	0
6 rubber covered float balls 4" dia. for sewage ejectors	55	0	0
24 phosphor bronze piston rings 12" dia. for air cylinders	288	0	0
12 rams bottom steel piston rings 9" dia. for high pressure cylinders	78	0	0
12 rams bottom steel piston rings 14" dia. for low pressure cylinders	114	0	0
Total Rs. ...	730	0	0

Six *lignum-vitae* ball valves for the hand ejectors were ordered from Messrs. Richardson and Cruddas at a cost of Rs. 76 at the same time as the other articles mentioned above, but on arrival they were

found to be defective, and others of approved quality were subsequently supplied. The latter were not however delivered before the close of the year and a sum of Rs. 76 from the lapsed grant for stores and contingencies will be renewed to meet the charge.

On account of the above purchases the grant for stores and contingencies had to be supplemented by a transfer of Rs. 500 from the repair grant. The Standing Committee sanctioned this transfer under their Resolution No. 9911, dated 20th December 1899.

In the Budgets of previous years a small sum had been allotted for extra labour as a contingency for the repair of bursts and leakages in the mains and for additional supervision during the S.-W. monsoon, but this provision was omitted from the Budget for 1899-1900. On its being represented to the Commissioner that additional labour might be required at any time at short notice for the repair of burst mains, and that as all the ejector stations would be working for the first time during the S.-W. monsoon the services of an extra fitter would probably be required, the Commissioner obtained the sanction of the Corporation under their Resolution No. 4136 of 10th August 1899 to an additional grant from surplus cash balance of (*a*) Rs. 160 for an extra fitter for 4 months at Rs. 40 per mensem and (*b*) Rs. 200 for extra labour (if required).

No expenditure however was incurred under the above heads on account of the scanty rainfall which rendered the engagement of an extra fitter unnecessary and also because there were no bursts or leakages of any consequence during the year. A sum of Rs. 260 was subsequently transferred from this grant besides Rs. 30 from savings in the grant for establishment to meet an excess in the grant for extra labour for cleaning pipe drains under Section 2 A.—Miscellaneous Drainage, as per Standing Committee's Resolution No. 10802, dated 17th January 1900.

A further transfer of Rs. 52-11-0 from savings in the grant for establishment was sanctioned by the Standing Committee under their Resolution No. 9912, dated 20th December 1899, to meet an excess in the cost of the water-supply.

The accompanying statement shows the details of the budget grants for the maintenance of the station and the details of the actual expenditure incurred during the year :—

Sections.	Particulars.	Rs. a. p.	Budget grants, including transfers. Rs. a. p.	Expenditure. Rs. a. p.

I have the honour to be,

Sir,

Your most obedient Servant,

JAMES W. SMITH, M.Inst.C.E.,

Special Drainage Engineer.

K.—FIRE BRIGADE.

1. The establishment has been upheld in a state of efficiency during the year and all the Engines and other appliances are in good condition and thorough working order.

2. Head Foreman, Mr. G. F. Weston, was reduced at his own request to the rank of Foreman on the 1st of December and Foreman, Mr. W. J. Beane, was promoted to Head Foreman on the same date.

3. No case of loss of life by fire, where the Brigade was concerned, has occurred during the year.

4. Several members of the Brigade have received injuries in the execution of their duties at fires, none of which however were of a serious nature.

5. The water-supply at fires has been satisfactory in all cases, and the attendance of the Water Works staff has been prompt and of great assistance to the Brigade.

6. The inspection of hydrants throughout the City has been carried on by the Brigade in a systematic manner during the year.

7. The fire service at the Municipal Offices has been maintained in good working order, and the employés have periodically been drilled in the use of the appliances.

8. The fire appliances at the several Municipal markets have also been periodically inspected and cleaned, as also those at several Segregation Camps where the duties are still continued.

9. Two horses were purchased during the year in place of one that died and one sold by public auction unfit for Fire Brigade work.

10. An order for 6,420 feet of delivery hose and other appliances was satisfactorily executed by Messrs. Turner, Hoare & Co.

11. Provision has been made in the ensuing year's Budget for a supply of 5,100 feet of delivery hose for fire purposes to replace other condemned and sold by public auction in the year 1898-1899.

12. The present strength and equipment of the Brigade is as follows :—

Strength.

1 Chief Officer.	12 First Class Tindals.
2 Clerks.	6 Second „ „
1 Head Foreman.	108 Firemen of Grades.
5 Foremen.	8 Drivers.
7 Engineers.	8 Grooms.

Making a total of 158, including all ranks.

Equipment.

8 Steam Fire Engines.	6 Telescopic Ladders.
8 Manuals.	1 Brake.
16 Hose Reels.	16 Horses.
7 Tender Carts.	

356 lengths of delivery hose, comprising about 21,360 feet, and other necessary fire-extinguishing appliances.

13. The number of calls to fires, or supposed fires, received during the year has been 100; of this number 18 were reported by the Police, but did not require the attendance of the Brigade, the remaining 82 involved the turning out of engines and men, and resulted in 9 false alarm, and 73 fires, 48 of which were extinguished by the Brigade appliances, and 25 before the arrival of the Brigade. (See Table Nos. 1 and 2.)

14. The estimated damage to property during the year has amounted to Rs. 4,11,699, showing a decrease of Rs. 19,50,216 as compared with the preceding year. (See Table No. 3.)

15. The amount of damage to property at the 48 fires extinguished by the Brigade appliances is estimated at Rs. 3,81,881, whilst the property in imminent risk of becoming involved at these fires has been rated at Rs. 57,69,926. (See Table Nos. 2 and 4.)

16. The estimated damage to insured property has been Rs. 1,93,317, whilst that to uninsured property has been Rs. 2,18,382.

17. The estimated quantity of water used for extinguishing fires during the year has been 21,94,100 gallons or about 9,795 tons; of this quantity 21,91,100 gallons were taken from the street mains and 3,000 gallons from the sea. (See Table No. 5.)

The distribution of engines, &c., is as under :—

No.	Stations. Names.	Engines. Steamers.	Engines. Manuals	Hose Reels.	Tender Carts.	Fire Escapes.	Brakes.	Horses.	Delivery Hose.	Foremen.	Engineers.	First Class Tindals.	Second Class Tindals.	Firemen of Grades.	Drivers.	Grooms.	Remarks.

18. The fires of 1899-1900 show a decrease of 24 compared with 1898-1899, and with the average of the past ten years a decrease of 28.

19. The most destructive fire of the year was that which occurred at Frere Bunder on the 16th April when a large number of stacks of dry grass were destroyed, the estimated loss being Rs. 2,00,000, none of which was covered by insurance. In this instance a high wind was blowing at the time of the outbreak and when the Brigade arrived the centre Bunder where the fire originated was ablaze from and to end and the fire quickly spreading to the adjoining Bunders. The Brigade however were successful in cutting the fire off, thereby saving a great number of other stacks. Four steamers and one hydrant were utilized at this fire.

20. With the exception of fires which occurred at Sarang Street on the 5th of August, upper Duncan Road on the 13th of August, and Ferguson Road on the 16th of December (where the Brigade in each case were successful in stopping the progress of serious outbreaks) no other fires of note have occurred during the year.

The following tables are annexed :—

Table No. 1.—Attendance at fires.

Do. „ 2.—Statement showing by what means fires were extinguished.

Do. „ 3.—Summary of fires and estimated loss.

Do. „ 4.—Statement showing the estimated damage and property at risk at fires extinguished by Fire Brigade appliances.

Do. „ 5.—Estimated quantity of water delivered at fires.

Do. „ 6.—List of causes of fires.

Do. „ 7.—Hourly summary of fires.

Do. „ 8.—Monthly summary of fires and annual loss for the period 1890-91 to 1899-1900.

Do. „ 9.—List of fires where property to the extent of Rs. 2,000 and upwards was destroyed.

		Total Rs....	3,97,565

PUBLIC GARDENS.

1. The following gardens were maintained during the year under report :—

(*a*) Victoria Gardens.
(*b*) Elphinstone Circle Garden.
(*c*) Northbrook Garden.
(*d*) Malabar Hill Garden.
(*e*) Bazaar Gate Garden.
(*f*) Falkland Road Garden.
(*g*) Dick's Tank Garden.
(*h*) Municipal Office Garden.
(*i*) Sir Cowasji Jehangir Garden.

The garden on the Flats was broken up and all the plants, &c., transferred to the Victoria Gardens in June 1899, as the ground on which it was situated was taken over by the City Improvement Trust with the rest of the Flats.

2. The total number of visitors to the Victoria Gardens during the year under report was 10,93,868 against 7,88,890 in the previous year—an increase of over 3 lakhs. The figure now nearly comes up to the average of the years preceding the commencement of the plague, which, considering the depressed state of the city, may be considered very satisfactory.

3. The metalling of the roads was continued as usual and all the roads kept in as good a condition as possible. Some new roads were also laid out around new cages, and enclosures, and in the new ground in the northern part of the garden.

4. The laying of water pipes in the new ground could not be continued during the year under report as no grant was sanctioned for the purpose. A small balance remaining out of the previous grant was however utilized in laying small branch pipes where they were most urgently required and in cleaning one of the old mains which appeared to have been choked up.

5. Some balance remaining out of the grant for laying a storm-water drain in the new area on the north side of the gardens was utilized in making branch drains to connect the main drain laid out there to the old drains of the garden. The construction of small drains across roads to carry rain water was also continued. Some of the latter were provided with cast-iron gratings on the openings by the side of the roads, so as to carry off the water more quickly.

6. The level of some of the lawns which are low-lying was raised by the addition of red earth, manure and road scrapings, and all the

lawns which form one of the chief features of the gardens kept in as green and nice a condition as possible all throughout the year.

7. Much progress was made during the year in renovating the old shrubberies by trenching, manuring and replanting with suitable plants. A number of new and rare trees lately introduced into the gardens have also been planted out in suitable places, which when fully grown would not only be useful in shading the garden roads, but would add to the variety of trees planted in the gardens and increase its beauty. Many of the trees and shrubs growing in conspicuous places along the roads have been attached with labels of their names so as to afford facility to visitors in finding out the correct names of plants.

8. The water in the ornamental ponds was cleared out as much as possible soon after the rains, the ponds cleaned and the banks repaired where they were washed off. A small circular pond was also made in the vacant ground in the northern part of the garden for the growth of aquatics which could not be properly grown in the old ornamental ponds on account of the water fowls kept in them, and the rapid flow of water in the rainy season. The banks of the pond have been turfed and a border of grasses, sedges, bamboos and other suitable plants made around it.

9. The balance which was remaining out of the grant made for filling in of the new ground to the north of the gardens was utilized in raising the level where it had sunk much below the surrounding parts, and in consequence of which it used to get flooded during the rains, killing all trees, &c., planted there. Nearly half the area has thus been levelled up, but the remaining half to the west still remains to be raised for want of funds. The whole of the new area was however thoroughly cleaned of weeds, &c., and a number of trees, &c., have been planted on the levelled portion. The area of the portion planted and laid out is thus increasing year by year, and it is now found extremely difficult to maintain in a proper condition the area of the gardens thus increased by gradual planting of the vacant ground, with the existing staff. Every effort however is made to keep the gardens in as good a condition as possible.

10. The number of plants raised and supplied to the Executive Engineer for road side planting was 530 during the year under report.

11. A list of plants newly introduced into the gardens during the year under report is given in Appendix A at the end of the report.

12. The services of all the Police Ramosis in the Victoria Gardens except two were dispensed with during the year under report as they were not working satisfactorily. A new force of watchmen was recruited from discharged military pensioners in their place. The present arrangement has not yet had a sufficiently long trial, but

promises to be more successful than the old one, as the men are better disciplined and directly under the control of the Superintendent.

13. The privies which were so badly required for the malis living in the new quarters built for them in the Victoria Gardens were completed nearly at the end of the year under report. Latrines for the visiting public are also badly needed in different parts of the gardens, and the attention of the Executive Engineer being drawn to this much felt want there is every likelihood of its being soon supplied.

14. The new quarters for the Assistant Superintendent of the Zoological Collection were completed during the year under report and were occupied by him from 1st January 1900.

15. One of the old small aviaries, the wood work of which was nearly all rotted, was replaced by another made on a better plan with six compartments for accommodating different kinds and sizes of birds which were formerly all located in one big place and which were consequently injured, very often fatally, by fighting with one another.

16. The Maharajah of Bhownagar's donation of Rs. 4,000 for constructing a cage for wild beasts was utilized during the year under report, and a well designed four-chambered house for the smaller carnivora was taken in hand and is now nearly approaching completion. It would none too soon provide a suitable house for some of the animals which have up to now been cramped up in small cages.

17. From the special grant made by the Corporation during the year under report for the improvement of the Zoo a new deer enclosure was taken in hand and is still under construction. This while bringing all the different kinds of deer together in one place would enable each kind to be located in a group in separate compartments, adding to the safety and comfort of the animals as well as to the spectacular effect from the visitors' point of view.

18. Another much felt want, and one which was most detrimental to the best interests of the gardens, was provided during the year under report in the shape of a cheap and substantial wooden fence along the whole of the northern boundary of the gardens which was quite unprotected and through which stray dogs, &c., coming in large numbers, especially during the night, did considerable damage to the animals by chasing them around the enclosures and frightening them, and sometimes by breaking into the enclosures and killing them.

19. The Zoo after a long stagnation has, I am glad to say, received better attention generally during the year under report, and thanks to the liberality of the Corporation and the exertions of the Commissioner and the Garden Committee, among whom Mr. Cuffe's labours deserve special mention, a beginning has been made towards a better state of the Zoo, and though the progress made must necessarily be slow with the grant allotted for the purpose, it would, if continued every year, eventually provide Bombay with a Zoo worthy of the city.

20. The following animals were added to the collection during the year under report :—

By purchase :—

1 Hyæna.
2 Australian pelicans.
1 Red billed blue magpie.
2 Lynxes.
1 Wreathed hornbill.
2 White swans.
4 Nicobar pigeons.
6 Nutmeg fruit pigeons.
1 Thick tailed galago.
2 Pennant's parakeets.
2 Black capped lory.
1 Australian magpie.
4 Malayan bears.

and other smaller birds and mammals.

By presentation :—

1 Abyssinian baboon.	By Mr. M. Tharia Topun.
1 Rib faced deer.	„ „ E. S. Luard.
1 Sarus crane.	„ „ T. W. Cuffe.
4 Sloth bears.	„ „ E. Reuben, Major Ferris, Lt. Jardine and Mrs. T. Prideaux, respectively.
1 Leopard cub, African.	„ Col. Quentine and Officers, 4th Bo. Rifles.
1 Spotted deer.	„ Mr. A. H. Simcox, I.C.S.
1 Sykes monkey.	„ H. H. Aga Khan.
3 Indian antelopes.	„ Mr. C. O. Corrin, Mr. Ch. H. Hall, and Lt. Edwardes, respectively.
1 Indian monitor.	„ Prof. A. M. Massani.
5 Peafowls.	„ Mr. C. S. Wadia, Mr. C. A. Ellis, and Dr. H. N. Seervai, respectively.
2 Arabian Gazelles.	„ „ H. O. Campbell, and Mr. A. Macdonald, respectively.
1 Black lemur.	„ „ Douglas Bennett.
1 Nilghai.	„ „ W. Welch.
1 Four-horned antelope.	„ „ A. Thomas.
2 Emerald doves.	„ „ Dr. H. N. Seervai.
1 Monkey.	„ „ Dr. A. P. Cama.
2 Owls.	
1 Indian ratel.	
1 Large Indian squirrel.	
3 Civet cats.	„ Natural History Society.
2 Jungle fowls.	
1 Jungle cat.	
1 Porcupine.	

21. The following animals were among those that died during the year : —

1 Pelican.
1 Nilghai.
1 Black swan.
1 Leopard.
1 Wreathed hornbill.
1 Rib faced deer.
1 Spotted deer.
1 Lemur.
2 Indian ratels.
2 Malayan bears.
1 Macaw.
1 Brown bear and 1 Tiger.

22. All the other gardens were kept up in their usual condition, the work of improving them being continued by thinning out overcrowded trees and replanting of shrubberies, lawns, &c., where necessary. The Northbrook Garden still continues to be occupied for plague purposes.

23. The budgetted and actual expenditure of the different gardens under my charge during the year is shown in the table below. It is gratifying to note that the receipts, which had considerably fallen off during the two previous years on account of the plague, have again come up nearly to the original figure.

	Names of Gardens.	Total amount sanctioned.	Expenditure.
		Rs. a. p.	Rs. a. p.
(*a*)	Victoria Gardens	52,995 3 4	53,716 10 2
(*b*)	Elphinstone Circle Garden	2,290 4 1	2,037 8 10

(*h*)	Dick's Tank Garden	480 0 0	381 2 2
(*i*)	Malabar Hill Garden	1,547 10 0	1,555 15 2
	Total... Rs.	63,470 5 5	62,083 10 10

APPENDIX A.

List of plants newly introduced in the Victoria Gardens during the year 1899-1900 :—

Abutilon latifolium
Acrocarpus fraxinifolius
Agati grandiflora var-coccinea
Aphelandra coccinea
„ fulgens
Araucaria brasiliensis
Asparagus comoriensis
„ verticillatus
Asystasia chelconoides
Bambusa metake
Bignonia crucigera
Billbergia pyramidalis
„ zebrina
Biota compacta
„ falcata
Bischoffea javanica
Boussingaultia indica
Broussonetia papyrifera
Buddleia madagascariensis
Callistemon lanceolatum
Caryopteris Wallichiana
Casuarina tenuissima
Ceratonia siliqua
Chamærops excelsa
Clematis panculata
Clerodendron macrosiphon
„ trichotomum
„ Wallichianum
Croton tiglium
Cupressus excelsa
„ funebris
„ glauca
„ goveniana
„ torulosa
Dewberry (Rubus trivialis)
Diospyros embryopteris
„ montana
Echites caryophyllata
Eranthemum albo-marginata
„ cinnabarium
„ grandifolium
„ marmoratum
„ moorei
Eucalyptus resinifera
Euchlœana (Reana) luxurians
Eugenia obtusifolia
Franciscea latifolia
Hamiltonia suaveolens
Hedychium scaposum
Heliconia rubra
Hemerocallis aurantiaca major
Hibiscus cancellatus
Hoya imperialis
„ parasitica
Ichnocarpus frutescens
Iris sinensis
Ixora barbata
Jasminum humile
Jasminum revolutum
Juniperus bermudiana
„ chinensis
Justicia Armstrongii
„ Lobbi
Kaempferia galanga
„ Gilberti
„ Roscoeana
Laurus sp.
Lemon Italian
„ Malta
Lime amilbaid
„ kâghzi
„ khatta or kurua
„ sweet chickna
Medeola asparagoides
Melaleuca leucadendron
Monocboria hastœfolia
Nandina domestica
Oncospermum fasciculatum
Ophiopogon intermedia
Orange kaula
„ Malta
Oreodoxa oleracea
Pear avacado
„ china
„ kieffer
„ Laconte
Philodendron verrucosum
Piper ornatum
Plum alubukhara, large
„ alucha, black
Poa alpinia
Ravenia spectabilis
Ruscus hypophyllum
Sabal Blackburniana
Salix tetrasperma
Shorea robusta
Strobilanthes digocephalus
Thrinax elegans
Tinnea æthiopica
Tornelia fragrans
Wampee (cookia punctata)

THE VICTORIA AND ALBERT MUSEUM.

1. In the Natural History division the department of Mammals received only two or three additions. An orang-outang (*Simia satyrus*), which was being taken to England, died on board the steamer in the Bombay Harbour and was forwarded by the Captain to the Museum. The orang was skinned, and its skin was cured and preserved at the Museum. The orang's skin has formed a rare and valuable addition to the collection of skins in the Museum. Also two Malay bears (*Ursus malayanus*), which died in the Victoria Gardens during the closing month of the year under review, were forwarded by the Superintendent to the Museum. The Malay bears were skinned, and their skins were cured and preserved for exhibition at the Museum.

2. The department of Birds received numerous additions during the year. The specimens prominent among the additions were as follows :—

The rose-winged paroquet (*Palaeornis torquatus*), the grey jungle fowl (*Gallus sonnerati*), the short-toed eagle (*Circaëtus gallicus*), the rose-winged starling (*Pastor roseus*), the moorhen (*Gallinula chloropus*), the common Indian night-jar (*Caprimulgus asiaticus*), the common kingfisher (*Alcedo ispida*), the Indian roller (*Coracias indica*), the red-whiskered bulbul (*Otocompsa fuscicaudata*), the white-breasted kingfisher (*Halcyon smyrnensis*), the pond heron (*Ardeola grayii*), the Indian bee-eater (*Merops viridis*), and the Indian hoopoe (*Upupa indica*). A red and blue macaw (*Psittacus macao*), which died in the Victoria Gardens, was forwarded by the Superintendent to the Museum. These birds were all skinned, and their skins were cured, stuffed and mounted for exhibition at the Museum.

A branch of the palm (*Borassus flabellifer*) with several nests of the *baya* (*Ploceus baya*) hanging from the points of the leaf was received, by presentation, from Isaac Benjamin, Esq., of Cumballa Hill, Bombay.

The collection of birds' eggs in the department also received several additions during the year.

3. To the department of Reptiles were added one *Dhamin* (*Zamenis mucosus*), two *Lycodons* (*Lycodon striatus*), two tree-snakes (*Dryophis mycterizans*), one fresh water snake (*Tropidonotus piscator*), two sand snakes (*Gongylophis conicus*), one Russell's viper (*Vipera russellii*), two sand snakes (*Typhlops braminus*), one snake lizard (*Mabuia carinata*), one grazing lizard (*Uromastix hardwickii*), one tree lizard (*Sitana pondiceriana*), and two tree-lizards (*Calotes versicolor*). These specimens were all cured and preserved in spirits of wine.

4. To the department of Fishes and Crustaceans several minor specimens were added during the year, but none of them was so important as to deserve special mention. The specimens added to the collection were cured and preserved in spirits of wine.

5. The department of Entomology received 85 specimens of butterflies, moths, beetles and other insects. The species prominent among the additions were as follows :—

Mycalesis mineus, Danais grammica, Euthalia garuda, Curetis thetis, Attacus atlas, Antheræa mylitta, Actias selene, Saperda carcharias and *Mylabris cichorii.*

Also several cocoons of the moths, *Actias selene* and *Antheræa mylitta*, were added to the collection.

The butterflies, moths, beetles and other insects added to the collection were all cured, preserved and mounted at the Museum.

6. The department of Geology received no addition during the year.

7. In the division of Anthropology no additions were made to the departments of Artware and Ethnology.

8. To the department of Numismatology were added one silver coin of Akbar, one silver coin and ten copper coins of Aurangzeb found in the Godhra Taluka, Panch Mahals, and one old Hindu *Punch* marked silver coin found in the Kalwan Taluka, Nassick. These coins were received by presentation from the Honorary Secretary, Bombay Branch, Royal Asiatic Society, agreeably to the Resolution of the Government of India, No. 46—1668-82, of the 9th October 1884.

9. In the Natural History division the various collections in the different departments were constantly examined and were freely supplied with preservatives. In the department of Mammals one full-grown orang-outang (*Simia satyrus*) and two Malay bears (*Ursus malayanus*) were skinned and their skins were cured and preserved at the Museum. Their skulls also were cured and added to the osteological collection in the Museum. In the department of Birds, 75 birds were skinned, and their skins were cured, stuffed and mounted for exhibition purposes. Also constant attention was paid to the collections of Reptiles, Fishes, and Crustaceans, and the additions made during the year were all cured and preserved in spirits of wine. The Entomological collection was examined from time to time and the several specimens added to the collection were cured, perserved and mounted at the Museum.

10. In the division of Anthropology, the Artware and Ethnological collections were overhauled and re-arranged. The specimens of valuable cloths and other textile fabrics were frequently examined and their

cases were freely supplied with preservatives. As far as was known the specimens, in the various departments, were all in good order and preservation.

11. The Museum Library received very few additions during the year.

12. A statement showing how the annual and special grants were utilized will be found in Appendix A at the end of the report.

13. Mr. Henry Cousens, Superintendent, Archæological Survey of Western India, called at the Museum on the 10th and 11th October 1899, and photographed the Gandhâra or Græco-Baktrian sculptures exhibited in the Museum. These precious relics of the second century have made quite a sensation among the *savants* in England and on the Continent.

14. During the year under review the Museum was open to the public for 313 days, and the total number of visitors was 683,277, showing a daily average attendance of a little over 2,182. Last year the Museum was open to the public for 313 days, and the total number of visitors was 656,840, showing a daily average attendance of a little over 2,098. The increase in the number of visitors showed that the general population of the native town during the year under report was much larger than it was during the preceding year, though the plague along with small-pox during the year raged more severely than it did during the three preceding years.

APPENDIX A.

Statement showing how the annual and special grants were utilized :—

Natural History Grant.

		Rs.	a.	p.
1.	Spirits of wine	412	0	0
2.	Sundry preservatives	349	0	0
3.	Natural History specimens	153	0	0
4.	Miscellaneous charges	286	0	0
	Total ... Rs.	1,200	0	0

Grant for Cases.

		Rs.	a.	p.
1.	Materials and labour for repairing and polishing old cases	259	1	0
2.	Minor cases	40	15	0
	Total ...Rs.	300	0	0

Special Grant.

		Rs.	a.	p.
1.	Reference books	394	2	0

PUBLIC HEALTH.

I.—REPORT of Mr. J. Leask, Acting Health Officer.
II.—REPORT of the SUPERINTENDENT OF LICENSES.
III.—REPORT of the SUPERINTENDENT OF MARKETS.
IV.—RETURN OF STREET ACCIDENTS, forwarded by the COMMISSIONER OF POLICE.
V.—REPORT of the MEDICAL OFFICER IN CHARGE INFECTIOUS DISEASES HOSPITAL, Arthur Road.

I.—REPORT OF THE ACTING HEALTH OFFICER.

I have the honor to submit the Annual Report for the year 1899.

2. It would have been better if the late Health Officer, Col. T. S. Weir, I. M. S., had been able to prepare this Report; but as he was recalled by Government to take up a high administrative appointment in the Military Department, he retired from the service of the Municipal Corporation on the 26th of June 1900, there was therefore no opportunity for him to prepare it before his departure.

3. As I have been appointed to the office temporarily, it is only possible for me to submit a few general remarks, and to compare the mortality and birth statistics with those of the previous years.

Total mortality.

4. The total mortality for the year 1899, exclusive of still-born, was 56,434, the highest mortality which has ever been recorded for the City of Bombay. In 1898, the mortality was 51,961 or 4,473 less than the year under report. Taking the average of the previous 5 years, the mortality in 1899 was 17,785 more.

Rainfall.

5. The rainfall registered at the Colaba Observatory for the year was only 35·90, a little less than half the normal quantity. The heaviest rainfall was registered in June, *viz.*, 20·81. In July the rainfall was only 4·72, in August, 5·23, and in September 3·49 inches were registered. The rains practically ceased about the middle of August. The following is the rainfall for the previous 3 years :—1896, 87·65; 1897, 81·53; 1898, 74·09.

6. From this it will be noticed that there has been a gradual decrease, culminating in the practical failure of the rains in 1899. Appended will be found an abstract of the meteorological observations for the year made at the Colaba Observatory.

Temperature.

7. The temperature in April, May, June, October and November was high.

Disposal of refuse.

8. The most noteworthy feature in the working of the Health Department has been the completion of the scheme for the removal of the City refuse by rail beyond our boundaries. The Municipality purchased a large area of land at Deonar and Chimbur, having an area of 823 acres, and the refuse is now transported daily by rail to this place. Loading sidings have been constructed upon the Municipal land at Mahaluxmi, and here the refuse is tipped from our carts into the Railway wagons.

9. At present 2 trains of 25 wagons each have been run daily.

10. Outside the Coorla station of the G. I. P. Railway a branch line has been constructed to our ground at Deonar; the length of this branch line is 3·18 miles. On arrival at the tipping ground, the train is run into a convenient position, and the wagons are emptied by gangs of men and women.

11. Experimental trains were run to test the line and working, and on the 13th June 1899 we commenced to run trains regularly. At first we had considerable difficulty with the staff who were all, more or less, new to the work, and as the wagons had to be emptied and be ready for the engine within a certain time, the work was really very hard. There was also much sickness amongst the people, opthalmia and fever being very prevalent. As the refuse contains large quantities of broken glass and old iron, frequent injuries occurred to the feet and legs of the men emptying the wagons. The wounds were often very serious. At the commencement the work of emptying the wagons was comparatively easy, but as the deposit extended from the line of rail, the work became difficult, the refuse having to be pulled and carried a considerable distance away.

12. The short rainfall of the year was fortunate, so far as the work at Deonar was concerned. The Railway embankment was not subjected to the test of heavy flooding, and owing to the earthwork being new, there was a certain anxiety as to how it would stand in the rains. Happily there was no flooding, and the embankment has now settled, and gave no trouble during the year.

The Staff at Deonar.

13. Our workpeople live close to the tipping ground, in chawls specially erected for them by the Municipality. There are also a Resident Inspector and a Clerk. At the time of writing, I may mention,

that telephonic communication with Deonar is in course of construction. Now that the staff have become accustomed to the work, the emptying of the wagons and the levelling of the refuse have proceeded very smoothly; and I am glad to say there has been no hitch or interruption in the work.

14. The large area of ground reclaimed by the Municipality at the Tardeo Flats and held under lease from Government, has now been handed over to the City Improvement Trust.

Incinerators.

15. The large Garlic Incinerator at the Municipal workshops was stopped on 20th November 1899, partly owing to complaints about the nuisance from the smoke, and partly because it stood upon ground which Government claimed. Although this Incinerator was in a very cramped space, which rendered the working of carts a matter of some difficulty, it was of great use to the Department in the speedy disposal of refuse from the Fort and Colaba, and of the large quantity of refuse daily produced in the Arthur Crawford Markets.

Re-organization scheme.

16. The out-door work of the Department has proceeded very smoothly under the supervision of the Divisional Health Officers. Without entering into any details, I think it right to mention that the sanitary condition of the City is very much more closely looked after, and nuisances are more promptly dealt with than was possible under the old system. Divisional Health Officer, Dr. Cayley, was in charge of No. I. Division for a part of the year; but on his proceeding on leave, the services of Captain H. A. L. Howell, R. A. M. C., were obtained from Government. During his term of office Dr. Howell rendered most excellent service. Mr. Leask was in charge of No. 2 Division and acted as Health Officer from 26th July 1899 to 15th October 1899, during the temporary transfer of Col. Weir's services to Government. Deputy Health Officer Dr. K. B. Shroff acted for Mr. Leask. Dr. Venis was in charge of No. 3 Division, and Dr. S. C. Hormusji was in charge of No. 4 Division.

Registration.

17. On the 1st of January 1900, the first step was taken towards the improvement of birth and death registration.

18. Each ward of the City has now resident within its boundary, a District Registrar.

19. The Deputy Health Officers now perform the duties of the old Registrars.

20. As had been frequently pointed out in the Annual Reports of the Health Officer, it will not be possible to obtain an accurate system of death registration until the production of a medical certificate of the cause of death is made compulsory.

21. I trust that the necessary amendments in the Law will be made when the new Municipal Act is being considered.

Plague Administration.

22. Plague measures throughout the year have been carried out under your orders by a separate branch of the Administration, working directly under the Deputy Commissioner for Plague operations.

23. The Health Department have given all the assistance possible to the officers entrusted with this special work in each ward.

Rats.

24. Men of the Health Department collected great numbers of rats in different parts of the City. They are paid half an anna for each rat. The Port Trustees and the Railway Companies took special measures for the extermination of rats.

Water-supply.

25. Owing to the deficient rainfall, the lakes supplying the City did not fill as usual, and in consequence the water was not all of good quality, the Tulsi supply in particular being impure. There was much vegetable matter in suspension. The various waters have been subjected to constant and close chemical and bacteriological examination.

26. In January 1900, it was deemed advisable to issue a public notice about the state of the water, and the people were advised to boil it, as an easy and effective way of purification.

Fevers.

27. During the year the prevalence in many parts of the town of an indefinite type of fever was noticed. Colonel Weir was of opinion that the fever exhibited symptoms of the type known as "Malta fever," and this view is supported by the opinion of several local practitioners, under whose observation many of the cases came. The type of fever was different to that usually prevalent in Bombay; the duration of the fever was prolonged; there was great pain in the body, and the attack was not amenable to the usual treatment. I notice that a similar type of fever has been prevalent at Simla this year, and investigations

Malta Fever.

gave results exactly similar to "Malta fever." These obscure forms of fever are, apparently, difficult of diagnosis, and their nature could only be decided after prolonged enquiry and examination by experts. It may also be noted that in the Thana Collectorate, malarial fevers were much more prevalent than in the previous year.

Relapsing fever.

28. This type of fever has unfortunately continued throughout the year; and in the light of investigations now being carried out by Dr. Cayley and Dr. Christy at the Municipal Laboratory at Parel, it is apparent that many of the deaths which have been returned as Remittent fever, were in reality Relapsing fever. Blood specimens were taken from amongst the patients attending the Dongri Dispensary, and microscopical examination showed the spirillum of Relapsing fever. A serious development of this disease occurred in the Common Jail.

29. The failure of the rains throughout the Presidency induced abnormal seasonal conditions which seriously affected the public health. Fevers and diseases of the bowels were abnormally prevalent. Famine conditions in the Mofussil caused the poor to flock towards Bombay, and I think there can be no doubt that, irrespective of local conditions, the increase in population by the incoming of starving people, accounts, in some measure, for the increased mortality of the year. Seasonal conditions.

30. In addition to the Municipal Dispensary, which was opened in November 1898, in Kumbharwada, another was opened on the 22nd of January 1899, at Dongri. These 2 free dispensaries have been very largely attended by the poor of the surrounding localities. At the close of the year, arrangements were being completed for the opening of another Municipal Dispensary at Curry Road, in the Parel District. I may mention that it was opened in January of the present year. There can be no question as to the good these dispensaries are doing. They put us in close touch with the people, and information regarding disease can be much more readily obtained. I advocate the opening of another dispensary in the Byculla Ward. Municipal Dispensaries.

31. An Act, dealing with the adulteration of ghee, came into force during the year. Prosecutions were instituted by the Divisional Health Officers against several persons from whom ghee was purchased, which, on examination by the Chemical Analyser to Government, was found to be adulterated to a great extent. Convictions were obtained in the cases. Adulteration of Ghee.

32. It may be necessary, however, to amend this Act, as under its existing provisions, samples for analysis have to be purchased by certain officers specially delegated for the purpose. So long as the dealer sells ghee, saying it was genuine, a prosecution will be successfully maintained, if analysis showed that the ghee was adulterated. On the other hand there would be no case, if the seller stated at the time that the ghee was not pure. The Act does not provide for the marking of ghee, so as to show its quality, and it is not possible to prosecute when any member of the public purchases ghee, and which afterwards may be found to be adulterated. The effect, so far of our action has been to make shopkeepers very wary of supplying ghee to Municipal Officers.

33. The preparation of Professor Lustig's Plague Serum continued throughout the year at the Municipal Laboratory at Parel under the able direction of Dr. G. Polverini. The results of the action of the serum will doubtless be dealt with in the report of the working of the Arthur Road Hospital. Lustig's Serum.

34. So much has been written by the Health Officer in previous Annual Reports, that it would be needless for me to refer at any length to this all-important subject; but I would urge again Drainage.

Malabar Hill.

the necessity for the drainage of Malabar Hill being proceeded with. Many new buildings have been erected on Malabar Hill, and beyond the ovciding of certain of the old storm-water side gutters, nothing has been done in the way of drainage, and it is possible that the recent prevalence of a peculiar type of fever, which was not confined to one place on the Hill, was connected in some way with conditions arising from polluted soil.

Mazagon drainage.

35. The works in connection with the Mazagon gravitation system of drainage, should be carried out with all speed. The cesspool nuisance in Mazagon, which has existed for many years, causing serious danger to the health and inconvenience of the people, must continue until drainage connections are made.

Drainage of Suburbs.

36. Drainage of the northern part of the Island, with the extension of population in that direction, will soon become an urgent necessity. Serious nuisances already exist in places owing to absence of drainage, and it is hopeless to attempt to abate these nuisances by the construction of cesspools, and the consequent provision of cesspool carts and an army of cesspool men. Drainage is the only way of relief.

The C. I. T. Scheme.

37. The City Improvement Trust have got a scheme for the opening out of the suburbs to the north of Dadar.

38. It will take years, however, before any scheme could be carried out, and in the meantime the question is, what is to be done in regard to the drainage of this part of the City. It seems to me desirable that a scheme of drainage should be worked out, which would fit in with the proposals of the Improvement Trust, as it would be absolutely necessary to have an efficient system of drainage in progress before any extensive building operations take place.

Tuberculine inoculation of cattle.

39. During the year a number of cattle were inoculated with Tuberculine by Mr. Ranina, one of our Veterinary officers. Upwards of 100 animals were injected, including 14 cows, 19 bullocks and 67 buffaloes. Before the test was applied, the animals were all specially examined, and their temperature taken. Great difficulty was experienced in persuading the owners to allow their cattle to be treated. They could not understand the object of the test, and the operations were effected by Mr. Ranina at considerable personal risk from the action of the nervous cattle and at the hands of their ignorant owners. The results obtained were practically negative, and Col. Weir was of opinion that they confirmed the view that Phthisis is an infrequent disease amongst the cattle in the public stables of the City, and that free ventilation and a pure water-supply, coupled with cleanliness, all tend to keep milch cattle in a healthy condition.

Foot and mouth-disease.

40. An outbreak of foot and mouth disease amongst cattle in the City, in the beginning of the year, necessitated the taking of special measures for its suppression. A special notification was issued with the sanction

of Government, under Section 434 of the Act, and segregation stables were erected at Sankli Tank, near the Byculla Bridge, where cattle were treated. As epidemics of foot and mouth disease and rinderpest not infrequently occur in the City, it is a matter for consideration whether a permanent segregation hospital should not be provided. It would not be necessary to retain a permanent establishment, but a building should always be ready where cases can be treated.

Return of foot and mouth disease and rinderpest cases for 1899.

41. From January to December 1899, the following animals, suffering from foot and mouth disease, were admitted into the Segregation Camp :—Bullocks 187, cows 6, heifers 6, and buffaloes 7. Total 206. Out of these 3 bullocks and 1 buffalo died.

42. Rinder pestcases :—3 bullocks and 3 buffaloes. Total 6. Out of these 1 bullock and 1 buffalo died.

Stable Inspection

43. As part of the re-organization work of the Department, the milch cattle and bullock stables throughout the City have been regularly inspected by the Veterinary staff, and any animal found suffering from foot and mouth disease or rinderpest, was either removed to the Segregation hospital, or segregated within its own stable.

Sankli Tank Bullock Hospital.

44. This Municipal Bullock Hospital, under the Chief Veterinary Inspector, Mr. Miah Gulam Survar, has maintained its efficiency throughout the year. Upwards of 200 animals daily receive treatment.

Out-door work, H. D.

45. In spite of various disturbing factors the work of the Department has proceeded without the slightest interruption during the year. We have had outbreaks of Plague and Small-pox amongst our scavengers and halalcores, but our work has gone on as usual. The scavengering staff has been largely increased under the re-organization scheme, and refuse has been much more speedily removed.

Gully flushing.

46. The flushing of house gullies with the aid of steam engines and special gangs of scavengers is now a regular part of our work, except during the rains, when the engines are laid up. The flushing gangs, however, are retained in the rains and assist generally in the cleaning of gullies. We have 7 engines, which are in reality miniature, though very powerful fire-engines. The number of engines are not sufficient to satisfy the demands of the public, who would like to have their gullies and privies flushed every day. The usual statement of the work done by the Department will be found at the end of this Report.

New latrines and Urinals.

47. The following list shows the number and position of the new public conveniences which have been erected during the year :—

Ward.	Locality.	Description.
	LATRINES.	
A.	Henry Road	12 seats.
	Gun Carriage Lane, Colaba	10 ,,
	1st Koli Lane ,, ...	12 ,,
B.	Valpakady Road	8 ,,
	URINALS.	
A.	Henry Road	2compartments.
B.	Argyle Road	4 ,,
	Chinchbunder Road	4 ,,
	Agiary Cross Lane	4 ,,
	Sutar Chawl Street	1 ,,
	Samuel Street and Mochi Lane	1 ,,
C.	1st Bhoiwada Street	6 ,,
	Pinjrapole and Kika Street	2 ,,
	3rd Pinjrapole Street	1 ,,
	Dharamsi Street	4 ,,
E.	Clare Road	2 ,,
	Parel Road (near Byculla Station)	2 ,,
F. & G.	DeLisle and Arthur Roads	2 ,,

48. The latrines, which have been erected in Colaba are intended to serve groups of houses which have no accommodation of their own, and for which accommodation could not be provided without partial demolition of the buildings. The occupants of these houses made use of public latrines which were erected by the Municipality so far back as 1866.

49. The completion of the Shone system of drainage in Colaba made it possible for the Municipality to provide public conveniences of an improved type.

Plague Mortality by Class.

50. The total number of Plague deaths registered during the year was 15,796, giving a death-rate, on the census population of 1891, of 19·22 per 1,000. In 1898 the mortality from Plague was 18,185 and the death-rate was 22·12. Whether this reduction in mortality is only apparent or is really an indication of the gradual cessation of the visitation, it is impossible to say. Plague has many obscure forms, and it is probable that a large number of deaths, attributed to other causes, were in reality caused by Plague. The City was very full during the year, and I should think the population was very little short of the

normal. As in previous years the general Hindu community, which form one-half of the total population, suffered severely, the mortality amongst this class being 10,987. There is a noticeable decrease amongst Jains, Bhatias, Mahomedans and Parsees. Europeans show 12 cases as against 15 of the previous year.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM PLAGUE BY CLASSES IN 1899.

Classes.	Population by Census of 1891.	Number of Deaths.	Death-rate per 1,000 of Population.

Buddhists	190	3	15·78
Other and unknown castes	.....	4	.....
Total ...	821,764	15,796	19·22

Plague Mortality by Section.

51. There is a marked reduction in the number of deaths occurring in Fort, North, Market, Dhobitalao and Kumbharwada, whereas an increase is shown from Middle and Lower Colaba, Tarwady, Sewri and Mahim. The increase in Tarwady is due to the fact of there being hospitals and segregation camps in the section. The increase in Mahim is no doubt due to movement of population. The incidence in the other sections shows very little difference as compared with last year. Byculla returns 1,440 deaths as against 1,432 of the previous year.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM PLAGUE BY SECTIONS IN 1899.

Plague Mortality by sex and age.

52. A total of 11,026 deaths occurred amongst males and 4,770 amongst females, the age period of males showing the highest death-rate was from 30 to 39 years. Amongst females the highest death-rate occurred between 10 and 14 and 30 and 34 years.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM PLAGUE BY SEX AT DIFFERENT PERIODS OF LIFE IN 1899.

Plague Mortality by month.

53. The highest mortality was recorded in the month of March, the number being 4,758. February was also very high, 3,038 deaths being recorded. The lowest mortality was in June, 228 deaths being registered. From June the mortality from Plague gradually rose to the end of the year, 993 deaths being recorded in December. The highest daily mortality from Plague was recorded on the 25th of March, 185 deaths being registered; and on the 5th March the highest daily mortality for the year was registered, *viz.*, 391. I may mention that during the month of March, the total mortality only once, and that on the last day of the month, fell below 300, the daily average for the month being 335. This represents a death-rate of nearly five times more than the normal.

54. Plague unfortunately again stands the highest, the rate being 19·22 against 22·12 in the previous year. There is also an increase in Phthisis and diseases of the Respiratory System, Measles and Diarrhœa. There was also a considerable increase of deaths from fevers. The number of deaths from Cholera was 111 as against 104 of the previous year. General Mortality by causes.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM DIFFERENT CAUSES IN 1899.

Cause of Death.	No. of Deaths.	Death-rate per 1,000 of Population.

55. The following statement shows the total mortality by months, March being the highest :— Monthly Mortality.

STATEMENT SHOWING THE NUMBER OF DEATHS FROM ALL CAUSES BY MONTHS IN 1898 AND 1899.

Months.	No. of deaths from all causes exclusive of still born in 1898.	No. of deaths from all causes exclusive of still born in 1899.
January	6,699	5,644
February	8,177	7,422
March	9,196	10,183
April	5,104	6,224
May	2,798	4,030
June	1,998	2,279
July	2,295	2,393
August	3,095	2,705
September	3,439	2,718
October	3,507	3,307
November	2,476	3,587
December	3,177	5,942
Total	51,961	56,434

Mortality by Birth-place.

56. Amongst persons born in Bombay 16,522 deaths were recorded during the year, and amongst those born outside Bombay 37,797. This marked difference shows very clearly how varied our population is.

Class and race mortality.

57. Leaving out Negro-Africans, Buddhists and Lingayets, who form very small communities in the population, low-caste Hindus shows the highest mortality, *viz.*, 131·12 per 1,000. The Jain community, which includes Baniahs also, suffered severely, their death-rate being 75·16. Mussalmans give a death-rate of 73·21, and the general mass of Hindus give a death-rate of 68·95. The death-rate amongst Parsees was 34·89, being considerably lower than in the previous year. The Parsee community, to a great extent, took advantage of inoculation, and the reduction in the death-rate may very probably be due to this. The European death-rate was lower than in the previous year. This is remarkable, as it is the lowest death-rate since 1894. I believe there has been an increase in the number of the resident European population within the last few years.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM ALL CAUSES BY CLASSES IN 1899.

Classes.	Population by Census of 1891.	Number of Deaths.	Mortality per 1,000 of Population.

Total	518,093	33,340	64·35	303,671	23,094	76·04

Mortality by sex.

58. 33,340 males and 23,094 females died during the year, excluding those under 5 years, the highest number of deaths amongst males occurred in the age-period between 30 and 34 years, 3,756 deaths having been registered ; and amongst females, 3,479 in the age-period of 60 and over.

Infant Mortality.

59. The infantile mortality can only be called appalling, a little less than $\frac{1}{4}$th of the total mortality being of children under 5 years of age, and the greatest mortality of any age is that of infants under one year.

60. The increase in the infant mortality is over 3,000 more than in the previous year. I think it must be put down in great measure to the famine and abnormal conditions which prevailed during the greater portion of the year and the inability of weak and devitalized mothers to afford natural nourishment to their children.

61. The total male mortality exceeded that of the female by 10,246. The total mortality for the year gives a death-rate on the Census population of 1891 of 68·67.

62. The following are the sections showing the highest mortality:— Mahim, Byculla, Parel, 2nd Nagpada, Tardeo and Kamathipura. Mortality by sections.

63. The very high incidence in Mahim, where there is no crowding of buildings and density of population, can only be attributed to the movements of population, consequent upon Plague.

64. Byculla shows a very high death-rate; last year the rate was 88·68, but this year it is 104·97. The densely crowded sections of Bhuleshwar, Khara Talao, Khumbharwada, Fanaswady, Dhobi Talao and Market show a death-rate ranging from 4·383 to 76·31, leaving out Fort South, which residentially is a small quarter, Walkeshwar has

the lowest death-rate, *viz.*, 23·86. In the last annual report, para. 100, Col. Weir has described very fully the causes, *viz.*, over-crowding, imperfect ventilation and poor living, which exercise the greatest influence on mortality in any of the classes. It is hopeless to prevent over-crowding amongst the poor. Customs of caste, dearness of food, the economic conditions of labour, all tend to induce over-crowding. Over-crowding amongst the poor is not confined to Bombay. It is one of the greatest sanitary problems in all large cities, and is one of the most difficult to deal with in anything like a practical manner.

65. We may hope, however, that the work of opening up the City, now being carried forward by the City Improvement Trust and the improvement of insanitary buildings, now being done by the Municipality, will have the most beneficial effect on the general health of the City.

66. The mortality from Cholera was 111, being 7 more than last year. The month of highest mortality was March, and Parel and Worli gave the highest number of deaths. Of the total number of deaths, 92 occurred amongst Hindus of other castes. A total of 15 deaths occurred amongst persons who had been resident for 3 months and under, and 8 deaths amongst persons resident for 6 months and under. The greatest number of deaths occurred amongst persons born outside Bombay.

67. A total of 5,063 deaths was registered from fevers, being 949 more than in the previous year. As in the last year Remittent fevers claim the highest figures, *viz.*, 4,761, being 1,045 more than last year, but 710 less than the average of the previous 5 years. To simple continued fever, 144 deaths were put down, being 115 less in the last year, and 652 less than the average. Enteric fever shows 44 deaths, being 7 more than in the last year, and 11 more than the Fevers.

average. To ague 114 deaths were ascribed, being 12 more than in the last year, but 126 less than the average. I think it is extremely probable that a large proportion of the deaths ascribed to Remittent fever were due to Plague in some of its obscure forms. It is also probable that some of the cases were due to Relapsing fever, which is difficult of diagnosis without microscopical examination of the blood.

Fever Mortality by Months.

68. Taking the fever mortality by months, it rose and fell with the mortality from Plague. It rose gradually from January to March, when 762 deaths were registered. March, it being remembered, was the highest month of Plague mortality, as well as the highest from all causes. Fevers gradually decreased until June, and then gradually rose right on to the end of the year, 610 deaths being registered in December. The course of fevers during the year ran with practically the same fluctuations as in the previous year.

Fever.

69. Amongst the Hindus of low-caste there was a considerable increase, the rate being 14·61 as against 6·90 in the previous year. There was also an increase among the general Hindu community. Mussalman mortality was almost the same as in the last year. Parsees showed a slight decline, and Europeans a slight increase.

Fever Mortality by sections.

70. The suburban sections of Parel, Mahim and Worli give the highest incidence of fever mortality, Parel section, as in 1898, being the highest.

71. The high fever mortality of the suburbs is no doubt attributable, in a great measure, to the absence of drains to carry off sewage and subsoil water.

September	14
October	21
November	26
December	83
Total	829

74. There was a great increase in the mortality from *measles*, 1,868 deaths being registered, being 1,614 more than in the last year, and 1,431 in excess of the average of the last 5 years. As in former years, the greatest number of deaths occurred amongst the Hindus of other castes, and the Hindu low-caste give the highest death-rate. As before, the infant mortality was the highest, and the age-period under two years the most fatal. The female death-rate was much higher than that of the male. Measles.

75. Phthisis again claims a large proportion of the total mortality, 6,029 deaths having been registered, being 405 more than in the previous year, and 1,317 more than the average. The small community of Negro-Africans gives a very high death-rate of 157·53. This community, however, is a fluctuating one. The Mussalman mortality was very high, though a little less than in the previous year. The death-rate amongst Jains and Brahmins was a little lower. Amongst Europeans and Parsees the death-rate was stationary. Only 6 deaths amongst Europeans were registered.

Phthisis mortality by class, section and age, and sex.

76. 2nd Nagpada was again the most unhealthy section. Umarkhady was next, and Byculla followed. In the Byculla section there is an increase in the population. The 2nd Nagpada has long been a most unhealthy locality, and it is satisfactory to note that the City Improvement Trust have taken up this district as the first requiring improvement.

77. There died 2,858 males and 3,171 females from this disease. The most fatal period of life amongst males was over 60 years, and amongst females between 30 and 34 years. The female death-rate is nearly double that of the male.

Small-pox mortality, &c.

78. The deaths from small-pox show an increase, 440 deaths being registered in the year. This was 385 more than in the past year and 117 more than the average. Hindu low-castes suffered the most. There were no deaths amongst Europeans or Jews, and only 4 deaths amongst Parsees. The section showing the highest mortality from small-pox was Worli, Sewri and Mahim followed. The disease was practically confined to children below the age of 5 years. It was worst during the first year of life.

General Mortality.

79. From diseases of the Digestive system, 5,559 deaths were registered, being 957 more than in the last year, and 1,964 more than the average. Diarrhœa and Dysentery show a marked increase both as against last year and on the average. There were 3,012 deaths registered under the diseases of the Nervous system, being 435 more than in the last year and 725 more than the average.

80. There were 8,650 deaths ascribed to diseases of the Respiratory system, being 227 more than the last year, and 2,337 more than the average.

Other Diseases.

81. The comparisons of other diseases are shown in the following table :—

Disease.	Mortality.	Incidence.	Average.	Remarks.
Circulatory	343	—15	+117	
Urinary	287	+90	+166	
Generative	665	—39	+245	
Locomotion and Cellular tissue	143	—3	+17	
Cutaneous	46	—18	—1	
Dropsy...	196	+30	+49	
Leprosy	52	+1	Same	
Eye, Ear and Nose	14	+3	+5	
Premature birth	57	+19	+23	
Debility	2,861	+852	+980	
Old age	1,726	+600	+831	
Accidents and violence ...	547	—12	+58	

Miscellaneous.

82. There were 50 deaths due to poison : 22 were suicides, 23 accidental and 5 unknown. 368 deaths were due to injuries. There were 129 deaths from drowning : 55 being suicides, 36 accidental, and in 38 instances the circumstances under which death took place were not known.

Births.

83. 10,624 living and 1,955 still-born births were registered, being 160 less than in the last year, of these 5,661 were males and 4,963 females. Taking the proportion of males to females, according to the census of 1891, at 170·60 to 100, and assuming that there were 100 females to 100 males, the birth-rate would be equal to 22·04. As explained in para. 115 of the last Annual Report, the birth-rate is affected by Plague. It may be noted that the Parsee birth-rate was lower than in the last year, and the Musalmans' rate also shows a decrease.

TABLE SHOWING THE NUMBER OF BIRTHS AND THE BIRTH-RATE BY CLASSES IN 1899.

Classes.	Population by Census of 1891.	Number of Births.	Birth-rate per 1,000 of Population.

Disposal of the dead.

84. The old Beni-Israel burial ground at Grant Road was closed in 1898, and a new burial ground was provided for this community at Narielwady, Mazagon. It was opened for use in October 1898, and registered on January 1899. The ground was provided at the expense of the Municipal Corporation, and has an area of 6,489 square yards.

85. In Appendix B at the end of the report will be found a table showing how the dead of the various communities were disposed of.

86. The total expenditure on the Health Department came to Rs. 18,41,166-15-6 and the income to Rs. 8,27,423-7-10; the actual cost of the department to the Municipality was, therefore, Rs. 10,13,743-7-8.

87. On the average 5,775 men and women and 1,124 scavenging and drain carts, and 205 night-soil and cesspool carts were at work each day in 1899.

88. 344,268·5 tons of garbage, equal to 943·2 tons a day, were collected and removed and disposed of against 388,816·75 tons of garbage in 1898.

89. 170,506·11 tons of night-soil and cesspool matter, equal to 467·14 tons a day, were collected and removed as against 169,586·9 in 1898.

90. 167·1 miles of covered drains were opened and cleaned against 172·1 miles in 1898.

91. 3,924 notices and 2,066 summonses were issued against 4,229 notices and 2,401 summonses in 1898.

92. The amount of fines recovered amounted to Rs. 1,612-4-0 against Rs. 1,925-8-0 in 1898.

93. 1,411 building plans received and disposed of against 1,009 in 1898.

94. From the table following which shows the work of the Garlic Incinerator, it will be seen that 31,465 cart-loads of kutchra were burnt in 265 days in 1899.

	No. in Nomenclature of Diseases.	CAUSES OF DEATH.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	TOTAL.
Local Injuries.		*Injury of the Abdomen*—contd.													
		Injury to the internal organs by an accidental fall from a toddy shop	1	...	...	...	...	...	...	...	...	...	...	...	1
		" " " " by being knocked down by bullocks into a night-soil car belonging to Port Trust	...	...	...	...	...	...	1	...	...	...	...	...	1
		Unknown	...	...	...	...	...	...	...	...	...	...	...	1	1
	1087	Rupture of the urethra and internal injuries of pelvis, knocked off his cart and log of wood falling on him	...	1	...	...	...	...	...	...	...	...	...	...	1
		Rupture of the urethra and internal injuries of pelvis, knocked down by a horse	...	...	...	...	...	...	1	...	...	...	...	...	1
		Injuries of the Upper Extremities.													
	1094	Injury to the finger crushed in a mill	...	...	...	...	...	...	...	...	...	...	1	...	1
		Shock following from laceration of fore-arm, accidental	1	...	...	...	...	...	...	...	...	...	...	...	1
	1096	Injury to the hand in a mill, accidental	...	...	1	...	...	...	...	...	...	...	...	...	1
	1104	Fracture of arm by being knocked down by a runaway horse	...	...	1	...	...	...	...	...	1	...	...	...	2
		" " " " fallen from a tree	1	...	...	...	...	...	...	1	...	...	...	...	2
		" " " " " a window	...	...	...	...	...	1	...	...	...	...	...	...	1
	1111	Injury to the hand, accidental fall from a platform in a mill	...	...	...	...	...	...	...	...	...	...	...	...	1
		Injuries of the Lower Extremities.													
	1115	Contusion of knee-joint, knocked down by a horse	...	...	...	...	...	...	...	...	...	...	...	1	1
		" of the leg	...	1	...	...	...	...	...	...	...	...	1	...	1
	1117	Wound of foot by an accidental fall of a stone	...	...	...	...	...	...	...	...	...	...	...	...	1
		" above the left ankle, accidental fall of a stone on the leg from overside of the excavation	1	...	...	...	...	...	...	...	...	...	...	...	1
		" on the leg, accidentally in a mill	...	...	1	...	...	...	...	...	...	...	...	...	1
		" of the foot by being run over by a cart	...	...	...	...	...	...	1	...	...	...	...	...	1

Local Injuries.

1119	Injury of the leg, accidentally knocked by a runaway horse				1													1
	" " " unknown																1	1
	" to thigh by an accidental fall from a tree			1														1
	" to both legs					2												2
	" to the ankle, being run over by a bullock cart, accidental				1													1
	" to the feet. Iron beam falling on the feet, accidental.					1												1
	Crushed leg		1															1
1121	Separation of the knee-joint, fall from steps															1		1
1127	Fracture of the knee-joint, accidental fall into a well				1													1
	" Ankle, knocked down by a private brougham			1														1
	" Thigh, by being knocked by a horse, accidental				1													1
	" Leg, by an accident of a log of wood											1						1
	Fracture compound of right thigh, being run over by a car																1	1
	" " of both bones			1														1
	" " of leg	1																1
	" " of toes and foot by an accidental fall of a bale of cloth												1					1
	" " of the leg by being fallen in a sweeper's gully, accidental						1											1
	" of the leg, by falling of a bundle of iron sheets																	1
1130	Leg crushed under a Railway train, being fallen off the Railway platform while attempting to get into the train in motion																1	1
	Compound fracture, accidentally tossed by a buffalo												1					1
	Body crushed by being drawn in, between the wheels of a machinery in a mill										1							1
	Accidental fall into a prow			1														1
	Fall from a tree, accidental				1				1									1
	Body crushed and cut in half by being run over by a Railway engine and waggon, accidental																	1
	Peritonitis, result of a kick received accidentally while playing football					1												1
	" following a kick from a bullock										1							1
	Hæmorrhage from wound																1	1
	Injury						1											1
	Accidental fall											1			2	2		5

Appendix A.

Government Observatory, Colaba, Bombay.

AGGREGATE AND MEAN VELOCITIES AND RELATIVE FREQUENCY OF DIFFERENT WINDS, 1899.

TABLE showing for the year 1899 the Sums of the Velocities, and the Mean Velocities, in miles per hour, of the Winds which blew in each Month, from each of the Sixteen Principal Directions, and also the number of hourly Observations which those sums comprise; the latter numbers indicating the Relative Frequency of the same Wind (as to directions) in the several months, and of different Winds during the same Month.

2.—LICENSE DEPARTMENT.

1. Mr. Sorabji Bamanji Master held the appointment of Superintendent of Licenses from 1st April to 19th May 1899, when he was appointed to act as Revenue and Refund Audit Officer. I acted for him up to the end of the year under report.

2. I am glad to state that, notwithstanding the unprecedentedly high mortality in the City and continued depression of trade owing to plague, famine and other diseases, I am able to submit this year a report much more satisfactory than that of the last year.

3. I append a tabulated statement showing the amount of fees collected under each head of licensable trades during the year under report.

4. The income from all these up to 31st March last, including Rs. 727 collected for 1898-99 during 1899-1900, was Rs. 63,732-8-0. Rs. 10 only were outstanding at the end of the year, which have now been recovered. Adding this amount to Rs. 63,732-8-0, the total income from the license fees amounts to Rs. 63,742-8-0, that is, Rs. 3,742-8-0 more than the budget estimate. I have now no outstanding balance for 1899-1900 to collect.

5. As, owing to famine, hay in large quantities was sent to the famine-stricken districts, some of the hay-dealers could not get it for Bombay, and consequently 11 plots on Clerk Road and 25 on Frere Bunder were not taken up for stacking hay during the year. Had they not remained vacant, the total income would have been increased by about Rs. 900.

6. I give below a statement showing the number of licenses issued and the revenue derived each year since the establishment of this Department in the year 1890. It speaks for itself, and fully justifies the separation of the License Department from the Health Department :—

Official Year.	Number of Licenses issued.	Amount collected.
		Rs. a.
1890-91	3,335	36,417 8
1891-92	4,110	46,383 0
1892-93	4,833	54,996 8
1893-94	5,407	60,507 8
1894-95	5,701	63,914 8
1895-96	5,880	65,048 8
1896-97	5,130	56,462 8
1897-98	5,750	63,741 8
1898-99	5,588	60,646 8
1899-1900	5,831	63,732 8

7. The year 1899-1900 was a time of much anxiety and difficulties, but by honest hard work and vigilant supervision I have been able to show a result much more satisfactory than I expected.

8. The number of prosecutions undertaken during the year against persons for carrying on licensable trades without licenses or for infringing the conditions and restrictions thereof was 2,339 against 1,904 instituted during the year 1898-99.

9. 5,831 licenses were issued against 5,588 issued during the year 1898-99.

10. All the members of the License Staff, inspectorial as well as clerical, worked cheerfully, and I have every reason to be satisfied with the way in which all of them discharged their arduous and responsible duties in such critical times.

11. I cannot conclude this report without expressing my regret for the death of the late Sub-Inspector, Mr. Anandrao Hari Yadow, whose loss will no doubt be long felt by this Department.

I have, &c.,

B. D. BANAJI,

Ag. Superintendent of Licenses.

3.—MARKETS.

I have the honour to submit the Administration Report of the Markets and Slaughter-houses Establishment for the year 1899-1900, as under :—

1. The total amount of stallages from the different Municipal markets, recoverable every quarter or half year under the terms of section 407 (*a*) and (*c*) at the opening of the year, amounted to Rs. 47,497 against Rs. 47,709 at the closing of the year, showing an increase of Rs. 212, which is, in a measure, due to the right of occupancy of some of the stalls in the different markets having been put up to auction during the year under report. The following is the detailed statement :—

Names of Markets.	Rents per quarter as appearing at the opening of the year.	Rents per quarter as appearing at the closing of the year.	Increase.	Decrease.	Net increase.	REMARKS.
	Rs	Rs.	Rs.	Rs.	Rs.	
Colaba Market	305	305	...	...	Net Increase Rs. 212-0-0.	
Fort do. ...	4,688	4,685	...	3		Half-yearly.
A. C. Fruit & Vegetable Market...	14,542	14,862	320	...		
Do. Fish and Mutton Market...	2,614	2,614	...	...		
Do. Mutton Market (new)...	947	947	...	...		
Do. Beef Market ...	2,624	2,664	40	...

Fergusson Road Market.	421	324	...	97		
Total...	47,497	47,709	436	224		

2. The total amount of Market fees (exclusive of departmental squatters' fees and those recovered from the contractors) collected during the year under report on the basis of the scale shewn above, amounted to Rs. 1,48,227-7-3 against Rs. 1,44,779-2-8 in the previous year, shewing an increase of Rs. 3,448-4-7. This increase is partly due to reoccupancy of several of the stalls that were vacant in the previous year (*vide* detailed statement in the margin), particularly in the Bhooleshwar and the Erskine Road Markets where many of the stalls were thrown up in the previous year owing to most of the customers in the neighbourhood of the markets having left Bombay on account of the plague, and partly to the right of occupancy of some of the stalls having been put up to auction and higher rentals obtained for them than in the previous year. The following is an explanatory statement which will shew in detail the difference in stall rents on account of the total or partial vacancy of stalls during the quarter, as also the subsequent alterations in stall rents on account of rise or fall in rents at the

Names of Markets.	Total number of stalls.	Average number of stalls vacant in each quarter in 1899-1900.	Average number of stalls vacant in each quarter in 1898-99.

4. The squatters' fees from Fish Markets, scale fees in the Crawford Markets compound, and the Fair ground rent and feeding fees at the Bandora Slaughter Houses, recovered from the contractors during the year under report, amounted to Rs. 93,085-0-0 against Rs. 79,525-0-0 in the previous year, shewing an increase of Rs. 13,560. This large increase is due to the right of collecting Fair ground rent and feeding fees at the Bandora Slaughter Houses having been sold for a higher sum than in the previous year. When this right was put up there was very keen competition, and the bid went up to Rs. 66,000—the amount realized for the first time within the last ten years. It has been the practice for years past to put up to auction every year the right of collecting these fees. The same procedure was adopted for the year under report in all cases save the right for the collection of scale fees, which was sold departmentally to the contractors for the previous year with the approval of the Standing Committee, for the reasons advanced in this office No. 2535 of 9th November 1898 to the Municipal Commissioner. In the following statement is contrasted, in detail, the amount recovered during the year under report with those in the previous four years :—

Particulars.	1895-96.	1896-97.	1897-98.	1898-99.	1899-1900.	Difference as compared with 1898-99.		Remarks.
						Increase	Decrease.	
	Rs.	Rs.	Rs	Rs.	Rs.	Rs.	Rs.	
Fort Market ...	1,650	1,650	1,500	1,400	1,250	...	150

GRAND TOTAL ...	91,625	99,055	81,045	79,525	93,085			
Increase over preceding year's amount	3,240	7,430	...	...	13,560			
Decrease over preceding year's amount	...	...	18,010	1,520	...			

* The amount recovered as fine for one day's delay in payment of the monthly instalment.

† This amount is from the opening of the market, that is, from 1st November 1898 up to 31st March 1899.

5. The squatters' fees collected departmentally in the several Municipal markets during the year under report amounted to Rs. 3,226-8-0 against Rs. 2,661-15-9, showing an increase of Rs. 564-8-3. This is due to more squatters having been allowed to vend their goods in the markets than in the previous year. In the following statement is contrasted the fees recovered during the year under report with those in the previous year :—

Names of Markets.	1899-1900.	1898-99.	Difference.		Remarks
			Increase.	Decrease.	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Miscellaneous (Bribe offered to Peons) ...	3 0 0	.....	3 0 0	.....
Total ...	2,161 3 6	2,231 15 6	78 12 0	149 8

7. Since there is no appreciable difference in the revenue under the miscellaneous heads in the above statement, the detailed explanation is not necessary.

Slaughter Fees, Butchers' License Fees, &c., &c.

8. The total collection under these heads amounted to Rs. 1,73,455-10-5 against Rs. 1,57,435-11-0 in the previous year, showing an increase of Rs. 16,019-15-5 as contrasted in the following statement :—

Particulars.	1899-1900.	1898-99.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Slaughter fees	1,51,252 9 0	1,35,143 11 0	16,108 14 0	.....
License fees	16,290 8 0	16,327 0 0	.....	36 8 0
Carriage of meat for Commissariat Contractor.	48 0 0	48 0 0	.....	.....

Rent from the Commissariat Department (paid direct into the Chief Accountant's office) ...	3,000 0 0	3,000 0 0	.....	.....
Do. Brigadier-General do.	263 9 5	200 0 0	63 9 5	.....
Proceeds of blood from the Contractor, Mr. K. D. Framji	195 0 0	180 0 0	15 0 0	.....
Total ...	3,458 9 5	3,380 0 0	78 9 5	.....
GRAND TOTAL ...	1,73,455 10 5	1,57,435 11 0	16,187 7 5	167 8 0

9. In the above statement the collection from slaughter fees shews a very large increase of Rs. 16,108-14-0. This was never anticipated. It is due to the fact that during the year under report there was a very heavy slaughter both in respect of sheep and goats and cattle comparing that with the previous year, as will appear from the statement in the margin, giving an average of about 7 buffaloes, 110 cows, bullocks and calves and 1,729 sheep and goats per day against 5 buffaloes, 106 cows, bullocks and calves and 1,522 sheep and goats per day in the previous year. It will be noticed that the largest increase is in the number of sheep and goats slaughtered, an incident never occurred before in the history of the markets ever since the opening of the Slaughter Houses at Bandora. Owing to the exceptionally trying period the several districts of Gujarat, from which these animals are imported into the Bandora Slaughter Houses, has been undergoing during recent years on account of famine and plague, and owing to failure of rain and scarcity of fodder during the year under report, there was an influx of animals at the Bandora Slaughter Houses, and the cheap rates at which they were disposed of to Butchers and others had resulted in the exceptionally heavy slaughter referred to above. In Appendix **A** is shewn in detail the total number of animals slaughtered, removed for private slaughter within the meaning of section 403 (2) (*e*) of the Act by private individuals, removed by the Fadkarees or sheep dealers for disposal at the DeLisle Road Sheep Market, &c., &c., each month during the year under report and the amount of fees levied thereon. These facts clearly go to shew that the Fair Ground Contractor for the year under report had a large margin of profit, notwithstanding the heavy amount he had paid to the Municipality for the right to collect the fees.

Description of animals.	Number Slaughtered in 1899-1900.	Number Slaughtered in 1898-99.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Buffaloes ...	2,483	1,864	619	.....
Cows, bullocks and calves ...	40,454	38,502	1,952	.....
Sheep and goats...	6,31,190	5,55,607	75,583	.....

10. The recovery of license fees from Butchers and others under the provisions of the Municipal Act and the Bye-Laws shews a small deficit of Rs. 36-8-0 over the previous year. In the following statement is contrasted the fees recovered from different traders. On reference to this it will appear that though there are slight increases in the fees recovered from miscellaneous traders, the fees from the cattle and sheep merchants at the Bandora Slaughter Houses shew a large re-

duction. This is chiefly due to some of the petty merchants having given up their trade during the year under report for scarcity of animals owing to famine :—

Year.	License fees collected in Bombay.										License fees collected at Bandora.								Grand Total.
	From Butchers in Municipal Markets.	From dealers in Municipal Markets other than Butchers under section 61.	From Butchers in Private Markets.	From Private Markets owners.	From Butchers using places under section 41 (b).	From Beef Hawkers.	From Mutton Hawkers.	From Delisle Road Sheep Market Fudkarees.	From Delisle Road Sheep Cammattees.	Total.	From Fudkarees or Sheep dealers at Bandora.	From Cattle-dealers, Brokers, Shroffs, &c.	From Sheep Cammattees.	From Beef Cammattees.	From Communissariat Butchers.	From Labourers, Cart Drivers, &c.	Total.		
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs. a.	Rs. a.	Rs. a.		Rs. a.
1899-1900 ..	473	1,764	880	4,691	775	1,000	150	1,250	490	11,423	3,955	495	86	55	7 8	419	4,957 8		16,380 8
1898-1899 ..	474	1,492	900	4,691	750	1,025	150	1,250	490	11,252	3,670	690	78	35	10 0	493	4,965 0		16,217 0

11. The decrease in chawl rents is due to some of the rooms having been vacated during the year under report on account of Plague in the compound.

12. The amount of Rs. 263-9-5 recovered by the Chief Accountant direct from the Brigadier-General for Rifle Ranges on the grazing ground at Bandora during the year under report is made up as under :—

	Rs.	a.	p.
Arrears of rent recovered from B. B. Railway Volunteer Rifle Corps for Rifle Ranges from 1st April 1883 to 26th July 1898 at the rate of Rs. 25 per annum	383	0	6
Less.—Rent of land used by the Native Infantry for Rifle Ranges erroneously recovered from 27th July 1898 to 28th February 1899, the land having been resumed by Government on 27th July 1898 ...	119	7	1
	Rs. 263	9	5

13. The increase of Rs. 15 in the proceeds of blood is due to one of the monthly instalments in the year 1897-98, which was kept as deposit in the Chief Accountant's Office, having been adjusted during the year under report. The right of collecting blood from the Slaughter Houses at Bandora is given to Mr. K. D. Framjee for a period of three years, commencing from 1st September 1898 to 31st August 1901, on the contractor entering into an agreement to pay Rs. 10 every month in advance for the collection of blood and Rs. 5 as ground rent every month for using a portion of the ground at the Bandora Slaughter Houses for this purpose.

14. Thus the total collection under all the heads detailed in the several statements above amounted to Rs. 4,20,155-13-2 against Rs. 3,86,633-12-11 in the previous year. The following is the general abstract showing the several heads to which the amount is credited :—

Particulars of Heads to which the Amount is credited.	1899-1900.			1898-99.		
	Rs.	a.	p.	Rs.	a.	p.
Stall rents	1,48,227	7	3	1,44,779	2	8

Prices current	100	15	6	149	5	6
Garden produce	31	4	0	34	4	0
Recoveries for the use of gas light ...	15	0	0	15	0	0
Do. for carriage of meat from Commissariat contractors	48	0	0	48	0	0
Sale proceeds of meat or animals seized under section 412 (2)	73	8	0	65	12	0
Sale proceeds of manure	135	12	0	94	4	0
Inspection fees and fees for producing office records	25	0	0	1	0	0
Miscellaneous	4	8	0	20	6	0
Total ...	4,20,155	13	2	3,86,633	12	11

15. It will be observed on reference to the above statement that the total increase under all the heads amounted to Rs. 33,522-0-3, and the cause for the same has been explained in the foregoing paras. under the respective heads. The following table will show the revenue of each of the last ten years :—

	Rs.	a.	p.
1890-91	3,48,106	5	7
1891-92	3,63,781	8	3
1892-93	3,77,527	4	6
1893-94	3,80,324	13	5
1894-95	3,92,261	13	0
1895-96	4,03,356	12	8
1896-97	3,95,440	13	6
1897-98	3,74,002	2	0
1898-99	3,86,633	12	11
1899-1900	4,20,155	13	2

16. On reference to the above figures it will be observed that the total revenue was steadily rising year by year up to 1895-96. But in the two following years owing to Plague it shewed a tendency to decline which slightly recovered itself in 1898-99, and in the year under report the total receipts went up to Rs. 4,20,155-13-2, being better by Rs. 33,522-0-3 than in the previous year. It should be noticed that this is the highest amount realized within the last ten years, which is a gratifying feature in the report.

17. During the year under report 2,654 buffaloes, 48,063 horned cattle and 727,333 sheep and goats were brought on the Bandora Fair Ground for examination and disposal, out of which 181 buffaloes, 5,578 horned cattle and 42,113 sheep and goats were found unfit for slaughter on inspection, and were consequently rejected as shown in the following statement. The remainder were either slaughtered for the markets or were otherwise disposed of, the details of which are shown in Appendix **A** :—

Month.	Animals presented for examination.			Animals rejected.		
	Buffaloes.	Horned cattle.	Sheep and goats.	Buffaloes.	Horned cattle.	Sheep and goats.
1899.						
April	161	3,973	56,804	7	227	2,845
May	176	3,237	57,106	11	235	2,034
June	216	3,188	52,158	9	239	4,799
July	285	4,083	60,261	10	296	3,782
August	362	2,696	57,472	25	252	2,827
September	335	3,473	63,791	50	476	3,676
October	276	4,530	61,395	19	419	4,770
November	303	3,679	56,565	17	459	3,198
December	192	5,780	65,468	9	713	3,024
1900.						
January	159	4,759	70,650	9	667	3,617
February	103	4,156	55,594	5	631	3,211
March	86	4,509	70,069	10	964	4,330
Total for 1899-1900...	2,654	48,063	727,333	181	5,578	42,113
Total for 1898-99..	1,951	43,467	641,650	83	2,736	36,404

18. The above statement will show that of the total number of horned cattle (including buffaloes) brought at Bandora, 11·3 per cent. and of sheep and goats 5·8 per cent. were found unfit for slaughter, and were consequently rejected. This shews that the condition of these animals was fairly good.

Refunds.

19. The total amount of refunds for which certificates were granted on account of slaughter fees in respect of the animals that were removed from the Slaughter Houses compound for shipping requirements was Rs. 3,084-0-0, the details of which are as under :—

Number of cows, bullocks or calves removed.	Amount of refund.	Number of sheep and goats removed.	Amount of refund.	Total amount of refund.	Remarks.
	Rs. a. p.		Rs. a. p.	Rs. a. p.	
63	315 0 0	5,530	2,765 0 0	3,084 0 0	
*2	4 0 0				*Pigs.

20. The quantity of unwholesome food destroyed during the year under report as unfit for human consumption, under the provisions of sections 415 and 416 of the Act, was 185,144 lbs. against 111,740 lbs. in the previous year, as detailed below :—

Description of articles.	Quantity in lbs. destroyed in 1899-1900.	Quantity in lbs. destroyed in 1898-99.	Remarks.
Mutton	124,830	55,639	Destroyed at Bandora.
Beef	9,230	1,125	
Mutton	992	1,038	
Beef	23,759	20,830	Destroyed in Bombay.
Fish	21,675	18,423	
Fruit	338	11,638	
Vegetables	304	376	
Corn	638	...	
Sweetmeat	...	...	
Coorla beef	3,378	2,681	
Pork	...	...	
Total ..	185,144	111,740	

21. The fines inflicted by the Presidency Magistrates for the infringement of the provisions of the sections of the Municipal Act and the Bye-Laws pertaining to Markets and Slaughter Houses amounted to Rs. 708 during the year under report, as detailed below :—

Amount of fines under section 411 (*a*).	Amount of fines under section 412 (1).	Amount of fines under clause 18, chapter II, of the Bye-Laws.	Total Amount of fines.
Rs. a. p.	Rs. a.	Rs. a. p.	Rs. a. p.
517 0 0	98 0 0	93 0 0	708 0 0

General Remarks.

22. During the year under report owing to scarcity of rains the fruit and vegetable supply was not as usual, but the beef and mutton supply was fairly good. The following figures will show the quantity and varieties of fruit imported into the Bombay markets during the year under report compared with those in the previous year :—

Articles.	Number of baskets in 1899-1900.	Number of baskets in 1898-99.
Pomegranates	7,496	15,118
Moosoombi	5,453	9,834
Apples	2,105	2,202
Mangoes	794	909
Oranges	17,342	11,749
Grapes	6,406	2,094

23. In conclusion, I would state that Mr. Douglas Bennett was the Superintendent of Markets throughout the year under review, and that he having gone on leave, the writing of this report has devolved on me. Mr. Burjorji Rastamji Katrak, the Head Clerk and Accountant, has assisted me in this work, and his ability and minute acquaintance with all the details of this Department have been invaluable. Mr. Saunders, the Assistant Superintendent at the Bandora Abattoires, and Mr. Sullivan, the Meat Inspector at the Crawford Market, as well as the executive and the clerical staff have, I am desired by Mr. Bennett to say, as usual rendered excellent service during the year under report.

Appendix A.

STATEMENT showing the number of animals slaughtered, removed for private slaughter, &c., during the year 1899-1900.

Description of Animals.	Months.												Total number of animals.	Total amount of slaughter fees.			Remarks.
	April 1899.	May 1899.	June 1899.	July 1899.	Aug. 1899.	Sept. 1899.	Oct. 1899.	Nov. 1899.	Dec. 1899.	Jan. 1900.	Feb. 1900.	Mar. 1900.		Rs.	a.	p.

5.—REPORT ON THE WORKING OF THE MUNICIPAL HOSPITAL FOR INFECTIOUS DISEASES AT ARTHUR ROAD FOR THE YEAR 1899.

I.—1. The present report deals with the calendar year 1899, and has been brought up to the end of May 1900.

II.—Grounds and Buildings.

2. The total accommodation of the Hospital had to be considerably enlarged on account of an epidemic of small-pox in December 1899, and one of relapsing fever in Her Majesty's Common Prison, from where about 223 patients were transferred for treatment. Two additional wards of 40 beds each were put up in the Hospital compound and the contact camp of ten sheds was converted to Hospital use. The additions and alterations increased the accommodation to 580 beds, out of which 340 were used for small-pox, 120 for plague and 120 for relapsing fever.

3. All the wards, permanent and temporary, were kept in proper order and repaired from time to time as required.

4. A corrugated iron store-room 24′ × 20′ was erected during the year.

5. A steam sterilizer for sterilizing infected articles of bedding, clothing, &c., was erected during the year and has worked satisfactorily.

III.—Conservancy and Water-supply.

6. These remained the same as during the previous year.

Medical Staff, Establishment and Nursing.

7. *Assistant Medical Officer.*—Dr. D. S. Fraser continued as Assistant Medical Officer up to October. On his leaving for Europe Dr. D. C. Sethna was appointed in his place.

8. *Hospital Assistants.*—Three Hospital Assistants continued to do duty up to nearly the end of the year, an extra assistant was employed during the small-pox epidemic, and his services were dispensed with when the epidemic abated.

9. *Nursing.*—The changes in the nursing staff were numerous and frequent as usual. The staff of local nurses which was hitherto under the control of the Chief Medical Officer was placed under the Lady Superintendent of nurses in order to arrange for proper distribution of work between them and the English nurses. Most of the Plague and Small-pox nursing was under the English nurses assisted by local and under-nurses. Several English nurses volunteered for nursing small-pox, and it speaks well for their zeal and enthusiasm for work, as they were not bound by their agreement to nurse any but Plague patients.

Relapsing Fever, and Observation patients were mostly nursed by local nurses.

10. *Establishment.*—The number of ward and other servants had to be increased or decreased according to requirements, but a large increase in the number of relapsing fever and small-pox patients necessitated a considerable augmentation of the staff.

The following establishment was effective in March and April 1900:—

1 Chief Medical Officer.
1 Assistant Medical Officer.
4 Hospital Assistants.
15 English Nurses.
8 Local Nurses.
4 Under-nurses.
1 Storekeeper.
1 Clerk.
2 Compounders.
1 Telephone Clerk.
1 Engine Driver for the Sterilizer.
80 Ward Boys.
18 Ayahs.
7 Cooks.
7 Dhobis.
1 Mali.
1 Bhistie.
1 Dispensary Servant.
4 Ambulance Men.
2 Lime Washers.
6 Police Ramosees.
1 Cooly for the Sterilizer.
31 Sweepers (Male).
14 Sweepers (Female).

The menial establishment numbered in all 173; this was the largest ever engaged, and was necessitated by an unprecedentedly large number of patients. For over ten weeks, the daily average strength of patients was between 400 and 470, and at times it reached nearly to 560.

Considerable reductions have, however, been made as usual in the above, since the decline of Small-pox and Plague.

V.—Medical History of the year 1899-1900.

11. *Plague.*—At the time of the submission of the last report, the Plague epidemic of 1898-99 had quite subsided, but a recrudescence of the disease during the autumn was anticipated. This did occur, but not to the same extent as in the autumn of 1898, and the admissions were fewer, but the mortality rate of patients was very high. Admissions increased again in December, and by the end of the month, the fourth epidemic of Plague practically began. It ran through its usual course, attaining a maximum of intensity in March and April 1900, with a few intervening oscillations. By the end of May, it subsided and during June and July, the admissions have been less than ever since plague appeared in the City in September 1896.

12. No changes of importance were noticeable in the types of the disease during the last epidemic; all those previously described existed more or less, but the pneumonic type was not so much in evidence. During the height of the epidemic cases came in cycles of a particular type; one type disappeared as suddenly as it came and was replaced by another. For instance, during a week or ten days, most of the cases would come with secondary pneumonia, then these would suddenly cease, and be replaced by hæmorrhagic cases, with profuse hœmorrhage from the intestines, kidneys, stomach or lungs, &c., and these again in their turn would be replaced by cases with large necrosis. And similarly such cycles were observed in connection with other particular type of disease, such as the primary septicæmic, secondary septicæmic, &c.

13. *Relapsing Fever.*—There was a considerable decline in this affection during the rainy season of 1899, as compared with 1898. The admissions did not exceed beyond 53 in one month and were generally under that figure. During November, however, it began to increase, and the admissions in December and January 1900 were considerably swollen by an influx of convicts from Her Majesty's Common Prison, where the fever broke out in an epidemic form. In the following months, it behaved again as in previous years, rising *pari passu* with the plague epidemic. It has, however, not declined with it, nor does it show any signs of doing so, as the admissions during May and June have been heavy, thus repeating the experience of 1898.

14. *Cholera.*—Only 2 cases of Cholera were treated during the whole of 1899. In March 1900, 3 cases were admitted, and in two following months there were 14 and 43 admissions, respectively. During June, however, the admissions rose to 76 and during the first half of the current month the admissions have reached to 104. A Cholera epidemic has appeared in the wake of plague, and here history is again repeating itself in a famine year—the year 1900 behaving just as 1897. One striking difference is, however, noticeable, *viz.*, that the admissions during the present epidemic have been heavier than in 1897; in fact those up to date total more than the whole of the admissions of 1897. The epidemic of 1897 subsided by the beginning of September, and it is to be hoped that the present visitation will follow a similar course.

15. *Small-pox.*—It is very curious that small-pox should have persisted throughout the whole of 1897 and that it should have broken out into an epidemic of unprecedentedly large proportions at the end of the year. Patients were admitted throughout the first eleven months of the year, in smaller number but more or less continuously, but in December the admissions suddenly rose to 78, and January, February, March, April and May 1900 showed 276, 267, 123, 60 and 40 admissions respectively. The largest number of small-pox patients on one day in Hospital was 320. The epidemic ran concurrently with plague, but its height did not correspond with it. Small-pox reached its maximum in January, February and March and then commenced to decline until it almost totally disappeared in July 1900. This epidemic was one of the most widespread in the annals of Bombay and during my connection with the Hospital, now extending over 13 years, nothing approaching to it has ever been observed.

16. *Chicken-pox and Measles.*—These two affections were also more or less persistent throughout 1898, and they followed exactly the course of the small-pox epidemic, rising with its intensity, and falling when it subsided.

17. Reviewing the year 1899-1900 as a whole, it appears to have been the most disastrous year on record. Its influence on public health was no less strange than grave, inasmuch as it had running concurrently 5 epidemic diseases, at one and the same time. Small-pox, chicken-pox, measles, plague and relapsing fever (not forgetting influenza and almost epidemic diarrhœa due to privation) were running their epidemic courses together and thus contributing to a very high mortality. And now in the middle of July, they have all but disappeared, leaving cholera the sole master of the situation. This affection in its turn appears to be more intense than in 1897, and the health conditions which showed such a gratifying and steady improvement in May and June are no longer existent to-day. The total mortality is rising week by week, together with the total deaths

from cholera and yet, strange to say, this disease does not account for all the excess mortality. As to what factors contribute to this excess, the Hospital admissions are not able to throw any light. This much is, however, apparent that there is no serious recrudescence of plague at present, as in 1898 and 1899, and here also the experiences of 1897 are again being repeated, *viz.*:—plague in abeyance and cholera prevalent. In fact the years 1897 and 1900 have much in common in their influence on public health, the latter being the more disastrous of the two.

VI.—Statistics of the Various Diseases.

18. The total admissions from all diseases during 1899 was 2,820, and for the first five of 1900, 2,633; a gross total of 5,453 patients. The following table shows the details of these :—

Months.	Plague.	Relapsing Fever.	Cholera.	Small-pox.	Chicken-pox.	Measles.	Observation.	Total.

VII.—Plague.

19. The total number of admissions from plague during 1899 was 1,387 : of these, 1,088 died and 299 recovered, giving a mortality rate of 78·44 per cent. There were 750 admissions up to the end of May 1900, and of these, 561 died, and 189 recovered, giving a mortality rate of 74·80 per cent.

The following table shows the particulars of admissions, deaths, recoveries, &c., during the above periods :—

Months.	Admitted.	Died within 24 hours.	Died within 48 hours.	Total deaths.	Recovered.	Per centage of mortality.
January 1899	178	73	42	149	29	83·77
February „	324	109	56	257	67	79·32
March „	390	114	79	310	80	79·48
April „	164	48	36	128	36	78·04
May „	52	30	11	34	18	65·38
June „	18	7	3	15	3	83·33
July „	48	16	8	33	15	68·75

December „	56	12	15	42	14	75·00
Total ...	1,387	452	292	1,088	299	78·44
January 1900	120	37	30	85	35	70·83
February „	176	62	36	137	39	77·84
March „	230	60	44	165	65	71·73
April „	160	46	34	128	37	76·87
May „	64	23	11	51	13	79·61
Total ...	750	228	155	561	189	74·80
Grand Total ...	2,137	680	447	1,649	488	77·16

20. In the report for 1898, the total number of plague patients treated up to the end of May 1899 was given as 4,862; with the above additions up to the end of May 1900, it now amounts to 5,891, with 4,312 deaths and 1,579 recoveries, the mortality rate being equal to 73·19 per cent. for all cases, and 74·11, if the convalescents that were admitted from other hospitals be excluded.

21. It was also stated that each succeeding epidemic of plague exhibited greater virulence than its predecessor, and this character has been more or less upheld by the epidemic of 1899-1900. But it is not apparent from the above tables inasmuch as the results have been appreciably bettered by the use of Lustig's Curative Serum. The average plague mortality in the class of patients admitted into the Arthur Road, Mahratta and Modikhana Hospitals may now be taken at about 80 per cent. and if the figures for the Arthur Road Hospital show any reduction over those of the other Hospitals or of the same Hospital during corresponding months, in the previous years, it must be attributed to the use of the serum. This is to a great extent borne out by a comparison of the mortality rates during corresponding months in the epidemic, and inter-epidemic periods and which indicates an appreciable reduction in the total monthly mortality during the period that the serum treatment was applied to every alternate case. The results would have shown still better were it not for the fact that the monthly mortality rates include some cases that could not be diagnosed during the patients' lifetime, and which registered a very heavy mortality.

Epidemic period—	1896.	1897.	1898.	1899.	1900.
November	66·67	50·00	81·81	70·96	.....
December	74·12	68·68	75·34	75·00	.....
January	.....	68·95	72·88	83·77	70·83
February	.....	81·64	77·87	79·32	77·84
March	.....	67·35	75·11	79·48	71·73
April	.....	56·66	58·41	78·04	76·87
May	.....	40·00	54·83	65·38	79·61
Inter-epidemic period—					
June	.....	22·22	57·14	88·33	75·00
July	.....	53·84	78·57	68·75	.....
August	.....	63·63	76·71	73·33	.....
September	.....	66·66	82·41	73·68	.....
October	52·23	51·61	84·12	82·75	.....

22. It will be observed from the above table that the mortality rate during the last epidemic are on the whole lower than those of the corresponding months of the previous years and this result is due solely to the use of the serum. That the mortality has not been favourably influenced by any other modifying influence, such as the mildness of the cases treated, or lesser virulence of the plague poison can be easily proved by a comparison of the mortality rates in the cases treated, with and without the serum during 1899 and 1900.

May	67·74	90·62	Do.

24. The above table shows at a glance how the serum and non-serum cases have fared under the system of so-called "selection," and the alternate system. During these observations extending over 16 months, only once (May 1899) has the mortality in the non-serum cases equalled that of the serum cases and only once (August 1899), has it been less. The results of the rest of the months show a better recovery rate month after month. It also shows that the mortality rate in the non-serum cases has kept very nearly up to the level of 1898-99, that is about 80 per cent., and thus confirms that there was no alteration in the intensity of the virulence of the plague poison. Had it been otherwise these cases would have shown a lesser mortality rate than heretofore.

25. *Professor Lustig's Serum.*—As the observations on Professor Lustig's Curative Serum which have now extended over nearly two and-a-half years (with some interruptions), have been brought to a close during the period covered by this report, it would not be out of place to give here a brief resumé of the results. Two sets of observations were made extending over varying periods—one by the method of so-called "Selection," in which all the mild, recovering and dying patients were excluded and the other in which every alternate case was treated with the serum irrespective of the condition of the patient.

26. The former comprised 403 cases treated with serum, and of these 154 recovered, the rate of recovery being 38·2 per cent. During the same period, 1,190 patients were treated by ordinary methods, with 233 recoveries or a recovery rate of 19·5 per cent. The recovery rate in the serum treated cases was therefore double that of the latter. And similarly during the same period, 4,762 patients admitted into the Mahratta and Modikhana Hospitals, had a recovery rate of 19·76 per cent., a fact which demonstrates conclusively that the better recovery rate of serum cases was not unduly favoured by the method of treatment adopted or otherwise the mortality rate in those not so treated would have been preponderatingly high instead of being no more than that of other Hospitals.

27. The second series of cases on the alternate system comprised 480 cases treated with the serum, and 480 treated alternately by ordinary methods. Of the 480 serum treated cases, 328 died, and 152 recovered, giving a mortality rate of 68·33 per cent. and, therefore, a recovery rate of 31·67 per cent. Of the 480 cases treated by ordinary methods, 382 died, and 98 recovered, giving a mortality rate of 79·58 per cent, and, therefore, a recovery rate of 20·42 per cent.—

	No.	Died.	Recovered.	Percentage of mortality.	Percentage of recovery.
Serum cases ...	480	328	152	68·33	31·67
Non-serum cases ...	480	382	98	79·58	20·42

28. The difference in the recovery rate of serum treated cases is therefore, 11·25 per cent.

But these results are not strictly accurate, inasmuch as they have been rendered fallacious by the inclusion in unequal numbers of moribunds and convalescents in both the series, and hence they do not represent the full value of the serum treatment. When the alternate system was begun, attention to this source of error was drawn, but it was then anticipated that by the time these observations were completed, the numbers of convalescents and moribunds would equalise in both the series, and thus eliminate all errors. This anticipation has, however, not been realised in actual practice and hence the inaccuracy of the above results. It appears that the serum cases had 139 moribunds, and the controls 145, so that the former had an advantage of 6 less deaths over the latter. The convalescents numbered 28 on the serum side, whereas there were 38 on the control, and here the latter had an advantage of 10 more recoveries over the former. The only way, therefore, to arrive at strict and right accuracy is to exclude all the moribunds and all the convalescents from both sides, and then to compare the results in the remaining. And if that is done, the results stand as follows :—

	No.	Died.	Recovered.	Percentage of mortality.	Percentage of recovery
Serum cases ...	313	189	124	60·38	39·62
Non-serum cases ...	297	237	60	79·79	20·21.

There remain, after exclusion, 313 serum cases, and of these 189 died, and 124 recovered, showing a mortality rate of 60·38 per cent. and, therefore, a recovery rate of 39·62 per cent. Similarly the non-serum cases total 297, and of these 237 died and 60 recovered, showing a mortality rate of 79·79 per cent. and therefore a recovery rate of 20·21 per cent.

The difference, therefore, in favour of the serum treatment is 19·41 per cent. and this represents the actual value of the serum in those cases that are really acute and fit for treatment and it is 8·16 per cent. higher than that in all cases where these disturbing factors are not eliminated.

29. These differences in the mortality or recovery rates do not represent the full value of the serum treatment and that could only be arrived at by adopting Professor Haffkine's system (which has been approved of by the leading medical journals of Great Britain) of calculating the ratios of recovery rates between the inoculated and the non-inoculated. If that procedure is adopted for the serum and non-serum cases, it works out that the ratio of recovery is as 1·55 of serum to 1 of control and 1·96 of serum to 1 of control in all cases, and after the exclusion of moribunds and convalescents in both, respectively. That is, if out of a given number, 100 patients recover under ordinary treatment, the same number, if treated with the serum, would give 155 recoveries in one case and 196 in the other, or to put it in another way, the serum treatment increases the recovery rate by 55 per cent. in all cases and by 96 per cent. if the moribunds and convalescents be excluded.

30. These results must be considered sufficiently satisfactory in the light of our knowledge of Plague, and its high mortality, regard being had to the fact that the serum treatment of Plague is still in its infancy and requires further research and observation in order to put it on a proper basis.

31. *Mortality rates by castes.*—In the last report, the mortality rate by castes was tabulated up to the end of May 1899. The following table gives the figures for 12 months ending 31st May 1900 :—

Castes.	Number.	Died.	Recovered.	Percentage of Mortality.
Hindus	883	672	211	76·10
Mussalmans	48	34	14	70·83
Native Christians	82	52	30	63·41
Parsees	16	14	2	87·50
Beni-Israel	.....	.....	.....	.....
Total ...	1,029	772	257	75·02

The following table shows the mortality rate by castes in all the plague patients admitted into the Hospital from September 1896 to June 1900 :—

Castes.	No.	Died.	Recovered.	Percentage of Mortality.
Hindus	5,018	3,747	1,271	74·67
Mussalmans	356	234	122	65·73
Native Christians	460	296	164	64·34
Parsees	36	21	15	58·33
Beni-Israel	21	14	7	66·66
Total ...	5,891	4,312	1,579	73·19

The Hindus numbered 5,018 out of a total of 5,891, and the mortality amongst them was the highest *viz.*—74·67 per cent. Musalmans and Christians numbered 356 and 460 and their mortality rates were 65·73 and 64·34 per cent., respectively. The number of Beni-Israels and Parsees is too small for purposes of comparison.

32. *Mortality rates by sexes.*—The following tables show the mortality rates by sexes of all the castes for the 12 months ending 31st May 1900, and for all the patients admitted since 1896 :—

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	665	519	146	78·04
Females	215	167	48	77·67
Children	149	86	63	57·71
Total ...	1,029	772	257	75·02

Sex.	No.	Died.	Recovered.	Percentage of Mortality.
Males	4,158	3,091	1,067	74·33
Females	1,199	873	326	72·94
Children	534	348	186	65·16
Total ...	5,891	4,312	1,579	73·19

Comparing the mortality rates amongst the sexes of all castes, it appears that children have the best chances of recovery, and show the least mortality—65·16 per cent. ; females come next with 72·94 per cent. and males have the highest rate 74·33 per cent. This difference

between the sexes does not hold good in individual castes, as the following tables demonstrate. Children, however, have the least mortality in all the various castes :—

Hindus.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	3,503	2,673	830	76·30
Females	1,046	764	282	73·04
Children...	469	310	159	66·09
Total ...	5,018	3,747	1,271	74·67

Mussalmans.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	298	192	106	64·76
Females	41	32	9	78·04
Children	17	10	7	58·82
Total ...	356	234	122	65·73

Native Christians.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	323	206	117	63·77
Females	98	67	31	68·36
Children	39	23	16	58·97
Total ...	460	296	164	64·34

Parsees.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	24	13	11	54·16
Females	10	7	3	70·00
Children...	2	1	1	50·00
Total ...	36	21	15	58·33

Beni-Israels.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	10	7	3	70·00
Females	4	3	1	75·00
Children...	7	4	3	57·14
Total ...	21	14	7	66·66

33. A comparison between the mortality rates of sexes in Hindus, Mussalmans and Native Christians becomes very instructive and may be shown as follows:—

	Males.	Females	Children	Total.
Hindus	76·30	73·04	66·09	74·67
Mussalmans	64·76	78·04	58·82	65·73
Native Christians	63·77	68·36	58·97	64·34

The mortality rate in children is lowest in all. Mussalmans and Native Christian children being almost equal, whilst Hindus are higher by 7 per cent. The Mussalman females show the highest mortality in any sex of any caste (78·04 per cent.) Native Christian females, the lowest among females, and Hindu females stand between these at 73·04 per cent. Amongst males Native Christians are the lowest, then come Mussalmans one per cent. higher and lastly Hindus with over 12 per cent. higher mortality than Mussalmans, whilst Hindu females show a higher mortality than children and lower than males. Mussalmans and Native Christian females have the highest mortality rates, amongst their individual castes, being higher than males and children in each case.

VIII.—Relapsing Fever.

34. The total number of relapsing fever patients treated during 1899 was 988 with 255 deaths and 733 recoveries with a mortality rate of 25·80 per cent. From January to June 1900, 841 were treated of whom 275 died and 566 recovered, the mortality rate being 32·69 per cent.

The following table shows the admissions, deaths, recoveries, &c., month by month :—

1899.	No.	Died.	Recovered.	Percentage of Mortality.
January	91	18	73	19·76
February	112	16	96	14·28
March	135	40	95	29·62
April	81	21	60	25·92
May	61	22	39	36·06
June	39	9	30	23·07
July	39	7	32	17·94
August	48	13	35	27·08
September	45	11	34	24·88
October	53	12	41	22·64
November	64	21	43	32·81
December	220	65	155	29·54
Total ...	988	255	733	25·80
January 1900	191	69	122	36·12
February „	103	45	58	43·68
March „	139	41	98	29·49
April „	235	56	179	23·82
May „	173	64	109	36·99
Total ...	841	275	566	32·69
GRAND TOTAL ...	1,829	530	1,299	28·97
Recorded in 1897 and 1898 ...	2,045	399	1,646	19·51
GRAND TOTAL ...	3,874	929	2,945	23·98

35. The mortality of relapsing fever seems to be also increasing at each successive epidemic. During 1897 it was 15·08, in 1898, 20·80, in 1899, 25·80 and during the first five months of 1900, 32·69 as against 24·37 during the corresponding period of 1899. This is no doubt due to the greater influx of immigrants from the famine districts, and the conditions under which they live in the city.

36. The following table gives the particulars and mortality rates by castes of relapsing fever patients for 12 months ending 31st May 1900 :—

Castes.	Number.	Died.	Recovered.	Percentage of Mortality.
Hindus	1,141	353	788	30·98
Mussalmans	171	48	123	28·07
Native Christians	33	11	22	33·33
Parsees	2	.....	2	00·00
Beni Israels	2	1	1	50·00
Total ...	1,349	413	936	30·61

The following table compares the mortality rates by castes in all relapsing fever patients admitted from 1897 to date :—

Castes.	Number.	Died.	Recovered.	Percentage of Mortality.
Hindus	3,576	850	2,726	23·76
Mussalmans	226	58	168	25·66
Native Christians	67	20	47	29·86
Parsees	2	.....	2	.....
Beni Israels	3	1	2	33·33
Total ..	3,874	929	2,945	23·98

The mortality amongst Hindus who formed the bulk of the patients was 23·76. The number treated amongst the other castes is too small for any comparison.

37. Arranged according to sexes, the following table shows the incidence of mortality amongst Hindus—

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	2,651	663	1,988	25·00
Females	630	157	473	24·92
Children	295	30	165	10·16
Total ...	3,576	850	2,626	23·76

Males and females show almost an equal rate of mortality whereas in childern it is extremely low. In a total of 164 children recorded last year, the mortality was only 5 per cent. This has increased in the current year to 10·16 per cent. as against 25 per cent. in adults.

IX.—Cholera.

38. Only two Cholera patients were admitted during 1899 and both of them died. During the first five months of 1900, there were 60 admissions, of whom 50 died and 10 recovered, the mortality rate being 83·33. The admissions during June and July have been heavier, the former recording 76 cases and the latter 239. The mortality rate in the present epidemic is just as heavy as in any of the previous ones, and

the patients die so rapidly after the onset of the initial symptoms, that barely a fifth of the total cases daily reported is brought to the hospital. And out of those more than 50 per cent. die within a few hours of admission.

X.—Small-pox.

39. The total admissions from Small-pox numbered 215 during 1899, 30 of these died and 185 recovered, the mortality rate being 13·95 per cent. From January to 31st May 1900, 766 were admitted of whom 206 died and 560 recovered, the rate of mortality being 26·89 per cent. The epidemic was practically over by the end of May; there were only 8 admissions during June and 4 in July.

The following table shows the details of admission, &c., month by month :—

Small-pox.

	Number.	Died.	Recovered.	Percentage of Mortality.
1899.				
January ...	2	...	2	.....
February ...	9	...	9	.. ...
March ...	9	...	9	.....
April ...	26	4	22	15·38
May ...	18	...	18	.....
June ...	7	1	6	14·28
July ...	5	...	5	.....
August ...	15	3	12	20·00
September ...	14	2	12	14·28
October ...	9	...	9	.....
November ...	23	3	20	13·04
December ...	78	17	61	21·84
Total ...	215	30	185	13·95
1900.				
January ...	276	72	204	26·08
February ...	267	72	195	26·96
March ...	123	35	88	28·45
April ...	60	19	41	31·66
May ...	40	8	32	20·00
Total ...	766	206	560	26·89
Grand Total ...	981	236	745	24·05

40. The following table shows the admissions from various castes and the mortality in each ;—

Caste.	Number.	Died.	Recovered.	Percentage of mortality.
Hindus	676	137	539	20·26
Mussalmans	92	32	60	34·78
Native Christians ...	213	67	146	31·45
Total ...	981	236	745	24·05

The mortality amongst the Hindus, who are mostly vaccinated even once during their life-time, was only 20·26 per cent. Mussalmans had a mortality rate of 34·78 per cent., and they included a large number of foreign Mahomedans, such as Arabs, Somalees and other tribes from the East Coast of Africa, and South Coast of Arabia. They are not vaccinated, and had always been known to take small-pox badly and to have a very high mortality. They die mostly cent. per cent. and the type of small-pox among them is generally malignant or confluent. Native Christians (mostly Goanese) had a mortality rate of 31·45 per cent. It has always been high amongst them, as some of them are unvaccinated whilst others, who are supposed to have been protected by vaccination at Goa, have a very low standard of immunity.

41 Arranged according to sexes, the various castes show the following mortality rates :—

Hindus.

Sex.	Number.	Died.	Recovered.	Percentage of mortality.
Males	352	79	273	22·44
Females	131	31	100	23·66
Children	193	27	166	13·98
Total ...	676	137	539	20·66

Mussalmans.

Sex.	Number.	Died.	Recovered.	Percentage of mortality.
Males	58	23	35	39·65
Females	9	3	6	33·33
Children	25	6	19	24·00
Total ...	92	32	60	34·78

Native Christians.

Sex.	Number.	Died.	Recovered.	Percentage of mortality.
Males	143	48	95	33·56
Females	42	15	27	35·71
Children	28	54	24	14·28
Total ...	213	67	146	31·45

Comparing the mortality rates in the sexes, it appears that Hindus and Native Christian children have the least mortality, the rates being 13·98 per cent. and 14·28 per cent., respectively. Mahomedan children show a very high rate 24·00 per cent., which is higher than those of Hindu males and females. Hindu males show the lowest rate 22·44 per cent., then come the Native Christians with 33·56 per cent., the highest rate for any sex in any caste. Hindu females, show also the lowest rate, 23·66 per cent., about 1·22 per cent. higher than males, Mahomedan females 33·33 per cent. and Native Christians 35·71 per cent. The female mortality rates among Hindu, and Native Christians is slightly higher than in the males, whereas it is the reverse in the case of Mussalmans, but the number of females in the latter community is too small for any reliable conclusions.

The extremely low mortality rate in children is no doubt due to the influence of vaccination during infancy.

42. As regards the influence of vaccination on small-pox mortality, it was found that more than half the admissions had been vaccinated sometime or other during infancy and early age, and the mortality amongst them was 17·91 per cent., whereas amongst those not vaccinated it was 30·95 per cent:—

	Number.	Died.	Recovered.	Percentage of mortality
Vaccinated	519	93	426	17·91
Unvaccinated	462	143	319	30·95
Total ...	981	236	745	24·05

The difference, therefore, in favour of the vaccinated is about 13 per cent., and it is not greater, because of the fact, that most of those classed as vaccinated had undergone but one such operation during infancy, the influence of which wanes away with advancing age. And as adults formed nearly three-fourths of the total admissions, the influence of

vaccination, which is most patent during childhood, has become overshadowed by their preponderance. Yet, taken as a whole, the death-rate amongst Hindus and Native Christian children is remarkably low, about 14 per cent only, that is nearly 4 per cent. less than in all classed as vaccinated.

XI.—Chicken-pox.

43. Chicken-pox has always been a mild disease in Bombay and it has kept up its record during the period covered by the report. The admissions numbered 100 with 100 recoveries and no deaths.

XII.—Measles.

44. There were 96 admissions from Measles and of these 12 died and 84 recovered.

XIII.—Observation Cases.

45. There were 161 observation cases during 1899, and 87 during the first five months of 1900. They comprised various general diseases such as, fevers, diarrhœa, dysentery, rheumatism, Bright's diseases, scrofula, mumps, guinea-worm, skin diseases, phithisis, pneumonia, dropsy, tetanus, erysipellas, general debility, &c., Several of these were starvation cases, picked up from the streets and sent to die in the hospital.

Most of these observation cases were discharged cured, a few were transferred to the Gokuldas Hospital and 68 died.

XIV.—Comparative Statistics from 1896-1899.

46. The following is a comparative statement of the work of the hospital during 1896, 1897, 1898 and 1899. During this period the hospital admitted 10,859 patients, of whom 5,141 were patients suffering from plague and 3,033 from relapsing (famine) fever :—

Diseases.	1896.	1897.	1898.	1899.	Total.
Plague	297	1,270	2,187	1,387	5,141
Relapsing Fever (Famine Fever)	.....	464	1,581	988	3,033
Cholera	93	251	6	2	353
Small-pox	303	53	28	315	699
Chicken-pox	56	16	56	25	153
Measles	6	17	13	42	78
Mumps	4	2	.....	.....	6
Whooping Cough...	.....	4	2	.....	6
General Diseases	16	868	446	161	1,491
Total ...	775	2,945	4,319	2,830	10,859

XV.—Conduct of the Establishment.

47. Dr. D. C. Sethna, who was appointed in Dr. Fraser's place, has done good and useful work, and has been very attentive and diligent in his duties.

Hospital Assistants, Samuel Samson, Pandharinath Bhawanrao, Liladhar Jagjivandas and DeSilva have worked just as hard and incessantly as during the previous years. It is a source of satisfaction that Government have been pleased to recognise the good services of Hospital Assistant Pandharinath by sanctioning the grant of special personal allowance to him. Hospital Assistant, Liladhar Jagjivandas was transferred to the Matunga Leper Asylum and Mr. DeSilva has been appointed in his place.

N. H. CHOKSY, M. D., (Hon. Caus. Freiburg),
Special Assistant Health Officer.

Arthur Road Hospital:
31*st July* 1900.

EDUCATIONAL

REPORT OF THE JOINT SCHOOLS COMMITTEE, forwarded by the Committee's Secretary, under his No. 375 of 21st June 1900.

THE JOINT SCHOOLS COMMITTEE'S OFFICE,
BOMBAY, 18*th May* 1900.

REPORT ON THE ADMINISTRATION OF THE JOINT SCHOOLS COMMITTEE FOR THE YEAR 1899-1900.

Personnel of the Committee.

At the commencement of the year the Joint Schools Committee consisted of the following members :—

Appointed by Government.	*Appointed by the Corporation.*
GRATTAN GEARY, ESQ.	NANU N. KOTHARE, ESQ.
CHIMANLAL H. SETALWAD, ESQ., B.A., LL.B.	THE HON. MR. IBRAHIM RAHIMTOOLA.
PRINCIPAL J. T. HATHORNTHWAITE, M.A.	KAIKHOSRO N. KABRAJI, ESQ.
KHAN BAHADUR DARASHA R. CHICHGUR.	PROFESSOR O. V. MULLER, M.A.

The two senior members, who retired under section 39 (3) of the Bombay Municipal Act, were Mr. Nanu N. Kothare and Mr. Grattan Geary. The Corporation appointed Mr. Dinsha E. Wacha in place of Mr. Kothare, who was appointed to the Board by Government in succession to Mr. Geary.

Mr. Hathornthwaite resigned his seat on his departure to Europe in June 1899, and the Government appointed Mr. Macmillan in his place as a member of the Committee. Mr. Kothare succeeded Mr. Hathornthwaite in the Chair, and on the expiration of his term in December last, he was re-elected Chairman for the current year by the Committee.

The Joint Schools Committee placed on record their appreciation of the valuable services rendered by the two retiring members, Messrs. Hathornthwaite and Geary.

Finance.

It will be seen from the statement of actual Income and Expenditure given in Appendix A that the opening workable balance to the credit of the School Fund on 1st April 1899 was Rs. 62,538-2-6. The total receipts for the year were Rs. 1,36,664-13-11 as against Rs. 1,35,774-13-3 for the year 1898-1899, and the total expenditure was Rs. 1,34,563-14-5 as against Rs. 1,26,358-13-9 for the previous year. The closing balance on 31st March 1900 to the credit of the School Fund was Rs. 64,639-2-6. The Balance Sheet of the School Fund for the year 1899-1900 is given in Appendix B.

As was the case last year, the actual expenditure was considerably below the estimate, owing mainly to the general disorganization caused by plague. A large number of teachers went on leave on half pay or without pay and as the attendance was much beneath the normal average, no substitutes were appointed in their place. There was also generally no occasion to appoint new teachers to replace those who died or retired. Plague, as also other epidemics, having affected the attendance and progress of the Aided Schools, they were unable to secure as much in the shape of grant as they could have earned under more favourable circumstances.

While most of the schools in the town showed reduced attendance when plague was at its height, a few schools in the suburbs had a large increase of pupils owing to a number of plague refugees having gone to reside there. As the Matoonga school building was infected and as it was not considered safe to hold the school there for some time, it was removed to a shed specially built for it on the Dadar side of the Vincent Road, where it was surrounded on all sides with the huts of plague refugees. It was so eagerly availed of that within a month the children of both sexes numbered over 200 and the Committee had to sanction an extension of the shed.

The average cost per pupil was Rs. 22·8 as against Rs. 29·5 in 1898-99 and was distributed as under :—

Teaching	Rs. 14·7
Rent	6·2
Miscellaneous	1·9
Total ...	Rs. 22·8

The lower percentage is due to the fact that the increase in attendance is proportionately larger than the increase in expenditure.

School Statistics.

The lists of schools managed and aided by the Joint Schools Committee will be found in Appendices C to G and the figures contrast with those of the previous year as under :—

Class of Schools.	Municipal.				Aided.				Total.

The number of boys under instruction has increased from 6,066 to 7,888 and that of girls from 3,412 to 3,781. In the same way for boys and girls together, the average monthly number on the rolls has risen from 11,994 to 13,261 and the average daily attendance from 8,971 to 9,957. The ratio of the average daily attendance to the average monthly number is 75 this year, while it was 74 last year. The table shows a net increase of 5 schools and 2,191 pupils. Taking the circumstances of the City into consideration, the increase in attendance is satisfactory enough, although the total is only about three-fourths of the average of the normal years preceding the advent of the plague.

Municipal Schools.

The number of Municipal Schools has risen from 79 to 81 by the opening of a Gujarati Day School at Valkeshwur and a Urdu Night School at Madanpura. Provision has also been made for four new Urdu Schools in the current year's budget. The number of pupils has also risen from 3,618 to 5,018, the increase being shared by the Marathi, Gujarati and Urdu Schools, as shown below:—

Marathi Schools...	... ...	925
Gujarati ,, ...	... ...	442
Urdu ,, ...	... ...	33
	Total ...	1,400

The following table compares the fee receipts in Municipal Schools for the last two years:—

Schools.	1898-99.	1899-1900.
	Rs.	Rs.
Marathi Schools	6,099	6,326
Gujarati ,, ...	5,157	5,927
Urdu ,, ...	1,168	1,163
Total Rs. ...	12,424	13,416

All the Municipal Middle Schools have been favourably reported upon by the Inspectors except the Nal Bazar, 2nd grade A. V. School, which does not show any improvement in attendance or progress. In the same way, with the exception of the Colaba and Gavli Moholla Urdu Schools, the Primary Schools for Boys and Girls are said to have done well enough, looking to the trying times through which the City has been passing. In spite of the great difficulties the teachers in Municipal Schools had to experience during the last four years, their work has been, on the whole, fairly satisfactory. Mr. Bhargav H. Damle, Head Master of the Parel Marathi School and Bai Virbaiji Framji, Head Mistress of the Churney Road Girls' School now called

the Sorabjee Shahpurjee Bengalee Girls' School, are considered to be model teachers. There are several others who have been given special praise for the superior quality of their work and they will be duly rewarded when an opportunity for promotion arises. On the other hand a few teachers whose results have been poor are warned for unsatisfactory work. The untrained non-pensionable teachers employed before the transfer of the Primary Schools have been granted during the year service allowance sanctioned for them with the approval of the Director of Public Instruction.

Aided Schools.

The number of Aided Schools has risen from 86 to 89 and that of pupils from 5,860 to 6,651. Four new schools were registered during the year under report, *viz.*, two Gujarati Boys' Schools under Chapter V, and two Marathi Schools under Chapter VI, one of which is a Boys' School and the other a Girls' School. The Phanaswady Indigenous School on the Marathi side, closed on account of plague, has been struck off the list of Aided Schools. The Beni-Israel Girls' School, Khadak, which has improved in efficiency was transferred from Chapter VI to Chapter V and the Dhobitalao Boys' and Girls' School from the list of Girls' to that of Boys' Schools, as the number of boys in the School exceeded the number of girls. The latter School, however, was given no grant this year on account of the unsatisfactory state of its registers and accounts. Of the Aided Boys' Schools, the American Mission School, Byculla, the St. John's School, Umarkhadi, the Israelite School, Mazagon, the Prabhu Seminary, the Byramji Jijibhoy School, Marine Lines, the Grant Road Proprietary School, the Parel Road School and the Framji Nasarwanji School, Khetwady, were found in excellent condition and the rest obtained fair reports. As regards the Aided Girls' Schools, the Inspectors were pleased with all of them except the Jivraj Balloo and Bellasis Road Girls' Schools. The total amount of grants-in-aid to Schools including the sum of Rs. 5,000 given to Anjuman-i-Islam School was Rs. 19,992-14-3 against Rs. 19,342-11-0 in 1898-99.

Night Schools.

The number of Night Schools has increased by one by the opening of the first Municipal Urdu Night School at Madanpura which has caused the attendance in Night Schools to rise from 167 to 217. The Urdu Inspector considers it necessary to have more Night Schools for Mahomedans which, he says, would "save many a young man from going to rack and ruin." The six other Municipal Night Schools (1 Marathi and 5 Gujarati), which were reported last year to have been closed for want of attendance, will be re-opened as soon as the plague disappears. The Committee have permitted one Mr. Tribhovandas Naronjee to open a private Gujarati Night School in the Musjid Bunder School premises. The Theistic Association Night Schools which have been lately transferred to the Prarthana Samaj earned almost the same grants as last year and are doing fairly well.

Classification according to race.

The distribution of the pupils according to race is given below :—

Race.	1898-99.										1899-1900.									
	Marathi.			Gujarati.			Urdu.	Total.			Marathi.			Gujarati.			Urdu.	Total.		
	Municipal.	Aided.	Total.	Municipal.	Aided.	Total.	Municipal and Total.	Municipal.	Aided.	Total.	Municipal.	Aided.	Total.	Municipal.	Aided.	Total.	Municipal and Total.	Municipal.	Aided.	Total.
Europeans and Eurasians	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	1	1	...	1
Portuguese and Native Christians	26	424	450	...	...	...	...	26	424	450	47	488	535	1	...	1	...	48	488	536
Jews	44	444	488	...	...	...	...	44	444	488	71	438	509	...	1	1	...	71	439	510
Parsis	...	1	1	200	1,781	1,981	11	211	1,782	1,993	...	2	2	230	3,067	2,297	4	234	3,069	2,303
Mahomedans	52	61	113	180	285	465	1,117	1,349	346	1,695	73	89	132	179	478	657	1,161	1,413	517	1,930
Hindus	1,298	2,553	3,851	662	307	969	9	1,969	2,860	4,829	2,149	2,559	4,708	1,075	578	1,651	4	3,226	3,137	6,363
Aboriginal and Hill tribes	18	...	18	...	...	...	...	18	...	18	23	...	23	...	...	...	...	23	...	23
Others	1	4	5	...	...	...	...	1	4	5	1	1	2	1	...	1	...	2	1	3
Total ...	1,439	3,487	4,926	1,042	2,373	3,415	1,137	3,618	5,860	9,478	2,364	3,527	5,891	1,484	3,124	4,608	1,170	5,018	6,651	11,669

It will be noticed from the above comparative statement that the attendance of Hindus shows the highest proportion of increase. This is due to a much smaller number of the people of that community having left the city during the present epidemic than was the case in previous years. The "Portuguese and native Christians," "Parsis," "Mahomedans," and "Aboriginal and hill tribes also show an increase of about 20 per cent., and the Jews of a little less than 5 per cent. Under "Others" there are two Chinese boys, one of whom learns Marathi and the other Gujarati. It is also to be noted that while four Hindus, four Parsis and one Eurasian learn Urdu, the opening of so many Urdu Schools within the last few years has in no way affected the attendance of Mahomedan pupils in Marathi and Gujarati Schools.

Examination Results of Primary Schools.

The number of children examined and the number of children passed are given in Appendices H. to L.

Depressed Castes.

The total number of children of depressed castes has risen from 193 to 260. There are three Municipal Schools for low-caste children all teaching Marathi in which the attendance is as follows :—

Dharavi	Nirashrit	School	81
Kamathipura	„	„	75
Crawford Market	„	„	29
		Total	185

They are all reported to be in a thriving condition. The children in these schools are admitted free and are given slates and pencils gratis. Of the aided low caste schools, the American Mission School, Matharpakhady and the Prarthana Samaj Night School, Dongri, are well attended and well managed, but the Wesleyan Mission Schools Byculla and Parel, show a falling off in numbers.

Trained Teachers.

It is gratifying to note that the Committee has been for the first time able to secure the services of two trained Mahomedan teachers for the Urdu Schools. As the Marathi Training Colleges were closed for several months on account of plague in Poona, the usual entrance and certificate examinations could not be held in September last. Our scholars have, therefore, to wait for a year more to complete their course. Miss Limbabai Kanade, a student of the High School for native girls at Poona, who holds a certificate of Rs. 25, has, however, been employed in the arrangement made to fill up the vacancy caused by the death of Mrs. Radhabai Shete, Head Mistress, Dadar Girls' School. Three new trained teachers, two female and one male, were employed during the year on the Gujarati side.

Unaided and Unrecognized Schools.

Besides the Municipal and Aided Schools mentioned above there are 12 unaided Gujarati Schools attended by 1,124 pupils. These schools do not receive any aid, but still they are recognized by the Department and they supply the annual statistics. Of these the Bhendi Bazar and Khetwady Schools of the Jeejeebhoy Dadabhoy Charities are regularly inspected by the Gujarati Inspector. The number of unrecognized schools, *i. e.*, purely private schools which do not send any returns, is 199 and that of pupils 8,234. The increases and decreases in these schools fluctuate year after year to such an extent that it is not possible to draw any inference from the returns which are often unreliable. The Urdu Inspector, however, remarks that they are very popular among the Mahomedans, as the reading of the Koran forms the principal subject taught in the schools. About five years ago the Committee caused an accurate census to be taken of the private schools of all descriptions throughout the town. It was found that they numbered 280 and were attended by 18,174 pupils. A large number of these have been swept away by the plague.

Public Competitive Examinations.

At the competitive examination held in January 1900 for the award of Mary Carpenter Scholarships and those offered by the Ladies Branch of the National Indian Association, the S. S. Bengalee Girls' School succeeded in winning three of the Scholarships, while each of the four undermentioned Aided Girls' Schools secured one of them.

Students Literary and Scientific Society's Jagannath Shankershett School.

Indian Female Normal School, Umarkhadi.

Merwanjee Setna Girls' School.

Alexandra School.

One of the Government Middle School Scholarships was also carried off by a pupil from the Municipal Marathi School, Parel. The Vithalwady Marathi School, where instruction is given up to the highest vernacular standard, did not present this time any candidate for the Third Grade Public Service Certificate Examination.

School Buildings and Accommodation.

The various difficulties attending the provision of good and satisfactory accommodation in buildings adapted to school requirements have been detailed in previous reports. Every effort, however, is made by the Committee to secure for each school the best available place in the locality.

The Executive Health Officer, Bombay Municipality, in his report No. 11582, dated 27th October 1899, to the Corporation states that all the Municipal Schools were inspected by the Deputy and Divisional Health Officers and that they found the sanitary condition of most of

the schools to be good, although they consider that a few of the buildings in which the schools are located admit of improvements. The Health Officer also promises to assist the Committee and give them advice or opinion on any matter connected with the school premises.

The Joint Schools Committee have asked the Secretary to consult the Chairman of the Improvement Trust as to the feasibility of reserving sites for school buildings in localities likely to be populated by the middle and the lower classes.

During the year under report the Musjid Bunder Boys' and Girls' Schools were removed to better premises in the same street and the Sion School for boys was provided with an additional room, required for the separate class formed there under a female teacher for the girls attending it.

With regard to the Lord Harris School, the Director of Public Instruction writes in his letter No. 8444, dated 19th March 1900, that the Government have no funds to make their contribution this year or the next. The Honorary Secretaries of the Harris Memorial Fund, however, are prepared to pay into Government Treasury their share, but they wish to see that the question of the maintenance of the building is settled beforehand, and have requested the Joint Schools Committee to obtain the Corporation's final approval of the plans.

In consideration of the donation of Rs. 25,000 received from the Honorary Secretaries of the Sorabji Shapurji Bengalee Memorial Fund, the name of the school for which a building is to be provided has been changed by the Joint Schools Committee from Churney Road Girls' School to Sorabji Shapurji Bengalee Girls' School. It is hoped that the building will be commenced at an early date.

Physical Exercise.

Most of the schools are located in hired buildings where it is not possible to provide the children with play-grounds for drill and other physical exercises. This, the Committee are aware, has been a great defect. They have all along recognized that no school should any more be without a play-ground than a school house should be without windows. The great difficulty, however, has been the want of funds. In a city like Bombay where the value of land is already high and is rising yearly, play grounds, it must be evident, cannot be provided except at an enormous and, therefore, prohibitive cost. Had the Committee's proposal to invite landlords to build houses to meet the requirements of the several schools and lease them for a definite length of years, been accepted, the defect might have been gradually but surely reduced to a considerable extent. Failing houses of their own, failing also houses built to meet special requirements, the Committee had to devise drill and other physical exercises which would be at once simple, inexpensive and easy. In this their newly appointed colleague, Khan Bahadoor Darasha Ruttonji Chichgur, was able to

render them valuable assistance. He explained to the Committee the special system of training adopted at the schools of the Zoroastrian Girls' Schools Association and spoken of highly by several eminent educationists. Mr. Chichgur laid great stress upon the value of breathing exercises as conducive to much physical benefit to the children, most of whom not only lived under unsatisfactory sanitary conditions, but working at school for half the day, exercised their mental faculties without any other physical exercise to rest and refresh them than struggling in streets and lanes. The Committee carefully considered the matter, and after some of its members had seen the system at work at the Bhicaiji Bengalee School have introduced in a few selected Municipal Schools, to begin with, suitable drill and breathing exercises. The necessary apparatus and appliances have been supplied to those schools. Some of the larger schools have been provided with Health Exercisers and sets of Cricket appliances, while most of the others have been supplied with dumb-bells and sticks. A Drill master has also been engaged, in consultation with Mr. Chichgur, to go round the schools exercising general supervision and giving the teachers advice and instructions. To give further encouragement, a few prizes are to be awarded annually in each school for proficiency in physical exercises. The boys of the Dongri 2nd Grade A.-V. School and the Madanpura Urdu School take great interest in cricket and those of the American Mission School, Byculla, and Grant Road Proprietary School in gymnastics.

Improvement in Teaching.

During the year under report the Committee considered, as usual, suggestions for improvement in teaching. They were informed that a normal class was opened by Mr. Chichgur at the Bhicaiji Bengalee School, where teachers from other schools in Bombay and the mofussil were admitted by special permission to study rational methods of teaching practised there. The Committee took advantage of the class and induced several of their teachers to attend it. As it was not possible to take away any large number of teachers from the schools for the purpose of going through a systematic course at the normal class, it has been arranged that while, as many as possible attend the class whenever convenient, two teachers, one Marathi and one Gujarati, should attend it regularly and study systematically for two or three months or more, so that the Committee may be able in due course to spread a knowledge of rational methods of teaching among the class of teachers who need it. Mrs. Radhabai Ranade, Head Mistress, Amerchandwadi Girls' School, and Mrs. Gulab Kahandas, Head Mistress, Kalbadevi Girls' School, both of whom have proved themselves able and intelligent teachers, have accordingly been asked to attend the normal class in the Bhicaiji Bengalee Girls' School.

Death Roll.

The Committee regret to record that nine teachers and one peon died during the year, two of the deaths only being due to plague. The number includes three Head-Masters, Mr. Janardan A. Joshi of

the Amerchandwadi School, Mr. Trimbak B. Lele of the Chandanwadi School, and Mr. Sakharam V. Kale of the Varlee Koliwada School, and two Mistresses, Mrs. Radhabai Shete of the Dadar Girls' School and Bai Mithibai Byramji of the Musjid Bunder Girls' School. Mr. Joshi was the author of several books on the Marathi literature, some of which have been sanctioned by the Department. Mr. Lele was a teacher of 35 years' standing and was granted extension of service four times after he had completed 55 years of age. Mr. Kale possessed exceptional skill in teaching and took keen interest in his work. The Marathi and the Gujarati Schools have suffered by the loss of the two deceased mistresses, both of whom held certificates of Rs. 25.

Retirement.

Mr. Mahadev S. Prabhu Desai, Head-Master, Nagdevi Marathi School, after having rendered efficient service for 32 years, retired on pension in October last.

Donations.

Mr. Narayan V. Mandlik, executor of the late Professor Rehatsek's Estate, repeated this year his donation amounting to Rs. 700 for the purpose of giving money prizes to children attending the Committee's Schools. The Committee accepted the gift with thanks, and distributed the amount accordingly. The thanks of the Committee are also due to Bai Jerbai M. Ruvala for presenting a photo-album and a work-box to the S. S. Bengalee Girls' School and to Messrs. Balchandra Indrasha, Premchand Roychand, Dayabhai Tapidas, K. M. Shroff, Ravji Shet, Yan Shun, and Motilal Narondas who have kindly given donations for distributing prizes or sweetmeat in selected schools, and it is hoped that their example will be more generally followed. The Dr. Blaney, Madhavdas Raghunathdas and Harkisondas Brijlal prizes were duly awarded to deserving pupils of the Municipal Schools.

Plague.

The Marathi and Gujarati Schools again suffered, though not to the same extent as in previous years, both in progress and attendance on account of a fourth visitation of plague during the year under report. When it assumed epidemic proportions in the cold weather, the number in most of the schools declined very considerably. The schools, however, were not closed this year on account of plague, except for a week or so at a time for the purpose of disinfecting the school houses in the vicinity of which plague cases occurred. The Urdu Schools have been, as in the three previous years, able to maintain satisfactory attendance throughout the year in spite of the plague. The following table shows

how Municipal and Aided primary schools in Bombay have suffered from plague since the out-break of the disease :—

CLASS OF SCHOOLS.	ACTUAL DEATHS OF												Total deaths.			
	School Master and Assistants.				Children who were on the rolls of the Schools at the time of their death.				Menial Servants.							
	Marathi.	Gujarati.	Urdu.	Total.	Marathi.	Gujarati.	Urdu.	Total.	Marathi.	Gujarati.	Urdu.	Total.	Marathi.	Gujarati.	Urdu.	Total.
Municipal ...	17	4	10	31	236	93	87	416	...	2	...	2	253	99	97	449
Aided ...	20	12	...	32	286	90	...	376	4	2	...	6	310	104	...	414
Total ...	37	16	10	63	522	183	87	792	4	4	...	8	563	203	97	863

Distribution of Prizes.

The Joint Schools Committee have framed rules for regulating the distribution of prizes in the Municipal Schools by which the Head Masters are forbidden to distribute prizes without obtaining the previous sanction of the Inspector. If, however, the Head-Master has collected subscriptions for the purpose of holding a public exhibition, he has to submit his proposals to the Joint Schools Committee for sanction and all the arrangements are to be made under instructions from the Committee.

Grain Compensation.

Owing to the prevailing scarcity of food, the Joint Schools Committee have sanctioned, under Article 72 of the Civil Account Code, grain compensation to school teachers and servants whose pay does not exceed Rs. 16 from the 1st of October 1899, at Rs. 1-8-0 per month, the expenditure being met from the available balance of the school fund.

Abnormal Season.

On account of the impurity of drinking water during the present abnormal season the school masters were instructed to use boiled water for drinking purposes until the next monsoon and were supplied with fire pans.

Small-pox.

Owing to the prevalence of small-pox in an epidemic form in the City, a notification was issued by the Joint Schools Committee recommending parents to have their children vaccinated as a safeguard against the disease.

Decennial Review of the Committee's Administration.

It is exactly ten years since the Primary Schools of Bombay were transferred to the Joint Schools Committee. During this period the number of Municipal Schools rose from 62 to 87, including six night schools which have been temporarily closed on account of plague. Aided Schools have similarly increased from 68 to 89. The number of scholars in 1890-91 when the Joint Schools Committee took over charge was 6,134 in Municipal and 5,210 in Aided Schools. The number went on steadily increasing, till in 1895-96 there were 7,314 pupils in Municipal Schools and 8,019 in Aided Schools. During the last four years, however, there has been a check owing to adverse circumstances. The first contribution from the Corporation was Rs. 39,500 and the first Government grant was Rs. 25,000, which was in the following year supplemented by Rs. 3,000 on account of the cost of inspection. After the expiry of the first quinquennial period the Corporation contributed Rs. 59,135, which grant they raised from time to time until it reached Rs. 80,000 in 1898-99, while the Government grant was Rs. 42,666. The second quinquennial period expired on the 31st March last and the Corporation has repeated the last year's grant of Rs. 80,000. Government have also done the same, as in their letter No. 1173, dated the 26th August 1899, to the President of the Corporation, they have expressed their inability in the present circumstances to hold out any hope of increasing the grant made from Provincial Revenues. The total expenditure has increased in the course of a decade from Rs. 81,861 in 1890-91 to Rs. 1,34,563 which was the expenditure for 1899-1900. The principal causes to which the increase in expenditure is due are as under :—

1. Increase in the number of Municipal and Aided Schools.

2. Provision of a separate Urdu Department under an additional Inspector.

3. Provision of better school accommodation. A few schools are removed to better quarters every year and the Budget grant for rent has increased from Rs. 20,330 in 1890 to Rs. 37,504 in the year under report.

4. Increased employment of trained and other teachers.

5. Adoption of a more liberal scale of pay to teachers.

6. Provision of School furniture and apparatus of an improved type.

Conclusion.

In concluding this report the Committee have the pleasure to state that the Secretary and Inspectors have given satisfaction in the discharge of their duties.

R. S. TAKI,

Acting Secretary, Joint Schools Committee.

Appendix A.

Statement of Actual Income and Expenditure of "the School Fund" for the year 1899-1900.

No.	Receipts.	Amount.	No.	Expenditure.	Amount.

ANNUAL REPORT

OF THE

MUNICIPAL AUDITORS,

1899-1900.

To

M. N. WADIA, Esq.,
Municipal Secretary,
BOMBAY.

We have the honor to forward herewith our reports on the Municipal Accounts and the Joint Schools Committee's Accounts for the year 1899-1900, in view to their being printed and placed before the Corporation as usual.

We are, Sir,
Your obedient servants,

A. THOMSON,
DINANATH HARISCHANDRA,
Municipal Auditors.

BOMBAY, *30th August* 1900.

REPORT OF THE AUDITORS OF MUNICIPAL ACCOUNTS FOR THE YEAR 1899-1900.

For the audit of the accounts of the year under review, the Corporation were pleased to appoint the late Mr. N. R. Ranina and Mr. Thomson as Auditors at their ordinary meeting held on the 9th March 1899, *vide* their Resolution quoted at margin.

No. 11289.

The first named Auditor died on the 10th January last, and in his place Mr. Dinanath Harischandra was appointed under Corporation's Resolution also quoted at margin, and he joined his appointment on the 14th February 1900.

No. 12352.

Under the sanction accorded in para. 59 of thereview by the Standing Committee of the Administration Report of the Municipal Commissioner for the year 1898-99 and for the reason there given, our present as well as subsequent year's reports will be very considerably reduced by the elimination therefrom of explanations of the differences between the actuals of one year with those of the previous year.

Page XXII.

In the usual way all the vouchers and papers relating to both the receipts and charges of 1899-1900 have been compared by us with the day-books and subsidiary ledgers or compilations of charges ; the general ledger postings have also been checked with the entries in the day books, and those in the Journal with the subsidiary and general ledgers.

The Bank's receipts of Investments on account of Sinking Funds of the different loans, also of Municipal Buildings, Fire Insurance, School Buildings, Worn-out Mains, Renewal, and Premia, &c., funds, as well as the securities from contractors in Government, Port Trust and Municipal Bonds deposited with the Bank, and the Bank's pass books have been examined by us and found to be correct and in order.

In accordance with the directions of the Corporation contained in their Resolution passed on the 19th November 1888, which were communicated to the Auditors with the Municipal Secretary's letter No. 5374, dated 30th idem, all Sinking Fund Investments pertaining to the year were examined, and we certify that they have all been duly and properly made.

It appears necessary to make mention of the fact that in addition to the concurrent audit of the accounts, the weekly statements of receipts and charges of Municipal Funds were examined by us as they were prepared, and prior to their publication in the *Government Gazette*. The monthly statements previously submitted by us shewing receipts and charges under budget heads have been

discontinued under the authority of the Standing Committee communicated to us under the Secretary's No. 1303, dated 30th April 1900, as they furnished no particulars or data which are not contained in the weekly reports above referred to, and under the instructions conveyed to us in the same letter we have substituted a monthly report of the accounts having been duly audited by us, which is submitted as soon after the close of each month, as it is practicable to do so.

The auditorial duties have continued to be very heavy consequent on account of Plague charges. The numbers of vouchers which have passed through our hands for scrutiny compared with those of the previous year are as under :—

		1898-99	1899-1900.
Receipts	Nos.	32,039	25,044
Disbursements...		57,798	61,429
		79,837	86,473

The total receipts of Municipal revenue from all sources, including Water Tax and other Water Works Revenue, interest and profit on investments in 1899-1900 amounted to

Rs. 71,61,911-7-8 in 1898-99
„ 88,29,817-1-2 in 1899-1900

being Rs. 16,67,905-9-6 in excess of those of the previous year.

The total disbursements from Municipal Funds, including Water Works accounts, amounted to Rs. 73,92,479-7-4 against Rs. 73,39,025-12-3 in 1898-99.

The opening Cash balance on 1st April 1899, *vide* Statement D of the Chief Accountant's Report, stood at Rs. 24,48,030-0-10 which sum, plus the gross receipts of the year, gives Rs. 1,12,77,847-2-0 against the gross disbursements of Rs. 73,92,479-7-4, thus leaving a credit balance of Rs. 38,85,367-10-8.

LIST shewing the amounts paid out of discretional contingencies grant during 1899-1900.

	Particulars.	Amount.	Total.

A. THOMSON,
DINANATH HARISCHANDRA,
Municipal Auditors.

BOMBAY, 30*th August* 1900.

* Excludes plague expenses.

To

M. N. WADIA, Esq.,

Municipal Secretary,

BOMBAY.

SIR,

In accordance with Section 137 of the Bombay Municipal Act of 1888, we have the honor to forward three Appendices, marked A, B and C, containing the result of our scrutiny of the Outstanding Bills of Rates and Taxes, which were in the hands of Ward Clerks and in the Office of the Assessor and Collector on the 31st March 1900.

These Appendices form part of our Annual Report on the Municipal Accounts for the year 1899-1900, now under preparation.

We have the honor to be,
Sir,
Your obedient Servants,

A. THOMSON,
DINANATH HARISCHANDRA,
Municipal Auditors

BOMBAY, *30th June* 1900.

Municipal Auditors.

BOMBAY, *30th June* 1900.

REPORT ON THE ACCOUNTS OF THE JOINT SCHOOLS COMMITTEE.

In accordance with Bye-law No. 15 of the Joint Schools Committee, we beg to report that we have audited the accounts, and examined all the vouchers and papers relating to the receipts and disbursements of the School Fund in charge of the Joint Schools Committee from 1st April 1899 to 31st March 1900.

The opening balance on 1st April 1899 was Rs. 62,538-2-6.

The total receipts of the Joint Schools Committee for the year 1899-1900 amounted to Rs. 1,36,664-13-11, against Rs. 1,35,774-13-3 in 1898-99, being Rs. 890-0-8 more than in the previous year.

The total expenditure incurred was Rs. 1,34,563-14-5, against Rs. 1,26,358-13-9 in 1898-99, being Rs. 8,205-0-8 in excess of the previous year. The excess expenditure, it is found, was due to increased charges on account of masters and teachers and miscellaneous and contingent charges, as also on account of grain compensation allowance.

The credit balance on 31st March 1900 was Rs. 64,639-2-0, being Rs. 2,100-15-6 in excess of the preceding year.

We may record the observation that the accounts have been very carefully kept, which reflects credit on the Secretary and the clerk entrusted with the duty.

A. THOMSON,

DINANATH HARISCHANDRA,

Municipal Auditors.
